The last Report of the Commissioner of the General Land Office shows 2,397,560 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and previous. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is the second. We desire to win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSIBLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.

The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.

Three of the leading mines are well opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction, will be within a short distance of this property.

The Company proposes to sell a portion of its stock at $5.00 per share for the purpose of more completely developing its mines, and for the erection of works for the treatment of its ores.

Applications for the stock may be made to the office of the Company, 61 Broadway, New York.

N. B.—*The Mining Record,* of New York, the highest mining authority in this country, says Feb. 1st, 1879: The principal owners in this company are hard working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing in one of the largest banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary. mch29d&wtms

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all south are linoleum compounds of woody fibre; all unctuous, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe at Newark, N. J., I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

WALTHAM, Mass., Jan. 8, 1876.

DEAR SIR:—I purchased the RADICAL CURE of GEO. H. BUSWELL, Druggist, Rumford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Plasters have now been before the public for years, and, notwithstanding the immense number of medicines in the form of liniments, lotions, painkillers and ordinary plasters, they have steadily increased in sale and met with universal approval, as evinced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is the mere trifle of a single trial. The price is 25 cents, although it is at a double cost of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any inferior article may can be bought, numbers of unprincipled dealers will be found ready to misrepresent them for their *profit*, and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

STATE OF NEW HAMPSHIRE,

OFFICE OF THE

STATE TREASURER.

CONCORD, May 10, 1879.

IN accordance with the provisions of an act of the Legislature, approved August 9th, 1878, the undersigned will receive sealed proposals, until 12 o'clock, noon, June 17th, prox., for three hundred thousand dollars ($300,000.00) New Hampshire five per cent. bonds, as follows:

$100,000 maturing July 1, 1889.
$100,000 " " 1, 1890.
$100,000 " " 1, 1891.

The above bonds form a part of a loan of $500,000, authorized for the purpose of refunding a portion of the State debt.

The bonds will be issued in pieces of $1000; dated July 1, 1879; interest payable semi-annually [Jan. and July] at the National Bank of the Commonwealth, of Boston. Bids will be received for the whole or any part of the above bonds; the State reserving the right to reject any or all bids.

The bonds will be ready for delivery, and payment must be made before 30th.

Bids should be securely sealed and addressed to

SOLON A. CARTER,
State Treasury, Concord, N. H.

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

Julius Caesar's Personal Character.

According to James Anthony Froude, Caesar was a social, as well as a political reformer. His own habits were a model of frugality. He forbade the idle young Roman patricians to be carried about by slaves in litters. The markets of the world had been ransacked to provide them dainties. He appointed inspectors of the markets, and occasionally prohibited dishes were carried away from the dinner table under the eyes of the disappointed guests. His own domestic economy was strict and simple, the accounts being kept to a penny. He had two tables always, one for his civilian friends, another for his officers. The food was plain, but the best of its kind. He was still more severe against moral offences. He executed his favorite freedman for adultery; he pronounced void the marriage of a senator two days after his divorce. He encouraged physicians and men of science to settle in Rome. He required planters and farmers to employ a good portion of men laborers. He put an end to the tours of senators at the expense of provinces. The calendar of lunar months had been so neglected that the month of May was called August; he reformed it. He projected large engineering plans—the drainage of the Pontine marshes, a new channel for the Tiber, improved roads, a canal across the Isthmus of Cornith.

The tendency to bring great men down to a common level was ripe in Caesar's day, and the scandals related about him are accepted because told in classic Latin, though they were told by men who hated Caesar. "He was a man of the world, peculiarly attractive to women, and likely to have been attracted by them. On the other hand, the indiscriminate looseness attributed to him would have been peculiarly degrading to a man whose passions were so eminently under control." His first public act was a refusal to divorce his wife; he was passionately attached to his sister; lived with his mother. His own distaste for gluttony and hard drinking and the savage amusements of the day, probably made the society of cultivated ladies more agreeable, and those relations in so loose an age assumed occasionally more intimate form; but of debauchery and promiscuous licentiousness there is no evidence worthy of credit.

He was the truest friend, a shunner of quarrels, easily appeased. He was of quiet and gentlemanly manner, with natural courtesy and high breeding.

A Jolly Trick.

Some tricks in "Parlor Magic" printed in juvenile publications are very amusing, as well as very simple. "The Enchanted Pin," for instance. To perform this trick you take a common brass pin, such as a man sometimes uses to fasten his shirt collar when a rear button flies off. To satisfy your audience that the pin doesn't contain a false bottom, let them have it in their hands to inspect. This will convince them that there is no deception about it. Now bend the pin in two places—first, about one-third from the head, and second, the same distance from the point, so that the business end will project upward. Again show the pin to your audience in order to satisfy them that it is the same pin, only bent—bent on mischief. Now, place the pin on a hard-bottomed chair, and when a late visitor enters invite him to sit upon the chair. The effect will be magical. If the ceiling is not more than ten feet from the floor, the probabilities are that the man will arise so spontaneously that his head will make a dent in it. This innocent little trick never fails to amuse an audience, and if such amusements received more encouragement in the domestic circle, there would be fewer persons written, asking "Where is my boy to-night?"—*Norristown Herald.*

One Week in Wall Street.

October 7th, 1878, Western Union Telegraph stock sold at the New York Stock Exchange for 96.1-8 per share; Oct. 14th, 1878, it sold at 86.3-4, a fluctuation of 9.3-8 per cent. in seven days; 12,500 shares sold on a margin of one per cent. required an actual capital of $12,000. The same stock delivered at 86.3-4 gave a profit of 9.3-8 per cent. on the stock or $937.50 per 100 shares. On the whole 12,500 the actual profit was $117,187.50 or 9.3-8 times the capital used, in one week. This is a single case taken from the official record of the Stock Exchange, and shows how money is made so rapidly in stocks. Few people, however, have the necessary cash to put up in order to realize such immense profits as these, but capital in any amount from $10 to $50,000 can be used with equal success by the new combination system of operating in stocks which Messrs. Lawrence & Co., Bankers, New York, have established. By this method of pooling thousands of orders in various sums and operating them as one immense capital, shareholders realize large profits which are divided *pro rata* monthly. New circular contains two unerring rules for success, and full information, so that any one can operate profitably. Stocks and Bonds wanted. Government Bonds supplied. Apply to Lawrence & Co., Bankers, Exchange Place, N. Y. City.

—The play was at its height in the card-room of a well-known club, and from a distant corner was heard, "We are *two to two!*" "By Jove, we are *two to two too!*" responded a player at an adjoining table. No wonder that a German there present likened our language to a French horn.—*Judy.*

—Grandma—"Yes, children, when I was as young as you are I used to walk in my sleep." Tommy, (eagerly)—"Say, grandma, what time did you make?"

Portsmouth Chronicle

THURSDAY, JUNE 19, 1879.

Chronicle Correspondence.

WASHINGTON, D. C., June 16th.

Our dream of an early adjournment seems to be fading. The republicans say that they have discovered many objectionable features in the appropriation bills since they came from the House, and will stoutly oppose them in the Senate, and that the President will at least veto the judicial expenses and the army bills, on the ground that they are intended to abridge or restrict the executive authority of the government. It is generally thought that Mr. Blaine announced the President's platform when he said that after vetoing the same matter in other bills intended to establish a permanent policy, the President would be stultifying himself by approving a bill to rob him temporarily of the authority to enforce the laws. If this is the case, then the democrats appear to have their opportunity to enforce the programme announced at the beginning, that is, to adjourn and leave the responsibility with the President. The friends of the administration assert that the President will at once call another session if the democrats carry out this plan. In the mass of contradictory reports it is difficult to find a solution of the snarl, but it looks now but very little nearer the end than a month ago. One democratic report has it that the republican opposition in the Senate does not have a deep meaning. Indeed, some of the House republicans who voted for the army bill are unkind enough to insinuate that Mr. Conkling is striving to create another breach between the party and Hayes. Knowing full well that Mr. Hayes will approve the army bill, Mr. Conkling wishes to make the republicans oppose it. How far this feeling extends I am not in a position to state, but the democrats are counting much upon it, and it is but fair to say that the republicans are ill at ease over it.

There is trouble in the independent greenback camp. For a long time the radical "softs" have felt impatient at the manner in which their outposts have one by one been occupied by the democrats. Now things have got to the serious pass where the democratic party seems likely to "gobble" the greenback party entire in such States as Maine and Ohio, and the men who stand out for a "new party" are incensed at it. The *National View*, the greenback organ here, came out in an assault on the Ohio management, denouncing its talk about "troops at the polls," "a free ballot," "no supervisors," etc., as "that sort of froth" which is calculated to conceal the true issue of "financial reform." At the same time the original greenback organ in Maine comes out with a strong denunciation of the whole party management in that State, and accusing the leaders of having sold out to the democrats for the hope of success; and signs somewhat similar come from Ohio. In other words, the radical greenbackers appear to have determined upon an independent party action or none at all.

While these things seem to trouble the democratic party, the republicans are also troubled. Ohio is giving them enough to do, and every effort is necessary to offset the democratic campaign; but meanwhile the election in Maine comes on, and Ohio will feel its influence. The greenbackers and democrats are working in Maine as never before, and there are indications that Secretary Sherman and his friends are anxious. The republicans are experiencing some local trouble also in the matter of candidates, nobody who is wanted appearing willing to take the nomination for governor of Maine. Judge Peters peremptorily declines; Congressmen Reed and Frye prefer to stay in Congress, and others who are popular have "prior engagements." Mr. Hale wants the nomination, but on account of his defeat last fall in his congressional district, the policy of his nomination is doubted. The opposition are making merry over this condition of things, but the republicans still assert their ability to regain the State.

Gen. Grant's horses, the gift of the Sultan of Turkey, are one of Washington's attractions now. They are beautiful animals, both dapple gray, five and six years old respectively, bright, sprightly and kind. They are broken to saddle only. They were delivered in Philadelphia free of cost for importation. They are now at Brightwood park, and will be kept in this vicinity until Mr. Grant's return.

KNOX.

News and Notes.

The U. S. S. Wachusett arrived at Pensacola on the 17th inst. She will stay several days to enlist boys for the navy, and then go for a similar purpose as far up the Mississippi river as her draft will permit.

Theodore Washburn and his wife, Sarah Washburn, were arrested in Bridgeport, Conn., on the 14th inst., under the tramp law, and will go to State prison, the evidence being conclusive that they are confirmed tramps of the most worthless kind—in fact, very much worse than worthless. The precious pair have been on the road for seventeen years. They used to travel in a wagon with six or seven children, who as they grew up also followed tramping. Of late the parents have travelled alone and on foot, the children having arrived at an age when they felt qualified to start in business as tramps on their own hook.

John Moore, a white man, in jail at Spartanesburg, S. C., for ravishing and murdering a young white woman named Woodman on the 5th inst., was taken from the custody of the sheriff on the night of the 16th inst. by a large party of armed men, carried twelve miles to the place where Miss Woodman was murdered, and hanged. He protested his innocence to the last.

Samuel D. Haines, the notorious thief, and murderer of James P. Robbins, was captured at Islesboro', Me., on the 17th inst., and lodged in jail at Rockland, where the murder was committed. Haines acknowledges making the assault, but denies having intended to seriously injure Robbins. The anti-hanging law of Maine insures the safety of the assassin's precious life.

Many complaints are being made by the farmers of Andover, Me., on account of the ravages of the bears upon their sheep. They are becoming remarkably plenty, and very bold and dangerous to unarmed travellers. It is evident that the State bounty on bears will have to be restored next winter, or sheep-raising will have to be abandoned in that section.

On the afternoon of the 17th inst., at Memphis, Tenn., during the trial of John J. O'Brien for the alleged seduction of Miss Lizzie Voss, and while the defendant was testifying as to his innocence of the crime, Miss Voss arose from her seat near her counsel, and walking towards the defendant said: "You villian, you murdered my father, now you want to ruin my reputation." As she ceased speaking she drew a pistol from her pocket, but before she could fire it was caught by the deputy sheriff, who wrested it from her hands. Last March her father, Henry F. Voss, committed suicide on learning of his daughter's disgrace. The suit now pending is for $5000 damages, and was brought by the deceased.

Three vessels with yellow fever on board are now at quarantine at New York; two of them are from Hayti. The schooner Hattie M. Hawes, from Miragoane, has lost her mate and five seamen by the disease since leaving that place, and her captain has been twice prostrated from it. The vessels have been thoroughly fumigated.

Real estate in the upper part of New York took a great start after the establishment of the elevated railroads, although a good deal of the land is not for sale. Sales are mainly on speculation, yet the records show that building is more extensive than at any time for the last eight years, and of a better class of houses, besides.

President Hayes says decidedly to Delegate Cannon of Utah, that Reynolds, the Mormon, convicted of bigamy, must suffer the penalty. Cannon threatens to put arms in the hands of his people and fly to the mountains. Let them go.

Fourteen persons sat down to dinner at Robert McNeeley's table, in Atlantic City, and before the meal was over seven of them were violently ill. They had eaten bread from a loaf that contained arsenic enough to kill a hundred men, and only the great size of the doses prevented fatal results.

Notice has been given by the Pacific Mail steamship company to the Panama railroad that in consequence of the dissolution of its contract with the overland railroads the steamship company intend at once to put additional vessels on its lines. It is said to be the purpose of the company to increase the service on the California lines so as to make weekly instead of fortnightly trips.

The 250th anniversary of the city of Lynn was celebrated in appropriate style on Tuesday, the 17th inst. A grand procession, oration and banquet were the prominent features of the day. At the banquet, speeches were made by many prominent citizens.

Henry Lunday of Stratford, Conn., a man seventy years old, became despondent because a young lady whom he greatly admired refused to marry him, and killed himself with a dose of arsenic.

Ben Chase, a prominent citizen of West Randolph, Vt., has been indicted for perjury in making a false affidavit in regard to the amount of his taxable property.

In Pawtucket, R. I., on the 17th inst., Bridget McGough had her throat cut by her stepson, James McGough, and will probably die. The quarrel arose about the possession of a hen. The murderer is thirty-two years old, was formerly a soldier, and is addicted to intoxicating liquors.

There is a religious movement against tobacco in the Oneida Community, where the weed has been freely used. The reformers do not take any pledge, nor abstain whenever they desire to smoke or chew, but pray for God to remove the appetite for tobacco, and many declare that they have been thus entirely cured.

Mrs. Oliver Tomlinson, of Bridgeport, Conn., on the 8th inst. shot her husband just above the heart, and herself through the left breast. The parties are quite prominent in the town, Tomlinson being a man of considerable property. A suit for divorce was pending against Mrs. Tomlinson.

An earthquake near the town of Ati in Sicily, on the 17th inst., almost destroyed five villages. Ten persons were killed.

The President has nominated Capt. Edward Barrett to be a commodore in the navy, and Commander Oscar T. Stanton to be captain.

New Hampshire Items.

The travelling reporter of that staid newspaper the Boston *Advertiser*, speaks of "Ex-Governor Sinc'air" of New Hampshire in his description of Bethlehem. Evidently the mountain dew is too much for the writer accustomed to the meridian of Boston.

The legislative vote for United States senator was taken viva voce, and was as follows: House—Henry W. Blair, 161; Harry Bingham, 95; Samuel B. Page, six; Gilman Marston, one; Aaron F. Stevens, one; Luther McCutchins, one; Edmund Burke, one. In the Senate the vote stood twenty for H. W. Blair and four for Harry Bingham.

At the republican legislative caucus for nominating State officers, the following were selected: A. B. Thompson of Concord, secretary of State; Solon A. Carter of Keene, State treasurer; John B. Clarke of Manchester, State printer; Lafayette Colbath of Dover, commissary-general.

The dwelling house of Dr. George W. Cain, at Newport, was burned by an incendiary fire on the night of the 16th inst.; loss $1000.

New Hampshire bonds bearing five per cent interest and maturing in ten, eleven and twelve years, to the amount of $300,000, have been taken by Daniel A. Moran of New York, at a premium of 9.598 per cent.

A soldiers' monument was dedicated at New Ipswich on the 17th inst., with appropriate ceremonies. The monument is of New Hampshire granite. Portsmouth has a place for a soldiers' monument, but the monument itself has not yet sprouted.

What's in a Name?

The other day an Irishman, evidently not long a resident of this country, walked up to the ticket office in the union depot and said to Alderman States:

"Give me a ticket for Easthampton."

"Massachusetts or Connecticut?" asked the genial dispenser of pasteboards.

"Nathur; I want a ticket to Easthampton."

"I understand; but there are Easthamptons in both this State and Massachusetts," explained Mr. States.

"Bedad, an' is that so? Which one does it cost the most to go to?" asked the son of Erin's Isle.

"Massachusetts," answered Mr. States.

"Well, then, be the powers, I'll take the cheapest one?"

The traveller was accommodated with a ticket to Easthampton, Conn., and he got aboard the Air Line train apparently as happy as a clam at high water.—*New Haven Register.*

—The following is an old wedding ring motto, "As gold is pure, so love is sure."

—The church of the Dunkers, of which little is known in New England, actually supports ten papers of its own, each with a circulation of from five to twenty thousand.

—Sadowa, the beautiful horse ridden by the Emperor William at the battle of Koeniggratz, has just died. Old age made her feeble and she had to be killed to spare her further suffering. The animal has been stuffed.

—Herr Joachim, the great violinist, went into a hairdresser's in London to have his hair cut. "You really, sir, ought to allow me to take a little more off, if you do not wish to be taken for a fiddler," said the operator.

—Mrs. Brown had often heard Mrs. Johnson speak of Mr. Nostrum, the apothecary, as a man of fine physique, a man of powerful physique, etc. After that she would send nowhere else for her medicines, for, said she, "I want the best, if the is any best to the nasty stuff."

—There is a story that a wealthy Chicago merchant lately prevented the breaking of his will by calling his relatives about his death-bed and getting them to make affidavit before a notary that he was competent to make a will. After the funeral it was found that all the property was given to a lunatic asylum. Then the heirs tried to have the will set aside by showing that though sane at the last, in 1875 when the will was made he was raving mad. Thereupon the executor produced a will exactly like the first, except that it was signed and witnessed a few minutes before the affidavits as to the testator's sanity were taken.

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1878, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

AROUND HOME.

Hon. Joshua G. Hall of Dover is at home on a rest from his labors at Washington.

The Granite State base ball club of this city will play a game at the Plains this afternoon with the Newmarket club; game called at two o'clock.

The alarm of fire Wednesday morning about 3 o'clock was caused by the burning of a small out-building on Water street, belonging to Edward F. Marshall.

The new lighthouse at the Nubble, York, has been assigned to this collection district, which brings it under the superintendence of Collector Howard of this city.

The report current in this city on Tuesday of this week that the dead body of a man named Shaunon, a deserter from the Kearsarge, had been found in a well on the navy yard, was incorrect.

"Forbidden Fruit," a horse owned by E. S. Fay of this city, won in three straight heats the race for horses that had never beaten three minutes, at the first day's meeting of the New Hampshire trotting circuit, at Concord on the 17th inst.

The steamer Empire State made her first excursion from Boston to the Isles of Shoals on Wednesday of this week, leaving Boston at ten o'clock in the forenoon. Though the day was cool the boat was well patronized, an excursion to the Shoals being always popular.

The *Times* says that the house of Mr. Samuel Shapleigh, Jr., at Eliot, was entered on the night of the 14th inst., but the would-be robbers were frightened off before they could secure much plunder, by Mrs. Shapleigh, who was awakened by one of the fellows entering her room.

Arthur Johnson, held in jail at Exeter for non-payment of a fine imposed by the circuit court of the United States at the May term, was brought before United States Commissioner Hackett this week, and upon taking the oath of inability to pay was discharged from further confinement.

St. John's Lodge of Freemasons, of this city, will attend the Masonic celebration of St. John's day, June 24th, at Portland, and will be accompanied by a number of the members of St. Andrew's Lodge. The Cadet Band of Salem, Mass., M. Jean Missud leader, will accompany them. An extra train will leave this city for Portland at 7:15 A. M., and all who wish can avail themselves of the half rates. The band will give a concert on Market square, Monday evening.

Mr. George W. Buxton of Exeter, a superintendent in the Exeter manufacturing company, died at eight o'clock on the morning of the 18th inst. from hydrophobia induced by the bite of a cat received about year ago. Mr. Buxton was taken with symptoms of hydrophobia about a week before his death, and for three days previous to his death did not touch water. The night before he died he became unmanageable, and his attedants were obliged to tie him in bed. He was a Freemason, and a much respected citizen.

The anniversary of the battle of Bunker hill was observed in Charlestown, Mass., on the 17th inst., by a grand parade of the military and Odd Fellows, a rowing regatta on the Mystic river course, and the usual illuminations and musical exercises. Mt. Sinai Encampment, No. 19, twenty-five men, Capt. M. T. Betton, and Strawberry Bank Encampment, No. 5, forty-five men, Capt. John H. Locke, of this city, took part in the procession, and were accompanied by the Dover cornet band, twenty-one pieces, Ralph L. Reinewald leader. The Portsmouth visitors arrived at about ten o'clock, and were escorted to Odd Fellows' hall, where they partook of a lunch before the line was formed. After the procession was dismissed, the Odd Fellows to the number of 500 proceeded to Odd Fellows' hall, where regalias were laid aside, and after an hour of pleasant chat the party proceeded to the banquet hall, where a splendid dinner was served by Copeland. It had been intended to have formal speeches, but in view of the long march and the early journey of the visitors, these were dispensed with, and short complimentary addresses were made by the chief patriarchs of the various encampments. The rest of the afternoon was spent in many pleasant ways, each according to his taste. In the evening an entertainment in honor of the visitors was given in the upper hall, consisting of musical and literary selections, and character sketches. The visitors were much pleased with their reception and entertainment. On Wednesday the visiting Odd Fellows from this city went to Downer's Landing and spent the day, arriving home at about seven o'clock in the evening.

Prof. Geo. A. Wentworth, principal of Phillips academy at Exeter, starts for Europe in the steamship Bolivia from New York on Saturday, on a vacation tour.

NAVY YARD ITEMS.

The Kearsarge hauled into the stream on Wednesday morning, the 18th inst., and proceeded to her anchorage, where her powder will be put on board.

The second line of stone in the walk from the store-house to the office-building is being laid. The completion of the walk will require the removal of the unsightly temporary building put up during the civil war for the storage of machinery; this removal will add to the appearance of the yard, and afford a fine view from the front of the office-building looking toward Portsmouth.

The walks about the navy yard are being cleaned up, grass plats trimmed, gutters opened, and the surface generally put in good condition.

The steamer Emerald resumed her regular trips on Monday of this week, looking especially trim and tidy.

The steam launch of the Kearsarge is found to work admirably. In such a tide as that of the Piscataqua one of these little steamboats is an excellent institution, and a great saving of the strength of the seamen.

A CANNIBAL.

Thomas Dillon, of New Haven, Conn., a sailor on board the schooner Nellie F. Sawyer, of Portland, Me., Bunker master, which arrived at this port on the 18th inst., had a shocking-looking face when he arrived, a portion of his nose having been bitten off, as is said by the mate of the schooner, Thomas H. Roach of Taunton, Mass. Roach is the larger and stronger man of the two, and the brutal maltreatment of the sailor is said to have occurred during some trouble between them about the furling of a sail on the 16th inst., when the schooner was between Cape Cod and Cape Ann.

On the arrival of the vessel here complaint was made against Roach, who learning that the officers were after him attempted to escape in a boat owned by one Gilbert D. Amee, a pilot on the river who endeavored to aid the fugitive; but Col. J. Horace Kent, who is a United States deputy marshal, took the steamer James Sampson, chased and overhauled the boat, and took Roach into custody. The fellow was taken before United States Commissioner Hatch, and held in $1000 bonds to appear at three o'clock in the afternoon, at which time an examination was had, and Roach was held in $500 for trial; in default of sureties he was sent to jail.

Old Time Chronicles, No. 180.

BY UNCLE JOSEPH.

Nottingham was settled in 1727. One of the early settlers was Capt. Joseph Cilley. Hh was the progenitor of most of the Cilleys there, and some remain to this day. One of the family settled in Epsom, one in Deerfield and one in Thomaston, Me. A meeting house was built in 1738 on what was afterwards called the Square. It is said it was large and stood where a second one was built in 1804, and taken down a few years ago. In 1742, Rev. Stephen Emery was settled over a church organized the same day, Nov. 3d. He continued seven years to 1749, when for some cause he left without a regular dismission as was common by a council with Congregationalists. He was born in Exeter it is believed, as he entered college from that town, and graduated at Harvard in 1730. He died in Chatham, Mass., May 24th, 1782, aged seventy-four years. This is probably about all that can be gathered of Nottingham's first minister, whose pastorate closed there 129 years ago.

Nine years passed before another was settled. Probably the trouble with the Indians was the cause of the delay. There was a garrison on the Square, but in 1752 Mr. Beard, Mrs. Folsom and Mrs. Simpson were killed while out of the garrison to do some work at their houses and farms.

Rev. Benjamin Butler was settled in 1758. He was born in Windham, Conn., and graduated at Harvard College in 1752. He was twenty-nine years of age when settled in Nottingham. He preached twelve years and then retired from the ministry, but continued in town till his death in 1804, holding various civil offices. It is related of him that after retiring from the ministry he committed his manuscript sermons to the flames, saying they made more light then than ever before. Judge J. H. Butler of Nottingham is a distant relative. The late J. D. Butler, Esq., a lawyer in Portsmouth, was a son of Judge Butler.

Rev. Benjamin Butler preached in the old meeting house. The town then had about 1000 inhabitants. It would be gratifying could we know the precise character of church services back in those times. We would like a clear view of the people, many of them coming out of the woods, and on the way to church; some on foot, some on horseback, wives on pillions behind their husbands, and the larger part in plain, simple dress. Old customs, old times, and in some respects good old times.

Hard Work Essential to Success.

Downright hard work is essential to success in anything that is worth doing in the world. No native ability relieves a man from the necessity of earnest and persistent application to whatever he undertakes, if he would be efficient in his endeavors. This is as true for men of brilliant genius as for those of moderate capabilities. Indeed, it is commonly recognized by them more readily than by inferior minds. "The fact is," says Ruskin, "that a man of genius is always far more ready to work than other people, and gets so much more good from the work that he does, and is often so little conscious of the inherent divinity in himself that he is very apt to ascribe all his capacity to his work, and tell those who ask how he came to be what he is: 'If I am anything, which I much doubt, I made myself so merely by labor.'" So, if a man thinks he has genius in one direction or another, he will best prove it by working hard and persistently at anything he undertakes in that direction. His genius will prompt him to labor, not relieve him from labor. The *Sunday School Times* gives this advice to its aged and youthful readers.

—What is there so rare as sunlight in June, 1879.

—However poor a man may get—he may be without friends, ambition, hope, he may be ragged, repulsive, desperate, outcast—he is never too poor, at least in any city or town, to get drunk—disgracefully, beastially drunk.

Protect the System from Malaria.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloid, sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional indorsements which it has received have added to the reputation it has obtained at home and abroad.

A Time-honored Custom.

For the one hundred and tenth time the announcement is made that, in accordance with its vested rights secured by an inviolable charter, The Louisiana State Lottery Company will, as is its regular custom, proceed on the second Tuesday of next and every month to have, in the city of New Orleans, its regular monthly distribution, when $120,400 will be divided fairly among the purchasers of the tickets. The price, Two Dollars; halves, One Dollar each. For further information, address at once, M. A. Dauphin, P. O. Box 692, New Orleans, La.

The expenditure of brain power too early or too severely in children often results in physical debility; the use of Fellows' Hypophosphites exerts a singularly happy effect in such cases.

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

I have derived much benefit from using Fellows' Hypophosphites in chronic constipation.
JOHN B. MOORE, Forest City, Montana.

No preparation of Hypophosphites I have used can compare with Fellows' Compound Syrup of Hypophosphites for restoring strength to the nervous system.
I think it the best medicine I ever used.
W. J. HORNER, Buffalo, N. Y.

Many clergyman who were obliged to withdraw from the pulpit on account of "Clergymen's Sore Throat," have recovered by using Fellows' Syrup Hypophosphites and are preaching again. This preparation seems peculiarly and wonderfully adapted to diseases of the breathing organs.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.* eod&w79

TO OWNERS OF DOGS.

Extract from Chap. 16, Ordinances of the City of Portsmouth:

SECTION 1. No dog shall be permitted to go at large or loose in this city until the owner or keeper of such dog, or the head of the family, or the keeper of the house or place where such dog is kept or harbored, shall have procured from the city marshal a license for such dog.

SEC. 2. The city marshal shall grant a license to any citizen for his dog on the payment of one dollar for a male dog, and two dollars for a female dog, which license shall expire on the first day of July annually.

SEC. 4. The person named in each license so granted shall cause his name and the number of the license to be distinctly marked on a collar which shall be constantly kept about the neck of the dog so licensed, and no dog shall be considered as licensed unless this requisition shall be complied with.

SEC. 5. * * * any person may lawfully kill any dog found within the limits of this city going at large contrary to the provisions of the chapter.

SEC. 6. In case any dog shall be found loose or going at large contrary to any of the foregoing provisions, or in case any dog not licensed shall be provided with a collar marked as required in this ordinance, the owner or keeper thereof or the head of the family or keeper of the house or place where such dog is kept or harbored, shall upon conviction thereof be fined five dollars.

No. 1 Market Square.

A Mystery Explained.

Parlor scene: Mrs. Brown, who has spent the summer among the White Mountains in search of health, and who seems to have searched the whole mountain side without being able to find a pair of blooming cheeks or an inch of healthful skin: Mrs. White, who has remained at home because her husband could not afford to go, but whose fresh complexion and bright eyes seem to have caught their bloom and brightness from mountain breezes.

Mrs. B.—Dear me, Mrs. White, how well you are looking! If you will not think me impertinent, let me ask how you can keep so healthy in this dreadful city? I have been to the White Mountains, go there every summer, in fact, and I can't keep off the doctor's list at that.

Mrs. W. (smiling).—I'll tell you the whole secret, Mrs. Brown. You remember how poorly I was last spring, some days even being confined to my bed. Dr. —— told Mr. White to send me to the mountains, but I knew he couldn't afford it, and I tried Dr. Pierce's Favorite Prescription. Its effects were so marvellous that I also tried his Golden Medical Discovery, to cleanse my system. In my opinion, one bottle of the Prescription and the Discovery is better than six weeks of the White Mountains for a sick woman. I have only been out of the city a week during the whole summer; then my husband and I went to Buffalo and stopped at Dr. Pierce's Invalids' and Tourists' Hotel. The baths and mechanical apparatus for treating patients were alone worth going to see. Besides, our accommodations were better than we had at Long Branch last year, and the drives and scenery are superb. Let me advise you to use Dr. Pierce's Favorite Prescription, and try the Invalids' and Tourists' Hotel next summer instead of the White Mountains.

—Smoke has appeared about the summit of Mount Hood, Oregon, and the irreverent say that the old crater is a-fire.

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
The Gazette is published every Thursday and sent to Subscribers at the low price of
$1.50 per year, paid in advance, or
$2 at the end of the year.
It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news,** containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.
— THE —
NEW HAMPSHIRE GAZETTE
Contains more original matter
than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS,** at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

GOLDEN MEDICAL DISCOVERY
By its great and thorough blood-purifying properties, Dr. Pierce's Golden Medical Discovery cures all Humors, from the worst Scrofula to a common Blotch, Pimple, or Eruption. Mercurial disease, Mineral Poison, and their effects, Old Sores, Ulcers, and vigorous health and a sound constitution established. Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin, in short, all diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
Especially has it manifested its potency in curing Tetter, Rose Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, White Swellings, Spine or Table Neck, and Enlarged Glands.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache of dizziness, bad taste in mouth, bilious heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from Torpid Liver, or "Biliousness." In many cases of "Liver Complaint" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect and radical cures.
In the cure of Bronchitis, Severe Coughs, and the early stages of Consumption, it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and purifies the blood. Sold by druggists.
R. V. PIERCE, M. D., Proprr. World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
THE "LITTLE GIANT" CATHARTIC.
No use of taking the large, repulsive, nauseous pills, composed of cheap, crude, and bulky ingredients. These Pellets are scarcely larger than mustard seeds. Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad Taste in the Mouth, Bilious attacks, Pain in region of Kidneys, Internal Fevers, Blotched feeling about Stomach, Rush of Blood to Head, take Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of these Purgative Pellets over so great a variety of diseases, it may be said that their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress. Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thoroughly preserved uninjured for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with pills put up in cheap wooden or pasteboard boxes. For all diseases where a Laxative, Alterative, or Purgative, is indicated, these little Pellets will give the most perfect satisfaction. Sold by druggists.
R. V. PIERCE, M. D., Proprr. World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

CATARRH
SYMPTOMS.—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of the nasal passages, ringing in ears, deafness, hawking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.
DR. SAGE'S CATARRH REMEDY
produces radical cures of the worst cases of Catarrh, no matter of how long standing. The liquid remedy may be snuffed, or better applied by the use of Dr. PATERSON'S Douche. This is the only form of instrument yet invented with which fluid medicine can be carried to all parts of the nasal passages, and the absorbent surfaces where a Catarrh Remedy must act to be PERFECTLY APPLIED TO ALL parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. Its use is pleasant and easily understood, from directions accompanying each instrument. Dr. SAGE'S Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. Catarrh Remedy and Douche sold by druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants now outstanding, issued for service under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSIBLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.
The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.
Three of the leading mines are well opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.
The Company proposes to sell a portion of its stock at $1.50 per share for the purpose of more completely developing its mines, and for the erection of works for the treatment of its ores.
Applications for the stock may be made to the office of the Company, 61 Broadway, New York.
N. B.—*The Mining Record,* of New York, the highest mining authority in this country, says Feb. 1st, 1879: The principal owners in this company are hard working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with those worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing in one of the largest banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary. mch22d&w3mos

SANFORD'S RADICAL CURE

For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and root is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all true cures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered it acts upon the organs of circulation, keeps the skin moist, and neutralizes the poison taken into the system by way into the stomach and thence into the blood. Thus it cures diseases in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen:—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a minor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was a sufferer from the dreadful disease, and it does not seem possible for human ingenuity to devise a more sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,

GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

I have purchased the HERBAL CURE OF GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas, WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Doctors have now been before the public for years, and notwithstanding the immense number of pretended substitutes for corn plaster, lotions, pads, and ordinary plasters, they have steadily increased in sales and each with universal approval, as evinced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements in many ways have been made, as suggested by experience, and we now offer the article, unlike many others, in every respect, and *the best plaster to the world of medicine.* All we ask for this plaster is a single trial. The price is 25 cents, although it is double the cost of any other plaster. Sold, notwithstanding the efforts of the proprietors to make the plaster in the world for the least money, any quantity can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them and substitute and endeavor to substitute, others. Don't allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

STATE OF NEW HAMPSHIRE,

OFFICE OF THE

STATE TREASURER.

CONCORD, May 10, 1879.

IN accordance with the provisions of an act of the Legislature, approved August 9th, 1878, the undersigned will receive sealed proposals, until 12 o'clock, noon, of the 24th inst., for three hundred thousand dollars ($300,000.00) New Hampshire five per cent. bonds, as follows:—

$100,000 maturing July 1, 1889.
$100,000 " " 1, 1890.
$100,000 " " 1, 1891.

The above bonds form a part of a loan of $500,000, authorized for the purpose of refunding a portion of the State debt.

The bonds will be issued in pieces of $1000; dated July 1, 1879; interest payable semi-annually (Jan. and July) at the National Bank of the Commonwealth, of Boston. Bids will be received for the whole or any part of the above bonds; the State reserving the right to reject any or all bids.

The bonds will be ready for delivery, and payment must be made June 30th.

Bids should be securely sealed and addressed to

SOLON A. CARTER,
State Treasurer, Concord, N. H.

[Plainly marked] Proposal for State Loan, Issue of 1879.

Bonds registered if desired.

SOLON A. CARTER,
State Treasurer.

THE MALLORY

Patent Air Closet!

Superior to either Water or Earth Closets for General Use, and for the Sick Room, are indispensable.

They can be set up in any Room, Hall, way or Closet, or at the Bedside of the Sick, and are warranted to be Perfectly Odorless.

Being thoroughly ventilated from the front, and connecting with the chimney, the disagreeable odors and poisonous gases are carried off into the chimney, instead of escaping into the room.

—FOR SALE BY—

JOHN P. SWEETSER,

146 Market Street,

PORTSMOUTH

Daily Chronicle.

Romantic but Foolish.

Mr. Miller became interested in Halleck, a convict in the Ohio State prison, and by earnest efforts obtained his pardon. That was three months ago. Halleck found a temporary home in the Miller family, and his reformation seemed complete. He has now eloped with Miller's wife, and Miller says that he was never so astonished in his life.

Mr. Delaise of New Orleans was equally surprised by the elopement of his daughter, Eugenie. He forbade her to marry young Bascot, and lest she should disobey, started to take her to Chicago, where he intended to leave her in charge of a vigilant aunt. He saw the girl bid Bascot farewell on the levee, and put her aboard the steamer, carefully locking her in a stateroom. When he was ready to go to bed he looked in to see if she was not in much distress, but she was not there at all, having escaped through the window, rejoined her lover, and got married.

The sight of a real gypsy, with black hair and yellow skin, affected Jennie Reed sentimentally, and the young man, who had strolled into Cazenovia, N. Y., with his band of horse traders and fortune tellers, lost no time in wooing her. Her father tried to stop the nonsense, but she was bound to elope, and did.

A young Indian was similarly successful with a white girl at Avalanche, Minn. She invested him with all the romantic qualities of the noble red man of the books, and eloped with him to his wigwam.

Benton's Vanity.

Benton, the statesman, possessed an inordinate vanity, which showed itself as simply as a child's. We remember hearing him a year or two before his death address a large assemblage of young men. He closed by an urgent appeal to avoid the use of all stimulants, and to study closely the history of current events.

"I have but one argument to submit to you in favor of this course, but that is sufficient," he said. "I have studied the progress of events from day to day since I was a boy. I have never used tobacco, nor spirituous liquors. In consequence," stepping himself to his full height, "you see before you—*Thomas Hart Benton!*"

If vanity, even when justified by great abilities and well-earned fame, makes a man a ludicrous object, boys and girls may judge how offensive it is in them when there is neither ability nor success to excuse it.—*Ex.*

A War Romance.

The Ashland (O.) *Times* says:—There died in Knoxville, Tenn., on the 26th of last month, General James P. Brownlow, in the thirty-seventh year of his age. Many of our readers will recollect a beautiful young girl—Miss Bella Cliff—a student of Vermillion institute during the earlier years of the war, and a frequent guest of her relative, Mr. Edward Smith, of this place. Returning to her home in Franklin, Tenn., then the scene of conflict between the federal and confederate forces, there was brought into her father's house after the battle of Winstead hill her future husband, General James P. Brownlow, the son of the famous Parson Brownlow, and colonel of the First Tennessee Cavalry. During his convalescence a friendship sprang up between the two which rapidly ripened into an affection, which culminated into marriage. The fair bride was at that time one of the most beautiful women of that region, the idol of her father's heart and the belle of the town. A few fleeting years they lived together, and she died. Young as her husband was, he became tired of a world where she was absent. He went home to Knoxville, and there died of a broken heart.

A Mystery Explained.

Parlor scene: Mrs. Brown, who has spent the summer among the White Mountains in search of health, and who seems to have searched the whole mountain side without being able to find a pair of blooming cheeks or an inch of healthful skin: Mrs. White, who has remained at home because her husband could not afford to go, but whose fresh complexion and bright eyes seem to have caught their bloom and brightness from mountain breezes.

Mrs. B.—Dear me, Mrs. White, how well you are looking! If you will not think me impertinent, let me ask how you can keep so healthy in this dreadful city? I have been to the White Mountains, go there every summer, in fact, and I can't keep off the doctor's list at that.

Mrs. W. (smiling).—I'll tell you the whole secret, Mrs. Brown. You remember how poorly I was last spring, some days even being confined to my bed. Dr. —— told Mr. White to send me to the mountains, but I knew he couldn't afford it, and I tried Dr. Pierce's Favorite Prescription. Its effects were so marvelous that I also tried his Golden Medical Discovery, to cleanse my system. In my opinion, one bottle of the Prescription and the Discovery is better than six weeks of the White Mountains for a sick woman. I have only been out of the city a week during the whole summer; then my husband and I went to Buffalo and stopped at Dr. Pierce's Invalids' and Tourists' Hotel. The baths and mechanical appliances for treating patients were alone worth going to see. Besides, our accommodations were better than we had at Long Branch last year, and the drives and scenery are superb. Let me advise you to use Dr. Pierce's Favorite Prescription, and try the Invalids' and Tourists' Hotel next summer instead of the White Mountains.

"A country blacksmith out west put up a notice: "No horses shodden Sunday except sickness and death."

Portsmouth Chronicle

FRIDAY, JUNE 20, 1879.

American Commerce.

Hon. James G. Blaine has addressd a letter to a committee of New York merchants, who had invited him to deliver an address on the decay of American commerce and the means of promoting its revival. He is strongly in favor of the retention of the navigation laws prohibiting the American register to foreign-built ships, urging that it is false policy to give increased patronage to the British builder and mechanic in an industry where ninety-nine per cent of the cost is in mechanical labor and only one per cent in material, and asking if we should obtain our war ships in the same manner, relying upon the magnanimity of Great Britain in case of a difficulty with that country, to furnish and repair vessels for both sides. It is his opinion that with the abolition of the general industry of iron ship-building in this country, the skill and faculty would depart with it, and that it would cost more in the extra expense of building and repairing in navy yards than to pay the rate of subsidy which England does to her foreign steamship lines. Admitting the greater cost to the amount of about ten per cent, owing to the higher rates of labor in building iron ships in this country, he would make the thing equal by a system of bounties by a standard law, giving every American steamship built in American yards, by American mechanics, a mail allowance on the ratio of twenty-five dollars per mile per annum for a vessel of three thousand tons, making monthly trips from any American to any foreign port. He is confident that this would give us a fair share of the world's carrying trade, and would be for the best advantage of our mechanical as well as of our commercial interests. Mr. Blaine enforces his views with his usual logic and acumen, and in the very important subject which he dicusses, every view should be taken and carefully considered.

Buzzell's Prospects.

The decision of the supreme court on the motion to grant a new trial to Buzzell, now under sentence of death for being an accessory before the fact to the murder of Miss Susan Hanson of Brookfield in November, 1874, was announced on the afternoon of Wednesday, the 18th inst. Three opinions have been given by the supreme court in this case; the first was delivered in March, 1878, and in June following Buzzell was tried and convicted of being accessory to the murder, having previously escaped conviction on a charge of murder. The opinions announced on Wednesday were by Judge Bingham and Chief Justice Doe, and were adverse to the prisoner, Judge Doe's opinion closing as follows:

Ordinarily a question of fact, like that raised in this case, would be decided at the trial term, would not be reserved, and, if reserved, would not be investigated at the law term; but, with the consent of parties, and on account of the nature and peculiar circumstances of the case, we have waived the general rule and heard all the evidence offered by the petitioner, and upon a careful consideration of the case as it now stands, upon all the evidence, old and new, we are of the opinion that justice has been done, and that a new trial would not be equitable. The petition for a new trial is denied.

Buzzell's only hope of escape from the gallows is now a commutation of his sentence by Gov. Head, failing which he will be hung on the 10th of July.

Terrible Adventure.

One night recently Mr. E. Albee Skeels, a well known citizen of St. Albans, Vt., retired at his usual hour, his family being absent on a visit. Shortly after, he heard the noise of a vigorous snore under his bed, which sound no sooner reached his ears than he leaped from his bed and ran to the house of a neighbor, Mr. McGiff, a telegrapher, who has a line running from his house to the depot; Mr. McGiff at once telegraphed to the depot for assistance, he and Mr. Skeels keeping watch in order that the intruder might not escape. A couple of officers arrived and the quartette proceeded to Mr. Skeels' house. Reaching the bed-room the officers pulled out the bed, and, behold, there lay the prostrate form of the hired girl, sleeping the sleep of youth. It seems that prior to Mr. Skeels' arrival she had become frightened and sought safety under the bed. Mr. Skeels left town for a short visit the next day.

Lippincott's.

The July number of *Lippincot's Magazine*, which opens the twenty-fourth volume, is of a thoroughly popular character, and the variety and beauty of the illustrations, as well as the excellence and vivacity of the reading matter, show the steady advance which has marked the course of this periodical, and afford the best proof of the determination of its conductors not to be outdone by their rivals. The opening article, by Dr. Felix L. Oswald, is the first of a series entitled "Summerland Sketches; or, Rambles in the Backwoods of Mexico and Central America," which promises to lead the reader into regions on this continent not described by any former traveller.

The second article has for its subject "Stratford-on-the-Sound," a village of Connecticut.

For many readers the chief attraction of this number will lie in an article on Jefferson and Rip Van Winkle,—"At and After the Play." It is written by an intimate friend of the great actor, Mr. L. Clark Davis, who has gathered from his own lips the chief material for this biography, and who gives us an analysis of his art, a loving portraiture of his character, and glimpses of his domestic life. The illustrations, besides exhibiting Rip in each act of the play, include a portrait of Jefferson seated in his studio, and views of his beautiful country-seat among the hills of the Passaic.

The name of Thomas Hughes, author of "Tom Brown's School-Days," must always command attention, and the article by him in this number of *Lippincott's* will have an interest for American readers, being an able defence of Franklin against the animadversions and prejudices still current in England. "A Swiss Patrician," by Arthur Venner, is the title of a very entertaining paper on Bonstetten, in his youth the friend of Voltaire, in his old age of Madame de Stael. Not less readable and vivid is the fifth chapter of Miss Porter's description of life in a southern village; while the three chapters of Miss Olney's serial, "Through Winding Ways," lead up to a dramatic climax, which indicates that the end of the novel will be full of incident and striking situations.

"Women's Husbands" is also continued, with no falling off in piquancy and interest. Susan M. Day has a pathetic short story called "Telescopic Discoveries," and the "Monthly Gossip" is full of sparkling matter, including a description of "Society in Paris during the last Season," which is from the pen of a fair *contesse* holding a high position in exclusive circles.

News and Notes.

A new swindle is being worked in parts of Addison county, Vt. Last fall travelling salesmen disposed of a lot of top buggies to farmers and others at $60 apiece, and now a second gang are around claiming that they hold chattel mortgages of $50 on each vehicle. Some of the purchasers have given up their carriages, while others will contest the matter.

Not long since a curious elopement case occurred in Bath, Me. The wife, a woman of twenty-four or thereabouts, fell in love with a "handsomer man." The husband took the matter coolly. Said he, "Wife, we've saved up this winter $100; stay, and we'll spend it together; go, and here's $10." She took the ten dollars and went.

A young and poor girl was arrested on the 14th inst. in Portland for stealing $61 that she found on a table of a physician's office where she called. The money was recovered, and the physician refused to prosecute her.

A. J. Gilpatrick of Clifton, Me., recently killed a bear that weighed 300 pounds. He caught the animal in a trap, then killed him with a shot from his rifle. This makes twenty-four bears that he has killed in twenty years in Clifton.

E. G. White, a wealthy Alabama planter, committed suicide at Evansville, Ind., on the 18th inst., on account of his young wife eloping.

At Atlanta, Ga., the jury in the case of Hill, for killing Simmons for misleading his wife, rendered a verdict of murder, and recommended imprisonment for life.

A State convention of saloon keepers, brewers and liquor dealers is called to meet at Des Moines, Iowa, on the 30th of July. The convention is called for the purpose of action "in consequence of the constant aggressiveness of temperance fanatics on our business, and upon our rights as business men and citizens."

John Hanson, of Bridgeport, Conn., a few days ago attempted to kill himself on account of a disappointment in love, the object of his affections being Ella Bassett, a sister of Frank Bassett, the murderer of "Stuttering Jack."

Emma Sands, the young girl whose disappearance from Westford, Vt., on the 8th inst., created so much excitement, and who was traced to Burlington, where she disguised herself in boy's clothing, was discovered at Port Henry, New York, on the morning of the 19th inst.; she is insane.

George Allen, the tramp thief who requited the kindness shown him at the House of Mercy in Pittsfield, Mass., where he had been taken in when starving and with his feet frost-bitten, by stealing all the money he could lay hands on belonging to the matron and the other patients, was arrested in Hartford, Conn., and the Pittsfield court has sent him to jail in default of $500 bonds for his appearance at a higher tribunal.

Naval Matters.

The U. S. S. Despatch sailed from Madeira for Norfolk, Va., May 28th.

The U. S. S. Vandalia has sailed from Norfolk, Va., for Aspinwall.

New Hampshire Items.

The Manchester *Mirror* says: "As Frank Wiggin, a lad of fifteen years, while watching a woodchuck with a loaded gun during the afternoon of the 13th, was resting with both arms on the muzzle of the gun, it was accidentally discharged by his foot coming in contact with the trigger. The contents of the gun went through one of his hands and the other arm, making severe wounds that will take a number of months to heal." The Pittsfield people should not allow woodchucks with loaded guns to be at large, if they desire to avoid such accidents.

John M. Harding of Bartlett was arrested on the evening of the 18th inst., charged with the murder of B. F. Elliott, the sewing-machine agent who disappeared mysteriously a number of days previously.

A salmon of ten pounds weight was caught lately in the hatching house net at Livermore Falls. This is the first one of the season, and is nine or ten days earlier than last year.

The remains of Mrs. W. J. Williams, of Irving, Kansas, were brought to Derry in this State for intermest. She was killed by the falling of the walls of her house at Irving during the recent cyclone in Kansas. Her babe was in her arms at the time, and was found just under her arm without a scratch, although buried three feet beneath the ruins of a stone house.

A despatch form North Conway, dated the 18th inst., says: "There was a heavy fall of snow yesterday on the summit of Mount Washington, and this morning the entire White Mountain range, from Mount Pleasant to Mount Madison, is as white as in mid-winter. The mercury was forty-eight in this village this morning."

An attempt was made on the afternoon of the 18th inst. to wreck a train on the Boston, Concord & Montreal railroad. As the passenger train going north was about midway between Northfield and Tilton sleepers were discovered lying across the track. The train was stopped easily, as it was up grade, and no less than fifteen sleepers were thrown to one side. The president and superintendent of the road were on board the train, as was also Col. Thomas P. Cheney, superintendent of the mail service for New England. It is supposed that the attempt was intended for the way freight south, which is due at Northfield a little before the passenger train, and awaits the arrival of that train there. It would have been impossible to have prevented the wrecking of the freight train had it not fortunately been detained at Tilton, as the grade at that point is down and winds around a curve. Several attempts have been made to wreck trains at this point before.

Messrs. Booth and Smith, the gospel temperance workers, are conducting a campaign in Pittsfield; over two hundred persons signed the pledge at the first meeting.

Mrs. John Mills of Concord died at Northfield on the 16th inst. of hydrophobia, at the age of eighty years. She was bitten in the hand by a dog about a year ago.

—No better illustration of the power of the press is afforded than the general acceptance of Jersey cider as champagne.—*Boston Globe.*

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1875, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

AROUND HOME.

Col. William H. Hackett started from this city Thursday forenoon for New York, to take passage for Europe in steamship Bolivia, leaving New York on the 28th inst.

The Granite State base ball club of this city played a game at the Plains, Thursday afternoon, with the Our Boys of Newmarket, the Granite States winning by a score of thirty-eight to twelve.

The *Weekly* says that Mr. Rufus K. Oxford, who has been in the grocery business in this city for nearly forty years, will close his store on the 1st of July on account of ill health and join his son, H. W. Oxford, in the same business.

A limited number of tickets to Portland and return on St. John's day, June 25th, have been placed at the stores of Butler & Laighton, J. Dwight Rundlett, and Mercer Goodrich; $1.65 for the round trip. The tickets can be procured by citizens generally at that price.

The Concord *Statesman*, in its report of the proceedings of the New Hampshire medical society at its late meeting, says that "Dr. Hall, of Dover, reported at length from the Maine State society." Dr. Hall is a citizen of Portsmouth, and there is no doctor of that name in Dover.

Capt. Raymond, of schooner Elizabeth M. Smith, of this port, which vessel was dismasted in a squall off Cape Ann on the night of the 6th inst., has been presented with $200 by the Boston Marine Ins. Co., in recognition of his successful efforts to save the cargo of his vessel, which was insured in that company.

Hon. Frank Jones has purchased the Fletcher cottage and grounds at Newcastle, adjoining the Hotel Wentworth. A reservoir to supply the hotel with drinking water is being prepared on the land near the house; the large reservoir near the spring at the river side will be drawn from to supply water for the closets, etc.

Mr. Henry Knox has completed and furnished his new hotel, situated on the bluff between Wallis' sands and Foss' beach at Rye. From the house there is an excellent view of the Isles of Shoals; immediately in its front the breakers dash against a ledge of rocks, and on either side are smooth beeches for bathers. The rooms are large, the halls spacious, and the situation of the hotel one of the best on the coast. The house is well built in every respect. Most of the furniture was made in Fisherville, the painting of the sets being done at the house.

Messrs. C. L. Grant & Co., proprietors of the York and Cape Neddick mail-coach line, have just added to their rolling stock a new nine-passenger coach, built by the Concord Coach Co. It is painted straw-color, with trimmings of black and red; and on the doors are views of the Marshall house at York harbor, and Bald Head cliff with Cape Porpoise in the distance. The company's stock of horses has been increased by the addition of four, with new harnesses to go with the coach. Mr. C. L. Grant will handle the reins over the new team.

The commencement exercises at Miss Morgan's young ladies' school, Thursday afternoon, attracted a hall-full of the best people in the city. The programme was as follows: Duet, "Le Tourbillon," Misses Burleigh and Rich; German poem, "A plea for little people," Miss Wadleigh; song, "L'Amor Felice," Miss Loring; solo, "Last idea of Weber," Miss Wadleigh; themes, Misses Hackett, Gerrish, Wadleigh and Eastman; duet, "Massaniello," Misses Foster and Burleigh; scene from Joan of Arc; duet, "En Route," Misses Spring and Merrill; themes, Misses Williamson, Sise, Storer and Tucker; duet, "Galop Bacchique," Misses Strickland and Dana; German dialogue, four persons; song, "Fly forth, oh! gentle dove," Miss Loring; "Une Representation a St. Cyr;" "Theme Allemande," Miss Spring. The reception in the evening was a brilliant affair.

Mr. Hezekiah Thompson, of Barrington, was thrown from his market team in Dover on Tuesday afternoon of this week through his horse becoming frightened and running away, and was badly hurt, he falling under the wagon as it was overturned, and one of the wagon stakes being driven into his cheek.

At the annual meeting of the board of Phillips academy at Exeter, Nicholas E. Soule was chosen a member of the board in place of Dr. H. Gorham, who resigned on the first of April.

Parties in this city are in correspondence with the State fish commissioners relative to the stocking of the Piscataqua and its tributaries with salmon and shad, both which formerly abounded in these waters.

Farmers in want of Paris green to destroy the potato bug, the great American jargoozler, or any other objectionable bug or worm, can procure it in any quantity and warranted pure, at Fred P. Wilson's paint and hardware store on Congress street.

The Eastern Railroad management have decided to run no picnic or excursion trains on Sundays this summer. This action is taken out of deference to the wishes of the patrons of the road who have residences along the line.

The witnesses in the case United States vs. Thomas H. Roach, for maiming Thomas Dillon by biting off his nose, were each held in $100 for their appearance at the October term of the circuit court. All except the captain of the vessel to which the two men belonged, were lodged in jail.

Exit the canker-worms. These pests have done but little harm in this vicinity this year, compared with their ravages of last season and the one previous. They commenced at the proper date, but the high winds just after they got to work, and the rains and continued cold weather since, may have interfered with their operations.

George A. Holbrook, a son of John R. Holbrook of this city, now studying for the ministry at the Episcopal theological school at Cambridge, Mass., has been selected as the student from that institution to compete at Philadelphia for the annual prize of $300 presented to the best reader, each Episcopal school throughout the country being allowed to send one contestant. The meeting takes place on the 25th inst.

Farmers in York county who became "agents" for a "patent mowing-machine grinder," may be interested to know that Messrs. Hunter, Son & Co., of Boston, and their two Boston agents, were called for trial at Northampton, Mass., on Wednesday of this week, on a charge of swindling a farmer of Williamsburg, Mass., by the "Eureka mowing-machine grinder" dodge. All were present except one agent, an important witness, who was alleged by defendants' counsel to be sick in St. John, N. B., on which account a continuance of the case until next December was asked for. The court ordered the Hunters to procure a physician's certificate of the sickness of their witness within twenty-four hours.

Last autumn two men arrived in Stratham from New York, and obtained permission from Mr. Ramsdell to dig for a pot of gold which a clairvoyant had disclosed to them was hidden in his pasture, just back of Mr. Benj. Moulton's place on the main road to Exeter. They did some digging, but the cold weather set in before the pot of gold was unearthed, and they left for the winter. They returned this spring, accompanied by two women, built a fence around the lot within the boundaries of which the clairvoyant says a large pot of money is buried, and have recommenced their excavation. There is an old tradition current in Stratham about somebody or bodies at some time having buried some sum of money somewhere in that neighborhood, but who or what they were, how much they secreted or just where they hid it, is not very clear in the tradition. We do not believe that any of the sensible farmers of Stratham were ever guilty of thus disposing of their cash; and we expect that the treasure-seekers will in the end have to cut their excavation up and sell it for post-holes, to pay their expenses.

CITY COUNCILS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

A communication from the trustees of Langdon park was received, requesting the appointment of James R. Yeaton as special police without pay at the park, and the appointment was made.

A communication was received from Wilbur I. Trafton, relative to putting up a telephonic fire alarm for the use of the city. Referred to the committee on fire department, to report.

Voted that the matter of numbering and locating the new steam fire engine be referred to the committee on fire department and board of engineers, with power.

Voted that the question of bonds required from the collector and treasurer be referred to the committee on finance, to report at the next meeting.

Adjourned.

NAVY YARD ITEMS.

Civil Engineer M. T. Endicott is detached from the naval station at New London, and ordered to this navy yard. Civil Engineer B. F. Chandler is detached from this yard, and goes to New London. Mr. Chandler is now absent on sick leave, and his orders to report at New London do not take effect until July 1st.

Twelve men were "required" in the department of construction and repair at the navy yard on Wednesday of this week.

Mr. Daniel Philbrook, a watchman on the navy yard, had his hand badly crushed between the U. S. S. Plymouth and a steam launch, one day last week.

INTERESTING STATISTICS.

The valuation of property and apportionment of State tax in the various counties, as made by the State board of equalization, are as follows:

	Valuation.	Apportionment.
Rockingham	$28,771,269	$139.04
Strafford	22,404,608	108.26
Belknap	9,607,196	41.58
Carroll	7,058,961	34.10
Merrimack	31,738,642	134.34
Hillsborough	51,350,017	249.06
Cheshire	21,240,939	102.62
Sullivan	10,407,670	50.28
Grafton	18,667,670	90.20
Coos	6,527,636	31.52
Total	$200,959,017	$1,000.00

The total valuation in 1876 was $198,660,353, showing an increase this year of $8,298,664, most of which increase is due to the new tax law which has brought to light large amounts of hitherto untaxed monies and securities.

The following table showing the valuation by counties, and the proportionate amount of each thousand dollars of the State tax which each county had to pay, is from the report of the State valuation and apportionment board of 1876:

	Valuation.	Apportionment.
Rockingham	$30,118,570	$151.50
Strafford	19,896,482	100.14
Belknap	9,107,596	45.84
Carroll	7,537,069	36.98
Merrimack	29,685,135	149.42
Hillsborough	47,996,630	241.29
Cheshire	18,541,295	93.21
Sullivan	11,154,739	56.15
Grafton	18,022,089	90.74
Coos	6,880,169	34.62
Total	$198,660,353	$1,000.00

From the foregoing it appears that Rockingham county's valuation has been decreased $1,341,310 from its valuation in 1876, and the county is required to pay $12.56 less than then on each $1000 of State tax.

The number of ratable polls is given as 86,704; and the average tax assessed on each poll throughout the State, based on a total tax of $400,000, is $4.57. The valuation by the State board, if correct, shows a great difference in the relative wealth of the different counties. The ratio of State tax to each poll in the various counties is as follows:

Rockingham	$4.53
Strafford	4.50
Belknap	3.65
Carroll	2.84
Merrimack	5.18
Hillsborough	5.71
Cheshire	5.31
Sullivan	4.34
Graft n	3.54
Coos	2.78

Protect the System from Malaria.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloid, sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional indorsements which it has received have added to the reputation it has obtained at home and abroad.

A Time-honored Custom.

For the one hundred and tenth time the announcement is made that, in accordance with its vested rights secured by an inviolable charter, The Louisiana State Lottery Company will, as is its regular custom, proceed on the second Tuesday of next and every month to have, in the city of New Orleans, its regular monthly distribution, when $110,400 will be divided fairly among the purchasers of the tickets. The price, Two Dollars; halves, One Dollar each. For further information, address at once, M. A. Dauphin, P. O. Box 692, New Orleans, La.

The expenditure of brain power too early or too severely in children often results in physical debility; the use of Fellows' Hypophosphites exerts a singularly happy effect in such cases.

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

No preparation of Hypophosphites I have used can compare with Fellows' Compound Syrup of Hypophosphites for restoring strength to the nervous system.

I think it the best medicine I ever used.

W. J. HORNER, Buffalo, N. Y.

Many clergymen who were obliged to withdraw from the pulpit on account of "Clergymen's Sore Throat," have recovered by using Fellows' Syrup Hypophosphites and are preaching again. This preparation seems peculiarly and wonderfully adapted to diseases of the breathing organs.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D., New York City.* cod&w79

TO OWNERS OF DOGS.

Extract from Chap. 16, Ordinances of the City of Portsmouth:

SECTION 1. No dog shall be permitted to go at large or loose in this city until the owner or keeper of such dog, or the head of the family, or the keeper of the house or place where such dog is kept or harbored, shall have procured from the city marshal a license for such dog.

SEC. 2. The city marshal shall grant a license to any citizen for his dog on the payment of one dollar for a male dog, and two dollars for a female dog, which license shall expire on the first day of July annually.

SEC. 4. The person named in each license so granted shall cause his name and the number of the license to be distinctly marked on a collar which shall be constantly kept about the neck of the dog so licensed, and no dog shall be considered as licensed unless this requisition shall be complied with.

SEC. 5. * * any person may lawfully kill any dog found within the limits of this city going at large contrary to the provisions of the chapter.

SEC. 8. In case any dog shall be found loose or going at large contrary to any of the foregoing provisions, or in case any dog not licensed shall be provided with a collar marked as required in this ordinance, the owner or keeper thereof or the head of the family or keeper of the house or place where such dog is kept or harbored, shall upon conviction thereof be fined five dollars.

No. 1 Market Square.

Political.

It is announced from Iowa that the democratic State central committee of that State are endeavoring to induce their candidates to withdraw in favor of the greenbackers, the trade to be dependent upon the greenbackers in Ohio withdrawing in favor of Ewing. Washington influences are reported to be working to the same end.

"Rev." Isaac S. Kallock has had a varied experience. As a clergyman in Boston, many years ago, he was very hefty for a while; then he was "run out" of the place for the grossest immoralities, and turned his talents to the keeping of a low rum-shop, gambling-hole, and den generally, in a western State; next he appeared as a democratic editor and wire-puller; then he again became a "reverend" and was settled over some sort of a church in San Francisco; and now the "workingmen" of San Francisco have nominated him as their candidate for mayor.

Senator Lamar of Mississippi gave a choice exhibition of the bullying "plantation manners" of the ante-bellum days, in the Senate on Wednesday night.

—A trapeze performer at Newark, N. J., the other evening missed his hold and fell into the orchestra, smashing the leader's violin. Leaders of orchestras have for years expected something like this to happen.

—A conceited student in Brown university once told Dr. Francis Wayland, the president, that he thought it would be easy to make proverbs like those of Solomon. In reply of Dr. Wayland was simply, "Make a few."

SANFORD'S RADICAL CURE

For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation whereby the essential medical principle is obtained in vapor, condensed and purified. When so prepared it is still in nuce, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all souls are insoluble compounds of woody fibre; all inorganic, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Keene, N.H. The cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks, without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head ache, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

P. S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

☞ Plasters have now been before the public for years, and, nevertheless, the numerous and popular remedies in the form of liniments, lotions, pain-killers and ordinary plasters, they have steadily increased in sale and met with universal approval as evinced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now all that could be desired, and the best plaster in the world of medicine. All we ask from every sufferer in the land is a single trial. The price is 25 cents, although we could sell it for one dollar if we chose. But, notwithstanding the efforts of the proprietors to make the best article in the world for the least money, no dollar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for selfish motives and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

STATE OF NEW HAMPSHIRE,

OFFICE OF THE

STATE TREASURER.

CONCORD, May 10, 1879.

IN accordance with the provisions of an act of the Legislature, approved August 9th, 1878, the undersigned will receive sealed proposals, until 12 o'clock, noon, June 17th, prox., for three hundred thousand dollars ($300,000.00) New Hampshire five per cent. bonds, as follows:

$100,000 maturing July 1, 1889.
$100,000 " " 1, 1890.
$100,000 " " 1, 1891.

The above bonds form a part of a loan of $500,000, authorized for the purpose of refunding a portion of the State debt.

The bonds will be issued in pieces of $1000; dated July 1, 1879; interest payable semi-annually (Jan. and July) at the National Bank of the Commonwealth, of Boston. Bids will be received for the whole or any part of the above bonds; the State reserves the right to reject any and all bids.

The bonds will be ready for delivery, and payment must be made June 30th.

Bids should be sealed and addressed to

SOLON A. CARTER,
State Treasurer, Concord, N. H.
[Plainly marked] Proposal for State Loan, issue of 1879.

Bonds registered if desired.

PORTSMOUTH

Daily Chronicle.

Chronicle Correspondence.

WASHINGTON, D. C., June 18th.

It is a fact that the democrats have finally discovered that they must cut adrift from the greenbackers, or give up all hope of any hold in the western States. A great agitation was created by the stand taken by Senators Bayard and Kernan that the silver bill and other financial measures should not be reported and acted on at this session. Many of the extreme soft-money men demanded these measures as a part of their party policy, and when checked by these hard-money democrats, they became very much excited. They were in favor of forcing Senator Bayard from the chairmanship of the finance committee, and of reorganizing it according to their own views. The several efforts 4o have the democratic caucus adopt their views, however, have failed, and it is probable that Senator Bayard will continue at the head of the committee, and also that no action will be taken on the financial bills this session, or until after the fall elections. From a party as well as from a business point of view this is adjudged to be a wise decision. The conservative voters in the west as well as in the east are in favor of a rest in financial agitation at present, and the democratic party could not afford to ignore the fact. This is what some members of the caucus say. Several who were committed to the silver bill accordingly voted against the programme to make the financial question conspicuous in the campaigns by having the caucus endorse it. The greenbackers are very much wrought up by this prospect, but the democrats console themselves with the hope that they will gain more than they will lose by it when they go before the people. Many of the eastern democrats are rejoicing because, as they say, this conservative action has spiked the republican guns in a position which otherwise would have been strong.

A good deal of stir has been caused by the report that Secretary Sherman is having sent out from the treasury marked copies of a paper containing an article laudatory of himself, and supposed to be for the purpose of promoting his presidential aspirations. I have seen a copy of this paper. It is a small sheet published in New York, devoted to revenue matters. In its editorial column it says that it is the official organ of the treasury department, and prints all decisions and opinions by authority. The copy in question is one printed in April, and the only editorial it contains is the article headed "Secretary Sherman," which is extremely flattering, and claims that Sherman's services deserve still further recognition than they have received. I inquired particularly where these copies, carefully marked in blue pencil, were obtained, and was informed that they were handed out at the treasury department and the interior dept. through trusted "friends" only, which seems to confirm the report that Sec'y Schurz is working vigorously in Sherman's behalf. These things have caused some ugly criticisms on the "civil service reform" policy of the administration.

There is a slight change in the general opinion as to the prospect of the appropriation bills and adjournment. It is now thought that the President will sign the general appropriation bill and the army bill. While he objects to the restrictive features of the latter, he does not think they would have any practical effect, so his friends say, and therefore will waive his objections. But the opinion is almost universal that he will veto the judicial expenses bill, taking the grounds substantially stated by republican senators, that it would cripple the federal courts and would be improper if not unconstitutional. The democratic lawyers differ from him, and it is said that they will not submit to "dictation," but will ask the President's advisers to name some satisfactory form in which their view may be embodied in another bill, and in case of refusal adjourn, leaving the responsibility with the President of maintaining or practically abolishing the courts. I observe that in view of this change in opinions the day of adjournment is fixed in the minds of most people as the end of the month. The weather has been so comfortable for the last few days that congressmen have abated their zeal for going home.

KNOX.

—No matter how indulgent a man may be, no matter how sweet a disposition he may have, he will feel considerably put out, if not totally wild, when he discovers that his wife has been driving nails in the wall with his razor strap.

—The colored brother in a Virginia church hit the nail on the head when he prayed at the close of the white brother's sermon: "Lord, bress de brudder to whom we has listened to so patiently."

Portsmouth Chronicle

SATURDAY, JUNE 21, 1879.

The Mississippi Plan.

Democratic papers at the north, and southern correspondents of northern democratic papers, have never tired of assuring the world in general and the people of the northern States in particular that the stories about bulldozing in the southern States are almost without exception "radical lies;" that life, property, and political and civil rights, have been as safe in the south as in New England, ever since the corrupt and tyrannical carpet-bag governments were overthrown by the armed reform democracy; that the "negro exodus" from the southern Mississippi valley is due solely to the machinations of radical politicians, there being no reason in the world why the negroes should leave the sunny south, where all their rights are fully respected; and particularly that in Mississippi—the birthplace of "the plan"—and Louisiana, everything is lovely.

Such is the song of the northern democratic press; and if a northern republican paper undertakes to tell the truth in the matter, its democratic contemporaries immediately commence in chorus a shout of "bloody-shirt," denounce the "cruel and baseless slanders," howl a little about "bayonet rule," and end off with a gushing appeal for "conciliation" and the letting of bygones be bygones.

But for all this not a few of the southern papers—democratic ones at that, for it is only in a few places that a republican paper can exist, or would be allowed to if it could— continue to give accounts of the regular bulldozings. As specimens of the current news of the country press in Mississippi, take the following from the Winona *Advance*:

Not long since a crowd of men living in Attala county went to the plantation of Mr. Joe Cross, at night, during his absence, and ran his hands off. Soon after they went back and cruelly beat and shot a few that Mr. Cross had coaxed to return; and last week they returned, and set fire to his dwelling, a magnificent building, formerly occupied by Col. Davis. In this manner they have depopulated the farm, destroyed a costly residence, and threatened the life of the owner, from no other motive than to gratify a cowardly animosity that they have not the moral courage to assert in open daylight.

And Attala county has not a monopoly of bulldozing in Mississippi, either; for one recent number of the *Ledger*, published at Brookhaven, Lincoln county, contains the following items:

A negro living on Mr. Warren's place, about four miles from town, was fired upon Saturday night and notified to move off. He has complied with the demand.

We are informed a bloody coffin was found on Penn McRee's gallery one morning last week.

The bull-dozers have notified Dr. Applewhite to leave the country, we are informed. The doctor declines to obey, and stands ready to welcome those who would escort him off.

The Chisolm tragedy, too, has not yet totally faded from the public memory; how Judge Chisolm, an ex-confederate, was with his son and several friends butchered by a democratic mob for the crime of being republican in politics, and his sixteen-years-old daughter, after being shot by the chivalrous mob was allowed to die for want of surgical attendance, which was offered by a surgeon but prohibited by the chivalry; how the rest of Chisolm's family were driven out of the county; and how the democratic State government punished the bull-dozers by treating their murderous deeds with silent contempt, and how the democrats of Kemper county signified their detestation of the outrage by electing the leader of the mob to the office of sheriff.

And yet, in the face of the existence of such a state of affairs, the negro exodus is declared to have no reasonable cause, and northern emigrants are invited to settle in the south.

Breathitt county, Ky., where it is customary for the man defeated in a law suit to shoot the judge down in the street, is threatened with another of its periodical entertainments of murder. It was rumored in Frankfort on the 18th inst. that fifty men of the State militia were to be at once sent from Louisville and the State capital to Breathitt county, to guard the authorities during the trials of the several desperadoes who caused so much bloodshed there last autumn. The leaders of the clans are reported to have notified Gov. McCreary that if troops appear in Breathitt county, direct war upon them will be made at once—a threat which will probably make the governor still more resolute.

Pistols and Coffee.

The confederate generals, colonels, governors, majors, judges, etc., in Washington, are greatly exercised in their minds over what is the correct thing to be done "according to the code" in the matter of the quarrel in the Senate, during the night session of the 18th inst., between Lamar and Mr. Conkling. A Washington correspondent says: "A careful examination of the language used shows that Mr. Lamar, in his attack, was not sufficiently explicit, and left a good deal to inference. Then again, Mr. Conkling was not in his seat when Mr. Lamar attacked him, so that really he did not hear the insulting words until after he had refused to hold further communication with Mr. Lamar, and had characterized him as a coward, blackguard and liar. It is understood that Mr. Lamar's friends held a consultation to-night for purpose of deciding whether or not to give Mr. Conkling the benefit of a technicality, and advise Mr. Lamar to challenge him. What Mr. Conkling will do, if challenged, is not certain. He is an excellent pistol shot and swordsman, and he is physically the superior of Mr. Lamar in every way, and to charge him with cowardice is regarded as sheer nonsense. The general opinion is that the affair will end in smoke."

Prince Napoleon Killed.

Prince Eugene Louis Jean Napoleon, son of Napoleon III. and Eugenie, his empress, who, it will be recollected, received "his baptism of fire," at Saarbruck in 1870, when fourteen years old, has met a cruel fate at the hands of the Zulu savages of South Africa. The prince joined the British forces in South Africa as a volunteer. Having received a thorough training at the English Royal Military Academy at Woolwich, where he attained a high standing, he was fitted for, and was rendering efficient service. Despatches received in London say that the prince was out with other officers on a reconnoitering expedition, when a party of the savages crept upon them and slew the prince with a spear. The event will doubtless have an important bearing upon the politics of France, in the elimination of the Bonapartist faction.

News and Notes.

Warning to bad boys. A boy in Framingham, Conn., a week or two ago, climbed a tree on the river's bank to rob a bird's nest, and next day his dead body was found in the river; a limb broke under his weight, and he fell a distance of seventy feet to the rocks below. On Thursday last, at Lawrence, Mass., a boy named John McCarthy fell from a tree while attempting to rob a bird's nest, and fractured his skull; and it is feared his injuries will prove fatal.

The San Francisco *Examiner* says that a compromise has been effected between the Coleman heirs and Patrick O'Brien, brother of the late William O'Brien, the millionaire. The sum paid O'Brien is $600,000, for which he renounces all claim to the estate.

The trial of George H. Brown for the murder of John Jenks in Pawtucket, R. I., last Christmas day, was concluded Thursday night, the jury failing to agree, standing nine for acquittal, after six hours' deliberation. The defence was insanity because of the infidelity of defendant's wife, who testified on the witness stand to criminal intercourse with Jenks.

William Voice, son-in-law of Leslie Gregg of Waterbury Centre, Vt., recently took a horse, buggy and $40 belonging to Gregg, and ran away. Voice has lived with Gregg on his farm for three years, apparently all right. He was a transient fellow when he came to Gregg's, and married his daughter, whom he now leaves. He has probably gone to Canada.

As Mrs. Fred Carpenter and Miss Alice Griswold of Jefferson, Vt., were boating the other evening on a mill-pond, they lost control of their craft, which started to go over the dam. Mrs. Carpenter, who is an expert swimmer, jumped out, and swam to the shore; Miss Griswold remained in the boat, which was caught on the dam, where it hung until assistance arrived. Had it gone over the lady would have doubtless drowned, as the volume of water is very great and the fall fourteen feet.

Prof. Swift of Rochester, N. Y., on Friday discovered a comet.

England and France have formally demanded the abdication of the Khedive of Egypt. Germany and Austria give conditional support to the demand.

Lilly Duer, who shot and killed her girl-friend, Miss Hearn, at Snow Hill, Md., has been fined $500 for the homicide.

The trial of Dr. Charles H. Witham, at Portland, for adultery with Annie S. Small, was concluded Thursday night, and he was found guilty. Exceptions have been filed. Dr. Witham had previously been tried on a charge of murdering Miss Small's illegitimate child, and acquitted.

At a meeting of the trustees of the Dexter, Me., bank, on Monday, the 16th inst., a committee was chosen to invite the executer of the Barron estate to examine the books of the bank and make arrangements to settle affairs with the bank. The executor refused to examine or negotiate. The trustees voted to commence suit against the Barron estate for the sum of $800, loaned by Barron to Dr. Fitzgerald, and turned over to the bank without the knowledge of the trustees. They have also voted to call on Barron's bondsmen to make up the deficiency appearing, and invite them to unite with the bank in employing accountants to go over the books and state the accounts correctly. The bank declared a dividend payable July 1st. After all that has been said by the bank trustees, the public opinion generally still is that Barron was murdered because he would not betray his trust as cashier of the bank; whether the truth will ever be proved beyond a question is matter of doubt.

Naval Matters.

Washington despatches of Thursday say: "The revolution at Aspinwall being ended, the gunboat Marion will not go there." The Marion sailed from Pensacola for Norfolk on the 18th inst., two hours before a despatch ordering her to Aspinwall arrived.

The flagship Powhatan, and the Vandalia, arrived at New York on the 19th inst.

The tug Speedwell has been placed at the service of Baird's fish commission for the summer.

New Hampshire Items.

Senator Moore on Friday introduced revolutions endorsing the President's vetoes, and denouncing the course of the democratic majority in Congress as resolutionary. The resolutions were made the special order of the day for the 24th inst.

The Senate adopted a resolution requiring the railroads to disclose the extent of dead-heading over their various lines.

Hon. Henry W. Blair was sworn in as United States senator from New Hampshire on Friday.

John M. Harding, who was arrested on Thursday and taken to Bartlett and examined on the charge of murdering the missing sewing-machine agent, B. F. Elliot, was acquitted.

Nearly all the stock for Manchester's new 50,000-spindle cotton mill has been subscribed. The city exempts it from taxation for ten years, and work will begin at once. It will employ 1200 persons, and increase the population of the place 5000. The constracts for the building and machinery are at prices about forty per cent per spindle of the cost five years ago.

Edward Dearborn of Northfield was arrested at Concord, on Thursday evening, on suspicion of attempting to wreck the train above Northfield on the Boston, Concord & Montreal railroad on Wednesday. He was identified by J. L. Lovering of Tilton. He is also suspected of being the party who burned the freight depot at Tilton last winter. The officers are confident that they have sufficient evidence to hold him. He will be taken to Tilton for examination.

The prohibitionists of Plymouth held a meeting on the evening of the 18th inst., to form a permanent organization. Some time since a committee notified all liquor sellers of the place to stop the sale of liquor in Plymouth. All the liquor sellers have signed a paper agreeing to stop selling and go out of the business. The committe have also decided to arrest any one found intoxicated, and if it could be ascertained who had sold the liquor to such person, to prosecute them, whether they lived in Plymouth or in any of the adjoining towns. After some discussion, it was decided to form an organization, and H. S. George was elected president, and F. C. Lougee secretary. An executive committee, vice-president, treasurer and chaplain were also chosen, and the meeting then adjourned.

AROUND HOME.

The Kearsarge mill will shut down for several weeks from the 28th inst., for repairs to machinery and chimney.

Mr. Henry L. Harlow has returned to this city, after a somewhat protracted absence in Europe and the western States.

The Rochester cornet band has been secured for an open air concert on Market square on the evening of July 4th. The band numbers twenty-one pieces, is finely uniformed, and has a high reputation. They will arrive on the afternoon train of that date.

The horse "Forbidden Fruit," owned by Mr. E. S. Fay of this city, won the race for horses that had never beaten 2:50 at Concord on Thursday, in three straight heats, making a record of 2:38. This is the second race won by this horse at this meeting, the first one being that for horses that had never beaten three minutes, on the first day of the races.

The temperance meetings in the gospel tent, during the present week, have been very largely attended, though the evenings were hardly warm enough for such meetings; with the thermometer at seventy-five or eighty degrees, the spacious tent would be crowded. Mr. Waite's really remarkable skill in drawing with colored chalks never fails to interest his audiences.

Friday morning, shortly after seven o'clock, while the tug Ann was towing the schooner John D. Williams up river to a berth at one of the north end wharves, the schooner came near crushing a boat in which Mr. William Briard of Kittery was fishing. Mr. Briard just had time to jump on the anchor of the schooner before his boat was struck, thus probably saving his life.

We earnestly commend the following, from the Yonkers *Gazette*, to the consideration of several persons in this city, whom we could name if we choose, but do not choose to: "The man who goes fishing and sits in a cramp-inviting posture on a narrow thwart from early morn till dewy eve, and calls it fun, is the same chap that never goes to church because the pews aren't comfortable."

The Masonic celebration at Portland on St. John's day will occasion one of the largest gatherings of the fraternity that has ever taken place in that State. St. John's Lodge of this city has secured the services of the famous Salem Cadet band for the occasion. Quite a large number of citizens will avail themselves of the opportunity of visiting Portland to witness the grand display of five thousand men marching in procession with music, banners and regalia. The fare for the round trip is $1.65.

Says the Portsmouth *Journal* of this week: "Influential citizens of this city are urging the appointment of Col. Thomas E. O. Marvin for adjutant-general, in place of Gen. Cross, who is about to resign. Col. Marvin has all the qualifications necessary, having filled various military and civil offices with eminent success, and having a great interest in military affairs." Just so; as good a man as Col. Marvin for the place may be found, but we do not believe a better one can be; he "has all the qualifications necessary," and some of those qualifications are earnestness, thoroughness and promptitude in the performance of *any* duty that may devolve upon him.

On Monday evening a large number of young ladies connected with the Middle street Baptist society assembled at the residence of Rev. Dr. Alden. Miss Nellie A. Tayler, in behalf of those present, in a neat and appropriate address presented to Dr. Alden a very elegant chair, accompanied by a beautiful floral offering, as a memento of their friendship and esteem, and a fitting testimonial to a faithful minister. The reply of Dr. Alden, who was taken wholly by surprise by this expression of confidence and affection, recognized gratefully the pleasant relations that had always subsisted between him and the young people of his charge, and gave utterance to earnest desires for their happiness and prosperity, assuring them that he should ever cherish toward them a most pleasing and grateful remembrance. An entertainment was provided by Mrs. Alden, who had been informed of the intended visit, and a delightful evening was spent with the pastor and his wife.—*Journal.*

Michael Love of Great Falls, a laborer on the Boston & Maine railroad, in jumping from a train on Thursday last was run over and had one leg cut off and was otherwise injured.

The opening of the Hotel Wentworth is postponed until July 1st.

The ladies' cooking club of Exeter had a picnic at Greenland bay-side on Thursday afternoon.

Limington, York county, has funded its town debt of about $9000 by issuing four per cent bonds, nearly all of which have been taken by residents.

Letta Dow, twelve years of age, youngest daughter of J. Warren Dow of Hampton, was kicked by a horse a week or more ago, receiving a terrible wound near the temple. Everything was done that could be, but several hours elapsed before she was restored to consciousness. She now lies in a critical condition, and but slight hopes are entertained of her recovery.

Two grocery-store keepers of Dover are carrying on a brisk advertising war, and hurl column-long "ads" at each other through the medium of the *Democrat*. This is good for the paper, and should increase its circulation, as the war must be fun for the people; but the combatants must take care or they will lose caste—they have very nearly gotten down to the level of members of Congress already.

The Dover police on Wednesday, the 18th inst., raided the place of Kate Cosker at the "landing," and captured a lot of beer, rum, gin, whiskey and wine, and the implements of sale. Her "saloon" was very cunningly arranged. She had employed some good workman to cut through a partition, and hang a peculiar sort of a door, of sufficient thickness to carry a tier of shelves inside of it, and when it swung open it fitted into another partition at right angles, so that nobody could see any extra thickness of the door. Inside this door she kept her goods, and dealt them out to customers, of which she had no lack. She was taken before the police court, and held in $200 for trial before the supreme court. She was also fined $11.76 for an assault on another woman; she paid her fine and gave bonds.

NAVY YARD ITEMS.

The U. S. S. Kearsarge is to sail this morning for New York.

Major Augustus S. Nicholson, U. S. M. C., adjutant and inspector, paid an official visit to the navy yard on Friday, to inspect the marine post.

[Communicated.]

A SUGGESTION.

Mr. Editor: As there is to be no particular celebration of the 4th of July in this city, allow me to offer a suggestion. As our steam fire engines never have had any competitive trials, would it not be well to make such trial a feature of the day, as there are various opinions as to the efficiency of the several machines? It would be a new thing for our city, the great firemen's muster of several years ago having included only out-of-town companies, and would attract and please a large number of our citizens, especially our young folks. To make it more interesting, an invitation to the navy yard authorities to send a steamer to compete would add largely to the occasion; and if the city government, or private subscription, should see fit to offer a small sum or token as a prize, it would in a great measure enhance the ambition of all contending parties parties. We suggest this as an entertaining and inexpensive manner of celebrating the day, and one that will have a tendency to encourage the fire department in the discharge of their duties by showing that their merits are not unappreciated and that the citizens take an interst in their welfare. **

At the Kearsarge mills they are building a staging up the sides of the big chimney. A correspondent says that when he was a boy he considered the "factory chimney" as the tallest object in the known world; and he well remembers that "on the night of its completion fireworks were let off from its top. If the staging is at the top on the coming Fourth of July, couldn't somebody start off a rocket from that height, just to let the boys of the present generation see how it looks?"

REAL ESTATE CONVEYANCES.

The following transfers of real estate in this county have been left for record in the office of the register of deeds:

PORTSMOUTH.

Jeremiah F. Hall, administrator of the estate of Eliza W. Emery, late of Portsmouth, to James A. Rugg, of Portsmouth, land and buildings, $900.

AUBURN.

Alonzo R. Dinsmoor, of Auburn, to Simon G. Prescott, of Auburn, pasture and woodland, $300.

Dennis Donnovan, of Auburn, to Simon G. Prescott, of Auburn, land, $160.

Simon G. Prescott, of Auburn, to Levi Preston, of Auburn, land, $440.

George P. Clarke, of Auburn, to Simon G. Prescott, of Auburn, land, $160.

DERRY.

Susan M. C. Bryant, of Independence, Iowa, to John W. Noyes, of Chester, et al., real estate, $2000.

GREENLAND.

Joseph A. Smith, of Reading, Mass., to Joseph Odell, of Greenland, land, $100.

WINDHAM.

Jane Cloud, of Windham, to James P., and Frederick H. Hughes, of Windham, homestead farm, $425.

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30, A. M., and 7:45 P. M.; prayer meeting at 7.30. All are welcome.

At the Advent church, services at 10:15 A. M., 3:45 and 7:30 P. M.

At the Freewill Baptist church, on Pearlstreet; Rev. E. Owen, pastor, preaching at 2:45 P. M.; prayer meeting at 7:00. Sabbath school at 10:30 A. M.

At the South Parish, Rev. James DeNormandie, pastor, morning service at 10:30; vespers at 7:30. Sunday school in chapel at 2:45 o'clock P. M.

At St. Mary's (Catholic) church, Rev. E. M. O'Callaghan, pastor, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday school at three o'clock, P. M.

At St. John's (Episcopal) church, Rev. Chas. A. Holbrook, rector, services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public cathechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

At the Middle street (Baptist) church, Rev. W. H. Alden, D. D., pastor, services at 10:30 A. M. and 7:30 P. M.; Sunday school at the church at 2:45 P. M.

Mission services; William A. Loyne, Volunteer Missionary. Residence at Faith Home, 16 Deer street. At home daily from 8 to 10 A. M. and 12 to 2 P. M. Services every Sabbath at the Alms House at 10:30; at the County Jail at 12:30. Consecration Meeting every Monday evening at the Home. Services on the afternoon and evening of the 4th Sunday in each month, at Newcastle; one week day in each month, at Brentwood.

At the Congregational church, preaching at 10:30 A. M. and 7:30 P. M. Sunday school at 3:00 P. M. Prayer meeting on Friday evening at 7:30.

At the Methodist church, Rev. C. B. Pitblado, pastor, preaching at 10:15 A. M. and 2:45 P. M. Sunday school after morning service, in the church.

At the Universalist church, Rev. E. M. Grant, pastor, services every Sunday at 10:30 A. M. and 7:30 P. M.; Sunday school at 2:45 P. M. A cordial welcome to all.

Bible reading at Pickering hall at 2:30 o'clock P. M.

Young Men's Union Prayer Meeting, Sunday evening from 6 to 7 o'clock at the Pearl street church.

Rev. Geo. W. Sederquest of Lynn will preach at the Advent church on Sunday.

Rev. C. C. McIntire of Rockport, Mass., will preach at the Congregational church.

The Sunday school of the North parish will meet at three o'clock, instead of 1:45 as hitherto.

The reform club meeting will be held at the Bow mission hall at 7:30 P. M.; speaking by members.

Mr. Ritz, the tenor, will sing at the Unitarian church on Sunday.

Rev. Dr. Alden will give his fourth lecture on the "Sins of the Tongue," Sunday evening in the Middle street Baptist church.

Protect the System from Malaria.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloid, sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional indorsements which it has received have added to the reputation it has obtained at home and abroad.

The expenditure of brain power too early or too severely in children often results in physical debility; the use of Fellows' Hypophosphites exerts a singularly happy effect in such cases.

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

☞ The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

No preparation of Hypophosphites I have used can compare with Fellows' Compound Syrup of Hypophosphites for restoring strength to the nervous system.

I think it the best medicine I ever used.

W. J. HORNER, Buffalo, N. Y.

I have derived much benefit from using Fellows' Hypophosphites in chronic constipation.

JOHN B. MOORE, Forest City, Montana.

Many clergyman who were obliged to withdraw from the pulpit on account of "Clergymen's Sore Throat," have recovered by using Fellows' Syrup Hypophosphites and are preaching again. This preparation seems peculiarly and wonderfully adapted to diseases of the breathing organs.

TO OWNERS OF DOGS.

Extract from Chap. 16, Ordinances of the City of Portsmouth:

SECTION 1. No dog shall be permitted to go at large or loose in this city until the owner or keeper of such dog, or the head of the family, or the keeper of the house or place where such dog is kept or harbored, shall have procured from the city marshal a license for such dog.

SEC. 2. The city marshal shall grant a license to any citizen for his dog on the payment of one dollar for a male dog, and two dollars for a female dog, which license shall expire on the first day of July annually.

SEC. 4. The person named in each license so granted shall cause his name and the number of the license to be distinctly marked on a collar which shall be constantly kept about the neck of the dog so licensed, and no dog shall be considered as licensed unless this requisition shall be complied with.

SEC. 5. * * any person may lawfully kill any dog found within the limits of this city going at large contrary to the provisions of the chapter.

SEC. 6. In case any dog shall be found loose or going at large contrary to any of the foregoing provisions, or in case any dog not licensed shall be provided with a collar marked as required in this ordinance, the owner or keeper thereof or the head of the family or keeper of the house or place where such dog is kept or harbored, shall upon conviction thereof be fined five dollars.

Grocery Grammar.

The peril of employing highly educated young men as clerks was illustrated the other day. A woman stopped at a green grocer's on Woodward avenue and asked: "Is them lettuce fresh?"

"You mean *that* lettuce," suggested the clerk, "and it is fresh."

"Then you'd better eat it," snapped she, as she walked on.

The grocer rushed out and asked the clerk what on earth had happened to anger her, and the young man replied.

"Why, nothing, only I corrected her grammar."

"You have turned away one of my best customers! Only yesterday she came in and asked me how I sold those white sugar, and I got an order for a whole barrel. Hang you sir! but if them customers want grammar they don't expect to find it in a grocery! *No*, sir; and if you see her again you want to apologize in the most humblerest manner."—*Western paper.*

What $200 Did in Wall Street.

August 16th, 1878, a Phila. customer, wrote Messrs. Lawrence & Co., Bankers, N. Y.: "Dear Sirs: Yours containing remittance for $1,113.25, as profits on my 200 shares, is received. Accept my thanks, for I am very well satisfied. You may use this letter. I would recommend every one who feels disposed to speculate to send for your circular. This is but one instance out of thousands, by which the new *combination system* of operating in stocks enables people with large or small capital to make similar profits. By this excellent plan, the orders of thousands of customers from city and country are pooled into *one immense sum* and co-operated as a *mighty individual account.* Each member of the combination secures all the advantages of the largest capital united with experienced skill. Profits divided monthly; $10 invested returns $50, or 5 per cent on the stock, $75 will make $450, and so on, according to the market. Messrs. Lawrence & Co.'s new circular (mailed free) has "two unerring rules for success," and explains everything, so that any one can operate profitably. All kinds of stocks and bonds wanted. New Government loan supplied. Apply to Lawrence & Co., Bankers, 57 Exchange place, N. Y. City.

—A large package of love-letters from Rev. W. J. Park to a married woman has been discovered at Canton, Ohio, and the indiscreet clergyman has consequently been expelled from the pastorate of a Presbyterian church.

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

Look out for the name and address J. I. FELLOWS', St. John, N. B., on the yellow wrapper, the trademark, which is seen by holding the paper before the light.

Price, $1.50 per Bottle, six for $7.

Sold by all Druggists.

THE NEW HAMPSHIRE

GAZETTE

Book and Job

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offloored by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

GOLDEN MEDICAL DISCOVERY

By its great and thorough Blood-purifying properties, Dr. Pierce's Golden Medical Discovery cures all Humors, from the worst Scrofula to a common Blotch, Pimple, or Eruption. Mercurial Disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin, in short, all diseases arising from the blood, are conquered by this powerful, purifying, and invigorating medicine.

Especially has it manifested its potency in curing Tetter, Rose Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, White Swellings, Goitre or Thick Neck, and Enlarged Glands.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from Torpid Liver, or "Biliousness." In many cases of "Liver Complaint" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect and radical cures.

In the cure of Bronchitis, Severe Coughs, and the early stages of Consumption, it has astonished the medical faculty, and eminent physicians prescribe it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and purifies the blood. Sold by druggists.

R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS

THE "LITTLE GIANT" CATHARTIC.

No use of taking the large, repulsive, nauseous pills, composed of cheap, crude, and bulky ingredients. These Pellets are scarcely larger than mustard seeds. Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulder, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad Taste in the Mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, take Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of these Purgative Pellets over so great a variety of diseases, it may be said that their action upon the animal economy is universal, not a blood or tissue escaping their salutary influence. Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with pills put up in cheap wooden or pasteboard boxes. For all diseases where a Laxative, Alterative, or Purgative, is indicated, these little Pellets will give the most perfect satisfaction. Sold by druggists.

R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

CATARRH

SYMPTOMS.—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of the nasal passages, ringing in ears, deafness, hawking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

DR. SAGE'S CATARRH REMEDY

produces radical cures of the worst cases of Catarrh, no matter of how long standing. The liquid remedy may be snuffed, or better applied by the use of Dr. PIERCE'S Douche. This is the only form of instrument yet invented with which fluid medication can be carried HIGH UP and PERFECTLY APPLIED to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. Its use is pleasant and easily understood, from directions accompanying each instrument. Dr. SAGE'S Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. Catarrh Remedy and Douche sold by druggists.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors, Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interferences. Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,697,366 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

THE

Alpine Silver Mining Co.,

OF COLORADO.

CAPITAL $2,000,000. 200,000 SH RES.

PAR VALUE, $10 PER SHARE.

UNASSESSIBLE.

Daniel J. Splane, Pres. J. L. Thompson, Sec.

The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined bodes.

Three of the leading mines are well opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.

The Company proposes to sell a portion of its stock at $1.50 per share for the purpose of more completely developing its mines, and for the erection of works for the treatment of its ores.

Applications for the stock may be made to the office of the Company, 61 Broadway, New York.

N. B.—*The Mining Record*, of New York, the highest mining authority in this country, says Feb. 1st, 1879: The principal owners in this company are hard working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing in one of the largest banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary. mch22d4wbm8

SANFORD'S RADICAL CURE

For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medicinal principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all smells are inseparable compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the inspired principles of Skate sovereignty and white supremacy. They remember the time—the comparatively recent time—when they stood precisely on the same platform that we tread to-day. They hate and loathe to have their recreancy recalled to the memory of men, and therefore they hate and loathe the *States*.

They deny us and say that we are not democrats.

That lie should burn their tongues and blister their souls. They know full well that our democracy is the democracy of the south—the democracy of eight out of every ten followers of our party flag on their side of the Ohio and the Potomac;

They know full well that our democracy was their democracy in 1860;

They know full well that our democracy is their democracy to-day, unless they are radicals at heart, and only remain in our camp to capture the loaves and fishes in the communities where we have a majority;

They know that the democratic party is—

The States-Rights party;
The Secession party;
The White Man's party;

They know full well that the peace men, the Vallandingham men of 1861-65 were heart and soul in sympathy with the old confederates;

That they rejoiced in our victories;

That they lamented our defeats;

They organized their "Sons of Liberty" and "Knights of the Golden Circle" to weaken the war party and hamper Lincoln and his hirelings in their devil-work of destruction.

We know this; and the whole world of men know that the present professions of the bastard democrats of Yankeedom clash discordantly with their acts and utterances in the battle years of 1861-65.

If they believe that this is a Nation, with a gigantic N; that State sovereignty (including secession as an incident) is a heresy; that negro slavery was a curse; that negro suffrage is a blessing, and all that sort of thing, why didn't they join the republican party at the hour of its inception, and fight to bring about the triumph of federal supremacy, free labor and universal suffrage?

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams ... to modern Pharmacy.

... Plasters have now been before the public for years, and, notwithstanding the immense number of imitations in the form of liniments, lotions, pain-killers and ordinary plasters, they have steadily increased in sale and met with universal approval, as proved by over one thousand unsolicited testimonials in our possession. Many remarkable cases have come to our notice, and it is believed that they are now used in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is a fair and a single trial. The price is 25 cents, although it is doubtless the best of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any quantity can be bought, numbers of worthless imitations will be found ready to misrepresent them and endeavor to substitute others. Do not allow yourself to be imposed upon. ASK FOR

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

STATE OF NEW HAMPSHIRE,

OFFICE OF THE

STATE TREASURER.

CONCORD, May 10, 1879.

IN accordance with the provisions of an act of the Legislature, approved August 9th, 1878, the undersigned will receive sealed proposals, until 12 o'clock, noon, June 17th, 1879, for one hundred thousand dollars ($300,000.00) New Hampshire five per cent. bonds, as follows:

$100,000 maturing July 1, 1889.
$100,000 " " 1, 1890.
$100,000 " " 1, 1891.

The above bonds form a part of a loan of $500,000, authorized for the purpose of refunding a portion of the State debt.

The bonds will be issued in pieces of $1000; dated July 1, 1879; interest payable semi-annually (Jan. and July) at the National Bank of the Commonwealth, of Boston. Bids will be received for the whole or any part of the above bonds; the State reserving the right to reject any or all bids.

The bonds will be ready for delivery, and payment must be made June 30th.

Bids should be securely sealed and addressed to

SOLON A. CARTER,
State Treasurer, Concord, N. H.
[Plainly marked] Proposal for State Loan, issue of 1879.

Bonds registered if desired.

SOLON A. CARTER, State Treasurer.

PORTSMOUTH

Daily Chronicle.

A Good Memory.

The editor of the Okolona (Miss.) *States*, speaking of the conduct of a class of northern democratic leaders during the war, as he does in the following extract, shows that his memory is tolerably accurate:

When they read this paper they are forcibly reminded of their infidelity to the inspired principles of State sovereignty and white supremacy. They remember the time—the comparatively recent time—when they stood precisely on the same platform that we tread to-day. They hate and loathe to have their recreancy recalled to the memory of men, and therefore they hate and loathe the *States*.

They deny us and say that we are not democrats.

That lie should burn their tongues and blister their souls. They know full well that our democracy is the democracy of the south—the democracy of eight out of every ten followers of our party flag on their side of the Ohio and the Potomac;

They know full well that our democracy was their democracy in 1860;

They know full well that our democracy is their democracy to-day, unless they are radicals at heart, and only remain in our camp to capture the loaves and fishes in the communities where we have a majority;

They know that the democratic party is—

The States-Rights party;
The Secession party;
The White Man's party;

They know full well that the peace men, the Vallandingham men of 1861-65 were heart and soul in sympathy with the old confederates;

That they rejoiced in our victories;

That they lamented our defeats;

They organized their "Sons of Liberty" and "Knights of the Golden Circle" to weaken the war party and hamper Lincoln and his hirelings in their devil-work of destruction.

We know this; and the whole world of men know that the present professions of the bastard democrats of Yankeedom clash discordantly with their acts and utterances in the battle years of 1861-65.

If they believe that this is a Nation, with a gigantic N; that State sovereignty (including secession as an incident) is a heresy; that negro slavery was a curse; that negro suffrage is a blessing, and all that sort of thing, why didn't they join the republican party at the hour of its inception, and fight to bring about the triumph of federal supremacy, free labor and universal suffrage?

Useful Hints.

Ammonia is a good remedy for toothache. Apply a small bit of cotton saturated in a strong solution of ammonia to the defective tooth, and after a momentary nervous pain, the aching will have ceased.

Two teaspoonfuls of finely powdered charcoal drank in a half-tumbler of water will often give relief to the sick headache, when caused, as in most cases it is, by a superabundance of acid on the stomach.

The leaves of the geranium are an excellent application for cuts, when the skin is rubbed off, and other wounds of the same kind. One or two leaves must be bruised and applied on linen to the part, and the wound will be cicatrized in a very short time.

A Mystery Explained.

Parlor scene: Mrs. Brown, who has spent the summer among the White Mountains in search of health, and who seems to have searched the whole mountain side without being able to find a pair of blooming cheeks or an inch of healthful skin: Mrs. White, who has remained at home because her husband could not afford to go, but whose fresh complexion and bright eyes seem to have caught their bloom and brightness from mountain breezes.

Mrs. B.—Dear me, Mrs. White, how well you are looking! If you will not think me impertinent, let me ask how you can keep so healthy in this dreadful city? I have been to the White Mountains, go there every summer, in fact, and I can't keep off the doctor's list at that.

Mrs. W. (smiling).—I'll tell you the whole secret, Mrs. Brown. You remember how poorly I was last spring, some days even being confined to my bed. Dr. —— told Mr. White to send me to the mountains, but I knew he couldn't afford it, and I tried Dr. Pierce's Favorite Prescription. Its effects were so marvelous that I also tried his Golden Medical Discovery, to cleanse my system. In my opinion, one bottle of the Prescription and the Discovery is better than six weeks of the White Mountains for a sick woman. I have only been out of the city a week during the whole summer; then my husband and I went to Buffalo and stopped at Dr. Pierce's Invalids' and Tourists' Hotel. The baths and mechanical apparatus for treating patients were alone worth going to see. Besides, our accommodations were better than we had at Long Branch last year, and the drives and scenery are superb. Let me advise you to use Dr. Pierce's Favorite Prescription, and try the Invalids' and Tourists' Hotel next summer instead of the White Mountains.

—Navy blue is the predominating color for bathing suits.

—The little girl looks forward to the time when she can "do up" her hair like a lady, as a period of true hair-pinness.

—A man was boasting that he had an elevator in his house. "So he has," chimed in his wife, "and he keeps it in the cupboard in a bottle labelled "Sardines."

Portsmouth Chronicle

MONDAY, JUNE 23, 1879.

Horrible Affair.

At Holyoke, Mass., Saturday afternoon, John Kemmler, a German, murdered his three little daughters, aged respectively six years, four years, and fifteen months, by shooting them through the head, after having vainly endeavored to get them to take cyanide of potassium. His object was to prevent the little girls from "going to the bad" when they grew up, and thereby losing their souls. He went to a beer saloon after he committed the murders, told what he had done, and was taken into custody. He is unquestionably insane.

Weston Wins a Race at Last.

Edward Payson Weston, the American pedestrian whose repeated failures to accomplish feats he undertook has cost him much ridicule, won the six-days' go-as-you-please foot-race in England last week—with the Astley belt, the "championship of the world," a bet of £500 with Sir John Astley, and the lion's share of the stakes and "gate money." He walked and ran 550 miles in 142 hours, beating the highest previous record, which was made by "Blower" Brown, and was 542 miles.

Over the Falls.

Mrs. A. Rolland, twenty-five years old, wife of a firearms manufacturer of Belgium, was at Niagara Falls last week with her husband, they being on a wedding tour around the world. On Saturday, in company with her husband she visited the Three Sisters islands, and, borrowing a pocket cup of Mr. Rolland, stooped over to get a drink, slipped, and fell over the bank into the water and was rapidly carried over the Horseshoe falls, a short distance from where she fell in. Her husband, who stepped back a short distance from where his wife was, with his back toward her at the time she stooped for the drink, heard her scream but was unable to reach her.

Repudiation in Louisiana.

The Louisiana constitutional convention last week voted to adopt an article providing that the State tax on property for all purposes whatsoever shall not exceed five mills. There was a somewhat stormy debate on the article. The opposition claimed that with the tax only five mills on the dollar, the revenues have not been sufficient to carry on the government and to pay the interest on the State debt; its adoption would be a virtual repudiation of the debt. It is claimed on the other side that a five mills tax would produce sufficient revenue to support the State goverment and pay two per cent interest on the present debt, or four per cent if the debt should be scaled down fifty per cent. The vote on the adoption of the five mills stood—yeas eighty-five, nays twenty-eight. The city tax rate of New Orleans was also fixed not to exceed ten mills on the dollar. Notices of motions to reconsider were given, but the indications are that the action will be sustained, and that the creditors of Louisiana will thus be robbed of considerably more than half of what the State owes them.

How earnest these southern gentlemen who advocate the repudiation of their own State debts would be, no doubt, to maintain the national honor by the honorable payment of the national debt, were they and their party—the democrats—to get full control of the national government.

Naval Matters.

The U. S. S. Adams left Panama on the 12th inst., for San Francisco, and will touch at Central-American and Mexican ports on the way.

Advices from San Francisco of June 13th contain the following: "The United State ship Lackawanna is forty days out from Callao, and should be at the Samoan Islands by this time. News has been received from La Paz stating that the United States ship Tuscorora was there on the 11th inst., and was to leave in a few days for San Francisco, expecting to reach San Francisco about July 1st."

Paymaster George R. Watkins is ordered to duty on board the receiving ship Colorado, at New York, on the 1st of July.

Acting Passed Asst. Surgeon Daniel C. Burleigh, of New Hampshire, has been nominated to the Senate as a passed assistant surgeon on the retired list, in conformity with the act of Feb. 15th abolishing the volunteer navy.

Commodore Bryson and Captains Quackenbush and McCauley, of the navy, and Capt. Cochrane, U. S. M. C., as judge advocate, convened last week as a court of inquiry to investigate the grounding of the Constitution on the English coast, and the subsequent accident to her rudder. Capt. O. C. Badger, who commands the Constitution, appeared before the court, accompanied by Paymaster R. W. Allen as his friend and adviser. The navigating officer, and the lieutenant who was in charge of the deck at the time of the grounding, were examined. The alleged defectiveness of the rudder concerns Naval Constructor Philip Richborn, who has been notified by the navy department of the convening of the court.

Passed Assistant Paymaster George F. Deering and his clerk have been exonerated by the board of inquiry from the charges made against them by Hunt, the dealer at Savannah.

The Enterprise left Antwerp June 17th for the Baltic.

News and Notes.

The body of Prince Napoleon was recovered and, with an escort, is on its way to England. The body was discovered among the long grass, three hundred yards from a kraal. It had no bullet wound, but had seventeen assegai wounds in the front of the body. The clothes were taken, but round the neck was a chain with a locket. London journals, while deeply deploring the prince's death, regard it as an end to imperialism in France. The Ex-Empress Eugenie received the news with an agonized cry, and sank into a senseless stupor.

Emma Sands, the runaway Vermont girl, arrived at Burlington on Friday afternoon by team, in boy's attire. She is in a precarious condition, though physicians say she will probably recover if she can get rest and sleep. She remembers nothing back of the time she started to run away from some imaginary danger, and does not recognize her sisters who went to meet her, but gives a minute history of her wanderings since. She will remain in Burlington some time for medical treatment.

In the United States court at Cincinnati, on Friday, Dr. Edward Bonaparte, alias E. B. Reynolds, a specialty physician of Cincinnati for the past twenty-five years, was sentenced to the penitentiary for one year for sending printed documents through the mails giving information where certain articles, forbidden by law, could be purchased.

A five-year-old boy at Bridgeport, Conn., recently shot a cat with a revolver, his three-year old brother holding the animal in his arms for the purpose.

The wife of John Shufelt, a worthless character at North Egremont, Mass., has disappeared under circumstances pointing to foul play. Shufelt has had trouble with his wife, and it is suspected that she has been drowned in Prospect lake.

Mary Cinia, an Italian, fifty years of age, claming to reside on North Bennet street, Boston, was arrested in Lawrence, Mass., on Friday, for vagrancy. She is one of a gang who have been in the habit of begging flour and groceries, and shipping them to Boston, where they were sold.

The boat Uncle Sam, with Capt. Goldsmith and his wife, from Boston, bound around the world, arrived at Halifax Friday all well. They sail Monday for England via Newfoundland.

At Memphis, Tenn., on Thursday of last week, John J. O'Brien was fined $3000 for betraying Lizzie Vass. During the trial Miss Vass attempted to kill O'Brien with a pistol, in court, but was prevented. The girl's father committed suicide last spring, on learning of the dishonor of his daughter, whom he idolized.

Thomas Syms, aged twenty-four years, in the employ of William B. Sherry, at Stony Brook, L. I., was found on the night of the 15th inst. in the barn with his skull crushed in and his body terribly mangled. He was alive when found, but died a few hours after. It is supposed he was murdered by Jarvis Thomson, a negro of whom the officers are in search.

Dennis O'Sullivan murdered his wife in Philadelphia, on Saturday, by cutting her throat with a dull razor. He also cut terrible gashes in both her arms. She lived about thirty minutes after the assault. O'Sullivan was arrested and lodged in jail.

The steamships Italy and Canada of the National line ran into each other in New York harbor, Saturday, when leaving for sea, damaging both; the Canada was obliged to return. In trying to get clear of each other a large English vessel, the Barbarossa, was sunk at her anchors by one of the steamships.

By a boiler explosion at Emans, Penn., Saturday, five men were killed and four badly wounded, two mortally.

A freight train ran off the track near London, Iowa, Saturday, killing the conductor and four tramps who were stealing a ride.

Mrs. Marion A. McLaine, of Lynn, Mass., has been arrested for abortion. It is hinted that she knows more about the "trunk mystery" than has yet been made public.

A curious-looking old man, bearing an antiquated blunderbuss, and attended by a couple of calves and a yoke of steers, arrived at Costigan, Me., last week, on his way to Aroostook to take up a farm; he says he has driven his animals from the northern part of Wisconsin, and has been four months and twenty days on the road.

The Portland *Press* says that "the Guptill mine at Gouldsboro is proving one of the richest that has yet been opened in the State. A shaft recently sunk in the vein discloses a most magnificent deposit of ore, assaying from 170 to 600 ounces of silver per ton."

Edwin A. Starkie of Belfast, Me., aged eleven years, has been arraigned on a charge of having murdered Ezra Baker, aged eight years. The testimony indicates that during a boyish quarrel on Sunday, the 8th inst., Starkie struck Baker across the back of his legs with a stick. Baker died on the following Thursday of inflammation of the bowels, and though the attending physician was unable to state, positively, the cause of the disease, it is thought that his death was caused by this blow.

Bristow Francis, the husband of the colored cook of Mrs. Hull, the lady who was recently found dead in bed at her home in New York, has been arrested on suspicion of being the murderer.

John R. Miller, a prominent hat manufacturer of New York city, has disappeared. He left Reading, Pa., on Monday of last week, for New York on business, with the intention of returning the following day. Nothing has been heard of him since. He was to have been married to the daughter of a clergyman of Reading on Friday of last week.

The President signed the legislative, executive and judicial expenses appropriation bill on Saturday.

New Hampshire Items.

Edwin Dearborn of Northfield, suspected of attempting to wreck a train on the Boston, Concord & Montreal railroad, at Northfield, on Wednesday of last week, was arraigned in the police court in Concord, on Friday, and held in $300 for his appearance in the supreme court, and went to jail.

The repair shops of the Boston, Concord & Montreal railroad at Wentworth were burned on Friday night; the water house, wood shed and depot were saved. Cause unknown.

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1878, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

HOSTETTER'S

CELEBRATED

STOMACH

BITTERS

There seems to be no country under the sun where Dyspepsia is so prevalent as in the United States. Here the disease has become domestical, and is to be found in almost every household; and consequently such a household remedy as the Bitters is of inestimable value to the American people. As an invigorating, regulating and restorative preparation, suited to all climates and contingencies, it stands alone among modern medicines. For sale by all druggists and respectable Dealers generally.

AROUND HOME.

Lieut. C. A. Young, of the Roxbury Horse Guards, of Boston, was in this city on Saturday, with a view of making arrangements for a visit of that organization here sometime during the month of July.

The annual strawberry festival of the Ladies' Social Circle will be held in the vestry of the Univeralist church on Wednesday evening, June 25. Admission for adults 15 cents, children 10 cents. An interesting entertainment will be presented.

Mr. Frank A. Pickering, of Greenland, brought into market on Saturday the first green peas raised in this vicinity that we have seen this year; the seed was planted during the last snow-storm of the spring, and the fruit was picked just sixty-one days afterwards.

Dr. S. C. Whittier of this city has been chosen to deliver the address before the graduating class of the medical school at Dartmouth next year. Dr. Whittier read a paper on gynæcology before the assembled doctors in Concord last week, on the occasion of the annual meeting of the New Hampshire medical society.

A boy named George Parks, nine years old, fell overboard into the water-way at the south bridge, at about one o'clock Saturday afternoon; luckily he was swept against one of the tide-gates and managed to catch a hold, and was helped out by a young man passing at the time. Had he not caught the gate he would probably have been drowned, as the water was rushing through the sluice-way into the pond with great force, and would quickly have carried him beyond the reach of aid from the bridge.

The little steamer Mollie, belonging to Laighton Bros. & Co., of the Isles of Shoals, which during the summer runs as a ferry boat between Star and Appledore islands, and during the rest of the year is used as a means of communication between the Shoals and the main land, was put in thoroughly good condition last week, having a new stem put into her, her boilers overhauled, and everything about her put in perfect order, the carpenter work being done by Mr. Warren Keen of Kittery. Mr. Keen is now remasting the schooner Elizabeth M. Smith of this port, dismasted off Thatcher's island on the night of the 6th inst., and making general repairs on the vessel, which is lying at Mathes' wharf.

The Masonic celebration of St. John's day at Portland by the blue lodges will be a notable occasion. Sixty-seven lodges will take part, and also the grand lodge of Maine; and there will be nineteen bands in the line. St. John's Lodge of this city,—the second oldest lodge in the country, having been chartered in 1736,—will make a good show in the procession, a large number of the members having arranged to go, and many members of St. Andrew's Lodge with them. The party will leave on a special train at 7:15 o'clock Tuesday morning, and return by special train the same night. Half-fare tickets, for the brethren or citizens generally, can be procured at Rundlett's or Butler & Laighton's.

In the window of Dr. Preston's drug store is a *fac simile* of the ship Frank Jones, one of the best-built and staunchest vessels that ever left the Piscataqua river, as was shown by the tremendous pounding from the waves which she withstood before going to pieces, after she was wrecked on the rocks at the mouth of San Francisco bay through the parting of a hawser with which she was being towed to sea. The little ship in the store window was built and rigged by Mr. Wm. M. C. Philbrick of Kittery, formerly carpenter of the big ship; the hull, which is three feet long, was made from timber taken from the old lighthouse at Fort point, Newcastle, and built by scale from the model used in building the original; the spars were made from a piece of one of the ship's spars, taken from her after her wreck. The model, which is properly rigged, and fitted with boats, etc., to correspond with the ship it represents, is for sale. Beside it in the window is a photograph of the wreck of the Frank Jones as she lay on the rocks off the south shore of San Francisco bay; the hull in the picture measures three inches and a quarter in length, and the resemblance of the picture and model to each other can be readily seen even by persons who do not know which end of a ship the rudder is hung on.

The U. S. S. Kearsarge sailed at noon on Saturday for New York.

Rev. Mr. Pitblado will deliver a temperance lecture under the tent, this (Monday) evening; all are invited.

One hundred and fifty barrels of porgies were caught in the weir at Gerrish's island, Saturday morning,—the largest catch of the season.

The ship Calcutta, of 843 tons register, built at this port in 1868 by Mr. Wm. F. Fernald, and last metalled in July, 1877, has been sold on private terms to New York parties.

The contract for putting up new buildings on the town farm in Wells, to replace those destroyed a few months since, when the keeper of the farm and a pauper were burned to death, has been awarded to Mr. Sullivan Hatch of that town, at $1570.

Keen's mail-coach for Kittery point was loaded with passengers on Saturday, both trips; and judging from the number of three-story trunks with which the baggage-rack and top of the coach were ornamented, we should say that the summer travel to the point has fairly set in.

The Kennebunkers do not propose to allow the fourth of July to pass without some recognition in their village. A public meeting in the engine house of all persons interested in having a celebration was called for last Saturday evening, and was well attended. The projected programme includes an "Antique and Horrible" parade in the morning; a two-mile go-as-you-please foot-race during the day, for prizes; and afterward a tub-race and a glass-ball shooting-match.

During our absence from the office one day last week, some thoughtful but unknown friend came in, hunted up a mug, put in the same some water and a handsome bunch of the beautiful mountain laurel, in bloom, and placed the whole as an ornament on top of the Webster's Unabridged on our desk. The world is not wholly depraved, when a person is found to enter an editor's sanctum on some errand other than to get a puff or to demand "the name of the outrageous villain who wrote that infamous paragraph."

Messrs. Charles Chauncey and Fred Williams, of Kittery, while lobster fishing on Thursday evening of last week, capsized their boat in attempting to step past each other. They were rescued by a fishing schooner after being some time in the water, Mr. Chauncey being almost exhausted when picked up. On Friday afternoon a dory containing a man whose name we did not learn, was capsized not far from the Plymouth at the quarantine anchorage; he was picked up by a boat that put off to the rescue, and brought up to town by the steam collier Harrisburg.

THE NUBBLE LIGHT.

Notice is given by the lighthouse board that, on and after July 1st next, a fixed red light of the fourth order, lighting 300 degrees of the horizon, will be shown from a conical iron tower recently erected on York Nubble, Cape Neddick, Maine. The light should be seen at sea fifteen nautical miles. During thick and foggy weather, a bell will be struck by machinery, giving two blows in quick succession followed by an interval of thirty seconds, then a single blow, also followed by an interval of thirty seconds.

BAND CONCERT.

The Salem Cadet Band, Jean M. Missud leader, will give an open-air concert on Market square this evening, commencing at eight o'clock. The programme, which will require about an hour and a half to perform, is as follows:

1. March. "Dream on the Ocean.".....Reeves.
2. Valse. "Spring Flower.".....Bousque.
3. Selection. "H. M. S. Pinafore." Arr. by Missud.
4. Galop. "Tornado.".....Beyer.
   Cornet Obligato by Mr. J. Donigan.
5. Selection. "Lohengrin.".....Wagner.
6. Overture. "American.".....Catin.

U. S. COMMISSIONER'S COURT.

On Saturday forenoon a marine belonging to the U. S. S. Kearsarge, named Henry I. Leidy, hailing from Hellerstown, Penn., was arrested by United States Deputy Marshal Kent on a charge of purloining a registered letter containing $23, sent from London, in this State, to Randall & Caswell, the well known fish dealers at the Spring market in this city. Leidy has been acting as mail carrier between the post office and the Kearsarge. He was brought before Hon. Albert R. Hatch as commissioner, who after a partial hearing continued the case until Tuesday, the 24th inst., and the defendant went to jail in default of $200 bail.

POLICE COURT.

SATURDAY, June 21; *Batchelder, J.*

John Hughes, for drunkenness, was fined $3, costs $6.90. Brentwood in default.

Ann C. Cilley, formerly of Seabrook but more recently of the county farm, was arraigned for the larceny of two gold rings from the lady with whom she has been at service. When the rings were missed the girl was charged with stealing them, and acknowledged that she did so, but refused to tell what disposition she made of them; but after being locked up in the station house for some time she confessed that she had taken them to a house where she was accustomed to visit, and there they were found, together with a lot of other small wares of no especial value which the girl had pilfered, on search being made. She was sent to the county house of correction for six months.

The man and woman occupying the house where the goods were found were brought into court on a charge of receiving property knowing it to have been stolen; but as they denied that they had any guilty knowledge, and there was no legal proof to the contrary, they were dismissed with the advice from the court to be more careful in future about storing articles for persons of feeble reputation, without knowing that they were honestly obtained.

I. O. O. F.,--A CARD.

The Patriarchs of Mt. Sinai and Strawberry Bank Encampments, I. O. O. F., of Portsmouth, N. H., desire to acknowledge their indebtedness to the following parties for favors rendered them on the occasion of their excursion to Charlestown, Mass., on June 17th and 18th insts.:

To the management and employes of the Eastern railroad, for their liberality and especial courtesies;

To Naval Constructor John F. Hanscom, U. S. N., and lady, for their unexpected and very welcome lunch on the line of march;

To the proprietor and attaches of the Sherman house, Boston, for their unfailing attentions;

To the police of Station No. 2, Boston, for their escort to and from the steamer on the 18th inst.;

To the Dover cornet band, for their acceptable music and ready compliance with our every request;

And to the Patriarchs of Bunker Hill Encampment, and ladies, for their untiring attentions and endeavors to enhance the pleasure of our visit.

BARNUM'S GREAT SHOW.

The New York *Sun* thus speaks of Barnum's great show, which will exhibit in this city next Saturday: "The exhibition last night was really the opening of the circus. At eight o'clock every one of the 10,000 seats were occupied, and hundreds could find standing room only. The claim that it is the finest circus ever seen in America is not an exaggerated one. Every performer is a star, and the horses are trained to a degree of perfection rarely seen. Mme. Dockrill, as the 'Sprite of the Rainbow,' performs some dazzling feats, some of which are by no means within the limits of safety, and she went through her four-horse act splendidly. Mlle. Linda Jeal, 'the Queen of the Blazing Zone,' and Miss Emma Lake are both magnificent riders, the former urging her horse through flaming hoops. There is also the old-time clown, who cracks his jokes with the ringmaster, besides tumblers and jugglers, to add attractiveness to show."

AN EASTERN RAILROAD SUIT.

The counsel for the Eastern railroad company brought a bill in equity before Judge Morton, in the supreme court chambers in Boston, Friday, against the Merchants' national bank and James P. Cook, both of Salem, which raises a somewhat novel point as to the right of the courts to enjoin citizens of Massachusetts from prosecuting in another State a suit which could not be maintained in Massachusetts, and which, if maintained, would work injustice to other Massachusetts creditors of the Eastern railroad company. At the time of the reorganization of the Eastern road several years since, four notes, given to Cook, and aggregating $75,000, were among the liabilities of the carporation. After the reorganization under the act of the Massachusetts legislature had been effected, Cook declined to accept certain certificates of indebtedness which were tendered in lieu of the notes, and in the name of the Merchant's national bank of Salem began suit in New Hampshire to recover upon these four notes, attaching all the real and personal property of the corporation. The bill in equity of the Eastern railroad presented Friday was in substance an application for an order restraining the bank and Cook from prosecuting the suit in New Hampshire, upon the ground that, if successful, his suit here would injure other creditors in Massachusetts. Judge Morton issued an order of notice, returnable July 1st, requiring the bank and Cook to show cause why the application should not be granted.

TO OWNERS OF DOGS.

Extract from Chap. 16, Ordinances of the City of Portsmouth:

SECTION 1. No dog shall be permitted to go at large or loose in this city until the owner or keeper of such dog, or the head of the family, or the keeper of the house or place where such dog is kept or harbored, shall have procured from the city marshal a license for such dog.

SEC. 2. The city marshal shall grant a license to any citizen for his dog on the payment of one dollar for a male dog, and two dollars for a female dog, which license shall expire on the first day of July annually.

SEC. 4. The person named in each license so granted shall cause his name and the number of the license to be distinctly marked on a collar which shall be constantly kept about the neck of the dog so licensed, and no dog shall be considered as licensed unless this requisition shall be complied with.

SEC. 5. * * * any person may lawfully kill any dog found within the limits of this city going at large contrary to the provisions of the chapter.

SEC. 6. In case any dog shall be found loose or going at large contrary to any of the foregoing provisions, or in case any dog not licensed shall be provided with a collar marked as required in this ordinance, the owner or keeper thereof or the head of the family or keeper of the house or place where such dog is kept or harbored, shall upon conviction thereof be fined five dollars.

BUTLER & LAIGHTON

No. 1 Market Square.

Political.

John J. Kelley of Cincinnati, a democratic ex-councilman, was sentenced on Friday to imprisonment in the county jail for three months and to pay a fine of $500, for inducing a man to cast an illegal vote at the election in that city last fall.

The communist organizations in Chicago which have arms and ammunition graciously announce that they intend to comply with the State law, and disband if they are unable to secure license to retain their organization as armed and trained military bodies.

Protect the System from Malaria.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloid, sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional indorsements which it has received have added to the reputation it has obtained at home and abroad.

The expenditure of brain power too early or too severely in children often results in physical debility; the use of Fellows' Hypophosphites exerts a singularly happy effect in such cases.

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel. is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

No preparation of Hypophosphites I have used can compare with Fellows' Compound Syrup of Hypophosphites for restoring strength to the nervous system.

I think it the best medicine I ever used.
W. J. HORNER, Buffalo, N. Y.

I have derived much benefit from using Fellows' Hypophosphites in chronic constipation.
JOHN B. MOORE, Forest City, Montana.

Many clergyman who were obliged to withdraw from the pulpit on account of "Clergymen's Sore Throat," have recovered by using Fellows' Syrup Hypophosphites and are preaching again. This preparation seems peculiarly and wonderfully adapted to diseases of the breathing organs.

☞ "THE LIFE OF BARNUM," written up to 1879, sold on the ground for 50 cents, usual retail price, $1.50.

(*Successors to R. V. PIERCE, M. D.*)

DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the **INVALIDS' HOTEL.** The organization has been completed and incorporated under the name and style of **World's Dispensary Medical Association,** with the following officers:

Hon. R. V. PIERCE, *Pres.* F. D. PIERCE, *V. Pres.*
JNO. P. PIERCE, *Sec.* LESTER B. SMITH, *Treas.*

NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty.

CHRONIC DISEASES of all forms come within the province of our several specialities.

LUNG DISEASES.—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases treated with the most successful results.

DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.

NERVOUS DISEASES.—Paralysis, Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.

NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal examination. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book" (100 pages, 10 cents post-paid).

SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We also treat successfully, by a new method without surgical operation, Crooked, Club-feet, Spinal Curvature, and other deformities. (See pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.)

Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN

By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.

To designate this natural specific, I have named it

Dr. Pierce's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as **the chief or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** (For conditions, see pamphlet wrapping bottle.)

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not exist this medicine as a "cure-all," but it admirably fulfils a **staple one of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of *over 900 pages,* sent, post-paid, on receipt of $1.50. It treats intimately of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

Favorite Prescription sold by Druggists.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, GILMORE & CO., Solicitors, Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,207,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire no win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSIBLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.

The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good paying streaks, and well defined lodes.

Three of the leading mines are well opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.

The Company proposes to sell a portion of its stock at $1.50 per share for the purpose of more completely developing the mines, and for the erection of works for the treatment of its ores.

Applications for the stock may be made to the office of the Company, 51 Broadway, New York.

N. B.—*The Mining Record,* of New York, the highest mining authority in this country, says, Feb. 15, 1879: The principal owners in this company are hard working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing in one of the largest banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary. m&w22d&w3m

TO OWNERS OF DOGS.

Extract from Chap. 16, Ordinances of the City of Portsmouth:

SECTION 1. No dog shall be permitted to go at large or loose in this city until the owner or keeper of such dog, or the head of the family, or the keeper of the house or place where such dog is kept or harbored, shall have procured from the city marshal a license for such dog.

SEC. 2. The city marshal shall grant a license to any citizen for his dog on the payment of one dollar for a male dog, and two dollars for a female dog, which license shall expire on the first day of July annually.

SEC. 4. The person named in each license so granted shall cause his name and the number of the license to be distinctly marked on a collar which shall be constantly kept about the neck of the dog so licensed, and no dog shall be considered as licensed unless this requisition shall be complied with.

SEC. 5. * * any person may lawfully kill any dog found within the limits of this city going at large contrary to the provisions of the chapter.

SEC. 6. In case any dog shall be found loose or going at large contrary to any of the foregoing provisions, or in case any dog not licensed shall be provided with a collar marked as required in this ordinance, the owner or keeper thereof or the head of the family or keeper of the house or place where such dog is kept or harbored, shall upon conviction thereof be fined five dollars.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medicinal principles are obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and there fermented into life. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a vocalist, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack was severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one who has head ache, eye ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1878.

I have purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Ramford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Druggists have now been supplied with the public for the past, and will continue to supply the numerous number of medicines in the form of liniments, lotions, painkillers, and ordinary plasters, they have steadily increased in sale and met with universal approval, as proved by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been reported to us by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in every way, have been made, as suggested by experience and use, until it is believed that they are now the most perfect, and the *best plaster in the world of medicine.* All we ask from every sufferer in pain is a single trial. The price is 25 cents, although it is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the plaster in the world for the least money, any remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent these valuable medicines and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

STATE OF NEW HAMPSHIRE,

OFFICE OF THE

STATE TREASURER.

CONCORD, May 10, 1879.

IN accordance with the provisions of an act of the Legislature, approved August 9th, 1878, the undersigned will receive sealed proposals, until 12 o'clock, noon, on the 15th, prox., for three hundred thousand dollars ($300,000.00) New Hampshire five per cent. bonds, as follows:

$100,000 maturing July 1, 1889.
$100,000 " " 1, 1890.
$100,000 " " 1, 1891.

The above bonds form a part of a loan of $500,000, authorized for the purpose of refunding a portion of the State debt.

The bonds will be issued in pieces of $1000; dated July 1, 1879; interest payable semi-annually [Jan. and July] at the National Bank of the Commonwealth, of Boston. Bids will be received for the whole or any part of the above bonds; the State reserving the right to reject any or all bids.

The bonds will be ready for delivery, and payment must be made June 30th.

Bids should be securely sealed and addressed to

SOLON A. CARTER,
State Treasurer, Concord, N. H.
[Plainly marked] Proposal for State Loan, Issue of 1879.

Bonds registered if desired.

SOLON A. CARTER,
State Treasurer.

THE MALLORY

Patent Air Closet!

Superior to either Water or Earth Closets for General Use, and for the Sick Room, are indispensable

They can be set up in any Room, Hall-way or Closet, or at the Bedside of the Sick, and are warranted to be Perfectly Odorless.

Being thoroughly ventilated from the front, and connecting with the chimney, the disagreeable odors and poisonous gases are carried off into the chimney, instead of escaping into the room.

—FOR SALE BY—

JOHN P. SWEETSER,
46 Market Street,
PORTSMOUTH

Daily Chronicle.

Chronicle Correspondence.

BOSTON, June 21, 1879.

This has been a gala-week for music lovers, the annual commencement and alumni exercises of the New England Conservatory of Music having taken place. Two entire days and evenings were devoted to the various exercises, the regular commencement concert—given by the graduates,—and the awarding of diplomas being on Wednesday afternoon, and the alumni concert—by former pupils, now celebrated artists and teachers—on Thursday afternoon. On both occasions the immense Music hall was packed with eager audiences; the platform was a bower of fragrant bloom, and the performances were most successful in every respect. On Wednesday evening, Bumstead hall, under Music hall, was filled with pupils and invited guests, to listen to an interesting lecture on music, delivered by Ex-President Hill of Harvard; harp selections by Mr. Aptommas, and the excellent reading of an appropriate poem by Mr. Elmore A. Pierce, one of Prof. Kelley's most successful pupils in elocution, delightfully varied the programme. On Thursday evening the climax of the whole anniversary was reached, by the reception given by the class of '79 to the alumni, and other guests, among whom were numbered many celebrated musical people, some of whom came many miles to be present. The whole immense Music hall building, in which the Conservatory is located, was thrown open and brilliantly lighted, while the Germania orchestra played delightfully the whole evening. In couples, groups or larger companies, the old pupils wandered through the long corridors and into the once-so-familiar class-rooms which they had not visited before for years. But there seemed to be no sad memories, for everybody was bright and happy and gay, and in their best clothes; and singing, laughter and merry voices sounded throughout the great old building from top to bottom. A just-opened music-store on the ground-floor—the enterprising Dr. Tourjee's last pet hobby—was christened on that evening, and at just the very nick of time, when possibly people might have begun to wonder what they should do next, the banquet hall was thrown open, and all the dainties of the season were partaken of by all with infinite relish, the charming Germanias, having transferred their location, playing their prettiest all the while. It was throughout, one of the prettiest affairs of the season.

But the business meetings of the alumni association, held on Wednesday and Thursday evenings, I have left till last, because I think one thing they did is of even more real importance than anything else of the whole week. That was the establishment of the fund in aid of needy pupils, to which the first subscriptions were made. This is certainly a great move, for how many there are in this great country of ours, with its nature-endowed people, who are wasting talents of greatest merit, because it is impossible for them to get the means for their cultivation. I have heard the Doctor say that the most heart-rending letters, begging for assistance, for work of any kind, however menial, so only that they might pursue the one darling object of their hearts, come to him daily; and in fact, hundreds of the pupils who have studied there the past year, have only done so through their own exertions in teaching, choir-singing, clerking, copying, sewing, waiting on table at hotels and restaurants, and in countless other ways. Very many who cannot afford to pay regular board, hire a cheap furnished lodging-room in some respectable house where they can have kitchen privileges, and "board themselves," two or three taking the room together, and sharing also the expense of their somewhat scanty eatables, and the work of preparing them. I know two young men who have brought their expenses down to $2.50 each per week, of which half went for room-rent and half for food!

I said the excercises were concluded, but this is not quite correct, for this afternoon the graduates of Prof. Kelley's school of elocution, connected with the Conservatory, gives an entertainment in Wesleyan hall, which will be not the least interesting feature of the week, for of a certainty, wonderfully good readers are trained up in this establishment. I am growing to respect and admire elocution as an art more and more every time I attend one of these entertainments.

But I have another subject to write you about, and must hasten, or time will fail me. To be sure, the weather is very cool and pretty just now, but the first thing we shall know, hot weather will be upon us again with a bound, and fans will be the grand object in life. Trying

to be in season for once, and hearing that the senior member of the firm of A. Stowell & Co. had just returned from Europe with the latest and prettiest devices in fans as in jewelry, hair ornaments and various other pretty things, I begged a glance at them a day or two ago. The first fan shown me —oh! shades of Little Buttercup!—was the "Pinafore" fan, with its outer sticks in form of oars, and a picture of ships and billows painted on its silk. "All the rage;" particularly pretty, I think, for the seashore, and very serviceable. Then the "Dolly Varden" fans are just the thing to go with the new Dolly Varden dress-goods, which, alas! we call mummy-cloths! Rich, showy fans of garnet or white satin, gilt sticks, and feather edge tipped with tiny gleaming bits of gold or rainbow tinsel, which droops in a fringe over the fan and presents a really bewildering effect in the evening. I suppose the tinsel will lose off, but that is the way in this false, fleeting world, you know; the tinsel always does drop off—but then, one tires of it by that time. I saw an exquisite fan, in old-time style,—price $9.50—with a delicate old painting on its silken face, and plain ebony sticks, in the outer ones of which, pale blue silk panels were sunk, painted with floating angels. Just the loveliest thing!

The horse-shoe is the emblem of the day most emphatically, for it is repeated continually in every kind of jewelry from the richest to the cheapest and most trifling. An exquisite set of horse-shoes in mosaic, form pin and earrings, the doubled whip of gold from which the shoe is pendant, forming the long slender bar-pin which is the only fashionable pin now. Another set with dainty conch-shell shoes in its pearly-pink; shoes set with turquoises, and shoes set with paste diamonds.

Oh! those paste diamonds! We are doing the grandfather and grandmother all over again. Ever since the Centennial balls and Martha Washington parties, where everybody came out in the oldest clothes they could muster, the heart has been turning longingly toward the paste shoe-buckles, and belt-buckles and hair ornaments, and now we have them, in best solid silver setting, the real old article, and they are emphatically the newest fashion. There are lovely things among them, and of course if it is the fashion to wear them, and nobody pretends they are real jewels, it is all right. It is the style to wear many and varied hair-ornaments, and the greatest variety of fancies in shell, jet, gilt, silver, ivory, pearl, etc., are shown, in form of combs, especially side-combs, daggers, arrows, bangle-hair-pins, coronets, bands, and so on *ad infinitum*. And they are so pretty, every one, that the trouble is to choose. But "beauty unadorned" is decidedly out.

Only one new book this week,—but this one is of immense dimensions, being the new edition of Webster's Unabridged, with 4600 new words, and a new Biographical dictionary included. It is worth forty ordinary books—in fact it is to the scholar what the Bible is to the religious, and *Harper's Bazar* is to the ladies. ROBIN.

Portsmouth Chronicle

TUESDAY, JUNE 24, 1879.

The Confederate Senate.

During a debate in the Senate on the army bill, Friday, Senator Vest of Missouri denied that there was any systematic intimidation of the colored republicans in the southern States, and said that the negro exodus was caused and fostered by false representations made to the colored men by northern republicans. Mr. Vest's attention having been invited to the remarks of Ex-Gov. Foote in the convention of southerners called to consider the exodus, he said:

Oh, yes. I have heard of Gov. Foote. I had the honor, whatever the gentlemen may think of it on the other side, of serving in the confederate Congress with Gov. Foote. He had the same extraordinary facility, then as now, of being on one side and talking on the other. He is an appointee of President Hayes, confirmed by the confederate Senate, and has taken up his residence, as director of the mint, at New Orleans.

There was some laughter at this, and on being questioned by Senator Blaine the Missouri senator said that he inadvertently used the term "confederate Senate," and that he meant the one in which he now sits. We cannot see that any explanation was necessary, for the principles which guided the rebel Senate and House of Representatives now rule the Congress of the United States, and the men who led in the former now dictate the course of the latter, and would have entire control of the Nation were it not that a Union soldier stands between them and the absolute supremacy of the once-thought-to-be-dead confederacy.

A Notorious Vessel.

The notorious schooner Jefferson Borden, which attained such a world-wide and evil fame three or four years ago on account of the bloody mutiny which occurred on her decks while in mid-ocean, was again in trouble in Boston last week. William M. Patterson, who commanded the vessel at the time of the meeting, still has charge of her; and his mate, Joshua K. Trask, seems to be a fit subordinate for such a commander. The schooner was attached some time ago by an insurance company, and the United States marshal put a keeper on board, and told Patterson the best thing he could do was to behave himself, as his character was well known at the United States court house. There was no serious trouble until last Friday, when Patterson and his worthy mate undertook to take the schooner to sea in spite of the United States officials. The keeper hastened to the court house with the news of what was going on, and Deputy United States Marshal Gallupe hurried to the vessel, where he was savagely attacked by the ruffianly captain and his equally ruffianly mate; in the struggle that ensued Gallupe tore a good part of the clothing off his assailants' backs, gave the skipper a good mauling, and pretty well used up the mate, the latter of whom he finally succeeded in putting in irons. Patterson, the captain, suddenly recognized a deputy marshal named Enos, who was hastening to his brother officer's aid; and as Mr. Enos once before arrested Patterson, and gave him a sound thrashing at the same time, the bullying skipper climbed on the wharf and took to his heels, escaping for the time being. Trask was arraigned on Saturday for obstructing an officer in the execution of his duty, and held in $500 for further examination. The captain, as soon as he got clear of Mr. Enos, hastened to the office of the insurance company's attorney and settled the claim against the vessel, which was then taken into the stream. A number of deputy marshals were on the watch for Patterson on Sunday and Monday.

Another Veto.

The President on Monday forenoon announced to the House that he had signed the army appropriation bill, and at the same time sent in a message vetoing the "little judicial bill."

News and Notes.

Prescott, the murderer at Portland, was on Saturday morning sentenced to the Maine State prison for life. When called upon to speak in his own behalf, he said his first confession was false, and that Nell Pray committed the murder, while he only participated it concealing the body.

In Lebanon, Me., Thursday evening, Lewis Gerrish made a desperate assault upon J. M. Gerrish with intent to kill him, cutting a deep gash in his throat and neck. Cause, an old grudge. Lewis was committed for trial, after which he took a dose of strychnine, which nearly proved fatal, and would have done so if an antidote had not been administered.

Frederick Conway, son of James Conway of Lowell, Mass., died Saturday morning from the effects of being burned Friday afternoon while lighting a cigarette.

"Johnny Hope" was on Saturday found guilty of complicity in the Manhattan bank robbery; a motion was made for a new trial, and Hope was remanded to jail until the motion is argued.

Thomas McCleas, aged twelve years, and Oliver Keith, aged thirteen, were drowned in the Charles river at Norfolk, Mass., Saturday night, and John Anderson, aged eighteen, was drowned at North Scituate on Sunday, while bathing.

Charles H. Bragg of Wilton committed suicide with a shot-gun at Gardner, Mass., on Sunday. He was forty years old, and was depressed at being out of work.

Two men were killed and another fatally injured by a fall of three hundred feet, down a coal mine at Williamstown, Pa., Monday, by the breaking of a chain.

A "private" military company in Chicago, while picnicking on Sunday, had a difficulty with some unarmed citizens, and first charged upon them with fixed bayonets, and then fired upon them, badly wounding a number, one of whom has since died. According to another account the military acted solely in defence of a Bohemian Sunday school, which was attacked by a crowd of roughs.

Unknown parties attempted to assassinate Isral Atkinson in the street at Sackville, Nova Scotia, on Wednesday night of last week; a number of shots penetrated his body, several going through his lungs. At Wolfeville, N. S., Wednesday night, Bessie Harris was fatally shot by Dr. Albert Dewolf. Two years ago the deceased secretly married Dewolf and afterward separated from him. Lately Dewolf had proposed a reunion, which she refused.

Emma Sands, the Vermont runaway, has so far recovered her senses as to recognize her friends and relatives. She speaks of her runaway escapade as a terrible dream. She was removed to her home Sunday, and her ultimate recovery is probable.

Daniel F. Sullivan has been found guilty, at Philadelphia, of murder in the first degree for killing Josie Irvin.

Miss Olive C. Holmes, daughter of Judge S. N. Holmes of Syracuse, N. Y., and neice of Hon. Allen C. Beach, and Alfred T. Sanford, son of Prof. H. H. Sanford of Chicago university, were drowned in Onondaga lake Saturday. They were rowing in a boat, and in trying to change places in the boat were capsized.

Philip Lutz, seventy-eight years old, laid down in front of a passenger train on the Derby railroad about half a mile from Orange station, Conn., Saturday afternoon, and had his head and one leg cut off. An inquest was held at Orange, and a verdict of suicide was rendered. The jury exonerated the railroad company.

A new counterfeit $5 legal tender note has made its appearance in western New York. It is of the series of 1875, and bears the names of Allison, and Wyman, treasurer. It is executed or printed on imitation of fibre paper, which is lighter than the genuine. The portrait of Jackson is good, but the general appearance of the note is bad. The bankers pronounce it a dangerous counterfeit. A quantity of the spurious money was passed Saturday at Buffalo, and later several "shovers" were arrested at Dunkirk. The notes were probably issued from some Canadian point.

New Hampshire Items.

One Thomas Gough, together with two men named Burroughs, being refused admittance to a saloon in Bethlehem on Saturday evening, smashed in the windows and afterwards assaulted police officers Blondin and Bean, who attempted to arrest them, beating them terribly. They were pursued to Lunenburg, Vt., where one of the Burroughs brothers was brought to bay by a shot from an officer's revolver, but the others escaped to the woods, one of them receiving a bullet in his back. Vermont officers are on the alert and will probably soon effect their capture.

The dwelling-house and farm buildings of Mr. Nason, near Campton village, were burned Saturday night, together with a quantity of furniture, a lot of fodder and one hog. The fire is supposed to have caught from a defective chimney. Loss about $3500; insurance $2300.

—When a boy sees a nice round smooth stone lying on the ground, he always thinks it rather mean that there isn't a yellow dog in the vicinity.

Wanted,

A first-class COOK, in a family of two; good wages to be given. Apply at this office.

High School Notice.

THE EXAMINATION for admission to the High School will be holden on MONDAY, June 30th. Each candidate is directed to be present, with slate and pencil, in the Principal's Room, at 8 o'clock A.M.

31 J. R. MAY, for the Committee.

Letters for the night mails [and no others] east or west may be deposited in the box at the Eastern depot, every day except Sundays.

E. G. PEIRCE, JR., P. M.

AROUND HOME.

The New Hampshire national bank has declared a dividend of three and a half per cent, payable July 1st to stockholders of the 30th inst.

Representative Campbell of Newcastle has given notice to the legislature of a bill for the reduction of the State and county tax of Newcastle.

On and after Sunday next, until further notice, the Eastern railroad will run to this city a Sunday train, which will arrive at 11:15 o'clock A. M.

Messrs. Butler & Laighton have contracted for 4700 boxes of strawberries, and will receive them fresh every day, in quantities to suit the demand.

Daniel Cotton died at the city almshouse on Sunday morning last, at the age of about seventy years, and was buried on Monday, Volunteer Missionary Loyne performing the burial service. Mr. Cotton was a great sufferer for some weeks previous to his death.

The schooner Benjamin Reed, Reed master, which sailed from this port for Boothbay on Monday, while going down the river ran into and wrecked a boat belonging to Patrick Kiley. The vessel was detained for a short time, but was soon released on security being given for the payment of damages.

The new lighthouse on the Nubble at Cape Neddick is painted red, and the dome black; the keeper's dwelling, a story-and-a-half wooden house fifty feet north of the tower, is painted white. The lighthouse is forty feet from base to focal plane; heights of focal plane above the sea level ninety-two feet.

Letters received on the 23d inst. from Capt. Dunphy, of the schooner "Mayor Jones" of this port, report that vessel at Bay of Bulls, Newfoundland, June 15th, with eight hundred quintals of cod-fish; all well, and vessel "baited" for another cruise on the grand banks. A letter was also received on the same day from Capt. Frost of the schooner "Velocipede," dated Placentia, N. F., June 4th, reporting her in that port with nine hundred quintals of fish, and vessel "baited" and ready for sea. This is good fishing.

When the Masonic celebration took place in this city, June 24th, 1855, one of the gentlemen participating wore a coat made for him by Mr. William P. Walker expressly for the occasion. That coat is yet in existence, and is a good coat still, notwithstanding its advanced age and the fact that it has seen a good deal of service since its first appearence in public twenty-four years ago; and that same coat goes to Portland to-day on the back of its owner, who marches in the Masonic procession with St. John's Lodge, No. 1, of this city.

A party of twenty-eight gentlemen took a trip outside the harbor Monday in the schooner Helen F. Tredick, by invitation of the vessel's owner, and had a very enjoyable time. An early start was made, and the fishing grounds were soon reached and materials for a chowder pulled in. A visit was made to Boon island; a chowder was served on board the schooner; then there was some more fishing, and then the vessel ran for home. Arrived at the mouth of the river the wind died away, and a passing porgie steamer was hailed, and towed the schooner up to the wharf.

About two years ago, it will remembered, Mrs. Bennett of Newmarket junction was shot in the thigh by a tramp named Richard Daly, because she refused to give him money to buy tobacco after she had given him a breakfast, for which crime he received a ridiculously light punishment of a few month's confinement in jail. On the trial of the scoundrel Mrs. Bennett minutely described the pistol with which he shot her, but it could not be found, and the failure to find it was a principal reason of his getting off so easily. A few days ago a pistol exactly corresponding to the one described by Mrs. Bennett was found buried beside a tie on the railroad track, at a point where Daly was seen to stop when he was fleeing from Mrs. Bennet's house; one chamber of the revolver contained an empty shell, and the calibre is the same as the bullet extracted from Mrs. Bennet's thigh. There is no doubt but the pistol was Daly's, and was buried by him where it was found. Had Gen. Marston's excellent tramp law been on the statute books two years ago, the murderous bummer could have been sent to State prison for fifteen months on the evidence as presented, even if the pistol could not have been produced in court.

The Newmarket cornet band dissolved on Monday evening of last week.

W. H. Downs of South Berwick, Me., pulled bow oar in the winning four-oared and pair-oared boats (Atalanta) in the recent Harlem regatta.

Arrangements are being made for a firemen's muster in Great Falls, July 4th. It will be open to all hand-tubs in York and Strafford counties. Subscriptions are now being raised to defray the expenses of the undertaking.

The Hon. Mr. Perkins who has just been nominated by the republicans of California as their candidate for governor, is a native of Kennebunkport, and a son of Mr. Clement Perkins, now residing there. He has been in California about twenty-five years.

Two new patent automatic refrigerator cars, of the Zimmerman pattern, built at the Eastern railroad car shops in Salem, Mass., and numbered forty-eight and forty-nine, have just been added to the rolling stock of the Eastern road. They are intended for the transportation of fresh meats.

The first regatta of the Newmarket yacht club came off on Tuesday of last week; two catamarans, three yachts and one whaleboat took part, the race being won by the Phantom, one of the yachts. One of the yachts ran on a rock, and one of the catamarans had to stop in the middle of the race to clear her boat of the water which had filled it.

A DEAD-BEAT.

During the past week a gentlemanly-appearing young fellow, of good address, managed to victimize a number of charitably-disposed ladies in this city. Having by some means informed himself as to whom among them would be most likely to sympathize with and generously assist a person in trouble, under the pretence of selling needles he would call upon them, and skillfully secure a chance to tell a plausible story of his suffering from sickness, his efforts to obtain an education, and his forced abandonment of that darling desire of his heart on account of his ill health. This was the ground-work of his story, but he had on hand a large and select assortment of incidents connected with his sorrows, and varied his narrative at each place where he called; he was also afflicted with a most distressing cough when in a house or on a door-step, but this would at once be alleviated when he reached a point in the street out of sight of the house. His pitiful yarns and "evident ill health" so worked on the sympathies of the ladies upon whom he called, that many of them aided him by purchasing needles enough to last them for several centuries apiece, and in not a few cases by making him liberal gifts of greenbacks of the realm. The fellow was in this city last year on the same errand, but did not operate quite so extensively as this year; his story has also been revised, corrected, improved and enlarged since last year, and the place to which he desires to go as a last hope of saving his life has been changed; last year his only hope was in Colorado; this year he thinks a prolonged visit to the White Mountains may possibly save him from becoming a martyr to his zeal for study. He gives the name of Harry Goodwin, this year, having changed it since his previous visit; what it was last year we have not been informed, but it wasn't Harry Goodwin.

THE BAND CONCERT.

The fine concert by the Salem Cadet band drew a very large concourse of people to Market square and its immediate vicinity, Monday evening; the warmth of the evening made existence out of doors more comfortable than in, and the pleasing programme of the concert was performed by the band in a way that proved the high repute of the organization to be well deserved. The concert occasioned much pleasure, and was well received by the listeners.

After the concert the band serenaded Ex-Gov. Goodwin, who acknowledged the courtesy in a very neat and appropriate speech. Mayor Sise was then similarly complimented, and responded by a brief address. The bandsmen were then invited to Freeman's saloon by the mayor, for refreshments.

FIRE DEPARTMENT MATTERS.

At a meeting of the committee on fire department and board of engineers, held Monday evening, it was decided that the new steam fire engine shall take the place of the Moses H. Goodrich, No. 4; the latter will be stationed in the engine house on Hanover street, now occupied by the Dearborn, No. 1.

A meeting of the members of Kearsarge steam fire engine company, No. 3, was held Monday evening, to which the officers of Sagamore and Moses H. Goodrich companies were invited, to discuss the feasibility of having a trial of the engines on the 4th of July. A committee of five was appointed from the Kearsarges, to act in conjunction with committees from the other companies to be appointed Wednesday evening.

THE GOSPEL TENT MEETINGS.

The meetings in Elder Arthur A. Waite's gospel tent, last week, were very largely attended. On Saturday afternoon there was a children's service, at which five hundred mottoes, painted on ten, were distributed among the young folks present.

At the evening meetings during the latter part of the week, small envelopes were handed to the persons composing the audiences, each containing the following appeal:

Should this fall into the hands of a friend, I would state that a debt of $225 is still on this tent, and I do most earnestly beg of you to enclose an offering, and return this envelope at the Sunday afternoon (four P. M.) gospel meeting. Should the amount be raised, the tent will remain the next week for dedication.

ARTHUR A. WAITE, *Evangelist.*

Sunday afternoon there was a very large audience in the tent, and a considerable sum of money was handed in, in the envelopes. Sunday evening the tent was again crowded, and more money was contributed; the total amount collected during the day was $130.

Monday evening Rev. C. B. Pitblado delivered a temperance lecture in the tent, and there was a fair attendance, though the counter attraction of a concert on the Parade by the excellent Cadet band of Salem, Mass., no doubt kept away many who would otherwise have been there.

On Wednesday evening Mr. Waite will deliver a lecture on "The powers that win," for the benefit of the tent fund, illustrating the lecture by character-faces drawn in presence of the audience; tickets can be procured at Montgomery's music store, and the number will be limited to the seating capacity of the tent.

THE HIGH SCHOOL EXHIBITION.

The annual exhibition of the high school takes place on Thursday afternoon of this week, in the school room; in the evening the graduating class will have a reception and levee in Congress hall. The following notice explains itself:

HIGH SCHOOL, June 23d, 1879.

Circumstances compel us to hold our exhibition in the school room. We have issued but three hundred tickets, and can invite only a few of the friends of the school. We regret this, and hope another year will find us with better accommodations.

S. W. CLARKE, *Principal.*

Candidates for admission to the high school will be examined on Monday next, the 30th inst. Candidates are instructed to present themselves at the principal's room in the high school building at eight o'clock on the morning of that day, provided with slate and pencil.

The fifth reunion of the High School Association will be held in the autumn this year instead of the hot month of July, as in years past.

CITY ORDINANCES.

AN ORDINANCE making appropriations for the year 1879.

Be it ordained by the City Councils of the City of Portsmouth as follows:

There shall be raised and is hereby ordered to be raised on the polls and estates of the inhabitants of this city and non-residents, to pay the current expenses of the city for the year ending December 31, 1879, and to pay such debts of the city as are required to be paid the current year, the sum of one hundred and twenty-nine thousand dollars, which, with the sums to be received from the railroad and savings bank taxes and other income of the city, shall be appropriated as follows:

State tax	$20,263
County tax	27,700
City debt	5,000
Interest	3,600
Salaries of city officers	5,000
Streets	7,935
Fire department	9,000
Support of the poor	4,000
Police	1,500
Watch	4,200
Street lights	2,400
Repairs and rents of school-houses	1,500
Printing	600
Roads out of the compact part of the city	1,500
Repairs of bridges	100
Schools, in addition to literary fund	20,000
Sidewalks	700
Sewers	2,500
Sprinkling streets	500
Health committee	200
Celebration of independence	180

Repairs of almshouse and buildings	100
Contingent	4,000
Land damages	400
Collector's commissions	300
Discount on taxes	6,600
South millpond	7,710
North millpond	1,000
Extra appropriation for Fire Department:	
For purchasing hose	1,184.33
For new Steam Fire Engine	3,500.00

Passed May 29, 1879.

ARTHUR F. PFEIFFER, *President Common Council.*

WILLIAM H. SISE, *Mayor.*

A true copy, Attest,

D. J. VAUGHAN, *City Clerk.*

AN ORDINANCE making transfers of Appropriations.

Be it ordained by the City Councils of the City of Portsmouth as follows:

SEC. 1. That all money arising from the taxation of dogs remaining in the treasury of this city at the last city election, which has not been ordered to be paid for damages to domestic animals, shall be transferred and applied for the support of schools, agreeably to chapter 18 of the laws of 1876.

SEC. 2. That all unexpended balances of appropriations December 31, 1878, be transferred to the account of Contingent Expenses; and that such sums as may be needed for the purpose shall be transferred from the account for Contingent Expenses to supply deficiencies in various accounts; provided that the money held for payment of coupons on city bonds shall not be transferred.

Passed May 29, 1879.

ARTHUR F. PFEIFFER, *President Common Council.*

WILLIAM H. SISE, *Mayor.*

A true copy, Attest,

D. J. VAUGHAN, *City Clerk.*

JOINT VOTES authorizing Discounts on Taxes, and directing when notice shall be given to all persons whose taxes then remain unpaid.

Voted by the City Councils of the City of Portsmouth, That the inhabitants of this city and non-residents who shall pay to the collector of their taxes for the year 1879 within thirty days next after the assessors shall have committed to him the said collector the lists of assessments of taxes for this city, shall be entitled to a discount of six per cent on their said taxes; and such persons as shall pay their said taxes within sixty days after the time aforesaid, shall be entitled to a discount of four per cent on the amount of their said taxes; provided, that no discount shall be allowed to any person until the whole tax of such person for the year is paid.

Voted further, That the collector of taxes shall, four months after he shall have received the lists of assessments of taxes from the assessors, issue notices to all persons whose taxes shall then remain unpaid, stating the amount of the same, and that if the same shall not be paid, with twenty cents for such notice, within fourteen days thereafter, the collector shall distrain for the same.

Passed June 12, 1879.

ARTHUR F. PFEIFFER, *President Common Council.*

WILLIAM H. SISE, *Mayor.*

A true copy, Attest,

D. J. VAUGHAN, *City Clerk.*

ROYAL

BAKING POWDER

Absolutely pure—made from Grape Cream of Tartar, imported exclusively for this Powder from the Wine district of France. Always uniform and wholesome. Sold only in cans by all Grocers. A pound can mailed to any address, postage paid, on receipt of 60 cents. ROYAL BAKING POWDER CO., 171 Duane St., New York. Most cheap powders contain alum; dangerous to health; avoid them, especially when offered loose or in bulk.

BUTLER & LAIGHTON

No. 1 Market Square.

Political.

The President has withdrawn the nomination of Secretary McCrary as successor of Judge Dillon, of the 8th circuit.

The workingmen's convention of San Francisco last week fully "exonerated" their candidate for mayor, "Rev." Isaac S. Kalloch, from the charge of immorality during his pastorate in Boston many years ago. The vote to "exonerate" was one hundred and four to one.

The grand jury of Harris county, Texas, recently passed resolutions that Gov. Roberts in commuting the sentence of two murderers was guilty of an outrage; that his action is subversive of peace and perilous to the life of citizens; that he has defeated the ends of justice; that he is utterly unfit for the position he occupies, and is an upholder of infamous and dangerous crime. At an indignation meeting of citizens Gov. Roberts was heartily denounced, and resolutions adopted demanding his resignation.

Right Time To Operate In Stocks.

By recent communication with prominent stock operators, we learn that now is a favorable time to take advantage of the stock market, by the new combination method of Messrs. Lawrence & Co., the New York bankers, who have been so remarkable successful heretofore. This system is founded on correct rules of finance and is universally approved by the shrewdest operators. The orders of thousands of customers are massed into one immense capital, and operated as a great whole, dividing profits *pro rata* every month. In this way any customer can invest from $10 to $10,000 with equal proportionate success, and at the same time gain all the advantages of largest capital and best skill in manipulating the market. This firm's new circular has "two unerring rules for success" and full explanations. $50 will make $250, or 5 per cent.; $600 will return $3,000, and so on, according to the market. Stocks and bonds wanted. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, New York City.

Protect the System from Malaria.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloid, sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional indorsements which it has received have added to the reputation it has obtained at home and abroad.

The expenditure of brain power too early or too severely in children often results in physical debility; the use of Fellows' Hypophosphites exerts a singularly happy effect in such cases.

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

No preparation of Hypophosphites I have used can compare with Fellows' Compound Syrup of Hypophosphites for restoring strength to the nervous system.

I think it the best medicine I ever used.

W. J. HOXNER, Buffalo, N. Y.

I have derived much benefit from using Fellows' Hypophosphites in chronic constipation.

JOHN B. MOORE, Forest City, Montana.

Many clergymen who were obliged to withdraw from the pulpit on account of "Clergymen's Sore Throat," have recovered by using Fellows' Syrup Hypophosphites and are preaching again. This preparation seems peculiarly and wonderfully adapted to diseases of the breathing organs.

BARNUM'S GREATEST SHOW ON EARTH.

"See the Conquering Hero Comes!"

P. T. BARNUM'S

OWN AND ONLY

Greatest Show on Earth!!

GREATEST IN EXTENT! GREATEST IN ATTRACTION!
GREATEST IN VARIETY! GREATEST IN PURITY!
BEST IN ALL THINGS! WITHOUT A RIVAL IN ANYTHING!

WILL EXHIBIT IN

PORTSMOUTH, SATURDAY, JUNE 28TH AFTERNOON & EVENING.

ALL THE GREAT ATTRACTIONS WHICH MAKE THE TENTING SEASON OF 1879, BARNUM'S CROWNING GLORY,
Will be presented at each exhibition, including,

THE TROUPE OF TWENTY PEERLESS STALLIONS.

Imported by Mr. Barnum from the Royal Stables of Germany, Italy, and Russia at a cost of $250,000, introduced and exhibited by their accomplished trainer, Mr. CARL ANTONY, the acknowledged unequalled horseman of the world.

THE LARGEST & RAREST MENAGERIE
Ever seen outside of the Zoological Gardens of England and the Continent.
FIFTY CAGES OF ANIMALS,
Birds, Monkeys and Reptiles. Only Coal Black Dromedaries ever exhibited in any civilized country. A milk-white Camel, only one in America.

THE LARGEST HERD OF ELEPHANTS
Ever exhibited together, and more than all the other shows in this country combined.
TWO-HORNED RHINOCEROS!

A Peerless Circus,
OF ONE HUNDRED ACCOMPLISHED PERFORMERS,
In an entirely New Programme, combining all that is Thrilling, Daring, Sensational, and Beautiful in feats of Horsemanship, Acts of Strength and Skill, and Classic Physical Contest.
Signor Sebastian - - - - - The Champion Male Bareback Rider of the Globe!
EIGHT LADY RIDERS, Led By

THE EMPRESS OF THE ARENA, MADAME DOCKRILL,
In her beautiful single bareback act and her thrilling and electric act on five horses.
— In addition to the Great —
ARTISTIC Mlle Linda Jeal, Sebastain, Signora Marcellus, Miss Katie Stokes, Emma Lake, Miss Holloway, **PLEIADES**
In a series of SPECIAL THRILLING BAREBACK ACTS.

A MUSEUM OF THE WORLD'S MARVELS AND CURIOSITIEL!
FIFTY THOUSAND RARE OBJECTS, and the most Wonderful Living Curiosity in the person of CAPTAIN COSTENTENUS, *The Tattooed Greek Nobleman,* whose body from head to foot is covered with the most elaborate designs, representing over Seven Hundred different figures.
COLONEL GOSHEN, *The Palestine Giant,* over eight feet high, the largest and best-formed Giant.
LITTLE QUEEN MAB *The smallest and prettiest Dwarf in the world.*
THE MYSTERIOUS LADY.
ONE TICKET admits to the Menagerie, Museum, and Circus and the Wonderful Exhibition of the TWENTY TRAINED STALLIONS thus making it the Cheapest and Best Entertainment ever presented to the public.
A Seating Capacity of Ten Thousand. On the morning of the day of exhibition a GRAND STREET PAGEANT Of Unusual Extent and Great Magnificence, will pass through the principal streets. One of the features of this Scene of Processional Splendor, will be the appearance of the HERD OF ELEPHANTS, and 16 of the 20 stallions in Procession.
Doors open at 1 and 6.30 p. m. Performance at 2 and 8 p. m., thus giving an hour and a half to view the Menagerie and Museum, before the evening performance begins. ADMISSION 50 CENTS. Children under 9, half price. RESERVED CHAIRS, 25 CENTS EXTRA.
For the accommodation of Ladies, Children and all those who desire to avoid the crowds surrounding the ticket wagons on the show grounds, Mr. Barnum will open a Ticket Office for the sale of Tickets and Reserved Chairs, at *Preston's Drug Store* at the usual slight advance.
Ladies, Children and others wishing to avoid the crowds in the evening are advised to attend the Afternoon Exhibition.
☞ Excursion Trains on all Railroads on the day of exhibition.
☞ "THE LIFE OF BARNUM," written up to 1879, sold on the ground for 50 cents, usual retail price, $1.50.

INCORPORATED JANUARY, 1878. WORLD'S DISPENSARY MEDICAL ASSOCIATION. BUFFALO AND LONDON. CAPITAL STOCK $1,000,000.

(Successors to *R. V. PIERCE, M. D.*)
DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary Medical Association, with the following officers: HON. R. V. PIERCE, Pres. E. D. PIERCE, V. Pres. JNO. E. PIERCE, Sec. LESTER H. SMITH, Treas.
NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty.
CHRONIC DISEASES of all forms come within the province of our several specialties.
LUNG DISEASES.—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Tracheal, and Lung Diseases are treated with almost successful results.
DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all Gynecic diseases peculiar to females.
NERVOUS DISEASES.—Paralysis, Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.
NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Advisor" (1,000 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book" (100 pages, 10 cents post-paid).
SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We also cut successfully, by a new method without surgical operation, Cancers, Club-feet, Spinal Curvature, and other deformities. Our best pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.
Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN
By an immense practice at the World's Dispensary and Invalids' Hotel, by having treated ninety thousand cases of those diseases peculiar to woman, I have been enabled to perfect a wonderfully efficacious remedy for these diseases.
To designate the natural specific, I have named it
Dr. Pierce's Favorite Prescription
The term, however, is but a feeble expression of my high appreciation of its value, based upon personal experience. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** (For conditions, see pamphlet wrapping bottle.)
The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not sell this medicine as a "cure-all," but it admirably fulfils **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.
Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to females, and gives much valuable advice in regard to the management of those affections.
Favorite Prescription sold by Druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., Successors to CHIPMAN, GILMORE & CO., Solicitors. Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fee for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,397,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSABLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.
The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.
Three of the leading mines are well opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.
The Company propose to sell a portion of its stock at $1.50 per share for the purpose of more completely developing its mines, and for the erection of works for the reduction of its ores.
Applications for the stock may be made to the office of the Company, 61 Broadway, New York.
N. B.—*The Mining Record,* of New York, the highest mining authority in this country, says Feb. 1st, 1879: The principal owners in this company are hard working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing; a one of the leading banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary. mch22d&w3mos

TO OWNERS OF DOGS.

Extract from Chap. 16, Ordinances of the City of Portsmouth:

SECTION 1. No dog shall be permitted to go at large or loose in this city until the owner or keeper of such dog, or the head of the family, or the keeper of the house or place where such dog is kept or harbored, shall have procured from the city marshal a license for such dog.

SEC. 2. The city marshal shall grant a license to any citizen for his dog on the payment of one dollar for a male dog, and two dollars for a female dog, which license shall expire on the first day of July annually.

SEC. 4. The person named in each license so granted shall cause his name and the number of the license to be distinctly marked on a collar which shall be constantly kept about the neck of the dog so licensed, and no dog shall be considered as licensed unless this regulation shall be complied with.

SEC. 5. * * any person may lawfully kill any dog found within the limits of the city going at large contrary to the provisions of the chapter.

SEC. 6. In case any dog shall be found loose or going at large contrary to any of the foregoing provisions, or in case any dog not licensed shall be provided with a collar marked as required in this ordinance, the owner or keeper thereof or the head of the family or keeper of the house or place where such dog is kept or harbored, shall upon conviction thereof be fined five dollars.

SANFORD'S RADICAL CURE

For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every odor, acrid taste, and bank is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all smells are impossible compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by inhalation, thus allaying inflammation and healing and in some cases correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and generalizes the medicinal properties thus found its way into the stomach and thence into the blood. Thus a cure results, in the best directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, throat sore, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and general, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years. Respectfully yours,

WALTHAM, MASS., Jan. 8, 1876. GEO. W. HOLBROOK.

☞ Purchase the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Dealers have now been added the public for a trial, and, notwithstanding the numerous number of worthless imitations in the form of liniments, lotions, salves, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evinced by over one thousand unsolicited testimonials in our possession. Many remarkable cures have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and the best plaster in the world for medicinal purposes. Notwithstanding the efforts of the proprietors to make the genuine article the world for the most humble price, yet inferior remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for the gain, and endeavor to substitute others. Don't allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

Hay.

Recent investigations threatened to upset some popular notions. It has long been supposed that early cut hay is more valuable than that cut later. If the judgment of the cows were a test, there would be no question about it. They will leave the riper hay, and even refuse to eat it at all, if they can procure that which has been cut earlier. In the writer's dairy, the milk falls off more than ten per cent when the young hay is changed for that cut two weeks later. This is sufficient to support the general opinion in spite of chemical analyses, which go to show that ripe hay is heavier, more bulky, and contains more nutritious substances than that cut earlier. Perhaps the operations of the chemist can extract more nutriment from ripe hay than can the cow's stomach; but as young hay feeds more profitably, it seems best to cut early.—*Exchange.*

A Smoker's Danger.

A rather unusual case of nicotine poisoning occurred lately in a Parisian suburb. The victim, a man in the prime of life, had been cleaning his pipe with a clasp knife. With this he accidentally cut one of his fingers subsequently, but as the wound was of a trivial nature he paid no heed to it. Five or six hours later, however, the cut finger grew painful and became much swollen; the inflammation rapidly spread to the arm and shoulder, the patient suffering such intense pain that he was obliged to betake himself to his bed. Medical assistance was called in, and ordinary remedies applied ineffectually. The sick man, asked as to the manner in which he had cut himself, explained the use to which the pocket knife had been applied, adding that he had omitted to wipe it after cleaning his pipe. The apparent mystery which surrounded the case was thus cleared up, and as the patient's state had become alarming, he was conveyed to the hospital. Upon his admission the doctors attached to the institution declared that in the immediate amputation of the arm lay the only hope of saving the patient's life. The poisoned member was therefore amputated; but in spite of the promptitude with which the operation was performed, the man lies in so precarious a condition that the chances of his recovery are said to be slight.

"Practical Science."

Under the above heading, the *St. Croix Courier*, of St Stephen, N. B., in referring to the analysis of Dr. Pierce's Golden Medical Discovery and Sage's Catarrh Remedy, recently made by Prof. Chandler, of New York, and others, says: "Nothing was discovered which we think objectionable, and the published analysis should increase, rather than retard, their sale. To us, it seems a little unjust to call a man a quack, simply because he seeks to reap as much pecuniary reward as other classes of inventors." The English press is conservative, yet after an examination of all the evidence it not only endorses but recommends the Family Medicines manufactured by Dr. Pierce. No remedies ever offered the afflicted give such perfect satisfaction as Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy.

Right Time To Operate In Stocks.

By recent communication with prominent stock operators, we learn that now is a favorable time to take advantage of the stock market, by the new combination method of Messrs. Lawrence & Co., the New York bankers, who have been so remarkable successful heretofore. This system is founded on correct rules of finance and is universally approved by the shrewdest operators. The orders of thousands of customers are massed into one immense capital, and operated as a great whole, dividing profits *pro rata* every month. In this way any customer can invest from $10 to $10,000 with equal proportionate success, and at the same time gain all the advantages of largest capital and best skill in manipulating the market. This firm's new circular has "two unerring rules for success" and full explanations. $50 will make $250, or 5 per cent.; $500 will return $3,000, and so on, according to the market. Stocks and bonds wanted. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, New York City.

—There is a difference in milkmaids; the milk made in the country is not the same as the milk made in the city.

—The *Railroad Gazette* thinks that Hash Knife, the last new postoffice in Texas, may be fairly held to balance Fried Liver in Arizona.

—In New Haven, on one of the principal avenues leading from the city is a large residence which the owner has for some time allowed one of his employes to occupy. Whenever the owner visited the house he was received in the rear by the occupants, and did not visit the front portions of the building. Recently however, he found his way into the parlors, and was somewhat astonished to find that one was used as a cowhouse and the other had been converted into a hennery.

—An amusing story is told of Dr. Lyman Beecher by a correspondent of the Hartford *Times*. When he was preaching at Litchfield, Conn., he was passionately fond of fishing, and the preparatory lecture bell one Friday afternoon found him standing knee-deep in a neighboring pond, trolling for pickerel, while his coat pockets were filled with fish. Not having time to change his clothes he marched with his pole to the church, and entered the pulpit with his boots filled with water and the pickerel kicking in his pockets. Notwithstanding his condition he preached one of his most impressive discourses.

Portsmouth Chronicle

WEDNESDAY, JUNE 25, 1879.

Another Democratic Mare's Nest.

The country democratic papers are republishing extracts from a long screed which appeared last week in the New York *World*, purporting to be what the writer was told two years ago by Gen. Woodford, regarding President Grant's proposed arrest of Mr. Tilden if he had taken the oath as President of the United States before a justice of the peace in New York, and his confinement in the lowest dungeon beneath the castle moat, while the streets of New York crashed into ruin, and its gutters swam with gore, under the shells of Secretary Robeson's fleet of gunboats. The writer gave all the details of the plot to crush the Great Cipherer, and made a very sensational article; but the moment it became known that the man who had discovered this immense mare's nest was no other than John F. Mines—who disputes with Eli Perkins, "Gath," and Red-Headed Anderson for the title of champion liar of the world—than all interest in the matter ceased. This Mines is the irresponsible and discredited Bohemian who, having been employed to conduct a campaign paper at Utica, on the failure of his engagement concocted a monstrous mass of falsehood and exaggeration from the private conversation of Senator Conkling, which was also duly published in the *World*, and met with the contempt which it deserved. The name of John F. Mines appended to any statement is *prima facie* evidence that it is a falsehood; and Ex-Secretary of the Navy Robeson takes needless trouble when he pronounces Mines' last yarn to be of the same character as his previous ones, and proves it by showing that there was not a single gunboat in New York harbor at the time referred to in Mines' soul-harrowing story. Gen. Woodford is in Europe, so he has not yet denounced Mr. Mines' statement as a lie; and when he does it won't damage Mines' reputation any.

Mrs. Hull's Murderer Arrested.

The murderer of Mrs. Dr. Hull, of New York, was arrested in Boston, Monday evening, in a colored Methodist church, having been identified as a man the police wanted by Mr. R. W. Balch, a Boston *Herald* reporter. The criminal is a copper-colored negro named Chastine Cox, who for a year and a half has been employed as a waiter in a place on the opposite side of the street from Dr. Hull's residence.

This negro made his appearance in Boston about a week ago, and went into a pawnbroker shop where he disposed of a cameo set of jewelry. About that time the Boston superintendent of pawnbrokers received from New York a description of the property, and this set was found by the officer in the pawnbroker's shop, the pawnbroker furnishing the officers with a description of the party who pawned it. The search which was then commenced revealed the fact that the negro Cox, after getting rid of the jewelry, went to New York and remained there two or three days, and in the meantime made some alteration in the character and color of his clothing.

Cox made no attempt to escape the officers when he was arrested; on being searched at the police station Mrs. Hull's watch, marked with her initials, was found upon him, and also a mosaic ring which belonged to her. He confesses the murder, but says he only intended to prevent Mrs. Hull from giving an alarm, and not to kill her. He gives the details of the crime as follows:

He went home at six o'clock on the evening of the night on which Mrs. Hull was murdered, and remained in the house where he was employed until ten o'clock, when he went out again. He had a key for the door of the Hull house, but he was unable to make it fit, and consequently he raised the window in the lower story, and fastened it up so as to provide for himself an easy means of making his escape from the house. He had a candle with him. On ascending the stairs he heard some one snore, and thought it was a man. He blew the candle out, walked into the room and stepped up to the side of the bed. Mrs. Hull awaking asked, "Who is it?" "The doctor," replied the negro. She put her hand up and touched his face as he was standing close to the bed. The robber threw her hand back so that she could not touch him, at the same time laying his hand heavily over her mouth. He then got hold of the cologne bottle and dashed cologne into the face of the struggling woman, after which he got upon the bed and made a gag of the bed clothing; she was by this time in an exhausted condition, and he tied her in the manner in which she was found the morning after the murder. Afterwards, Cox relates, he relighted the candle, and holding it close to her face the cologne ignited, which accounts for the singeing of the eyebrows and other burns on the person of the murdered woman. The robbery was then committed, and the thief made his escape, soon leaving New York for Boston.

The murderer is about thirty-two years old, and was born in Powhattan county, Virginia. The police do not consider that there is much of the reckless desperado about him, but on the contrary that he is very cowardly.

News and Notes.

In the House, Tuesday, a resolution fixing the date of adjournment for Wednesday was defeated by a vote of 104 nays to 81 yeas, thirteen democrats and all the greenbackers voting with the republicans against the resolution.

Robert Colmore of Gloucester, Mass., a lad fourteen years old, fell from the Atlantic halibut company's wharf at that place Monday evening, and would have drowned but for Capt. Nathan Greenleaf of the schooner Grace L. Fears, who sprang overboard and succeeded in bringing him from the bottom when nearly dead.

Earnest Clapp, twelve years of age, son of Luther Clapp of West Upton, Mass., was shot in the stomach on Monday, either by himself or a companion, while playing with a pistol, and was probably fatally wounded.

In the jail at New Haven, Conn., where one year ago were a hundred and fifty prisoners, there are now but a hundred and twelve. This decrease is said to be due to the new tramp law, passed by the last legislature of that State.

The dead body of a colored woman was found in the North Anna river at Louisa Court House, Va., Sunday morning, with rocks tied to the head and feet with a grape vine. She had been missing for several days.

A girl thirteen years of age, and her mother's sister, aged sixteen years, were burned to death in their sleeping room on Monday, near Jonesboro, Ga. The fire caught in their room, and they were so frightened they could not unfasten the door. The younger girl's father was fatally burned in endeavoring to rescue them.

An altercation Sunday night, at Columbia, S. C., between John English, a well-known planter, and a policeman named Rose, resulted in injuries to the former from which he died. Joe English, a brother of the deceased, met Rose on Monday, when several shots were exchanged without effect.

Immense quantities of Irish potatoes are being shipped from Norfolk to northern markets. Nineteen thousands barrels were shipped Saturday, and 8000 Monday, to New York.

Nathaniel Root, of Coventry, Conn., died recently, aged ninety-four years. A neighbor came in and he coolly asked him: "Have you come over to see me die?" After a short visit the neighbor left, and Mr. Root said in a very cool and undisturbed way: "I guess I'll now go and lie down and die." He went to his room and laid down on the bed. About half an hour later he was found to be dead.

Patterson, the master, and Trask, the mate of schooner Jefferson Borden, have been held for trial in the United States court, the first in $800 and the latter in $500.

Lewis Foster attacked John Watts with a knife in Wilson county, Tenn., Saturday night, when Watts shot him dead.

On Saturday night, at Sandriffe, Ky., a party of unknown men attacked the house of Samuel Faulkner, severely wounding him as he ran from the house. They then set fire to the dwelling, which was consumed, with its inmates, Harry Russell, aged seventeen years, (who was also shot,) and two children of Faulkner, aged eleven and three years respectively. No cause is given for the brutal affair.

A report comes from Callao, by way of Havre, France, that the Peruvian iron-clad Huascar recently bombarded the town of Antofogasta, and captured two Chilian transports. It is also reported that the Huascar had a "decisive engagement" with two Chilian iron-clads, during which the Chilian wooden man-of-war Covadonga, which lured the Peruvian iron-clad Independencia upon the rocks at the time of the first naval battle between Peru and Chili, was wrecked.

Charles Markus, an expert thief, forger and confidence man, has been arrested at Muscatine, Iowa. The post office detectives have been looking for him eight months.

C. A. Bowen and A. J. Lovering were arraigned in the municipal court at Augusta, Me., on Monday, for fraudulently obtaining from William Studley of Windsor his note for $120. They had appointed him agent for "Sisson's improved pruner," a swindling concern apparently. They were held in bail in the sum of $300 for their appearance at the September term of the supreme court. The "company" have no local habitation, as far as their papers are concerned.

It is said that the steamers Italy and Canada, which came into collision in New York harbor, Saturday, were running a race and that a tug came in course of the Italy, to avoid which she tried to cross the bow of the Canada and nearly succeeded. Her stern crashed into the starboard bow of the Canada, staving in twelve feet of it above the water line, while her propeller struck the Canada's plates under the water line and broke them badly, causing a leakage. After clearing the Canada the Italy ran straight into the ship Barbarossa, crushing in her side. The damage to the Canada is about $5000, to the Italy $1000, and to the ship Barbarossa about $15,000. It is thought the Canada will have to go on the dry dock.

The supreme court of Pennsylvania has sustained the decision of the lower courts in the cases of Peter Manus and John C. O'Neill, two of the murderous Molly Maguire gang, who were convicted in Northumberland county and sentenced to be hanged, for the murder of Coroner Hesser in 1874. This organization of foreign-born ruffians, who for so many years maintained a reign of terror in the central coal districts of Pennsylvania, is now pretty thoroughly crushed. They murdered many men, but a still larger number of their own members have had their worthless necks elongated by the halter.

Antonio Williams, a seaman in the navy, has received from the treasury department a gold life-saving medal of the first-class, and commendatory letters from Secretaries Sherman and Thompson, for heroic conduct in saving the lives of four men when the U. S. S. Huron was lost.

Moses McGregor of Lawrence, Mass., while walking in his garden on Water street Sunday, was struck on the left hand by a spent ball fired by a young man engaged in revolver practice on the opposite side of the river. The third finger was obliged to be amputated.

Rev. B. D. Peck, who formerly figured very extensively in Maine politics, many years ago, and who since leaving that State has been drifting around Washington, has returned to the ministry and been installed by a church in Providence, R. I.

W. E. Darling of Amesbury, Mass., superintendent of the yard of the Essex woolen mills, suffered a compound fracture of the bones of his leg Saturday, by being kicked by a horse which ran away and threw him from a wagon. His leg will be amputated.

Detmold, a romance, by W. H. Bishop; pp. 286; Houghton, Osgood & Co., Boston. This attractively printed volume will find a large class of readers at the summer resorts, and may serve to while away a pleasant hour or two at any season. The personages are chiefly Americans in Europe. This seems to be a favorite condition with the latest school of fiction by our modern American authors. Mr. James' "Daisy Miller" and "International Episode" pictured as our readers may remember, the American girl abroad, in a style that alternately wounded and gratified our national vanity. Mr. Howells has given us "the Lady of the Aroostook," which as an artistic bit of character is simply perfect, and his heroine, though for the best part of the time on a voyage at sea, was at last comfortably landed at Trieste and forwarded to Venice. Mr. Bishop comes into perhaps unintentional rivalry with these two masters of the art, and perhaps it is hardly fair to measure him by their standard. He takes Verona as the scene, and gives a strong, breezy paragraph of description, while the plot has a dark mystery about it, intense enough to satisfy even the lover of the sensational. Better novels have been written, but this one shows so much merit that we are quite sure Mr. Bishop has the capacity to win by future efforts a place in the first rank of our American authors. The book greets the reader in a volume of convenient size, and will doubtless command a ready sale.

The question to be be settled at the next election—Which was the "Lost Cause."—*Philadelphia Press.*

Naval Affairs.

The U. S. S. Marion, Commander Bunce, arrived at Port Royal, S. C., June 22d, from Pensacola.

The U. S. S. Kearsarge arrived in the lower bay at New York on Monday.

—Mrs. Partington said that some horses were so spiritious that they always went off in a decanter.

—If a lady wants a favor of a boy she praises him; of a young man, she hires him; of an old man, she flatters him.

—A poor son of the Emerald Isle who applied for a license to sell liquor, being questioned as to his moral fitness for the trust, replied—"Sure, it's not much of a moral character a man needs to sell rum."

—No one blames a business man for wanting his sign to convey a big idea of his business, but a Michigan blacksmith, in a hamlet of four hundred people, rather overdoes the thing when his sign reads: "Foreign and domestic horses shod here."

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1878, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.
Ly25 A. STEVENSON.

AROUND HOME.

Do not forget Mr. Waite's illustrated lecture this evening. See advertisement.

About one hundred Masons went from this city to Portland on Tuesday, with St. John's Lodge.

A new lodge of the Knights of Honor is to be instituted in this city on Thursday evening, the 26th inst.

The Strafford national bank, of Dover, has declared a semi-annual dividend of five per cent, payable July 1st.

John McDonald, fifteen years old, son of Thomas McDonald of Amesbury, Mass., who has been working in Hampton, disappeared two weeks ago and has not since been heard of. He was an intelligent, steady boy.

Leidy, the marine charged with stealing a registered letter containing money, was brought before Commissioner Hatch on Tuesday (case continued from Saturday) and held in $200 for his appearance at the October term of the circuit court.

The Great Falls riding park, containing about thirty-six acres of land, was sold by auction last Saturday to Dr. J. A. Hayes of Great Falls, for $1625. The Park was laid out some ten years ago, and with its buildings cost over $2000; it never paid its stockholders anything, and has been used but very little for several years past.

The Universalist society hold a strawberry festival at their vestry this evening, to which their friends and the public are invited. In addition to strawberries and cream, there will be ice cream, confectionery and cake on sale; and during the evening there will be some novel stage performances. Tickets—fifteen cents for adults, ten cents for children. Doors open at six o'clock.

Sagamore Lodge, No. 258, Knights of Honor, on Monday evening elected the following officers for the ensuing term: Dictator, O. M. Knight; Vice Dictator, C. M. Lang; Assistant Dictator, G. A. Mudge; Reporter, C. B. Mason; Financial Reporter, W. O. Sides; Treasurer, George E. Hodgdon; Chaplain, D. L. Randall; Guide, C. W. Shaw; Guardian, T. E. O. Marvin; Sentinel, E. H. Leslie.

Mr. Editor: I was surprised to learn by the CHRONICLE of Tuesday morning that the new steam fire engine Col. Sise is to be placed in charge of Moses H. Goodrich Co., No. 4, and that the Moses H. Goodrich is to be placed in reserve, as the old Dearborn has long been. The Moses H. Goodrich is a new engine, having been in use only two or three years, and is a handy and so far as I know a serviceable machine; I know that it has done good service, and was very highly lauded when purchased by the city. On the other hand, Sagamore, No. 2, has been in almost constant use for fourteen or fifteen years, and though still a good engine is and always was an unhandy one, as its wheels do not "turn under" so as to enable a short turn to be made, which it is sometimes very necessary to do. Can you tell me, Mr. Editor, why the old Sagamore is not placed in reserve* and the new Moses H. Goodrich kept in active service? Is it because the latter is worn out, or was never good for anything? CURIOSITY.

*No, we can't; we can only tell you why the Moses H. Goodrich *is* to be placed in reserve, and that is because the board of engineers and aldermanic committee on fire department voted that it should be done. If this answer is not satisfactory, our correspondent must enquire of some one who knows more about the matter than we do.—*Ed.*

Mr. Editor: Whenever our people shall have so far recovered from the "shock of the times" and that mental depression which leads one to declare that all cities are to be obliterated, so that they can discover the fact that city life is in reality a part of our normal condition although only the best and most advantageous places will be occupied in that way—and further, that at these chosen points every dollar that shall be judiciously expended in opening up to the public far and near real advantages that may have become buried out of sight will most likely yield a return of thirty, sixty or a hundred fold, then will such claims as mine receive due attention. To be ready for that improved state of feeling please allow a little space for projecting, thus: Starting from the foot of State street, proceed through Water street to Mechanic street, then through this street until a slight obstruction meets you between Hunking and Pickering streets. Remove this and come into an avenue forty feet wide through the Marcy ship-yard, then through South Mill street to a junction of Water, Pleasant and South streets, which is in reality a chief point of divergence to all our city advantages and attractions. From this point retrace your steps and when you shall get back to State street you will probably be pretty well convinced of the importance of PICKERING AVENUE.

The schooner John Bracewell, of Dover, Chatfield master, left Baltimore June 19th with a cargo of coal for Bridgeport, Conn., but returned on the 22d in distress. Capt. Chatfield reports that on the night of the 20th, off the mouth of the Potomac river, the schooner was run into by the Russian barque Birger, and had her main and mizzen masts carried away, and her port rail and stanchions smashed in from amidships to clear aft, the hull being so much damaged that he was obliged to jettison part of the cargo to keep the schooner afloat. After the collision the captain of the Birger rendered all the assistance in his power, sending his whole crew aboard the John Bracewell to assist in lightening her.

"SEE THE CONQUERING," ETC.

There was a "grand sixty-hours go-as-you-please pedestrian tournament," in Boston last week, closing Saturday night, for a gold medal and three money prizes, the first man to get $150. Frank Hanson of Dover, a brick-maker, won the race, with two hundred and twenty-five miles scored to his credit, his nearest competitor making but two hundred and nine miles. The Boston sporting men, hearing that Hanson was a New Hampshire brick-maker, when he first appeared on the track jeered him a good deal, presenting him with a wreath of straw, and advising him to go back among the granite rocks and make bricks, at which he might possibly make a good show, which he could not do in that pedestrian match. But he scooped the first prize, and at the end was the only man among the whole gang of tramps, twelve in number, who was not emphatically used up, he being in good condition.

Hanson arrived home in Dover on Monday evening, and received an ovation. He was met at the depot by a procession including the Dover cornet and American brass bands, Strafford Guards, organization of workingmen, and many citizens, who escorted him through the principal streets, much to the glory of the tough pedestrian and of Dover. It is said the people of Dover have not turned out in such crowds for years. Hanson's friends now claim for him the title of "Champion of New England."

BARNUM'S "GREATEST SHOW ON EARTH."

Barnum brings his great show to Portsmouth on Saturday, June 28th, and comes with it himself. The New York *Herald* says of it:

An audience that filled every seat in the American Institute, and even encroached upon the girders that support the roof, greeted the initial performance of P. T. Barnum's great show on Saturday night last. It was an appreciative audience, for every act of twenty that constitute the programme received hearty applause, and each particular feature was recalled to the ring. In organizing the circus for the season of 1879, Mr. Barnum has paid particular attention to gathering together the leading female equestrians in the world. Their style of riding and daring feats vary, but they are all finished equestriennes. The bareback male rider has been supplanted and surpassed by the ladies. Madame Dockrill, who holds undisputed claim to the championship of the world, rides four thoroughbreds that under her guidance assume all manner of positions. Katie Stokes is an artist free from masculine efforts; her object in executing her principal bareback act being to execute difficult poses that would do credit to a premiere dancer. Miss Linda Jeal's performance is a sensational one, consisting of dashing over hurdles and charging with her horse through flaming hoops of fire. Probably the one who most directly appeals to the intelligent public is Emma Lake, the great menage rider. Her entire performance is a lesson in horsemanship which must be seen to be appreciated. Carl Anthony introduces the intelligent stallions in a variety of evolutions. The wonderful mastery he has over the horse is remarkable. No using of the whip, no assistants to help him, without even speaking to them, the royal equines move in harmony with the swaying of his body or the waving of his glove. Egyptian jugglers, gymnasts, acrobats and a half dozen clowns make a circus dish of attractions such as has been seldom partaken of. The menagerie is replete with rare animals; a dozen elephants are gathered in the largest herd ever exhibited in this country. Black camels, white camels and a two horned rhinoceros are among those that attract most attention. The museum has also been renovated, and many new features have been imported from Europe especially for it.

New Hampshire Items.

Charles Ruffle hung himself at Nelson, Sunday. He was forty years old.

The eating saloon and billiard hall of George H. Tabor of Woodsville were robbed Sunday night of about $125. No positive clue is obtained yet to the thieves.

The laying of the track on the Profile & Franconia Notch railroad was completed Monday, and trains will run through to the Profile house in a few days.

A woman named Lizzie M. Munyan, and who is evidently insane, was found Monday in the woods at Sanbornton in a starving condition. She had with her a child three years old, whom she had kept alive for four days on wild berries. She wandered from Franklin Falls, where she had been at work for three months past, to Tilton, on Wednesday of last week. She called at W. A Colby's and left her luggage, visited several other places, and was last seen at Sanbornton on Thursday. Since then she has eaten nothing, and when found she and the child were nearly exhausted. She was originally from Worcester, Mass.

Rev. William Hayne Leavell of Manchester, pastor of the First Baptist church, made a statement Sunday of the religious and secular work of the church and society during the past year. At the commencement of the year the society was in debt $18,000, which was provided for by subscription, to be paid in five annual payments, but about $10,000 was paid the first payment, leaving the society in good condition for future work.

Enfield Centre is greatly excited by the reported elopement of the wife of one of the most prominent citizens. She took advantage, it is said, of her husband's absence on public duty to carry out her plan. A marked feature in the affair is that the lady has scarcely been married a month.

Protect the System from Malaria.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease, in those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloid, sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional indorsements which it has received have added to the reputation it has obtained at home and abroad.

Nothing Venture, Nothing Win.

While moralists differ as to the beneficial effects on the community, as to the advantages gained from a lottery in preference to a direct tax, there can be no doubt that the happy recipients of the many large sums that are so frequently given by The Louisiana State Lottery are benefitted. The attractive sum of $30,000 may become the property of some one of our readers who is willing to venture two dollars by remitting it to M. A. Dauphin, P. O. Box 692, New Orleans, before July 8th, when the 170th monthly distribution occurs.

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

No preparation of Hypophosphites I have used can compare with Fellows' Compound Syrup of Hypophosphites for restoring strength to the nervous system.

I think it the best medicine I ever used.

W. J. HORNER, Buffalo, N. Y.

I have derived much benefit from using Fellows' Hypophosphites in chronic constipation.

JOHN B. MOORE, Forest City, Montana.

Many clergyman who were obliged to withdraw from the pulpit on account of "Clergymen's Sore Throat," have recovered by using Fellows' Syrup Hypophosphites and are preaching again. This preparation seems peculiarly and wonderfully adapted to diseases of the breathing organs.

BRILLIANT LECTURE.

REV. A. A. WAITE

Will deliver a Brilliant Lecture

Wednesday Evening, June 25th,

In the Tent, at 7:45 o'clock.

SUBJECT: "The Powers that Win."

The lecture will be illustrated by character faces drawn before the audience.

Tickets for sale at D. H. Montgomery's music store opposite the post office, after Tuesday morning. The lecture is for the special benefit of the Tent Fund. The number of tickets will be limited to the seating capacity of the tent.

DRAIN PIPE.

A KRON DRAIN PIPE, all sizes, for sale at No. 3 Elm street.

SAMUEL CLEAVES & SON.

—"Well, my dear, are you coming on nicely with your music?" "Oh, yes, mamma; last month, when I played four hand pieces with my music teacher, I was always a couple of bars behind. Now, I'm always at least three ahead."

—It is related that one day Colonel Marshall, of Kentucky, said to Benton: "Senator Benton, why do you talk to yourself so much?" With great dignity Benton replied: "Colonel Marshall, I can tell you very earnestly and very truly why I talk to myself. I love to talk to a great man, and I love to hear a great man talk."

—John Watts, a noted gambler, died a few days ago in Philadelphia. He was a man of great importance aboard the Mississippi steamers in the old times, and his gambling exploits are still recounted. Although a heavy player and clever swindler, he saved no money. His last words were, "I'll bet ten dollars that I get well."

—An Indiana man saw somebody in the dark hanging around his smokehouse. He ordered him to speak, but got no answer. Repeating the order, he got the same result. Then he threatened to fire and the form came toward him, so he did fire and shot his uncle dead. The old gentleman was having a little fun scaring his nephew, and the joke is over.

BUTLER & LAIGHTON

No. 1 Market Square.

—A man learning to play the cornet interests all his neighbors—in a horn.

—If all the estates "awaiting American heirs" in England should be paid, there would be no money left in that country.

—Tramps would be more numerous than ever were it not for the self-sacrificing women of the land who marry and support so many men.

—"I had no time to stuff the chicken," apologized a landlady to her boarders. "Never mind, madam, it's tough enough as it is," replied one of them.

—An enthusiastic editor wrote during an election, "The battle is now opened;" but alas! the intelligent compositor spelt "battle" with an "o," and his readers say they have suspected it all along.

—A young man may do a great many foolish things, but he will never wear a pair of white pantaloons to a picnic but once. He will never forget the large amount of fun he didn't have on the first occasion.

Ladies, Children and others wishing to avoid the crowds in the evening are advised to attend the Afternoon Exhibition.
☞ Excursion Trains on all Railroads on the day of exhibition.
☞ THE EIFFOW BARTUM, written up to 1879, sold on the ground for 50 cents, usual retail price, $1.50.

INCORPORATED JANUARY, 1878. WORLD'S DISPENSARY MEDICAL ASSOCIATION. BUFFALO AND LONDON. CAPITAL STOCK, $1,000,000.

(*Successors to R. V. PIERCE, M. D.*)
DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the **INVALIDS' HOTEL.** The organization has been completed and incorporated under the name and style of **World's Dispensary Medical Association,** with the following officers:
HON. R. V. PIERCE, Pres. F. D. PIERCE, V. Pres.
JNO. E. PIERCE, *Sec.* LESTER B. SMITH, *Treas.*
NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty.
CHRONIC DISEASES of all forms come within the province of our several specialties.
LUNG DISEASES.—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases treated with the most successful results.
DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.
NERVOUS DISEASES.—Paralysis, Nervous Debility, Epilepsy (Fits), Spasms (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.
NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book" (100 pages, 10 cents post-paid).
SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Cylesis (Stone in the Bladder), Stricture, etc., etc. We also treat successfully, by a new method without surgical operation, Cancers, Club-foot, Spinal Curvature, and other deformities. See pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.
Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN
By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.
To designate this natural specific, I have named it
Dr. Pierce's Favorite Prescription
The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** (For conditions, see pamphlet wrapping bottle.)
The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Turgescent Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not extol this medicine as a "cure-all," but it admirably fulfils a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.
Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.
Favorite Prescription sold by Druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., successors to CHIPMAN, HOWSON & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,897,360 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for Bounty Land Warrants, Send Registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSIBLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.
The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.
Three of the leading mines are well opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.
The Company proposes to sell a portion of its stock at $1.50 per share for the purpose of more completely developing its property, and for the erection of works for the treatment of its ores.
Applications for the stock may be made to the office of the Company, 41 Broadway, New York.
N. B.—*The Mining Record,* of New York, the highest mining authority in this country, says Feb. 15th, 1879: The principal owners in this company are hard working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing: one of the largest banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary. mch22d4wmos

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, hereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all smiths are inexhaustible compounds of woody fibre (all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, the alleying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin healthy and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N.J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my throat and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very certainly I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head ache, eyes, and throat are scarcely articulate distinctly to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,

JOHN W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1878.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Plasters have now been before the public for years, and, notwithstanding the immense number of remedies in all forms of fluid extracts, lotions, pain-killers, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cures have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world* for a single trial. The price is 25 cents, although it is at least double that of any other plaster. But no pains or expense have been spared by the proprietors to make the best plaster in the world for the least money, any other drugs than the highest, purest, and most efficacious. Dealers will be found ready to misrepresent them and offer inferior and cheaper to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

PORTSMOUTH

Daily Chronicle.

Profitable Stock Investment.

Before Messrs. Lawrence & Co., the New York bankers, inaugurated the combination system of operating in stocks, it was often very difficult for inexperienced operators, or even old stagers, to deal profitably by their single handed ventures. Now the field is open to every one for successful operations, and capital in any amounts, from $10 to $20,000, can be used with equal proportionate profit. Instead of distracting efforts among many customers, the orders of thousands are concentrated into one vast pool and cooperated for the benefit of all, dividing profits *pro rata* every month. A prominent citizen of San Francisco made $1,264.83 from an investment of $300 last month. Other customers are doing better still. $25 pays $125 during the month, $200 returns $1,200, or 6 per cent on the stock, and so on as the market moves. New circular contains "two unerring rules for success," and full instructions for any one to operate profitably. All the advantages of unlimited capital and careful manipulation are secured by the combination method. Stocks and bonds wanted. Government bonds supplied. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, New York City.

"Practical Science."

Under the above heading, the *St. Croix Courier*, of St Stephen, N. B., in referring to the analysis of Dr. Pierce's Golden Medical Discovery and Sage's Catarrh Remedy, recently made by Prof. Chandler, of New York, and others, says: "Nothing was discovered which we think objectionable, and the published analysis should increase, rather than retard, their sale. To us, it seems a little unjust to call a man a quack, simply because he seeks to reap as much pecuniary reward as other classes of inventors." The English press is conservative, yet after an examination of all the evidence it not only endorses but recommends the Family Medicines manufactured by Dr. Pierce. No remedies ever offered the afflicted give such perfect satisfaction as Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy.

—Justice seems meted out in this world in strawberry boxes.

—Young man, in beginning a courtship, be sure you don't write, and then go ahead.

—A tobacconist has manufactured what he calls the "Bob Ingersoll" cigar. It burns well.

—"There was nothing to mar the pleasure of the occasion," she said. Her mother had remained at home.

—When the robin jumps along the lawn or flies from tree to tree, scattering the dew drops from the leaves; when the first golden beams dart from the sapphire skies, and gild the filmy clouds; when the clover trembles in the freshening breeze, and all nature seems imbued with the charms of paradise; then, ah! then it is sweet to turn over in bed and take another nap.

—"Sometimes the sounds resembled great sheets of gold bestudded with flashing diamonds, and then a little melody would come in like an exquisite picture, and the diamonds formed themselves into a frame for it; or it was as if those hands tore rifts in the expanse of the stars above us and we caught glimpses of the lovely scenes beyond. Mr. —— looks the gifted, cultured artist and gentleman he is, and he plays as if he had a soul seventy-five feet high."—*Western musical critic.*

Portsmouth Chronicle

THURSDAY, JUNE 26, 1879.

Political.

A meeting of the bolters from the Ohio greenback convention was held at Toledo, Ohio, June 24th, and resolved that it was inexpedient for the greenbackers to nominate a State ticket—equivalent to a resolution to support the democratic candidate, Ewing. On the same day and at the same place, a meeting was held of greenbackers who propose to support the ticket and platform adopted by their party convention; the meeting was very exciting, and the bolters' convention was denounced in bitter terms as a "sell out" of the nationals to the democrats.

While the constitutional convention of Louisiana is contemplating repudiation, it is worthy of note that all the papers of New Orleans are earnestly opposing anything of the kind.

A meeting was held in Tremont Temple, Boston, on the evening of the 24th inst., for the purpose of discussing the negro exodus at the south, and in connection with it the blockade of the Mississippi river. Speeches were made by Gen. T. W. Conway, Wendell Phillips and others, and a series of resolutions were adopted endorsing the views and suggestions of Gen. Conway. A committee of five was appointed to solicit funds to aid Gen. Conway in his work of sending a steamboat down the river to take away such refugees as wish to leave, and to test the question as to whether the southern ex-slaveholders will be still allowed to interfere at will with the personal movements of the freedmen.

Naval Affairs.

The U. S. S. Adams sailed from Panama for San Francisco, June 12th, and the Panama *Herald* complains that in her thus going away the United States left the transit route unprotected in time of revolution.

The U. S. S. Marion sailed from Port Royal, S. C., on Monday, June 23d, for Hampton Roads.

Rear Admiral Nichols, commanding the South Atlantic station, reports to the navy department from Montevideo, on board his flagship, the Hartford, under date of May 20th, the following movements of vessels under his command: April 20th the Essex was despatched to run lines of soundings, etc., in the vicinity of the mouth of the La Plata. In consequence of a severe gale and the near exhaustion of her supply of coal, the Essex returned to Montevideo without completing the work. A few lines of sounding remain to be run, and it was deemed in the interest of economy to finish the work up to Rio de Janeiro. On the 16th of April the Hartford anchored off Buenos Ayres. Admiral Nichols found everything satisfactory as regarded our relations with the Argentine government. On the 23d of April he went to Colonia, remaining a week or more. The visit of the ship seemed to make a favorable impression upon the officials and citizens generally. On May 6th the Hartford returned to Montevideo. It was proposed to send the Essex to Buenos Ayres and possibly to Colonia—to follow the Hartford in due season to Rio de Janeiro, for which place Admiral Nichols proposed leaving early in June.

A writer in the London *Times* calls the attention of the British admiralty to the United States steamer Trenton as "an example of an almost perfect cruiser." He says: "When compared with our own largest unarmored frigates, the Trenton seems to combine every point of naval efficiency which they possess, whether for the protection or destruction of commerce, while the tonnage of the American ship is less than half the tonnage of our own vessels."

[Written for this paper.]

The Mysteries of Crimes in New York.

Among the many mysteries of crime in New York that have occurred within less than two score years, which have been recalled to the memory by the recent murder of Mrs. Hull, few have been more strange than the following. About the period of the assassination of Doctor Burdell, the Bond street dentist, at his own residence, upon whom seventeen stabs had been inflicted, the carpet deluged with blood, and the wall spattered with what seemed to have spirted from his wounds, a physician, whose German name, with the exception of the Van with which it commenced, has escaped the writer, was suddenly awakened in his office on a summer night, while his family were absent from the city, when he saw a man with whose face he was unfamiliar approaching him in the rather dim light from the hall, with what seemed a large carver, or one of those delicate pieces of cutlery, so popular in the south, known as a bowie-knife, and having no other means of defending himself he grasped the sheet and quilt beneath which he was covered, and leaping upon the floor, rushed towards the burglar in the slight hope of entangling him in the bed clothes and averting the attack he seemed meditating upon him. The contest, however, was altogether too unequal, and after a brief struggle, he found himself upon his back, with the knees of the other upon his stomach and his hands grasping his throat. His own left hand was held to the floor beneath a portion of the quilt and sheet, but throwing out the other, most strange to relate, it fell upon the knife, which he had heard, without knowing what it was, fall to the floor in the first struggle with his assailant, and grasping it, he made a plunge at the latter, which was followed by a shriek and a deep groan. Throwing off the now powerless ruffian whose weight had pressed so heavily upon him, he arose to his feet, to meet two other rough-looking men alike unknown to him as the other, who, instead of troubling him, at once seized their wounded companion, from whose side the blood was pouring in a stream, and bearing him from the room, disappeared through the hall into the street. The first sight that met the eyes of the doctor were his heavy gold watch and chain, the portemonnaie, with a considerable of value in it, that he had left in a pocket of his pants, and the articles of silver the burglars had found in the basement, all of which were lying upon a chair in the hall, ready for removal, and where they had turned up the gas the doctor had turned low when retiring to rest. After partially dressing himself the latter made his way to the third floor, where his man servant, the cook and the chambermaid, were all sound asleep, wholly unconscious of what had been going on below-stairs. A couple of policemen were then called in, and the blood was traced from the room where the burglar received his wound, all the way through the street to the Hudson river. But for this fact, little credence would have been given to the story of the doctor, so incredible did it seem, especially as the police reporters, an unusual thing for them to do, italicized, without making any comments on them, such portions of their report as appeared in the newspapers, as seemed the most marvellous. When the matter had been fully discussed, within a week, a hitherto respectable grocer of that uptown section of the city, who had been missing since the night of burglary, was found dead in the Hudson river, with a frightful wound in his side that had evidently caused his death, the knife with which it was inflicted the burglars having been careful to take away with them, and this was taken, as none other offered, as an explanation of what seemed so strange a story.

J. H. B.

News and Notes.

G. Swaine Buckley, the well known negro minstrel, died at Quincy, Mass., June 25th, at the age of fifty years.

A tremendous rain storm visited Fort Griffin, Texas, June 20th, and over eight inches of water fell, causing a creek to overflow, damaging property to a great amount, and drowning three people in the town, and four others just out of it.

A fire at Webster, Mass., on the morning of June 24th, destroyed three large buildings, causing a loss of over $50,000, most of which falls upon insurance companies.

A fire in Limerick, York county, Me., on the morning of the 25th inst., destroyed the house, stable and store of Edwin A. Sadler, the store of J. M. Mason, and the law office of Luther S. Moore. Mr. Sadler's furniture was lost, and the stock in the store partly destroyed. The whole village was at one time in danger of being burned. All were insured. Loss about $5000. The cause of the fire was incendiary.

The trial of George W. Bishop and Isaac L. Helm, of Baltimore, Md., charged with forgery, has been concluded, the court finding both prisoners guilty. The forgery consisted of an assignment of city certificates issued to Frederick H. Ketchum, Jr., an orphan and half brother of Helm, by fraudulently writing the name of Ketchum on the bonds, and assigning them to the City savings bank. Bishop is a prominent democratic politician of Baltimore, an ex-judge of the orphans' court, and as presiding officer of the upper branch of the city councils was at one time acting mayor of the city.

A new Catholic church at Newburyport was consecrated on the 24th inst., with great pomp and ceremony, and the day was a notable one for the Catholics of that city. Archbishop Williams conducted the ceremonies, and the sermon was by Bishop O'Reilly of Springfield, Mass.

At a colored Masonic picnic at Thunderbolt, Ga., on the Coast Line railroad, on the afternoon of the 24th inst., a disturbance occurred about a woman. Three negroes were shot, one mortally. Edward Burke, who did the shooting, was arrested, taken to Savannah and lodged in jail.

The New York police, through the confession of the murderer Cox, have recovered the rest of the jewelry stolen from Mrs. Hull's room on the night of her murder. Cox had given the valuables to Bella Johnson, a young mulatto girl with whom he was intimate, and she had pawned a portion of them. She was arrested in her room at a house of ill-fame in the night, and had on her neck at the time Mrs. Hull's topaz necklace. A pair of solitaire diamond earrings were found in her trunk, and also the pawn tickets for other diamonds; a carbuncle ring was found in the possession of George Taylor, a coal-black negro and professional boxer who is employed in the saloon kept by the notorious Owen Geoghehan, the girl having given it to him to pawn. Taylor and the girl were both locked up.

William S. Groome and James H. Clements, negroes, have been arrested in Louisa county, Va., for the murder of the colored woman whose body was found in the North Anna river. The body had several bruises upon it and the neck was broken; the head was enveloped in a bag, and around the neck was a rope plaited out of hickory bark, with a hangman's noose in it. The woman's name was Ellen Coleman. The cause which led to the crime is not known.

A boy named George Smith has been arrested at Sackville, N. B., for the attempted murder of Israel Atkinson. He had shot the wrong man, his intention being to shoot a man who had detected him stealing some time ago.

Kemmler, the Holyoke, Mass., child murderer, was arraigned at the Holyoke police court on Monday, the 23d inst., on the charge of murder. After reading the warrant to him the court asked him if he understood it. He replied, with a smile, "too much English for me." The court fully explained the purport of the warrant, and asked Kemmler if he was guilty or not guilty. He replied flippantly, "Oh, yes, I did that; oh, yes, I shot them." He was ordered to be committed to await the action of the grand jury in December. The funeral of the murdered children was attended at Holyoke on the same day, by thousands of people. Many of the women present wept profusely as they saw the remains of the three little ones, and the grief of the mother was almost uncontrollable. The popular feeling in Holyoke towards Kemmler has somewhat softened, and the most intelligent citizens now believe him to be mono maniac.

John R. Miller, the hat manufacturer of Reading, Pa., whose disappearance on the eve of his wedding to a clergyman's daughter in Reading occasioned much excitement in that place, has returned home. The runaway groom was found at Saratoga, N. Y., by his friends, and the war, whatever its cause, is declared ended by the reconciliation of all parties.

The savings bank at Belfast, Me., has some queer customers. Recently a man disrobed in trying to get at his concealed treasure. Another depositor, a woman, before the alarmed modesty of the cashier could restrain her, put her foot on a chair, whipped a roll of bills from her stockings, and proceeded to verify the amount by count.

William Nailor and Elvira Virch were married, near Evansville, Ind., in the evening, and that night remained in the house of a friend. In the morning the bride's parents came with their farm hands, all armed with guns, and captured her, in spite of her own and husband's desperate resistance. She was carried off and Nailor has not yet been able to find her.

The public debt of Russia is increasing at a frightful rate. The latest loan of 300,000,000 roubles is issued "to procure for the public treasury the resources necessary to cover the extraordinary expenses required by the war."

Governor Packard, late of Louisiana, is now United States consul at Liverpool.

A Lewiston, Me., clergyman solemnized a marriage on Wednesday of this week, the bridegroom being nearly threescore and ten, and the bride not yet thirty.

At Saco, Sunday, Fred Taylor was out in his shell-boat taking a little exercise, and at the same time trying a patent rowlock. All went well for a time, when Fred "caught a crab" and over he went, and under. Frank Cole, who happened to be near by in his shell-boat, saw the mishap, and very naturally thought it too good a joke to let go by without shouting with the boys on the docks, but he was a little too jubilant, for he lost his balance and in a second he too was overboard in the middle of the river. Both men swam ashore, and the boats were recovered by friends from the banks of the river.

—A fashionable Paris amusement is reading aloud, during which talking is not allowed.

—A man can get at Saratoga about two hundred different kinds of bad tasting water and this year's discoveries havn't begun.

—A good story is told in Edinburgh about that genial Grecian, Professor Blackie. Ond day, shortly before the close of the late session, the professor being through some cause prevented from lecturing, there was posted on the Greek class-room door a notice to this effect: "Professor Blackie regrets he is unable to-day to meet his classes." A waggish student, spying this, scraped out the initial letter of the last word of the sentence, and made it appear as if the professor was regretful at his inability to meet those fair specimens of humanity familiarly known outside the college quadrangle as the "lasses." But who can joke with Blackie? The keen-eyed old man, noticing the prank that had been played on him, quietly erased another letter, and left the following to be read by whom it might concern: "Professor Blackie regrets he is unable to-day to meet his asses."

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1878, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

HOSTETTER'S

CELEBRATED

STOMACH

BITTERS

There seems to be no country under the sun where Dyspepsia is so prevalent as in the United States. Here the disease has become domesticated, and is to be found in almost every household; and consequently such a household remedy as the Bitters is of inestimable value to the American people. As an invigorating, regulating and restorative preparation, suited to all climates and contingencies, it stands alone among modern medicines. For sale by all druggists and respectable Dealers generally.

AROUND HOME.

It is a rumored that the North Atlantic squadron will rendezvous in this harbor some time in July.

The Rockingham national bank has declared a dividend of three and a half per cent, payable July 1st.

It was currently reported on Wednesday that the hall in the new National block has been secured for the use of the Odd Fellows' organizations.

Rt. Rev. Bishop Niles will officiate at St. John's church on Sunday, delivering a sermon in the morning, and administering the rite of confirmation in the evening.

The June meeting at the Manchester riding park opened on the 24th. The first race, for horses that had never beaten three minutes, was won in three straight heats by E. S. Fay's horse "Forbidden Fruit;" best time 2:42.

Twelve coal schooners were lying at the north end wharves on the 25th inst., discharging or awaiting berths, and several others were anchored in the lower harbor, ready to come up as soon as they could get a chance to discharge.

The door of the city marshal's office was on Wednesday of this week decorated with a neatly-painted tin sign informing the public that Mr. John O. Connor, recently appointed a justice of the peace, can be found there when wanted in his official capacity.

ACCIDENTS.

Mr. Daniel Crowley, at work in Mr. G. W. Raitt's gang of stevedores, on Wednesday morning of this week had a narrow escape from death, while assisting in discharging the cargo of coal from the schooner Royal Arch at Concord railroad wharf. Mr. Crowley was on the stage, and in attempting to catch the tub as it came up missed his grasp, and lost his balance on the stage. Seeing that he must fall, with great presence of mind he made a jump, and landed on his feet on the deck twenty-five feet below, instead of going into the schooner's hold as he would have done by a direct fall from the stage. He was of course somewhat shaken up and jarred by the accident, but was so little injured that he resumed his place in the gang after dinner.

One of the laborers in the department of construction and repair at the navy yard, while engaged in hauling live-oak timber out of the timber dock in the rear of the saluting battery on Wednesday forenoon, slipped from the scow that is employed in raising the sticks from the bottom preparatory to their being towed ashore, and fell into the water, escaping with no worse harm than a thorough wetting. The accident caused some merriment among his fellow workmen, on whose heads he heaped anathemas for laughing at his misfortune, expressing a hope that their sinful records might all speedily be washed away in like manner; and proceeding to show just how the disaster occurred, to convince them that it was an entirely unavoidable accident, he again lost his balance and made another hole in the briny deep, emerging the second time amid rounds of enthusiastic and prolonged applause.

THE MASONIC CELEBRATION.

The celebration by the Freemasons of Maine of the birthday of St. John the Baptist, June 24th, was beyond all precedent in the annals of Masonry in Maine. There were in the procession, by actual count, 2426 Masons, and with the musicians and marshals about three thousand men.

Sixteen Maine lodges marched in the first division, seventeen in the second, twenty-four in the third. In the fourth, Ancient Landmark Lodge, of Portland, escorted the five visiting lodges from Portsmouth, Dover, Rochester, Great Falls, and St. Johnsbury, Vt. In the fifth division, Portland Lodge escorted the Grand Lodge of Maine. In all, sixty Maine lodges were in line, including the Grand Lodge of Maine, and twenty-one bands filled the air with martial music.

The lodges from this vicinity that took part in the celebration were St. John's of this city, Strafford of Dover, Humane of Rochester, Libanus of Great Falls, St. John's of South Berwick, Yorkshire of North Berwick, York of Kennebunk, and Arundell of Kennebunkport. The Portland *Advertiser* has the following concerning St. John's Lodge of this city:

St. John's Lodge, of Portsmouth, turned out one hundred strong, with visiting brethren from St. Andrew's Lodge, of Portsmouth, and Winnicut Lodge, of Greenland, N. H. St. John's Lodge is one of the oldest lodges in the country, its records being complete for 143 years. It charter was granted in 1736 by the Rt. Hon. John Campbell, Earl of Loudon, of England. John Christie, and John R. Holbrook, Past Grand Masters of New Hampshire, accompanied this lodge. One of the members wore a coat which was made for the celebration of St. John's day in Portsmouth, in 1855, and it is a good coat still.

The city was gaily dressed with bunting, and no serious accidents occurred. After the march the brethren went on a steamboat excursion down the harbor, and in the evening there was a promenade concert in the city hall.

CELEBRATING THE FOURTH.

It is proposed to have a competitive trial for prizes between fire engine companies No. 3 and No. 4, on the afternoon of July 4th, provided a sufficient sum of money to defray the expenses can be raised by subscription, and a committee has been appointed to wait upon the citizens to solicit contributions.

After the company trial there will be a fat men's race between members of the two companies, the contestants being John Banks, John E. Harmon, John H. Webber, Benjamin Atwill, Edward Watkins, James H. Hurd and Edward McIntire.

Following this will be a race of two hundred yards between Harvey Lear and John Banks, Lear giving Banks a start of ten feet.

It is likely that other sports will be arranged for, in case the small amount of money necessary to carry out the plans is subscribed.

HIGH SCHOOL EXHIBITION.

The annual exhibition of the Portsmouth High School takes place this afternoon, in the upper room of the school building, the doors opening at two o'clock, and the exercises commencing at half-past two, the following being the

PROGRAMME.

Chorus, "Morning Invitation," School.
Salutatory, "Individual Effort," Winthrop L. Marvin.
Recitation, "New Church Organ, Cora E. Gilman.
Essay, "Utopian Ideas," Luella Martin.
Piano Duet, "The Witches' Flight," Misses Hutchings and Meloon.
Oration, "Greenbacks," Samuel W. Emery.
Chorus, "The Stars that above us are Shining," School.
Recitation, "Mona's Waters," Hannah J. Pickering.
Oration, "Caste," James Leavy.
Dialogue, "The School Committee," Young Ladies of the Graduating Class.
Female Chorus, "Gently fall the Dews of Eve," School.
Oration, "Samuel Johnson," George C. Berry.
Reading, "Papa's Letter," Sarah A. McCarthy.
Chorus, "Vocal Waltz," School.
Oration, "Progress," Willis A. Webbes.
Essay, "I am a part of all that I have met," Nellie Meloon.
Oration, "Enthusiasm," Charles H. Kingsbury.
Piano Duet, "Oberon," Misses Hutchings and Meloon.
Oration, "The Press," Burnham C. Stickney.
Reading, "The Senator Entangled," Alice A. Hutchings.
Chorus, "High School March," School.
Valedictory, "Perge Modo," Alice J. Newton.
Award of Medals.
Presentation of Diplomas.
Music, "America;" all are invited to join in singing.

The graduating class numbers twenty-three,—sixteen young ladies and seven young men—as follows:

Lizzie Augusta Brooks, Josephine Mahala Gove, Cora Eva Gilman, Alberta Green, Mary Emma Holmes, Alice Anne Hutchings, Alice May Marston, Luella Martin, Sarah Ann McCarthy, Nellie Meloon, Mary Ellen Morrison, Alice Jane Newton, Ella Frances Walker, Nellie Peele Walker, Winnifred Yeaton, H. Josephine Pickering, George Clinton Berry, Samuel Webster Emery, Charles Henry Kingsbury, James Leavy, Winthrop Lippitt Marvin, Burnham Coos Stickney, Willis Arthur Webber.

In the evening the graduating class will give a reception in Congress hall, with literary exercises and dancing. The literary exercises will consist of brief addresses by present and former members of the high school committee and of the committee on composition, and other gentlemen, and readings by Mr. Charles F. Stimson. The class ode will then be sung by the graduating class, after which there will be dancing to the music of Harlow's orchestra, the following being the

LIST OF DANCES.

March.
1 Quadrille.....Class of '79.
2 Contra.....Portland Fancy.
3 Waltz.
4 Quadrille.....Lancers.
5 Contra.....Virginia Reel.
Intermission—30 minutes.
6 Waltz, Polka Redowa, Schottische.
7 Quadrille.....Fancy Medley.
8 Contra.....Lady of the Lake.
9 Waltz.
10 Quadrille.....Mocking Bird.

New Hampshire Items.

In the House, on the 24th inst., several petitions for the abolition of capital punishment, and petitions for a reduction of passenger and freight tariffs on railroads, were presented and referred. The following in bills were passed: To change the time of holding the trial terms of the supreme court for the southern district of Coos county; to provide for the better protection of destitute and abused children; to amend the law relating to the annual invoice of polls and taxable property. The following were read and referred: To extend the charter of the Lowell & Windham railroad; to enforce weekly payments by corporations; to tax the franchise and reservoir rights of the Winnipiseogee Lake Cotton and Woolen manufacturing company; in relation to foreign insurance companies and their agents; to amend the general laws relating to the elections of governor, councillors and senators; relating to the illegal sale of spirituous liquors; relating to the holding of probate courts in Hillsboro' county.

At Benton, June 24th, Ephraim French, a laborer in Richardson's mill, beat and bruised his wife terribly. The mill hands seized him, bound and carried him into the woods, threatening to hang him. Then they stripped, tarred and feathered him, and let him go.

Mrs. Anne W. Cheney of Asbland died June 20th, at the age of seventy-eight years. She was the daughter of Jonathan Morrison of Sanbornton, a revolutionary soldier, and was the mother of seven children, five sons and two daughters. Four of her sons were in the army during the rebellion, and one of them was killed at Cold Harbor. Among her children who survive are Col. Thomas P. Cheney, superintendent of the United States mail service in New England, and Hon. Person Cheney, Jr., of Dixon, Ill.

The work on the new Amory manufacturing company's mills at Manchester has been suspended in consequence of a resolution which passed the legislature requiring the opinion of the supreme court as to the right of the town to exempt property from taxation under the New Hampshire bill of rights. The city government agreed to exempt the new corporation for ten years as an inducement to build, and under this agreement a charter was obtained and work begun with a million and a quarter capital. The Langdon manufacturing company was started under precisely the same circumstances. Those best informed say that the delay will only be temporary, as the contract to exempt was made in good faith, and was in all respects in accordance with the law. The legislative resolution will doubtless be reconsidered at an early day.

Protect the System from Malaria.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloid, sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional indorsements which it has received have added to the reputation it has obtained at home and abroad.

Persons under the operation of Fellows' Hypophosphites should examine their blood under the microscope from time to time, and mark the increase of red and active particles and diminution of the white or dead ones; these observations are interesting and instructive.

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

I have derived much benefit from using Fellows' Hypophosphites in chronic constipation.
JOHN B. MOORE, Forest City, Montana.

Many clergyman who were obliged to withdraw from the pulpit on account of "Clergymen's Sore Throat," have recovered by using Fellows' Syrup Hypophosphites and are preaching again. This preparation seems peculiarly and wonderfully adapted to diseases of the breathing organs.

Dr. J. Patterson,
OF SALEM, MASS.,
THE WONDERFUL CLAIRVOYANT PHYSICIAN,
Will visit Portsmouth Tuesday, July 1st,
For one day and evening, and will take Parlors at the Rockingham House, where all who wish may consult him on all diseases that flesh is heir to, *free of charge*. The Doctor, while under control, will tell the patients their symptoms, ailments, and prescribe for their diseases, whatever they may be.
Consultation Free; Examination 50 cents. Examination and Prescription $1.00. Treatment by the week or month—Terms per month $5.00.

No. 1 Market Square.

Cows and the Dairy.

Now that the winter diary has come into vogue, it does not pay to pack butter for sale in competition with fresh creamy pails in winter. A change has come over this business, and it is no longer advisable under the present conditions, to keep butter stored away for sale. The most profitable butter now is that sold fresh in small tubs or pails. This change should be noted and provided for as soon as may be. It also affects the management of cows, and these are now brought in fresh at any season of the year, so as to keep a constant supply of fresh milk. With the "perfected butter colorings," as they are called, June grass color has paled in comparison, and is now of less consequence. "June" butter or butter equal to that, so-called, can now be made, with fresh cows, at almost any time of the year.

—What more ecstatic state of enjoyment can be imagined than to swing in the hammock on the cool verandah, and gazing through the perfumed smoke of your cigarette, to drink in, as it were, the graceful evolutions of your mother-in-law as she pushes and drags the lawn mower over the ground in a spiteful manner. "to shame the head of the family into trimming up things round the house, so's to look like folks."

—The Paris police are credited with great ingenuity in detecting criminals. They lately adopted a droll device to find out how a certain firm was being mysteriously robbed. One day a large box, or rather case, was sent to the store and brought into the back office. It was marked "Explosive Materials." Air holes had been bored in it; and from this position the detective—for one was inside—could overlook the store. He saw about noon, when the proprietor was absent, that one of the clerks went to the door to watch, and the other to the till, from which he took some money. Then the box exploded.

STATED MEETINGS.

☞ Excursion Trains on all Railroads on the day of exhibition.
☞ "THE LIFE OF BARNUM," written up to 1879, sold on the ground for 50 cents, usual retail price, $1.50.

(*Successors to R. V. PIERCE, M. D.*)
DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary and Invalids' Hotel, which has since been merged with the INVALIDS' HOTEL. The organization has been completed and incorporated under the name and style of World's Dispensary Medical Association, with the following officers:
Hon. R. V. PIERCE, Pres. F. D. PIERCE, V. Pres.
JOS. P. PIERCE, Sec. LESTER B. SMITH, Treas.
NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty.
CHRONIC DISEASES of all forms come within the province of our several specialties.
LUNG DISEASES—Pulmonic division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases treated with the most successful results.
DISEASES OF WOMEN—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.
NERVOUS DISEASES—Paralysis, Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of a surgeon in this specialty.
NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book" (100 pages, 10 cents post-paid).
SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We also treat successfully by a new method without surgical operation, Cancers, Club-feet, Spinal Curvature, and other deformities. Our pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.
Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN
By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.
To designate this natural specific, I have named it
Dr. Pierce's Favorite Prescription
The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special disease incident to the organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** (For conditions, see pamphlet wrapping bottle.)
The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not extol this medicine as a "cure-all," but it admirably fulfills a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.
Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats fully of those diseases peculiar to Females, and gives much valuable advice in regard to the management of these affections.
Favorite Prescription sold by Druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,897,580 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSIBLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.
The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.
Three of the leads have already been opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.
The Company proposes to sell a portion of its stock at $1.50 per share for the purpose of more completely developing its mines, and for the erection of works for the treatment of the ores.
Applications for the stock may be made to the office of the Company, 51 Broadway, New York.
N. B.—*The Mining Record,* of New York, the highest mining authority in this country, says Feb. 1st, 1879: The principal owners in this company are men who have made up by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing in one of the largest banks in the city. A Prospectus covering full particulars sent free, on application to the Secretary. mch22&w1mos

The Henry Bill Publishing Co., Norwich, Ct.

SANFORD'S RADICAL CURE

For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and berb is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all seeds are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and eliminates the acrid poisonous matter through the kidneys, and thence into the bladder. Thus a cure expresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have soon ended me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head ached, eyes smarted, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1878.

Sold everywhere. Price, 75 cents.

☞ Purchase the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Plasters have now been before the public for years, and, notwithstanding the immense number of imitations in the form of liniments, lotions, painkillers, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is the trial of a single trial. The price is 25 cents, although it is a double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the Plaster the best in the world for the least money, any other remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for profit, *imitate* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

Profitable Stock Investment.

Before Messrs. Lawrence & Co., the New York bankers, inaugurated the combination system of operating in stocks, it was often very difficult for inexperienced operators, or even old stagers, to deal profitably by their single handed ventured. Now the field is open to every one for successful operations, and capital in any amounts, from $10 to $20,000, can be used with equal proportionate profit. Instead of distracting efforts among many customers, the orders of thousands are concentrated into one vast pool and cooperated for the benefit of all, dividing profits *pro rata* every month. A prominent citizen of San Francisco made $1,264.83 from an investment of $300 last month. Other customers are doing better still. $25 pays $125 during the month, $200 returns $1,200, or 6 per cent on the stock, and so on as the market moves. New circular contains "two unerring rules for success," and full instructions for any one to operate profitably. All the advantages of unlimited capital and careful manipulation are secured by the combination method. Stocks and bonds wanted. Government bonds supplied. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, New York City.

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

I have derived much benefit from using Fellows' Hypophosphites in chronic constipation.

JOHN B. MOORE, Forest City, Montana.

Many clergyman who were obliged to withdraw from the pulpit on account of "Clergymen's Sore Throat," have recovered by using Fellows' Syrup Hypophosphites and are preaching again. This preparation seems peculiarly and wonderfully adapted to diseases of the breathing organs.

No preparation of Hypophosphites I have used can compare with Fellows' Compound Syrup of Hypophosphites for restoring strength to the nervous system.

I think it the best medicine I ever used.

W. J. HORNER, Buffalo, N. Y.

11 CONGRESS ST.

Portsmouth Chronicle

FRIDAY, JUNE 27, 1879.

Maine Republican Convention.

The State convention of the Maine republicans met at Bangor on Thursday. Hon. T. A. Pike of Calais was chosen temporary chairman, with Wm. O. Holmes of Vinalhaven and Calvin L. Hayes of Kittery as secretaries; the temporary organization was made permanent, with the addition of two more secretaries and a vice president for each county. There were 1234 delegates present—the largest delegate convention ever held in the State; and though there was intense interest the utmost harmony prevailed. Hon. D. F. Davis of Corinth was nominated for governor. The members of the State committee for York county are B. F. Hamilton and M. F. Wentworth.

The State Legislature.

In the Senate, on June 25th, the act in relation to the mortgage bonds of the Nashua & Rochester railroad was finally passed. A resolution requiring the various railroad corporations to inform the Senate of the number of free passes granted during the years '77 and '78 created a lengthy discussion, and was finally amended by requiring them to state on what account they were given, and not the name of the person to whom given, and was then passed. The national resolutions of Senator Moore, sustaining President Hayes in his vetoes, were given a passage, after voting down the substitute resolutions offered by Senator Mann, a democrat; they were adopted by a party vote.

In the House, petitions for chartering the Keene & Northfield railroad company; to amend the law relating to the sale of lager beer and cider; for the reduction of fares and freights on railroads; to amend the laws relative to damages by reason of defective highways; to amend the laws relative to licensing peddlers and traders and the sale of lightning rods; to incorporate guarantee savings banks in Manchester, and to amend the charters of the Manchester & Keene and the Farmington & Rochester railroads, were introduced and referred. The following were passed: To amend the laws relative to the attendance of the clerks of courts at law terms; in relation to the State normal school, appropriating $5000 annually.

The Champion Democratic "Investigator."

Representative Glover of Missouri, who as a member of the last Congress won a world-wide fame as the champion investigator of republican frauds, in investigating which he invariably uncovered some democratic rascal or rascals, and never by any accident exposed any republican, has finally gone out in a blaze of glory.

Glover having attacked representative Singleton of Mississippi, the democratic chairman of the present House printing committee, in the newspapers, and charged him with having attempted to defeat printing the report and testimony of the Glover committee, Mr. Singleton a few days ago rose to a question of privilege, and characterized Glover as a lunatic who required watching. He also charged Glover with having written threatening letters to him, and with retaining the original manuscript of the report and testimony in his possession, so that the printing committee had never seen the document, and were thus prevented from knowing its contents,—adding that whatever Glover might think of the committee, its members were not quite such fools as to authorize the printing of a mass of trash they had never had a chance to examine. Mr. Singleton said that he had supreme contempt for Glover, and he believed the same feeling was shared by all who knew him.

This is probably the last of Glover in the House, although proceedings may be taken to recover the stolen manuscript which, it is understood, Glover and his "experts" propose to sell to the newspapers.

News and Notes.

Seventy thousand tons of Lackawanna coal was sold in New York, June 24th, at an advance of from ten to twenty cents per ton over the previous monthly sales.

A funeral car containing the body of Mrs. Col. E. F. Brown, of the Soldiers' Home at Dayton, Ohio, was thrown from the track and overturned near Buffalo, N. Y., June 25th. One man and one woman were fatally injured, and several others less seriously hurt.

The Khedive of Egypt has been deposed by the Sultan.

A laboring man at Lawrence, Mass., who had for a long time been out of employment, and had been at work in the Pacific mills for a few days, died on June 25th for lack of food. His wife and young child were found in a terribly emaciated condition, the poor creatures having been too proud to beg and too honest to steal.

Lyman Hay, recently convicted and sent to the State prison at Auburn, N.Y., for twenty years, on a charge of outrage on a young girl, is said to be entirely innocent, as a man named Corwin has confessed that he was the criminal. Corwin has fled to Canada. The case will be presented to Gov. Robinson immediately.

The great tower at the New York end of the Brooklyn bridge was completed June 24th.

Albert Weber, the piano manfacturer of New York, died June 25th.

The steam collier Hercules swung against the steamer Alice M. in making a berth at the wharf in Newburyport, Thursday morning, crushing her in and sinking her. The Alice M.'s crew were asleep at the time, but no lives were lost.

R. S. Taylor and Robert Taylor, brothers, and C. B. Wren, all respectable farmers, had a pistol fight at Sedalia, Mo., June 26th. R. S. Taylor was shot dead, and both the other combatants mortally wounded.

The Fall River spinners generally struck on Thursday, but enough remained at work to keep all but one of the mills running with reduced gangs.

New Hampshire Items.

William Smith of Springfield committed suicide by shooting himself through the head on the night of June 20th. He was twenty-one years of age, and unmarried.

Henry W. Merrill of Dunbarton, aged twenty-two years, an employe at the State reform school, and George Plummer, an inmate from Berlin Falls, aged about nineteen years, were drowned on June 25th while fishing from a boat on Long pond, in Dunbarton.

Mrs. Hannah Cox of Holderness celebrated her 103d birthday on June 24th. The venerable lady is in full possession of all her faculties, with the exception of her hearing, which is impaired, and takes a strong interest in the affairs of the day. She has a large number of descendants living, and on the occasion of her last birthday four generations were represented.

J. B. Sanborn of Thornton was recently attacked by a bull while in his pasture on horseback. The animal charged him, and one horn striking the side of his horse penetrated deeply, while the other cut a long gash in Mr. Sanborn's leg. The shock threw him off the horse, against a rock, breaking his shoulder and collar bone. Mr. Sanborn was not seriously injured. The horse was injured so badly as to be useless.

Naval Affairs.

It is stated that the U. S. S. Kearsarge will leave New York in a few days for the banks of Newfoundland, and will visit St. John's and Placentia, N. F., Charlottetown, P. E. I., and Halifax. The Kearsarge went up to New York June 24th.

The U. S. S. Wachusett arrived at New Orleans on the 23d inst.

The U. S. S. Alaska arrived at San Francisco on the 24th inst., from Sitka, Alaska.

—A farmer on the shores of Lake Ontario has had nine acres washed away in twenty years. He is evidently losing ground.

ROYAL

BAKING POWDER

Absolutely pure—made from Grape Cream of Tartar, imported exclusively for this Powder from the Wine district of France. Always uniform and wholesome. Sold only in cans by all grocers. A pound can mailed to any address, postage paid, on receipt of 60 cents. ROYAL BAKING POWDER CO., 171 Duane St., New York. Most cheap powders contain alum; dangerous to health; avoid them, especially when offered loose or in bulk.

AROUND HOME.

Portland, Saco & Portsmouth railroad stock sold in Boston at 108, on Thursday.

Patrick Leighe of Great Falls, one of the contestants in the last pedestrian match in Dover city hall, has been arrested in Great Falls for burglary, and committed to Dover jail in default of bail.

Chief Engineer Thom Williamson is detached from this navy yard, and ordered to the Powhatan as fleet engineer of the North Atlantic squadron, relieving Chief Engineer David B. McComb, who is ordered to the navy yard.

It is announced as probable that the fire extinguisher companies will have a trial on the 4th; and a parade of the department, with the machines, is under consideration. The firemen propose to finish the day up with a collation.

New Hampshire Lodge, No. 17, I. O. O. F., on the evening of the 25th inst. chose officers for the ensuing term, as follows: N. G., Arthur F. Pfeiffer; V. G., Samuel M. Joy; P. S., Moses H. Tilton; R. S., Thornton Betton; T., John M. Clark; Trustees, George Annable, John H. Wells, C. H. Sides.

Shortly after noon on Thursday a horse belonging to Mr. Herbert DeRochemont of Newington broke his leg by falling into an excavation on Elm street, where the aqueduct company's men were engaged in relaying water conductors. The animal was shot by a bystander, to put him out of his misery.

It never fails. The grass in the Universalist church field was cut early this week, and on Thursday noon was all ready for putting into the barn; for once it looked as if that hay was to be gotten in without being wet down, but early in the afternoon a brisk shower came up, and the time-honored legend that "Mowing the Universalist field always brings rain" still holds good.

Elder Waite's lecture on "The Powers that Win" in the tent, last evening, was really interesting and profitable. Without any attempt at rhetorical display or rounded sentences, Mr. Waite gave an easy, smooth, common-sense "talk," illustrating his theme with numerous character-sketches drawn upon the blackboard, and telling a number of anecdotes. His words of advice to the young were golden words indeed. About a thousand people were in attendance.—*Times, June 26th.*

Mr. Joseph H. Fernald, a lobster-fisherman, on Thursday afternoon was given a tow up by the steamer Clara Batemen. The wherry towed all right until between the narrows and the south beacon, when the swell from the steamer Appledore caused her to fill and roll over, Mr. Fernald losing the seats and oars, his fare of lobsters, and all his fishing gear. The total loss does not amount to a large sum, but it bears heavily on a poor man who can very ill afford it.

The Dover *Democrat* understands that an effort is being made to introduce the "Business Men's Moderation Society" into this State, and the first branch will be established in that city shortly. There are four pledges in this society—red, white, blue, and red-white-and-blue. The red pledge is a pledge not to drink any intoxicating liquor as a beverage for a given time; the blue is a non-treating pledge; the white that which pledges a member not to drink during business hours; and the red-white-and-blue provides that nothing stronger than wine or beer shall be drank, and those only in moderation.

William Alonzo Brewster, formerly of Dover, better known as Lon Brewster, is in trouble. Some year or so ago he was flourishing in Ossipee as a revivalist, and won the confidence and affection of a maiden lady many years his senior, who had a sum of money—$700, we believe—in a Dover bank. Brewster took the lady to Great Falls and married her; stopped one night in Dover, and got his wife to draw the money from the bank; next day they went to Boston, where Brewster induced his wife to entrust her money in his hands to invest, and he has been at work hunting for a good investment for it ever since, his wife not having seen or heard of him any more until a few days ago, when it was learned that he was talking religion, looking sanctimonious and conducting another matrimonial speculation in Amherst, Mass. He has been brought back to Dover to answer to a charge of embezzlement of his wife's money.

The public schools close to-day for the summer vacation of eight weeks, and will re-open on Monday, August 18th.

The semi-annual dividend of the Concord & Portsmouth railroad will be paid to stockholders at the office of Col. William H. Hackett, from 10:30 A. M. to 4 P. M., until the 28th inst.

Mr. Waite will pitch his gospel tent in Dover, and will hold the first service there on the 4th of July. He intends also to visit Rochester and Farmington on his way to the Alton Bay camp-meeting. The tent will be dedicated on Monday evening next, with appropriate ceremonies; H. L. Hastings, editor of the *Christian*, of Boston, will deliver the dedicatory address.

HIGH SCHOOL EXHIBITION.

The exhibition exercises of the graduating class of the high school took place as previously announced, on Thursday afternoon, in the upper school building.

The school-room was profusely and handsomely decorated with flowers, the motto of the class, "Perge Modo," being tastefully arranged on the wall. The young ladies of the graduating class went on the dress-as-you-please system this year, the all-white apparel of former similar occasions being conspicuous by its absence—a very sensible innovation, in our opinion, and we think they were quite as attractive in appearance as though they had all been robed after one pattern. The room was filled with parents and friends of the pupils, and other interested persons.

The exercises went off promptly and well, each scholar responding immediately when called upon. As a whole the class did as well as in former years, and in some respects better, a marked improvement being noticeable in the gesticulation of the speakers. We have not space for an extended report, but give the salutatory and valedictory—the former, by Winthrop L. Marvin, being as follows:

Individual Efforts.

There is no fact that we need to be more mindful of than the flight of time. It seems but yesterday that the Class of '79 first entered these halls, now grown so familiar and, I may add, so dear, to us all. That we have here done the most and the very best we could, I will not claim; but much we have done, and it will be of value to us as we go forth to other duties. To-day we meet as scholars of our High School for the last time. To utter the words of our farewell, as we bid good-bye to school and the friends whom we have here been wont to meet, will be another's duty and privilege. To me falls the pleasanter office of welcoming those who now honor us with their presence. And in behalf of my classmates and the school, I extend to you all a most cordial greeting. We welcome you as those who come, not to criticise, but to encourage us. As the love of parents and friends is our richest treasure now, we would linger in its presence while yet we may. We ask your kindly interest during the exercises of the afternoon, and will do the best we can to please you. Standing, as we do, upon the threshold of a new life, the problems of the untried future rise before us. What we desire most is success. Not to succeed is not to be. The future is to us all unknown, and our own past is so limited as to be of little avail. Let us then study the lives of others, both those who have succeeded and those who have failed; for we should shun their failures, as well as emulate their successes. We shall find, in the histories of great wars and reformations and discoveries, that each had its master spirit; a Napoleon, or a Luther, or a Columbus. What would have been the effects of these, without their respective directing forces, it is not easy to see. The first crusaders, under the nominal leadership of Peter the Hermit and Walter of Burgundy, after wandering through France and Germany perished alike by the hand of friend and foe on the plains of Hungary and the deserts of Asia.

How many of the great powers of the world to-day owe their greatness to the efforts of one man? Bismarck for Germany, Gortschakoff for Russia, Count Cavour for Italy, have accomplished great results, and raised their royal masters high among the crowned heads of Europe.

And in the world of science, as well as in that of politics, we find many shining examples of what one man can do. The Inquisition might force Galileo to retract his grand truth in words, but never in heart. Columbus, unaided and alone, long pushed his adventurous project in the courts of Europe, before he brought it to its triumphant conclusion.

And in the nineteenth century Fulton, though meeting discouragement on every hand, finally achieved his object and rendered steam navigation an assured success.

And multitudes of cases might be quoted, where the controlling will and guiding hand of one man have been of paramount importance to the world at large. You and I may know of instances in the humbler walks of life, in which individuals have accomplised noble results by acts of supreme heroism and even of self-sacrifice; and I doubt not that their reward will be as great as that of those, who, in the pursurance of more ambitious ends, have subverted empires and deluged the world with blood. And as all cannot be great statesmen, or generals, or painters, or orators; as some must hold the plough and guide the carpenter's plane, as well as direct the affairs of continents and lead mighty armies, the work of the farmer and of the artisan should not be regarded as dishonorable. England's power was due, in a great degree, to the stout yeomanry of the inland counties, and the strongest safeguards of Rome were the citizens of the middle and lower classes. We should, then, in whatever rank of life our parts in the world's great work may be allotted, remember that even in the least of these Individual Effort is indispensable to success.

The valedictory, by Alice J. Newton, was

Perge Modo.

The tempest on the sea, sent forth by Æolus in obedience to Juno's command, has been calmed by Neptune, and Æneas has been cast on an unknown shore. Having addressed cheerful words to his companions, heavy at heart himself, he sets off to take his bearings. Venus, meanwhile, has lamented the hardships of the Trojans in the presence of Jupiter, and has learned from him of their future prosperity. Now, disguised as a huntress, she comes to meet Æneas. He sees that she is more than mortal, and entreats her to tell him his whereabouts. She shows him that he is near Carthage, relates to him the story of Dido, and then, after assuring him of his present welfare, says, "Perge Modo."

People in this world often get into hard places. When they see the causes of it all, in themselves, as most of them might, or in others, as most do, the case is bad enough; and when no one can be blamed for the discomfort, it is still worse. Æneas had no one to blame for his distress, unless the gods, and he would have been afraid to complain of their dealings. He was an innocent, pious man, and he surely had good reason to think himself abused. He was fated, it seems, to go to Italy; but the gods, instead of telling him so, and taking him there by a direct route, were letting him drift about in a most provoking way. Strange that he endured so much from them!

When Venus said "Perge Modo" to Æneas, it meant something to him. Most of us now-a-days have an idea that whatever is advice must be hateful. We hear it given so frequently, when there seems to be no special need for it, that we endorse the maxim "On ne donne rien si liberalement que ses conseils.' We say that in advice we have found something that everyone likes better to give than to receive, and generally, pay but little attention to it. When we are really in trouble, and some one comes to help us, we listen without stopping to consider that we are being advised. So Æneas heard the encouraging words of his mother. A hero of a less quiescent type, would have been glad enough to be talked to by anyone, and he of course, receiving counsel from the goddess, would eagerly listen.

"Perge Modo" is a common saying, expressed in one way or another.

"If you do but persevere
You will conquer, never fear,"

is one of the first ways in which we hear the maxim; then, as we grow older and perceive the importance, ourselves, we are constantly learning from books and friends, that many others have the same truth ever in mind. Nature, too, if we watch the growth of her different forms, seems to be saying something like this to us. "Perge Modo," by the policeman clearing the street-corners, is inelegantly rendered, "Move on." Many a classical tramp would have his feelings less wounded, if we were thoughtful enough to use this phrase instead of the customary ruder language that suggests to him his departure.

Why, after all, is "Perge Modo" a good motto for us who are leaving school? Perhaps you think it absurd that anyone in Portsmouth should not go on in the old rut? The significance of the motto to us is this: we have had help and encouragement from our teachers and one another, and there has been pleasure in studying. When people tell us that, wanting these influences, we are going to spend all our time without any care for what we have liked here, we think of this motto. We propose to go on, doing the best we can, and know that our best will be much better for the work of the past four years.

Thinking to day of our school-life, we feel very grateful to those who have made it pleasant and helpful to us; to the gentlemen who, as committee, have interested themselves in our progress, and who, with the mayor and other city officers, have been so thoughtful in providing whatever was necessary for the work; to our chairman, for his frequent visits that have always been welcome; to our teachers, for their instruction and friendship. We shall think of you always with affection and gratitude, as you go on doing for other classes what you have done for us. We thank our parents, too, whose kindness] in placing us under these influences, we hope to prove that we appreciate.

We, as graduates, have the same story to tell that you have heard from former classes; how the time has flown, and of our regret that the end of the four years' course is here. We affectionately remember one classmate to-day, whom death a year ago in his only visit among us took away.

This last year, as usual, has seemed the shortest of all; its enjoyment has been somewhat less on account of parting with one of our teachers, whom we are so sorry not to meet here to-day, as we had expected.

To you, schoolmates, we say good-bye without the customary advice; you have known the character of our course, and it is for you to decide, whether to follow in our steps, or take another path.

We leave our best wishes to next year's class, earnestly hoping that before we are invited to their exhibition, a hall will be built to replace Franklin hall.

Our good-byes to one another, classmates, can be exchanged this evening. Let us remember our motto, and let it have an influence on our after lives.

At the close of the class exercises Dr. James R. May, of the committee, made a few appropriate remarks, after which Col. D. J. Vaughan announced the following as the

AWARD OF MEDALS.

Second Year.

For diligent application, good deportment, and general improvement in all the studies pursued:

Young ladies—first medal, Celia A. Blaisdell; second medal, Nellie J. Pickering.

Young men—first medal, Elwyn Carter; second medal, William C. Walton.

Third Year.

Young ladies: Best scholar in bookkeeping and mathematics, including all the branches of the latter pursued during this and previous years, Grace Marvin; this young lady maintained the first rank in general scholarship. For diligent application, etc., second medal, Carrie E. Plummer; third medal, Nellie A. Taylor.

Young men: For having maintained the highest rank in general scholarship, Clarence W. Frazer. Best scholar in English composition, (only young men contend,) Emil C. Pfeiffer. [The committee of award say: "It has been customary to give another medal in the third class of young gentlemen for excellence in book-keeping and mathematics, but your teachers can not present the name of any one as deserving this medal.]

Fourth Year.

Young ladies: Best scholar in Latin, Alice J. Newton; this young lady has maintained the highest rank in general scholarship, has not been absent or tardy, and has received no demerits, during the entire course of four years. For best English composition, (only young ladies contend,) Nellie Meloon. For diligent application, etc., third medal, Luella Martin; fourth medal, Nellie P. Walker.

Young men: Best scholar in mathematics, Burnham Stickney; this young man has the highest rank in general scholarship, and has not been absent or tardy during the course of four years. Best scholar in Latin, Winthrop L. Marvin. Diligent application, etc., Charles H. Kingsbury; this young man has not been absent or tardy during the entire course. Fourth medal, James Leavy.

Josephine Gove has not been absent or tardy, and has received no demerits, during the entire course. Hannah Pickering, Alberta Green and Ella Walker, have not been absent or tardy during the course. Cora Gilman has not been tardy. The compositions of Alberta Green of the graduating class, and Clarence W. Frazer of the third class, were judged to be second in merit.

Col. Wm. H. Sise, as mayor of the city, then distributed the diplomas, prefacing the distribution as follows:

Young Ladies and Gentlemen of the Graduating Class: Of all the duties devolving on me as mayor, I esteem this the most pleasant—to be here to-day and present to you in behalf of our city these diplomas. May the new life that on the morrow you will enter upon, be all that your fondest wishes may desire. Take for your mottoes these: "Be honest and true in all your transactions with others;" "Dare to do right,"—and a bright future is yours.

We could mention some of the graduates who did better than others; but all did well, and we decline the invidious task—but we will say that Emil C. Pfeiffer, of the third class, delivered a humorous oration not down the programme, which was received with applause. Miss Lizzie Flagg, who officiated at the piano, is not a pupil of the school.

The reception by the graduates in the evening in Congress hall was attended by a half-full of their friends. Stephen W. Clarke, Esq., principal of the high school, presided; and after the performance of some pleasing selections by Harlow's orchestra, brief addresses were made by Hon. Albert R. Hatch, J. P. Bartlett, Esq., Rev. Mr. DeNormandie, Dr. James R. May of the high school committee, Rev. E. M. Grant and Dr. S. C. Whittier of the committee on compositions, and Mr. Charles W. Gardner; and Mr. E. C. Stimpson read a selected piece. The class ode was then sung by the graduated class, and the exercises wound up with a social dance.

CITY COUNCILS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

Robert Shillaber appeared before the board in regard to several hog-pens that had been complained of as nuisances, among them being one owned by Daniel Sullivan on Deer street. Voted that the board visit the premises of Sullivan on Friday morning at nine o'clock, and immediately afterward inspect the premises of Mr. Buckley on Mast street.

The heirs of Mary Canovan asked to have sidewalk relaid on Congress street. Referred to committee on streets.

Voted that the firemen be paid their quarter's pay on Monday night.

Resignation of Wm. E. Hadley as alderman from ward one was received and accepted.

The board then went into convention with the common council, to choose a city treasurer.

A petition signed by several of the heaviest tax-payers was received by the convention, asking the appointment of James Moses as collector and treasurer.

On a ballot, Wm. E. Hadley was elected treasurer, and the convention then rose.

In board of aldermen, resumed, Wm. E. Hadley, was elected tax-collector.

The committee on finance recommended that no reduction be made in the bonds of the collector and treasurer.

KNIGHTS OF HONOR.

On Thursday evening last Governor Goodwin Lodge, Knights of Honor, was instituted at the hall on Market street by Mr. Joseph H. Gardiner of this city, Grand Reporter of New Hampshire. The new lodge starts with twenty-three charter members, (which is a very good showing indeed, considering that there was already one lodge of the order in the city,) this being a larger number of charter members than any other lodge instituted in the State started with. The following is the list of officers:

Past Dictator, Aaron Young;
Dictator, John E. Colcord;
Vice Dictator, William F. Noyes;
Asst. Dictator, John H. Locke;
Reporter, William A. Ashe;
Financial Reporter, Joseph H. Gardiner;
Treasurer, Stephen L. Marston;
Guide, Oliver M. Jellison;
Chaplain, Daniel W. Jones;
Guardian, Joseph B. Fletcher;
Trustees, E. G. Pierce, Jr., J. H. Gardiner, Aaron Young;
Medical Examiner, Daniel W. Jones.

This order is a secret benevolent society. It was established by persons who felt that the various systems of relief to the families of deceased members, as adopted by other orders, were deficient in important respects, and who believed that an order established with the purpose of paying a death-benefit as one of its main objects would meet with approval and success. Upon the death of a member it pays $2000 to the widow or heirs; the cost to each full-rate member is about $1 per month, which is a very cheap rate of insurance. The remarkable growth of the order has confirmed the wisdom of its projectors, and a great interest has been evinced in the order in this State during the present year.

When the yellow fever raged in the south last summer, and so many members of this order died from its effects, it was prophesied that as constituted it would not stand the strain, but would either collapse or be separated into branches or district organizations; but these predictions have proved unfounded, and the order seems all the stronger for the severe test, the proof being shown in the large number of new lodges now being instituted.

From the character of the charter members of Governor Goodwin Lodge, we expect to soon see it one of the foremost lodges of the order in the State.

THE LIFE OF P. T. BARNUM.

Barnum's life has been an extraordinary one, and the great showman, in writing the fiftieth chapter, which brings his "Struggles and triumphs" down to 1879, has put the finishing touch to a most entertaining autobiography. Barnum's strange and varied experiences in all parts of the world, his ups and downs, and his pleasant method of describing them, make his book read like a romance. The late Horace Greeley said in the *Tribune*: "The reading of Barnum's checkered life, and especially the chapter containing his lecture on 'The Art of Money-getting,' is worth a hundred-dollar greenback to many a young beginner." While Barnum's book is full of anecdote and fun, its moral tone is unexceptionable. It is a capital book for the rising generation. Over 400,000 copies have been sold in his great show since 1869. The price has been reduced to the bare cost of printing. It is neatly bound in muslin gilt, and will be sold at the great show on Saturday for fifty cents per copy. It is the cheapest book published in America, and could not be got up for the price except by printing it in editions of a hundred thousand at a time.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

"Practical Science."

Under the above heading, the *St. Croix Courier*, of St Stephen, N. B., in referring to the analysis of Dr. Pierce's Golden Medical Discovery and Sage's Catarrh Remedy, recently made by Prof. Chandler, of New York, and others, says: "Nothing was discovered which we think objectionable, and the published analysis should increase, rather than retard, their sale. To us, it seems a little unjust to call a man a quack, simply because he seeks to reap as much pecuniary reward as other classes of inventors." The English press is conservative, yet after an examination of all the evidence it not only endorses but recommends the Family Medicines manufactured by Dr. Pierce. No remedies ever offered the afflicted give such perfect satisfaction as Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy.

—A Baltimore paper says that Mr. Moody, the revivalist, has "converted a Jewish rabbit." An over-wise compositor probably added the last letter.

—New York papers say that "Pinafore" is being performed by church choirs all over New England, but the expression "Damme" as uttered by Captain Corcoran, is changed to "Hang it," and in the last act, instead of vowing that he will hardly ever be "untrue" to Little Buttercup, he says "unkind." In this form the piece is considered safe.

—A Quaker was on trial in England, when a brother Quaker entered and accosted the Lord Chief Justice with the remark, "My Lord Chief Justice, I am charged with a message to thee from God Almighty." The Lord Chief Justice asked its purport, when the broadbrim replied, "The Lord commands thee to *nolle prosequi* this indictment." The Lord Chief Justice replied: "Thou art a lying knave. The Lord knows well enough that the court has nothing to do with a *nolle prosequi*. It must be addressed to the Attorney General."

Ladies, Children and others wishing to avoid the crowds in the evening are advised to attend the Afternoon Exhibition.

☞ Excursion Trains on all Railroads on the day of exhibition.

☞ "THE LIFE OF BARNUM," written up to 1879, sold on the ground for 50 cents, usual retail price, $1.50.

(*Successors to R. V. PIERCE, M. D.*)

DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the **INVALIDS' HOTEL.** The organization has been completed and incorporated under the name and style of **World's Dispensary Medical Association,** with the following officers:

HON. R. V. PIERCE, *Pres.* F. D. PIERCE, *V. Pres.*
JNO. L. PIERCE, *Sec.* LESTER B. SMITH, *Treas.*

NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty.

CHRONIC DISEASES of all forms come within the province of our several specialties:

"**LUNG DISEASES.**—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases treated with the most successful results.

DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.

NERVOUS DISEASES.—Paralysis, Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.

NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent postpaid for $1.50) or "Invalids' and Tourists' Guide Book" (100 pages, 10 cents post-paid).

SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Cutting Stone in the Bladder, Stricture, etc., etc. We also treat successfully, by a new method without cutting or confining, Spinal Curvature, Spinal Curvature, and other deformities. (See pamphlet entitled, "Medical Common Sense," sent on receipt of 10 cents.)

Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN

By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.

To designate this natural specific, I have named it

Dr. Pierce's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** (For conditions, see pamphlet wrapping bottle.)

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Menstrual Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Impotency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not exist this medicine as a "cure-all," but it admirably fulfils a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to females, and gives much valuable advice in regard to the management of those affections.

Favorite Prescription sold by Druggists.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors, Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,207,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSIBLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.

The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville upon all of which extensive work has been done in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.

Three of the leading mines are well opened up and are at the lowest computation over 25,000 THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.

The Company proposes to sell a portion of its stock at $1.50 per share for the purpose of more completely developing its mines, and for the erection of works for the treatment of its ores.

Applications for the stock may be made to the Office of the Company, 41 Broadway, New York.

N. B.—*The Mining Record,* of New York, the highest mining authority in this country, says Feb. 1st, 1879: "The principal owners in this company are hard working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing in one of the largest banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary. mch22tf&w2m0

SANFORD'S

RADICAL CURE

For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains is still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Rooney's Old Colony Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and congested incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head, ears, eyes ache, who is so congested he cannot articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,

GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 5, 1876.

P. S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Numerous imitators have now been [illegible] the public for a [illegible] substitute, but no such imitation or counterfeit exists. Medics in the form of liniments, lotions, pain-[illegible], and ordinary plasters, they have steadily increased in sale and met with universal approval, as attested by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world for medicine.* All we ask from every sufferer is a trial and a single trial. The price is 25 cents, although fifty times the cost of any other plaster. But, notwithstanding the efforts of the proprietors to make the plaster in the world for the least money, any number of cheap imitations will be offered, and unscrupulous dealers will be found ready to misrepresent them and *palm off worthless imitations* and endeavor to substitute others. Don't allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

With a guarantee to give satisfaction.

GENTS' FURNISHING GOODS:

Drawers, Shirts, Bosoms, Collars, Kid Gloves, etc., etc.

11 CONGRESS ST.

Portsmouth Chronicle

SATURDAY, JUNE 28, 1879.

The State Legislature.

In the House, June 26th, the following bills were introduced and referred: To place the Concord railroad in the hands of a receiver; to protect the interest of the State and secure all the earnings of the road above ten per cent to the treasury of the State; to incorporate the Amoskeag bank at Manchester; to punish illegal receiving of free passes on railroads; to amend the law relating to proprietors of railroads; to amend the general laws relating to the practice of medicine, surgery and dentistry; to amend the charter of Nashua; to establish a State board of health; to promote independence of the judiciary by providing for the payment of travelling and hotel expenses of judges of the supreme court while absent from home on their judicial duties, so that it will not be necessary for them to depend upon roads for free passes, or hold insignificant railroad offices as a means of free passage therefor. The following were read a third time and passed: To provide for the repair of the State arsenal at Portsmouth; to amend the general laws in relation to the formation and duties of an active military force; to incorporate the Manchester Steam Heating company; in relation to the adjutant general's department; in favor of the Carroll County Five Cents savings bank; to amend the charter of the Bristol savings bank; to encorporate the Amoskeag Flour mills. The following were read and referred: For the relief of Newcastle; to regulate and equalize fares upon railroads; relating to insurance companies and their agents; to incorporate the New Hampshire Banking company at Nashua. The bill to reduce the pay of representatives was refused a second reading.

In the House, June 27th, a resolution instructing the committee on retrenchment to enquire as to the expediency of reducing the pay of members to $2 per day, was passed.

News and Notes.

The Harvard-Yale boat-race at New London, Conn., on Friday, was easily won by Harvard.

Corporal Pease and private Dunlap of Fort Bliss, Texas, crossed to El Paso, Mexico, June 4th, and got into a fight. Dunlap was killed and Pease badly wounded. Their comrades had to pay $50 to the Mexican authorities to obtain Dunlap's body for burial.

Cox, the murderer of Mrs. Hull, was indicted on Friday by the grand jury in New York.

The Ex-Empress Eugenie of France was in despatches from London on Friday reported to be dangerously ill, with little hope of her recovery. Since receiving the tidings of her son's death she has been unable to sleep, and her mind is shattered.

The Khedive of Egypt, in accordance with the order of the Sultan of Turkey, has abdicated in favor of his son, Tewfik, who was proclaimed Khedive at the citadel on Friday. The Sultan issued the order by command of the allied powers.

Two Spaniards, hailing from New York, were arrested in Newport, R. I., Thursday evening, for passing counterfeit money.

John Savin, a returned Californian, attempted to shoot John M. Brennan, a lawyer, on the street, at Providence, R. I., Thursday morning. He stepped behind Brennan and fired a pistol, but missed, and was arrested. He charges Brennan with defrauding him.

Mrs. Marion A. McLane, of Lynn, Mass., was arraigned in the police court there on Thursday on a charge of malpractice, and ordered to recognize in $2500 for future appearance. John F. McLane, the so-called husband of Mrs. McLane, was held in $500 on a charge of lewd and lascivious cohabitation. Mrs. McLane is suspected of having had some connection with the "trunk mystery" which occasion so much interest some weeks ago.

A gang of silver counterfeiters at Paterson, N. J., suddenly vacated the premises occupied by them on Wednesday afternoon, taking their tools, dies, etc., with them, in season to elude United States officers and a posse. It is believed that they escaped to Philadelphia or New York.

Amherst, Mass., was disturbed on the night of June 21st by the pranks of the Amherst college freshmen and sophomores, who blew horns, rang the college bell and the chimes, and made a collection of dooryard gates, including those of President Seelye, Prof. Mather, Dr. Hitchcock and Prof. Esty, which they piled up on the campus together with blinds taken from dormitory windows. Over the whole they poured a barrel of kerosene stolen from the college buildings, and applied a torch, the result being a bonfire that destroyed $150 to $200 worth of property. The offenders talk of assessing themselves $40 each to get out of the scrape. Some of the sophomores of the Agricultural college carried off the cannon from the grounds the other night, and stole a lot of ammunition, and were hauled up before Justice Thomas for the offence. As the value of the property was about $10,000, and the United States the owner, nothing but extra leniency will save them from serious consequences. The college faculty will probably take the young men in hand after the court is done with them. Five of the young men were bound over in $300 each for their appearance at the December court.

The mother and wife of the negro Cox, the murderer of Mrs. Hull, have been found in Richmond, Virginia. His wife says that he is a bad man, and she left him in New York some years ago; she said "though he is my husband, the devil must have his due." She did not care if he had a dozen other wives. She wanted none of him. They have no children. His mother is stricken with grief at her son's crime.

A boiler explosion in Philadelphia, Friday, wrecked a number of buildings, killed the engineer, two women and a boy, and badly wounded several persons. It is feared that other lives were lost.

How "the Plan" was Worked.

During the Mississippi campaign of 1875, when the Mississippi plan of making minorities superior to majorities was inaugurated and successfully carried out by the democrats, one Mr. Patterson, a republican member of the legislature, obstinately persisted in running for re-election, in spite of the friendly warning of the democrats that if he continued to thus infringe on the rights of the shot-gun league, they would be obliged to kill him; he kept right on, as his district was overwhelmingly republican, and the democratic patriots were obliged to hang him in the interests of reform, local self-government, and a pure and free ballot. The result of this energetic action, backed up as it was by a few dozen similar ones, was that Patterson's district returned a solid democratic delegation.

Just now one H. M. Dixon is running as an independent democratic candidate for sheriff of Yazoo county, Miss., and his good name having been assailed by the "regular" democrats, he prints the following card:

Owing to certain reports, now in circulation, that Mr. Patterson, a member of the republican legislature, who was hanged in the eventful campaign of 1875, had a considerable sum of money on his person, and that said money was used for my own benefit, I feel in honor bound to vindicate myself, although I deplore to refer to the past, as it will bring before the public many of our best citizens. I will briefly state that said money and larger sums were raised and used to defray the current expenses of the campaign, and to stuff ballot-boxes, if necessary, and to purchase certificates of election for two officers now holding offices of trust and emolument in our county. I have in my possession the necessary proof, and if called on will furnish it. H. M. DIXON.

This testimony, given in vindication of his "honor" by a gentleman who was so active in supporting "the plan" as to take a prominent part in the murder of a dangerous republican opponent, shows that the democratic inventors of the Mississippi plan utilized every means to win success in 1875, and did not depend solely on murder. First they would kill a republican; then they would apply part of the money stolen from his dead body to the expenses incurred in stuffing the ballot boxes with reform tickets; and the rest of the money would be expended in purchasing bogus certificates of election for democratic candidates who were defeated in spite of the terrorism and fraud exerted in their support. No wonder "the plan" succeeded as it did.

ISLES of SHOALS HOTELS.

STEAMER APPLEDORE will leave Steamboat Wharf daily at 11 A. M. and 6 P. M.
LAIGHTON BROS. & CO.

For Sale.

C. E. WALKER & CO.,

137 MARKET ST., - - - 4 WATER ST.

Orders left with N. E. Walker & Son promptly filled.

Dr. J. Patterson,

OF SALEM, MASS.,

THE WONDERFUL CLAIRVOYANT PHYSICIAN,

Will visit Portsmouth Tuesday, July 1st,

For one day and evening, and will take Parlors at the Rockingham House, where all who wish may consult him on all diseases that flesh is heir to, *free of charge*. The Doctor, while under control, will tell the patients their symptoms, ailments, and prescribe for their diseases, whether they may be.

Consultation Free; Examination 50 cents. Examination and Prescription $1.00. Treatment by the week or month—Terms per month $5.00.

Ocean Tramps.

The *Globe* of St. John, N. B., speaks as follows concerning "Capt." Goldschmidt and his wife, who are now trying to circumnavigate the globe in the boat "Uncle Sam:"

One would suppose that the ocean would be free from some of the nuisances which infest the land. The "tramp" would seem to have little chance on the waste of waters. Yet Goldschmidt and his wife are nothing but ocean tramps. They have no means of livelihood. They cleared out from Boston, deserting their children and leaving them to strangers. In a rickety boat they propose to go around the world. Sailing in the customary track of great ships, they will beg their bread from the kindly disposed people who sail the waters. It is true they risk their worthless lives in this, but hundreds of people are continually doing that in honest efforts to get a livelihood. We wish Goldschmidt and his wife no disaster, but shall not be sorry to hear that they fare no better than the majority of their idle profession who encumber the land.

—The goat has one merit: He furnishes a butt for many jokes.

—When the newspapers get through marrying Fanny Davenport to Edwin Price, her leading man last season, we will inform them that Edwin thinks all the world of his present wife, professionally known as Kitty Baker.—*Providence Press.*

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1878, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

HOSTETTER'S

CELEBRATED

STOMACH

BITTERS

There seems to be no country under the sun where Dyspepsia is so prevalent as in the United States. Here the disease has become domesticated, and is to be found in almost every household; and consequently such a household remedy as the Bitters is of inestimable value to the American people. As an invigorating, regulating and restorative preparation, suited to all climates and contingencies, it stands alone among modern medicines. For sale by all druggists and respectable Dealers generally.

THE WEATHER.

Probabilities for the New England States, To-Day:

WASHINGTON, D. C., June 28, 1 A.M.

Southwest winds, falling barometer, warmer, partly cloudy weather, and numerous local rains.

AROUND HOME.

Carrie Rockwood, soprano, and Mr. Bell, tenor, of Boston, will sing at the Unitarian church to-morrow.

Strawberries were plenty and cheap in this market on Friday. Butler & Laighton were selling the best at 12 1-2 cents a box.

Children's meeting at the tent this afternoon at three o'clock, and chalk-talk by Elder Waite; also a lecture this evening by the same.

The Advent camp-meeting at Seabrook, which in past years has usually commenced in June, will not open this year until August, probably.

E. S. Fay's horse "Forbidden Fruit" won the race in the 2:50 class at Manchester on Thursday, in three straight heats; time 2:44, 2:42, 2:42.

We are indebted to Dr. Benj. W. Curtis, representative in the legislature from ward two, for copies of House and Senate bills we desired to procure.

Among the graduates from the normal school at Salem, Mass., in the late class, were Annie B. Davis of Berwick, Me., and Evelyn A. Hall of Kennebunk.

There is to be a strawberry and ice-cream festival at the Congregational chapel on Middle street, on Tuesday evening of next week, to raise funds for the purchase of a musical instrument for the chapal.

The graduating class of '79 of the Portsmouth high school, having received an invitation from the Dover class to be present at their exercises Friday afternoon and evening in Dover city hall, started at eleven o'clock Friday forenoon in a barge, for Dover.

A good deal of complaint is heard, during hot days, on account of the drinking-fountain in front of the post-office being such a low-pressure affair. Thirsty pedestrians say the only thing that they can find there to drink is the fountain, for there isn't any water.

The Newcastle reform club on the evening of June 25th elected officers as follows: President, Nathaniel P. Campbell; Vice Presidents, John Kinnear, Mrs. Robert F. White; Secretary, Miss Mary B. Neal; Treasurer, Mrs. Rebecca Beals; Chaplain, John Amazeen; Inside Guardian, Oliver B. Randall.

The Great Falls *Journal* says: "Eugene D. Emery is circulating a petition to have Buzzell's sentence commuted to imprisonment for life, and has already secured over two hundred signatures in this town, with an additional fifty at Salmon Falls. Petitions are being circulated at Portsmouth, Dover, Rochester, Laconia, Ossipee and other towns in Carroll county."

Naval Constructor Frank L. Fernald and family sail for Europe to-day in the steamer City of Berlin, from New York. Mr. Fernald goes out under orders of the navy department for the purpose of superintending the manufacture of the heavy armor plates for the United States steamer Miantonomah, now in process of construction at Chester, Pa. There being no mills in this country capable of rolling the armor required for the Miantonomah, the contractors for the ship are compelled to have it made in England.

The steam-yacht Pysche, bound from Portland to Boston and thence to Newport, R. I., put into this harbor on Friday in consequence of an accident to her boiler. The boiler is of the "coil" pattern, which cannot blow up though it may give out, and no harm was done other than the disabling of the yacht's steaming powers. The accident occurred off Boon island, but the crew managed to keep enough steam to enable the yacht to get in here, whence a tug was telegraphed for to Boston, to tow the disabled craft around that to port. The captain of the yacht says he found the weather rather uncomfortably cold off Boon island that day, and was glad to put on his big coat; in this city only respect for popular prejudice made people wear any clothes at all.

The passenger barges have commenced running between Exeter and Hampton beach.

Ex-Senator Bell and family occupy their summer cottage at Little Boar's Head, North Hampton, next week.

The stallion Hamilton-Patchen, valued at $1500 or over, and owned by Nathaniel Churchill, died in Dover a week or so ago.

The young daughter of J. Warren Dow of Hampton, who was kicked by a horse some weeks ago, and it was feared fatally hurt, is now reported as doing well.

Haying has commenced in this vicinity rather earlier than usual this year, probably on account of the dry, pleasant weather. The amount of hay cut will be about the same as last year; possibly a little short. Loose hay is now selling for about $12 a ton.

On Wedesday morning of last week, Mr. Horace Hobbs of Hampton hitched his horses to a dump cart and left them for a moment to go to the barn, when they suddenly took fright and started upon the run out of the yard, one of the wheels striking his uncle, Mr. Oliver Hobbs, who happened to be near, splitting his thigh bone, and otherwise injuring him about the head. This is a severe blow for Mr. Hobbs, as he is about seventy-five years of age and has been greatly troubled for several months with rheumatism. It is thought by many that if he survives the shock he will be crippled for life.—*News-Letter.*

Bay View Grove, in Stratham, has been fitted up for the convenience of picnic parties. This grove is on the line of the Concord & Portsmouth railroad, about ten rods from the Stratham station, and on the shores of Great bay. There are good bathing and boating facilities, and a fine spring of cool water, with plenty of shade. Swings, benches, a refreshment saloon and a dance platform, have been put up by the proprietors, and the grove is one of the prettiest and most convenient spots in this vicinity for a picnic party.

Signor Patricko Murphi, a son of sunny Italy, as would be readily known from his name, was around town on Friday with a monkey, and a hand-organ that played a tune called "St. Patrick's Day in the Morning." After the surfeit of "Pinafore" music which the public have enjoyed for eight years past, at the theatres, from brass bands and hand-organs, in organ voluntaries at church, from the whistling boy in the street, and from every piano and parlor organ in the land without a single exception, it was a grateful relief to hear a new tune.

Mr. E. P. Kimball, assignee, in his annual report of the Rockingham Ten Cents savings bank made to the bank commissioners, says that some progress has been made in the way of settlement by compromise of the western bonds of which the bank held a large amount, but does not speak encouragingly of realizing on them at present; he does not speak any more hopefully of the real estate near Boston, which is embarrassed by legal questions as well as by depression in prices; the large claims in bankruptcy have yielded nothing during the year; and there are several suits and law questions still pending in the courts, that of the check depositors being the largest. Take it altogether, the report shows but a poor prospect for the depositors.

A correspondent writes to the Exeter *News-Letter* as follows: "In the last number of the *Spirit of the Times*, I notice under the head of acute laminitis or inflammation of the foot, that one of the principle causes laid down is the use of cold water while the animal is warm; this disease, more dreaded than any other, completely destroys the value of a horse as a roadster. And it is a singular fact that while it is but little known in the interior, it is extremely prevalent on the Atlantic coast, and along the shores of our inland lakes, where the custom so widely prevails of driving horses into the water while in a heated state. Go with me any afternoon in July to Old Orchard, Rye, Hampton, or Lynn beaches, and watch the splended livery teams reeking with sweat driven directly into the surf, and you will find the secret of the sore-footed horses in the stables of Saco, Portsmouth, Exeter and Lynn. And I am sure their owners will thank me, now that the driving season is approaching, for entering my humble protest against this slaughter of the innocents."

THE CITIES AND THE RAILROADS.

There was an important meeting of the municipal authorities of this city on Thursday last, which was also attended by Mayor Guppy of Dover, to consider a proposition of the Eastern railroad to reduce the capital stock of the Portsmouth & Dover railroad, and reduce the rate per cent of interest on the lease of the latter road to the Eastern. The present managers of the Eastern complain that in the first place the Portsmouth & Dover road cost more than it ought to have to cost by about one-third, and they are paying interest on one-third more stock than they ought. They also complain that six per cent is too high a rate, and they want that reduced one-third. This would leave the city of Dover and the city of Portsmouth in a rather awkward predicament. It is nothing more nor less than a proposition of the Eastern railroad company to repudiate their legal obligations. Of course, if the two cities should accede to this, they have got to take out of their respective treasuries sufficient sums semi-annually to make up the deficit caused by the reduction of interest to the Eastern, and the interest on the amount of the reduction of the capital stock of the Portsmouth & Dover road, in addition. The whole cost of the road is a funded six per cent debt of the two cities. The city bonds were sold for the full amount, drawing six per cent interest. This interest to the full amount has got to be paid by the two cities. Thus far it has been promptly met with the six per cent stock dividends paid by the Eastern railroad. Reduce those dividends, and by just so much the two cities must suffer.

At the meeting on Thursday a committee was appointed to confer with the authorities of the Eastern railroad, consisting of the followed-named gentlemen: Frank Jones, John S. H. Frink, Mayor Sise of this city, and Mayor Guppey of Dover. The citizens of both cities will watch the result of this new move of the Eastern railroad with a great deal of interest, as their pocket-books are directly concerned.

LEGION OF HONOR.

St. George Council, No. 21, Legion of Honor, on Friday evening elected officers for the ensuing term as follows:

Edwin A. Tilton, Past Commander;
William P. Walker, Commander;
Oliver M. Knight, Vice Commander;
Daniel J. Spinney, Orator;
Joseph R. Curtis, Secretary;
A. Coburn Hoyt, Collector;
Samuel C. Whittier, Treasurer;
Charles A. Holbrook, Chaplain;
Alfred Stavers, Guide;
Charles P. Abbott, Warden;
James Sanborn, Sentry;
Samuel C. Whittier, Medical Examiner.

The meetings of this Council will hereafter be held on the 1st and 3d Tuesdays of each month.

ODD FELLOWS' ELECTION.

Osgood Lodge, No. 48, I. O. O. F., on Thursday evening last elected the following officers for the ensuing term:

Howard S. Frisbee, N. G.;
Frank M. Grogan, V. G.;
Edward T. Morrison, Rec. Sec.;
C. Dwight Hanscom, Per. Sec.;
Charles A. Neal, Treas.;
Charles W. Gardner, Lewis E. Staples, Emmons B. Philbrick, Trustees.

BARNUM'S BIG SHOW.

"Barnum's Greatest Show On Earth" comes to-day, and will exhibit afternoon and evening. The papers of other cities say that this is the best entertainment ever put on the road by the great showman, far surpassing all previous ones. The New York *Times* says of it:

The performances in the ring were, on Saturday night, of the most exciting character. No less than eight lady riders appeared, consisting of Mme. Dockrill, Miss Katie Stokes, Mlle. Linda Jeal, Miss Emma Lake, Signora Marcellus, Miss Smithson, Signora Quaglianna and Miss Ashby. Signor Sebastian is the principal bareback sensational rider, and there is the usual number of athletes and acrobats. The greatest excitement prevailed on Saturday night during some of the female equestrian acts, the horse in the menage scene requiring the severest discipline on the part of Miss Emma Lake to keep him in order. Aside from the glories and excitements of the ring, the menagerie is enlarged, having fifty cages, and there is a museum of 50,000 curiosities. There is one thing about Barnum, —he keeps his word, and this year he has more than fulfilled his promises.

A glance at the advertisement shows that the lady equestrians have the honors in point of number, for there are not less than eight, and each one a star. Leading the list comes Mme. Dockrill, the empress of the arena, who rides four bareback horses at one time. They there are Emma Lake, the incomparable manege rider, whose every movement is a study for those who delight in horsemanship; Katie Stokes, who performs upon bareback steeds; Linda Jeal, who rides a hurdle act that requires nerve and endurance, and finishes it by dashing with her horse through the circles of fire. Holloway, the great English clown, comes into the ring and changes from a swell of the period to clown; from clown to an old woman; from an old woman he transforms himself to a monkey. Charles Seeley, the American clown, convulses the small boys. Stowe and the Miaco brothers enliven the ring with many mirth-provoking antics. The Herbert brothers' acrobatic feats are original and daring. Astounding magical accomplishments are exhibited by the Egyptian jugglers. Carl Antony exhibits a school of imported stallions in a variety of wonderful evolutions, wonderful from the fact that no whip is used, not a word is spoken. The menagerie is full of many new animals, and contains the largest herd of elephants ever exhibited in this or any other country. Black camels, the first and only ones ever exhibited; a pure white camel, a two-horned rhinoceros, elands, polar bears, a mandril and its baby, are among the latest additions.

THE DOVER AND ELIOT BRIDGE.

There seems to be a bit of a hitch in the matter of the new road from Dover to Eliot, or rather to South Berwick, intended to reach Eliot, and thence to York beach. The charter for the bridge granted by our last legislature contains a clerical error, substantially this: It provides for a company to construct a bridge over the river between Dover and Eliot. Instead of Eliot it should read South Berwick, because the point intended does not touch Eliot at all. Some of our Rollinsford neighbors and brethren, who have always opposed the road and bridge, saw a chance here, as they thought, to crowd the line of the road and bridge further down the river, so as not to touch Rollinsford at all. So when the grantees applied to our present legislature to have the charter amended by striking out the word Eliot and substituting the words South Berwick, the Rollinsford brethren appeared with a remonstrance and made all sorts of objections. It seems that they had also widened the field of their operations to secure outside aid, by going to Portsmouth, stirring things up in that good city, and getting a formidable list of remonstrants to join them. Portsmouth has always been a little sensitive concerning this new road to Eliot, lest it might tend to diminish her revenues resulting from the Eliot trade and traffic. So here was a fix, and it looked rather serious. But there is most always a way out of difficulties, and to-day it looks as though there is an easy way out of this one. The proposition is to disannex from Rollinsford two or three farms through which it is proposed to run this new road, and annex the same to Dover. The owners of these farms agree to it. Rollinsford does not object, as we understand it, and as it will relieve that town of all cost and responsibility of building and maintaining the new piece of road, it will, of course, stop all further opposition to the road from that town. A bill has been introduced into the legislature for the purpose, and the opinion is that it will pass. Then will Rollinsford people also cease opposition to the charter amendment substituting South Berwick for Eliot, because no longer directly interested.—*Dover Democrat.*

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30, A. M. and 2:45 P. M.; prayer meeting at 7:30. All are welcome.

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M.

Services every Sabbath at the Alms House at 10:30; at the County Jail at 12:30. Consecration Meeting every Monday evening at the Home. Services on the afternoon and evening of the 4th Sunday in each month, at Newcastle; one week day in each month, at Brentwood.

At the Congregational church, preaching at 10:30 A. M. and 7:30 P. M. Sunday school at 3:00 P. M. Prayer meeting on Friday evening at 7:30.

At the Methodist church, Rev. C. B. Pitblado, pastor, preaching at 10:15 A. M. and 2:45 P. M. Sunday school after morning service, in the church.

At the Universalist church, Rev. E. M. Grant, pastor, services every Sunday at 10:30 A. M. and 7:30 P. M.; Sunday school at 2:45 P. M. A cordial welcome to all.

Young Men's Union Prayer Meeting, Sunday evening from 6 to 7 o'clock at the Pearl street church.

The ordinance of baptism will be administered at nine o'clock on Sunday morning at Noble's island by Rev. Dr. Alden.

In the Christian church on Court street, Rev. A. A. Waite will preach at 10:30 A. M. on Sunday, and Rev. Dr. Alden at 2:45 P. M.

Rev. A. L. Park of Gardiner, Me., will preach in the Congregational church.

Rt. Rev. Bishop Niles will officiate at St. John's church on Sunday, delivering a sermon in the morning, and administering the rite of confirmation in the evening.

Elder A. A. Waite will preach at the Methodist church in the afternoon. At the morning service, Rev. C. B. Pitblado will deliver a discourse on the subject, "Demons of Society."

"Children's Sunday" services at the Universalist church, Sunday morning at 10:30; several children are to be christened by the pastor. There will be no evening services at this church until further notice.

Rev. Dr. Alden will give his fifth lecture on the "Sins of the Tongue," Sunday evening, in the Middle street Baptist church.

Mr. Pitt Before Children.

Mr. Pitt was exceedingly shy in his intercourse with men. Lord Camden was on terms of great intimacy with him, and one day remarked, as Pitt was at his house:

"My children have heard so much about you that they are anxious to have a glimpse of the great man. They are now at dinner. Will you oblige me by going in with me a moment?"

"O pray don't!" said the orator in great alarm. "What on earth could I say to them?"

"Give them at least the pleasure of seeing you," replied his lordship as he half led, half pushed him into the room. The prime minister of England approached the little group; and there he stood, looking alternately at the father and the children, and twirling his hat for a few minutes without being able to utter a sentence.

MARRIED.

VAUGHAN—COLE. In South Eliot, Me., June 26th, by Rev. R. H. Kimball, Mr. Joshua M. Vaughan, of this city, and Miss Susie E. Cole of South Eliot. We tender our hearty congratulations to the couple, and hope their happiness will ever increase with their years.

New Hampshire Items.

A meeting of the Dover Ministerial Association of the Methodist churches was held at Hedding camp ground, June 25th and 26th. Gale Pike of South Newmarket presided. Howard R. Tilton, G. W. Norris and other members of the association took part in the meeting.

The cost of the condemned murderer Buzzell's trial to Carroll county was $7000.

"Practical Science."

Under the above heading, the *St. Croix Courier*, of St Stephen, N. B., in refering to the analysis of Dr. Pierce's Golden Medical Discovery and Sage's Catarrh Remedy, recently made by Prof. Chandler, of New York, and others, says: "Nothing was discovered which we think objectionable, and the published analysis should increase, rather than retard, their sale. To us, it seems a little unjust to call a man a quack, simply because he seeks to reap as much pecuniary reward as other classes of inventors." The English press is conservative, yet after an examination of all the evidence it not only endorses but recommends the Family Medicines manufactured by Dr. Pierce. No remedies ever offered the afflicted give such perfect satisfaction as Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy.

—The latest Chicago atrocity on its rival city is "short, sharp and decisive," viz:—"A St. Louis man ran six blocks after his nose, thinking he was going to a fire."

—An English head master having detected Master Dawkins making one of his admirable paper butterflies in school hours, complimented him highly on the performance, and at once ordered five hundred to be made out of school hours, and now Master Dawkins, having filled the order, has lost his taste for the manufacture.

—Although Henry Lundlay of Stratford, Conn., was seventy years old, he not only fell in love with a woman of twenty, but was hopeful that she would marry him. She was cold and he persistent. Finally she forbade him to call on her, and then he, after bequeathing all his property to an Episcopal church, committed suicide.

—A farmer in Holden, Me., being much annoyed with crows pulling up his corn, placed a large umbrella in his field in order to frighten them away, but instead of being frightened the birds in wet weather sought beneath it shelter from the rain. The umbrella is now folded, and an old coat and hat have been rigged up in its place.

—The philosopher of the *Hawkeye* says, "Don't borrow. If you can't get along without more than what you've got, don't borrow; steal. You'll feel better about it, and, as a general thing, you will be more respected and less tormented." Although some severely moral people may be startled by a part of this heroic advice, nobody can find the least fault with the counsel regarding borrowing.

—Apparently infinite are the uses of electricity. The London bankers are now using an electrical machine for the detection of bad or light gold coins. A stream of coins is gently shaken down a brass slide, and one by one t hey fall upon a testing-bar so delicately adjusted that a slight deficiency will set an apparatus in motion which jerks the bad coins out at a side escape-hole, while the good ones pass into another receptacle. The invention saves a good deal of time and is correct to the minutest point, and a royalty of $200 a year which the inventor gets on every machine is not considered exorbitant.

The Promoter and Perfecter of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

Look out for the name and address J. I. FELLOWS', St. John, N. B., on the yellow wrapper in watermark, which is seen by holding the paper before the light.

Price, $1.50 per Bottle, six for $7.50.

Sold by all Druggists.

Business Cards.

☞ "THE LIFE OF BARNUM," written up to 1879, sold on the ground for 50 cents; usual retail price, $1.50.

(*Successors to R. V. PIERCE, M. D.*)

DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business for exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the **INVALIDS' HOTEL.** The organization has been completed and incorporated under the name and style of **World's Dispensary Medical Association,** with the following officers:

HON. R. V. PIERCE, *Pres.* E. D. PIERCE, *V. Pres.*
JNO. E. PIERCE, *Sec.* LESTER B. SMITH, *Treas.*

NINE PHYSICIANS AND SURGEONS of embrace and skill have been chosen as the Faculty.

CHRONIC DISEASES of all forms coming within the province of our several specialties.

LUNG DISEASES.—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases treated with the most successful results.

DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.

NERVOUS DISEASES.—Paralysis, Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.

NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book," (160 pages, 10 cents post-paid).

SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We also treat successfully, by a new method without surgical operation, Cancers, Club-feet, Spinal Curvature, and other deformities. (See pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.)

Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN

By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.

To designate this natural specific, I have named it

Dr. Pierce's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as the **climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and on that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under a **POSITIVE GUARANTEE.** (For conditions, see pamphlet wrapping bottle.)

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not extol this medicine as a "cure-all," but it admirably fulfills a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats on the minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

Favorite Prescription sold by Druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, GILMORE & CO., Solicitors, Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSIBLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.
The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.
Three of the leading mines are well opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.
The Company proposes to sell a portion of its stock at $1.50 per share for the purpose of more completely developing its mines, and for the erection of a Smelter for the reduction of ores.
Applications for the stock may be made to the office of the Company, 61 Broadway, New York.
N. B.—*The Mining Record,* of New York, the highest mining authority in this country, says Feb. 1st, 1879: The principal owners in this company are here working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing in one of the largest banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary. mch22d&wlmos

The Henry Bill Publishing Co., Norwich, Ct. Gj5

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the medicinal medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in any organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poisons that find ready way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold which was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I felt the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head ached as mine ache, who can scarcely articulate distinctly for some of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Three bottles, one internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
(REV. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

I have purchased the Hammer Cure of REV. H. ROGERS, Druggist, Bamford Building.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Thousands have now been placed before the public for years, and notwithstanding the immense number of imitations in the form of Electric, Medical, Galvanic, and ordinary plasters, they have steadily increased in sale and not with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and specialties introduced that they are now perfect in every respect, and *the best plaster in the world*, we believe, will we hope, never stand so long as a plant is a single trial. The price is 25 cents, although its cost is double that of any other plaster. But, understanding the efforts of the proprietors to make the best plaster in the world for the least money, any dealer ready can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for slight profit and endeavor to substitute others, but allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

The Masonic Procession.

The Portland, Me., *Advertiser* thus irreverently discourses concerning the recent great Masonic display in that city, and of the way in which the members of the brotherhood appeared when on the march:

A nice old gentleman in Androscoggin county once declared that to his mind all the beauty of a funeral was the singing, and he wouldn't give a cent for a funeral without it. By the same token, all the beauty of a procession is the band, or the number of bands. And here were bands in abundance, in all kinds of uniform, from the modest gray which never shows dust, even on the fourth of July, through the blues and darks, to the most brilliant of scarlet, which always seems the true military color. Several of the bands were notably handsome; one from Lewiston was specially so, and their marching was beautiful to see. The pretty cadets' band looked like moth-millers, and made a fine show.

The occasional marshals on horseback pranced and curvetted along the edges of the crowd, to the imminent danger of the adventurous small boy, who delights to hover on the brink of destruction at such times. The horses evidently enjoyed the music, and cut endless pigeon-wings in their eagerness to keep time, while their riders—no pencil can describe their grandeur and complacency. It was well that each had a strong blue strap drawn closely across the chest diagonally, to prevent too great expansion. The drum-majors, perhaps, were the next in splendor and self-satisfaction. Their time-keeping with the gilded baton reminded one irresistibly of the movements of Mrs. Jarley's waxworks.

And the Masons—"black Masons and white, blue Masons and gray"—the whole forenoon was full of Masons. Some lodges walked trim and erect, with coats snugly buttoned and aprons on outside, as they should be; some companies slouched and joggled, making no attempt to keep step; some detachments had their coats unbuttoned and flying, and their aprons shamefacedly put underneath, as though they were trying to hide them—in which instance the bits of white linen looked precisely like the border of some adventurous under-garment, taking advantage of the public occasion to bring its owner into confusion. The members of some of the lodges all wore silk hats, which helped to give them a uniform appearance, and the difference between those lodges which had practiced marching and those which had not, was at once apparent. Some wore their aprons high up under their arms, looking uncomfortably short-waisted; some wore them slipped down and something sidewise; some wore them as though they were proud of them, and some as though they were ashamed of them; and although it was noticeable that the aprons of the fat men were the best fits, the fact was corroborated which has been established since the foundation of the world, that a man does not know how to wear an apron, and is always funny when he tries it. However, aprons or no aprons, the procession was a splendid one, comprising very many very handsome men, and the spectacle altogether was the finest which Portland has seen for many a day.

Transferring the Fence.

At Yale college each class, with the exception of the freshmen, claims a particular portion of the college fence, and among other curious customs the presentation of the sophomore fence to the freshmen is always made an interesting occasion. The guardianship of this fence with all its rights and privileges was duly handed over on a recent Wednesday evening in the following neat speech, the orator being a son of Mr. Bromley of the New York *Tribune* staff:

Gentlemen of the Class of '82—On behalf of my classmates and the faculty, I congratulate you on having reached the sophomore fence. It marks a memorable point in your career, for we cease giving you taffy when we give you the fence. All your studies of freshman year have been simply to prepare you to sit gracefully on the sophomore fence. Your victory over Harvard gave you an opportunity for practice in the exercise on the fence up yonder, and we have been gratified to observe that you do it well. So well that it has been remarked by the faculty that it seems to be your best hold. On this subject, President Porter at a recent faculty meeting said: "What is there more becoming an ornament to a fence than a freshman?" And when Professor Thacher answered "The Cat!" the whole faculty came in on the chorus, "It is indeed the cat." But let it be no discouragement to you to be beaten by the cat. That's what the cat is for.

You have doubtless found out by this time that the members of the faculty do not view you with favor. They have been prejudiced against you ever since you entered college. They said you were too pushing, although you did not seem disposed to shove any, and you knew so much that they were half afraid to try to teach you anything. Like the Irishman on horseback, when the horse put his hind foot in the stirrup, they were ready to say, "If you're going to get on I'll get off." And when we proposed giving you the fence they vigorously opposed it. One professor whom I will not name, said, "If you give 'em a lien on the fence they'll have a mortgage on the whole college." Another said, "Give 'em an inch and they'll take an ell." "Take ell!" cried the president, "they'll raise it," but we insisted that you should

have the fence and they reluctantly yielded. I may say to you in confidence, gentlemen, that you owe nothing to the faculty, but everything to the class of '81. We have tolerated you when they wanted to fire you out. As soon as they began to know you at the beginning of freshman year, to see that you were not only handsome but good and great and that you were liable at any moment to rise up and run the college, they said, "This class must either be totally suppressed or greatly thinned out," and the order given us was *decimatum dammum*, (great laughter) which being Latin you will understand better next year. Out of tenderness for you we have refrained from obeying the order strictly. We have slain comparatively few of you, though many have gone and got slewed on their own account. Never forget, gentlemen, you owe your lives to the forbearance of '81, and whenever you meet an '81 man be quick to show your appreciation, always remembering that for the preservation of a human life one schooner of lager is but a meagre and inadequate return.

We had intended, gentlemen, before turning the fence over to you to have veneered it in rosewood and mahogany, upholstered it in satin, built canopies over it and set up foot rests in front. But when we proposed it the faculty scouted the idea. They said, "With such ears, what need of canopies?" As to foot rests, they made no objection except that they must be put inside the fence. They said the college authorities had no right to permit the class of '82 to sit with their feet on the outside and obstruct the whole street. And one of your own instructors suggested the erection of a market rack with meat hooks to hang you on by the seat of your trowsers.

Disgusted with such frivolous conduct we abandoned the scheme. You, however, at your own expense, can do what you please with the fence except carry it off. And if you carry it away, take only the part between the rails. Take the fence, then, gentlemen of '82, with all its honors and responsibilities. Don't whittle it. Don't desert it. Always have somebody on it. Sit on it constantly, and look pretty and try to reflect honor upon the class and credit upon the college. Be good as well as pretty. Don't hoot at processions or chaff the wayfaring man, or try to sing. Finally, don't put your feet on the cushions and do not spit on the store. The fence is yours. Rest your brains upon it.

Portsmouth Chronicle

MONDAY, JUNE 30, 1879.

Congress.

The House on Friday passed the bill making appropriations for United States marshals, and the Senate passed the judicial expenses bill. The former the President is expected to veto, the latter to sign. The marshals' bill is carefully drawn to prevent the national government from interfering with the use of tissue ballots in South Carolina by the democrats, or from preventing the shot-gun carrying elections in Mississippi and Louisiana, or from obstructing Tammany hall in carrying New York in the same way as the Tilden-Tweed ring carried it for Seymour and Hoffman. The House voted to adjourn on Monday at four o'clock in the afternoon.

Naval Affairs.

Commander Mortimer L. Johnson relieved Comdr. George H. Perkins of the command of the Ashuelot at Hong Kong, on the 10th of May.

Comdr. George C. Remey is ordered to duty in the bureau of yards and docks at Washington, July 1st.

Lieut. Comdr. Francis A. Cook is ordered to duty at the naval academy, July 15th.

Gunner J. W. Ferguson is detached from the Kearsarge, and placed on sick leave.

Leave of absence is granted First Lieut. Frank D. Webster, U. S. M. C., for one month from July 2d.

Paymaster-General John O. Bradford died in Brooklyn on Friday. He was put on the retired list some years ago, with the relative rank of commodore, having been chief of the bureau.

Lieut. S. K. Allen, U. S. M. C., who was relieved from the Plymouth some months ago on account of sickness, has somewhat improved in health.

The Marion anchored off Sacrificios, Mexico, May 31st, and on June 3d, as soon as the weather would permit, sent an officer to Vera Cruz to communicate with the United States consul, who reported everything quiet. June 4th the Marion sailed, and next morning ran into eight fathoms of water off Tuxpan, but could not communicate with the shore on account of the surf, and anchored that evening off Tampico, leaving that place June 6th. She sailed from Port Royal for Hampton Roads June 23d, having touched at Pensacola. From Hampton Roads the Marion will come to Portsmouth.

Chronicle Correspondence.

WASHINGTON, D. C., June 26th.

A matter of great importance has been brought to the attention of the committee on military affairs of the House, and will be embodied in a resolution at this or early in the next session. It appears by the testimony of military men and experts that while our private manufacturers of arms and ordnance are selling improved instruments of war to foreign nations to use in emergencies against us, our army and navy are still using inferior material, only because it is manufactured by the government and those who can control it are opposed to change.

General Gilmore of the army, and Chief Engineer King of the navy, have recently called public attention to the fact that our sea coasts are practically defenceless against the heavily armed and armored ships of Europe, while the condition of our navy is equally deplorable. The heaviest guns mounted at our forts are fifteen-inch smooth bores; these have a range of about four miles, and throw a projectile weighing 450 pounds. The Italian government possesses 100-ton guns made by Sir William Armstrong in England, for its iron-clads, which throw a projectile weighing 2500 pounds a distance of nine miles. Such a weapon could sink any ship in our navy and demolish any of our forts on the sea board, and that at a long range where it would be impossible for our guns to inflict the slightest injury in reply. In England the plant necessary to make a 160-ton gun has been prepared. In view of these facts it is clear that in event of war our commerce would be rapidly destroyed, our ports blockaded, and our great cities on the sea coast be placed under contribution. There are over $2,000,000,000 worth of property on our coasts, says Gen. Gillmore, that would be in easy range of hostile fleets. The neglect of Congress to provide the greatly needed armament cannot be considered less than criminal, for we are liable at any time to be suddenly plunged into a war with some foreign nation possessing powerful ordnance, from which we could not fail to retreat with loss of national honor and reputation, and tremendous pecuniary damage, simply because our sea-coasts and naval vessels were unprovided with suitable heavy guns. It should be remembered that the work of procuring these guns cannot be left until there is immediate danger of hostilities, as to make a single gun, such as a twelve inch rifle, is a work requiring months, and also extensive plant and skilled labor which cannot be procured readily. Another fact well-known to frontiersmen is that the Indians have better rifles than our soldiers have to fight with, because red tape prevents our soldiers from being provided with the latest improvements used by private manufacturers.

Among the many plans proposed by the majority in Congress for overcoming the objections of the executive and accomplishing as much towards their own purpose as passible, the more plausible one is that for passing a bill for the judical expenses with only the jury-test-oath-repeal attached, and the appropriations for United States marshals omitted but to be embodied in a separate bill. The first of course the President will sign, as he is in favor of the repeal of the test oath; the second will contain a prohibition of payment for United States deputy marshals for election purposes, and the democrats, or a large majority of them, declare that having provided for the courts and every other branch of the service, if the President vetoes this bill, the whole United States marshal appropriation may fail. This is probably the "last ditch," and I believe the democrats will stick to it. I believe also that the President will not call Congress together again merely because of the failure to appropriate money for the marshals. Some embarrassment might ensue in certain cases, but it could not be great until Congress meets again.

There can be no mistaking the fact that late events have alienated the President and his southern democratic friends, many of whom have had a high regard for him. They declare that now he is fairly identified with the stalwart republicans, and they have no more hope of him. KNOX.

News and Notes.

Two children, aged eleven and nine years, sons of Alfred Stontenberg of Clarksburg, Ont., took shelter under a tree from a passing storm, Friday, when a limb fell and killed both of them instantly.

A wealthy resident of Newburyport, weighing 200 pounds, who was rescued from drowning by a boatman, having fallen into the water while fishing, on account of being inebriated, offered his rescuer the magnificent sum of thirty-five cents for saving his life. Perhaps it was worth no more.

Baltimore was visited by a terrific cyclone on Saturday, causing a large amount of damage to property. Hundreds of houses and stores were unroofed, trees were torn up by the roots, steamboats badly damaged, vessels capsized in the harbor, and several men seriously injured by being lifted from the ground and violently dashed down. The estimated loss on property is over half million dollars.

Mr. James F. Edmunds, of Newton, Mass., was arrested on Saturday on the charge of forgery. He has been extensively engaged in the flour business in Boston, for many years. The extent of his defalcation amounts to over $80,000.

The O'Leary-Crossland walking match in Chicago for $1,000 resulted in favor of O'Leary, he scoring 250 miles in seventy-five hours.

Jesse Owens, living at Coesse, Ind., attempted on Saturday to murder his four motherless children. He first assaulted his son, aged about seven years, tearing off his ears; he then stabbed his daughter, aged nine, inflicting three wounds, and he next took a club and beat all four children until their bodies were a mass of wounds. He has been arrested.

A serious accident occurred at Hartford on Thursday evening, by which a valuable horse was killed and three persons narrowly escaped death. As Dr. George B. Hawley and his wife were driving through the street behind a spirited horse they met two bicycle riders. The horse shied at one, when the other ran into into him, throwing the rider into the carriage, while the machine, catching in one of the hind wheels, tore it off and threw all three into the street, knocking Mrs. Hawley senseless, but not injuring the others. The horse ran away, and in attempting to leap over a buck-board wagon fell and broke his neck. The horse was a valuable animal, worth $1500 or $2000.

On Friday, at California City, just across the bay from San Francisco, R. H. Moore, keeper of the Dupont powder company's magazine located there, shot and instantly killed A. Fulton, manager of the works, and then blew out his own brains. The tragedy was enacted in the presence of Fulton's wife and children. Fulton had recently given Moore notice that he would dispense with his further services, to which Moore's action is attributed. Fulton was a native of New York, and aged fifty-eight years.

J. F. Jaggard, a resident of Biggs, Butte county, Cal., was stabbed Thursday evening and instantly killed, by a tramp. The citizens threaten lynching.

When Mrs. E. Heath, of Sherman, Me., was born, the house took fire; at the time of her marriage the house again took fire; and last Sunday, at the birth of her son, the house took fire.

The watch and jewelry store of C. Robert Linke, in Providence, R. I., was burglarized Friday night, and property to the value of $12,000 to $15,000 stolen from two safes, which were forced open by screws. Entrance was effected from an adjoining store.

Margaret Martin, of Gilbertville, Mass., eight years old, was burned to death Friday while kindling a fire with kerosene.

A boy six years old was drowned at Fall River, Mass., and one sixteen years old at Windsor, Vt., while bathing, on Saturday.

Mrs. McCormick, a disreputable character, was found murdered in a house in Montreal, Friday night. Her head was found cut off and put in a bucket, which also contained a dissevered hand. A drunken brawl was going on in the house early in the day; Mrs. Jacobs, who keeps the house, has been arrested for the murder.

The government steamer Clytie blew up near Nebraska City on Friday, killing two men and injuring four; it is thought all the wounded will die.

—A damsel applied for a place behind a counter. "What clerical experience have you?" asked the man of dry-goods. "Very little," she said, with a blush, "for I only joined the church last week."

AROUND HOME.

A barn containing twenty tons of hay, belonging to Miss Emma Littlefield, at Wells, Me., was burned a few days ago. Building and contents insured.

John B. Goodwin, for twenty-five years freight agent of the Eastern railroad, was jammed between two cars Friday at Newburyport, and severely crushed, although he is not considered in a very dangerous condition.

One of the cooks in Mr. John Stone's eating-house was overcome by the heat on Saturday, falling heavily to the floor while actively engaged in her duties. She was promptly attended to, and no serious results are anticipated.

The Newmarket yacht club will have a regatta on the 4th of July, open to all boats owned above Dover point bridge, the boats to sail in three classes, with two prizes in each class. The first race will commence promptly at noon.

Among the musicians of Barnum's circus band is Mr. Hardy, formerly of this city, and a trombone player in the late naval band, who called around to see some of his old friends after the street parade was over, Saturday forenoon.

We never before saw so many people from the surrounding towns in this city at one time as on Saturday last, Barnum's circus being the attraction; storekeepers say the same thing, and add that their cash trade was excellent on that day. The circus was attended by two very large audiences, the rain in the evening, which would have sufficed to greatly thin out the attendance at a prayer meeting, apparently having no serious effect on the circus receipts.

The summer arrangement of the Eastern railroad went into effect on Sunday. There are a number of changes in the starting time of trains, and additional trains have been put on. The corrected advertisement of the railroad can be found on the first page. The Eastern railroad will commence to-day to run on the mountain route two new observation cars, with high, plate-glass windows having rolling shutter-blinds, and fitted with revolving chairs.

William Alonzo Brewster was brought before the police court at Dover on Friday of last week, on a charge of embezzling $600 belonging to his wife, Betsey Brewster (*nee* White) of Ossipee. Brewster pleaded not guilty. Mrs. Brewster, who acknowledged to sixty-six years, (the *Democrat* says she is seventy-two years old,) testified as to drawing her money from a bank in Dover, her husband being with her, and to his taking up the money from the bank counter, putting it in his pocket, and afterward refusing to give it to her when asked for it; also to his desertion of her in Boston, leaving her without a dollar in the world. The cashier of the Strafford savings bank testified to giving a check on the Strafford national bank to Mrs. Brewster; and the cashier of the latter bank testified to cashing the check, which was for $612.68, on the 30th of January last, Brewster taking the money. The defendant was lodged in jail to await trial at the September term of the supreme court, in default of $800 bail.

If it were generally known that one of the pleasantest and most profitable places to pass an hour was within less than a mile of Market square and in reach of every one, surely the enterprise and energy which established it would merit acknowledgement and reward. We refer to the aquarium at Newcastle bridge, which may be visited by all simply by paying six cents toll, and which no one can visit without feeling that the trouble has been many times repaid. The place is protected by a nice roof, is perfectly easy of access by any one, well supplied with seats, and is neatness itself; many kinds of fish which few among us have ever seen are in its tanks, and it should be so patronized (?) that encouragement to its enlargement and utility may be offered; for it is one of those things out of which something of great interest may grow by a little appreciation timely applied. The tide wheel supplying the upper tanks is of itself worth a visit, and is the invention of the keeper. No pleasanter resort for an hour can be found within miles. †

NAVY YARD ITEMS.

Mate Hugh Kuhl is detached from the Portsmouth navy yard, and ordered to the Speedwell.

Capt. R. W. Huntington, U. S. M. C., is detached from the marine barracks at the Portsmouth navy yard, and ordered to command the marine guard stationed at Annapolis, Md.

Civil Engineer B. F. Chandler, U. S. N., left this city Saturday afternoon for the naval station at New London, Conn., where he reports for duty July 1st, after having been civil engineer at the Portsmouth navy yard for thirty-seven years. At noon on Friday last, at the navy yard, Mr. Chandler's presence was requested in one of the larger rooms of the office-building, where he found nearly all the employes in the department of yards and docks assembled, and was presented on behalf of the workmen with a very handsome Masonic jewel, (a past-master's keystone,) Mr. Calvin L. Hayes speaking very neatly and appropriately for the donors, and Mr. Chandler feelingly responding. Mr. Chandler's successor at this yard, Civil Engineer M. T. Endicott, reports for duty on the 1st prox.

THE TENT DEDICATION.

Programme of dedicatory exercises, on Monday evening, June 30th, of the gospel tent presented to Rev. A. A. Waite by his friends in Portsmouth, N. H., to be used by him in Christian work wherever in the providence of God he may be called to labor:

Singing by the choir and congregation, "Coronation;"
Invocation;
Scripture lessons;
Singing by the choir;
Address by H. L. Hastings:
Singing by choir and congregation, "It is well with my soul;"
Remarks by ministers and friends;
Singing by choir;
Testimonial;
Remarks by Rev. A. A. Waite;
Dedicatory prayer;
Doxology;
Benediction.

WM. P. ISRAEL, *Chairman.*

INDEPENDENCE DAY.

The City Gaurds are to have a skirmish drill at the Plains on the morning of July 4th. Loading and firing with blank cartridges, and other tactics practised.

At a meeting of the firemen, Friday evening, it was voted that the fire department at the navy yard be invited to participate in the trial of steamers on Market square on the afternoon of July 4th, provided they will send the second-class engine to complete. It was also voted to invite the extinguisher companies and hook and ladder company to give exhibitions.

It was decided to have a foot-race, open to all persons twenty years old and upward; also that the services of the Rochester cornet band, already engaged by the city for an evening concert, be secured for the afternoon.

One of the engine company trials will will be to start from the academy and run to Market square, connect hose, lay three hundred feet of hose down Pleasant street, and show water at the nozzle.

It was voted to give prizes as follows:

For the best playing: 1st prize, $25; 2nd prize, $15; 3d prize, a trumpet;

Extinguisher prize, $10;

Engine running prizes: 1st prize, $20; 2d prize, $10.

Foot races: 1st prize, $5; 2d prize, $3; 3d prize, $2.

[Communicated.]

PORTSMOUTH & DOVER R. R.

Mr, Editor: I see by your paper that the Eastern railroad has asked for a reduction in stock and interest in the Portsmouth & Dover railroad. This is what we have been expecting and rather hoping for, for two years, and still hope it will be pushed by the Eastern, even to the breaking of the lease. Then the Dover road can be leased to the Boston & Maine, giving Portsmouth merchants the benefit of competition in freights to Boston, Portland and Rochester, and a connection with the roads up the State line (an original object in building the Dover road) to Lake Winnipesaukee. This will give Portsmouth advantages that we ought to avail ourselves of, and that we shall be remarkably short-sighted not to avail ourselves of. Let our city authorities look this subject square in the face, and gain advantages that are now apparently available.

REVILO.

[Communicated.]

TO THE PORTSMOUTH FIREMEN.

PORTSMOUTH, June 28th.

It is announced that the committee on the 4th of July trial of engines propose to invite the navy yard to send an engine to compete, "provided they would send a second-class one." What's the matter, boys? are you afraid of the Dupont? At the firemen's muster in this city, as I am informed by one of the then engineers of the department, the company of the engine Maverick of Boston, a 1st-class engine, complained that the City of Haverhill, which took the 1st prize, should have been rated as a 2nd-class engine, they claiming that the 2nd-class engines had a better record than 1st-class ones, and that the latter should not have been compelled to compete with one of the former. An ex-chief of the fire department stated this week that in his opinion the Kearsarge could outplay the Dupont; and two men who have been and perhaps are now engineers in our fire department, one of whom served his time in the Amoskeag works and has run many Asmoskeag machines, told me today that the Moses H. Goodrich can beat any Amoskeag engine that was ever made. Now, boys, there has been a good deal of talk about the Portsmouth engines out-playing those of the navy yard, and if the best engine there is barred out it will look as if all that talk was only "blowing;" give the Dupont a chance, and then beat her if you can. The Cataract, the 2d-class engine at the yard, is in a slightly crippled condition—just enough to render her unfit for sharp work.

SPANNER.

[Communicated.]

MR. WAITE'S WORK.

PORTSMOUTH, June 28th.

The time for Mr. Waite's departure draws near, and brings a thought of regret to many who during the past few weeks have gathered at the gospel tent at the various services. His efforts to please have been crowned with success, for he certainly has the powers that win; the singing, too, has been excellent, and every where good order has prevailed. Mr. Waite can interest both old and young, and while he talks to big folks does not forget the little folks; the children have learned to love the sight of his pleasant, genial face, and I am certain the boys and girls can never quite forget the minister who has made every effort to instruct and please them, and who justly deserves the title of the children's friend. Not only have the little folks been instructed and benefitted, but the older people. Many of us have gleaned from his plain, comprehensive talks and wonderful black-board illustrations a chain of golden thoughts that if personally and practically applied will make us better men and women, and exert an influence that will be felt by those about us. In the temperance cause Mr. Waite has proved himself a faithful and efficient worker, and his zeal, activity and success have stimulated the band of workers to write Excelsior upon their banner and press on.

We know his meetings have been a success in Portsmouth, and that he has called out a class who seldom if ever avail themselves of religious privileges—a class that the churches cannot reach from the fact that that they keep beyond their jurisdiction. Some may say this is only from mere excitement and curiosity, and that the reform is not lasting. A philanthrophist seldom sees the result of his work, but in time the church gathers them in; and we know this of them, they are better citizens, and better men and women than before. We can only say in parting, we are glad Bro. Waite came to Portsmouth; we thank him for what he has done, and he leaves here many warm and interested friends. We bid him God speed, and wish him success wherever duty calls him; and with his faith and courage we know his efforts will not be in vain.

C. H. & G. E. Whittier's wheel manufactory at Tremont has been attached by the sheriff, on writs returnable at the supreme court, and the establishment will go under the auctioneer's hammer to satisfy the creditors.

The New Stock Speculations.

The new combination method of operating in stocks which Messrs. Lawrence & Co., Bankers, N. Y., have inaugurated, is attracting unusual attention in financial circles, by reason of its remarkable success. A customer in Providence invested nine times, and made over $5,000 in three months, by using from $50 to $500 capital. By this system, orders from thousands of customers, in various sums, are pooled into one immense capital, and operated as a mighty whole, thus giving to each shareholder all the advantages of vast capital and shrewdest skill. Profits are divided every 30 days. Any amount from $10 to $75,000 can be used in Messrs. Lawrence & Co.'s combination with equal proportionate success. $15 will make $75 profit in the month. $200 will return $1,600, or 8 per cent. on the stock, and so on as the market varies. The new circular gives "two unerring rules for success," and shows how any one can operate profitably. Mailed free. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y.

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news,** containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —
NEW HAMPSHIRE GAZETTE
Contains more original matter
ALL KINDS
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.
— OF —
TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS,** at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

GOLDEN MEDICAL DISCOVERY
By its great and thorough Blood-purifying properties, Dr. Pierce's Golden Medical Discovery cures all **Humors,** from the worst **Scrofula** to a common **Pimple, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all diseases caused by bad blood, are conquered by this powerful, yet mild, and invigorating medicine.
Especially has it manifested its potency in curing **Tetter, Rose Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, White Swellings, Goitre or Thick Neck,** and **Enlarged Glands.**
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery **has no equal,** as it effects perfect and radical cures.
In the cure of **Scrofulous, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians prononince it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and purifies **the blood.** Sold by druggists.
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS
THE "LITTLE GIANT" CATHARTIC.
No use of taking the large, repulsive, nauseous pills, composed of cheap, crude, and bulky ingredients. These Pellets are **scarcely larger than mustard seeds.** Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the system, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad Taste in the Mouth, Bilious attacks, Pain in region of the Kidneys, Internal Fever, Bloated feeling about the Stomach, Rush of Blood to Head,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of these Purgative Pellets over so great a variety of diseases, it may be said that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with pills put up in cheap wooden or pasteboard boxes. For all diseases of a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction. **Sold by druggists.**
R. V. PIERCE, M. D., Proprr, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

CATARRH
SYMPTOMS.—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of the nasal passages, ringing in ears, deafness, hawking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, ticking cough, etc. Only a few of these symptoms are likely to be present in any case at one time.
DR. SAGE'S CATARRH REMEDY
produces radical cures of the worst cases of Catarrh, no matter of how long standing. The liquid remedy may be used, or better applied by the use of Dr. PIERCE'S Douche. This is the only form of instrument yet invented with which mild medicine can be carried HIGH UP and PERFECTLY APPLIED to all parts of the affected nasal passages and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. Its use is pleasant and easily understood, from directions accompanying each instrument. Dr. SAGE'S Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. Catarrh Remedy and Douche **sold by druggists.**

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., Successors to CHIPMAN, GILMORE & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,867,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSIBLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.
The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.
Three of the leading mines are well opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.
The Company proposes to sell a portion of its stock at $1.50 per share for the purpose of more completely developing its mines, and for the erection of works for the treatment of its ores.
Applications for the stock may be made to the office of the Company, 61 Broadway, New York.
N. S. B.—*The Mining Record,* of New York, the highest mining authority in this country, says Feb. 1st, 1879: The principal owners in this company are hard working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing; is one of the largest banks in the city. Prospectus giving full particulars sent free, on application to the Secretary. mch22d&w1moe

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

Boston, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Boston, January 1, 1879. 3tawtjan180

Patent Air Closet!

Superior to either Water or Earth Closets for General Use, and for the Sick Room, are indispensable

They can be set up in any Room, Hall-way or Closet, or at the Bedside of the Sick, and are warranted to be Perfectly Odorless.

Being thoroughly ventilated from the front, and connecting with the chimney, the disagreeable odors and poisonous gases are carried off into the chimney, instead of escaping into the room.

— FOR SALE BY —

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

SORROWS OF AN ADVERTISING CLERK.

The affable advertising clerk of the Squambtown *Independent* must be a lineal descendant of Job, the most patient man, or he couldn't survive in his present situation. He reached the office bright and early the other morning, and as he got his books and sharpened his pencil, wondered what sort of luck the day would bring forth. Good contracts had been rather scarce lately, and it was time for things to take a turn.

The first arrival was a portly gentleman who bustled in with a large roll of manuscript in his hand and considerable pomposity in his manner.

Clerk rapidly reflected—"This looks like business, anyhow," and he smiled his best smile.

Gent handed over his manuscript with a patronizing air, jerking out, "Report, annual meeting, (ahem.) Hope you'll get it in this evening; only make about four columns. Very interesting report this year."

Clerk—"Thank you. Our charges will be ten cents a line."

Gent, much astonished—"Ten cents a line! Why, my dear sir; this is not an an-an advertisement; this is news of the, aw—the greatest possible interest to your readers."

Clerk—"Our rate for this class of matter is ten cents a line."

Gent—"Tut! Tut! My dear sir, I am astounded. Really—aw—I ahem!—you—aw—cannot appreciate the interest taken by your readers in the Universal M——"

Clerk, blandly—"Business is business. If the publication of this report is of any value to your company, you should be willing to pay for the space occupied, just as any grocer or dry goods dealer has to do."

Gent—taken quite aback—"Well, really, aw, I—I—report must be published. I shall have to go over and see the president."

He did so, returning in the course of the day with the report much abridged, agreeing to pay for its publication.

The next person who appeared wasn't at all pompous. He got off a wood rack, hitched his horses and floundered in, bearing with him such a pungent odor of curry-comb and bad tobacco as set the unfortunate clerk sneezing. The high-flavored customer gaped all around, and then planting both elbows on the counter, asked;—

"Is the ed'tur in?"

Clerk—"No, Sir; what's the nature of your business?"

"Wa'al, I'd like to see the ed'tur himself of I could. I've got a little 'dvertisement I want prented in the paper."

Clerk—"The editor does not receive advertisements. That is my business. You have written it out?"

Customer, producing a scrap of paper—"Yaas; I s'pose you—you'll prent it for nothing for'n old subscriber? I'm selling out you know, and there's a heap o' folks roun' our way takes your paper; and they'd like to know about it, you know. It'll be jes's good news as yev'e got in yer paper."

Clerk—"It will cost you one dollar per insertion."

Customer, explosively—"Jerusalem! whew! One dollar! an' ben taken your paper for years!"

Clerk—"We make nothing on your subscription. Your newspaper is the cheapest thing that goes into your house. The advertisements are all that we have to live on."

Customer looked riled, and finally grabbed his scrap of paper and bounced out; but after scratching his head for a few minutes outside the door, re-entered.

"Ye'll do it for half price for an old subscriber, won't ye?"

Clerk, decidedly—"Can't do it sir."

Customer—"Waal, there's your dollar."

A clergyman entered, solemn visaged and spectacled:—"I am going to hold special services here during the week. I wish you would announce it, and please mention that a collection will be taken up at the close of each meeting."

Clerk, innocently—"What space do you wish the advertisement to occupy?"

Minister—"Oh! I merely desire an editorial notice; not an advertisement."

Clerk—"We can announce your meeting only in the form of an advertisement."

Minister, warmly—"But sir, this is a matter of public interest, of spiritual importance to your readers. You must fill your columns with something, and surely nothing can be of more interest than my meetings."

Clerk—"We must be permitted to edit our paper in our own way. If you take a reasonable space in our advertising columns, we shall be pleased to make a local reference to your announcement."

Minister, indignantly—"How exceeding worldly! My dear young friend, how can you expect to prosper in a Christian country."

Clerk, quietly—"The best Christians I am acquainted with are those that pay their way and ask no favors. If there were not a few of that sort in the world, I don't know how in the world we could pay our expenses."

Minister—"I shall consult my friends;" and he stalked out, reflecting severely upon men who cannot run a newspaper without money.

Just then in rushed Herr Schwitz, the ham and sausage dealer, puffing tremendously and greatly excited.

"I shust got verst brize mid mine bologuies in der fair. It is great nooz for der beeble! You vill make von good notiz, eh!"

Clerk—"Shall I write out an advertisement for you?"

Sausage dealer, with a shrug of sur-

prise—"Edvertisemen! Nein! Nein! Dat is nooz; der best nooz; vot is der paper for but nooz?"

Clerk—"That sort of news must be paid for."

The disgusted sausage dealer vanished; he evidently didn't believe in paying for "nooz," even if it advertised his business and brought him in customers.

The doorway was shortly illuminated by a vision of loveliness. A well-dressed lady, smiling in the most bewitching manner, came to the counter, causing the young man to strike a new position, finger his neck tie convulsively, and get on his other smile, although he was inwardly fearful that she too was only a beggar in disguise like all the rest.

Lady, so sweetly—"I want ask you if you will be so kind as to notice our social to be held next Tuesday evening for the benefit of the Ladies' Gospel Aid Society. Tickets only twenty-five cents; (and here she smiled a smile that agitated his very boots;) I'm sure you'll buy a couple, won't you?"

Clerk, head in a whirl—"Well, no, I thank you; (gaining courage,) we get about a peck a month of these social tickets presented to us. You couldn't get a newspaper man to use one of them, not for pay."

Lady—"Well, you will give us a nice notice anyway?"

Clerk—"I shall be happy to write an advertisement at the usual rate."

The lady's smile went out, likewise the lady, leaving the young man to wonder if there is any thing in life worth living for.

That day was peculiarly unfortunate, for others of a like nature called in; a physician who wished published as news that he had performed an important surgical operation, his name surely to be inserted so that he could sponge advertising and add to his business; a lawyer who wished the public informed of his success in an important suit, that his standing in his profession might be bettered, and his income increased; a politician wanted favorable reports of his meeting, and complimentary press notices published—advertising in kind and space amounting to hundreds of dollars, all "for the good of the cause." To all of these the same reply was given in substance: "A newspaper is a business investment which can sustain itself only by paying its way! and it can pay its way only by charging for admission to its columns everything that is of personal advantage to the individual occupying space in the paper; a paper conducted on any other principle will either die out, or exist a mere starveling."

At last a young chap came in and said simply:

"Cook wanted; references required; at 220 John street;" then placed a one-dollar bill on the counter and turned away.

The clerk gazed a moment on that dollar bill, and then on the retiring figure; ran after him and burst into tears, with the following words:

"Give us your hand, old fellow; you are the first man, woman or child that has called to-day that was not a dead beat in disguise, trying to secure publicity for his business, under the pretence that it was 'news!' Shake! I say. You are a square man and a gentleman, if you are only a one-dollar-bill-er."

Portsmouth Chronicle

TUESDAY, JULY 1, 1879.

Congress.

President Hayes on Monday notified the House that he had approved the judicial expenses bill, and sent in a brief but possitive message vetoing the marshals bill.

The Next Governor of Maine.

The Bangor *Whig* gives the following account of Hon. Daniel F. Davis, the republican candidate for governor of Maine:

He was born in Freedom, Waldo county, where his father, a clergyman, was then settled. While but a child the family removed to Orneville, Piscataquis county, which town his father represented in the State legislature. When ten years old his family removed to Newport, and subsequently to Stetson, where he attended school until October, 1863, when he went from East Corinth academy to enlist as a private soldier in Company D, 1st D. C. Cavalry. In 1864 he was transferred to Company F, 1st Maine Cavalry. He remained with his regiment until the close of the war, and was mustered out at Augusta in June, 1865.

Prior to entering the army he had been brought up on a farm, and had worked five seasons in a raw mill, where he commenced studying Latin during his leisure hours. After enlisting he prosecuted his studies at every opportunity, reciting to Lieutenant Parkman, until that officer was shot at Petersburg. After leaving the army he resumed his attendance at school, finally entering upon the study of law with Hon. Lewis Barker in Stetson. In October, 1868, he was admitted before Chief Justice Appleton as a member of the Penobscot bar, and in 1869 commenced at East Corinth the professional practice which he has since pursued with marked success. In 1874 he represented his town in the popular branch of the State legislature, and in 1876 he represented Penobscot county in the State senate.

Naval Affairs.

The U. S. S. Trenton arrived at Cadiz from Tangier, June 11th.

The Despatch arrived at Fortress Monroe June 28th, from Bermuda.

News and Notes.

The steamship City of New York, Capt. Deaker, from New York for Havana June 28th, returned to New York on the 29th, having on board the mate and four men of the barque Helen, of Dundee, Scotland, which vessel the steamer ran down and sunk off Barnegat at about eleven o'clock on the night of the 28th, during a thick fog. The captain and four men of the barque's crew were drowned. The Helen was an iron vessel, bound from Havana for New York with sugar. The steamer was much damaged.

Stock raisers report terrible ravages among young pigs by the hog cholera in southern Wisconsin and Jo Davies county, Ill.

The application for a stay of execution in the case of Mrs. Smith and Cove Bennett, convicted of the murder of the former's husband at Jersey City, has been denied.

Two harvesters were met near Alton Junction, Ill., by two tramps who attempted to rob them; resistance was made, when one of the harvesters was shot dead, and both were robbed. The tramps fled, and are now being pursued by citizens.

One hundred and twenty boys have passed the examination for entering the high school at Bangor, Me.

Two of the incendiaries who for years have infested Belfast, Me., have been caught. The brace of youths who have been trapped are named William Abbott and James H. Whalen. The former is eighteen years of age and the latter is seventeen, and that they belong to an organized gang of incendiaries there can be but little doubt. At midnight, Wednesday of last week, a fire was set by these two boys in a large warehouse. The building, with its contents of hay and corn, was destroyed.

Wilmer, son of Galen Hayward of Canaan, was drowned Saturday while bathing at Andover, being taken with cramp. His body was recovered from twenty-five feet of water.

One of the men who robbed the Workmen's savings bank in Allegheny, Pa., last March, has just been arrested. His name is Charles Daily, and his father is keeper of the jail at Wheeling. Two accomplices escaped.

The steamer May Queen, a small pleasure steamer on lake Minnetonka, Minn., blew up on Friday last, mortally wounding the captain and engineer, and seriously injuring five other persons.

There was a heavy squall on Sunday afternoon off Gloucester, Mass. There were fourteen yachts on Annisquam river and Ipswich bay, all of which by good management in taking in sail came to anchorage in safety. One yacht kept off toward Newburyport, and is safe. The Adele, while scudding before it in the height of the squall, struck the Zip, which had come to anchor, with such force as to break the Zip from her moorings, otherwise she would have been sunk. At Coffin's beach the squall took the form of a cyclone, piling the sand up in columns, and forming a spectacle seldom witnessed in that section. The steam yacht Evangeline, with a party on board, was caught in the squall outside, and put into Rockport. She picked up a small skiff containing two men, whose chances for life, had they not been rescued just as they were, would have been precarious.

The English factories act requires that no woman shall be employed continuously for more than four hours and a half. After working that length of time she must have a rest.

Two little negro boys at Paris, Ky., were given a pistol by their mother to go out and amuse themselves. They did, and one was killed.

An anti-polygamy society of Utah has prepared a letter to President Hayes exposing some of the misstatements in Delegate Cannon's letter to Mr. Hayes, and asking that Reynolds, convicted of bigamy and now serving a term in the penitentiary at Lincoln, Neb., be not transferred to the Utah penitentiary.

Calvin Sargent, a one-armed fellow, dragged a fourteen-year-old girl named Chatley into the woods at Waltham, Me., the other day, and tried to outrage her. She resisted him successfully, and he drew a knife and stabbed her severely, though not fatally. He then fled to the forest.

Captain Eads of the Mississippi jetties has applied for an additional half a million dollars for procuring a channel twenty-six feet deep and 200 feet wide. In considering the claim the government has submitted to the attorney-general a question as to the effect of a difference which exists between the two acts of Congress as to the width of the channel, a difference which has an important bearing upon the present payment.

At Providence, R. I., Friday, Mabel T. Wood, a fine appearing young woman, was sentenced to one year in prison for bigamy. She had been married but was informed by lawyers that the marriage was void, when she contracted her second marriage. The jury which convicted her recommended her to the mercy of the court.

Two women, wives of French Canadian brothers named Dore, were arrested Saturday night in a store in Providence, R. I., for shoplifting. Sunday their homes in Valley Falls were searched, and stolen goods sufficient to load an express wagon were found. It is suspected that the proceeds of the shoplifting expeditions were sent to Canada.

At the next society meeting of the Second Baptist church at Newport, R. I., the name of Rev. Charles Howard Malcom, D. D., will be erased from the roll of membership. He recently joined the Episcopal church.

The cession of the whole of Patagonia by Chili to the Argentine Republic is announced.

A tramp giving the name of William Doherty, residence Boston, jumped from a train on which he was stealing a ride, in the railroad yard at St. Albans, Vt., Saturday, and the wheels passed over his right leg below the knee and two fingers and thumb of the right hand, rendering amputation necessary. His recovery is extremely doubtful.

Christopher Southwick, a well known citizen of Middletown, R. I., has died from the effects of a lobster bite.

Advices from Rome say the pleadings in the Antonelli will case have closed, and judgment will soon be rendered. The defence pleaded that the suit of Countess Lambertini, who claims to be the daughter of the late Cardinal Antonelli, should be rejected because sacrilegious children, that is to say, children of priests, had not even the right to claim parentage. Another account says: "The sentence in the Italian supreme court in the Lambertini-Antonelli will case, will be against the countess on the grounds urged by the defence, and condemns her in costs, say about $25,000. Her part of the property left by the cardinal, if successful in the suit, would have been about $2,500,000." The defence failed to overthrow the evidence offered to prove that the great cardinal, the right-hand man of Pope Pius IX., was the father of the countess.

A marriage ceremony was performed by telegraph at Newark, N.J., last week, between Dr. F. M. Show of Los Angelos, Cal., and Miss Margaret Wright of Albany. The certificate, however, was not given by the clergyman, but will be obtained from the minister in California.

B. P. Gillan and M. Armstrong of the Olive gang, under indictment for murdering and burning Mitchell and Ketchum, escaped from Plum Creek jail, near Omaha, Neb., on Thursday night. A band of men are in pursuit.

An attempt to sell lands for railway taxes in DeWitt county, Ill., was met by 150 armed men, who surrounded the auctioneer's stand and announced that the first bidder would be shot. There were no bids.

A wonderful cave has been discovered near La Crosse, Wis., on the farm of David Samuels. It it thirty feet long by eight wide, and its walls are covered with hieroglyphics and rude carvings of men, animals and various Indian implements. The cave had been covered long ago with a land slide, and the number of coons caught at a small hole left open led to the search for the cavern where they lived. A poplar eighteen inches in diameter had grown out of the land-slide and rotted away, which is considered conclusive proof that men have not occupied the cave during the last century or so.

Political.

Senator Davis, of West Virginia, asserted on Wednesday of last week that the evidence taken by his committee showed errors in the treasury books amounting to millions. On Friday Mr. Allison introduced a resolution to print all the evidence Davis' committee had taken on this subject, when, to the surprise of the whole Senate, both Davis and Beck of Kentucky opposed. The real reason of this is, that the evidence taken entirely exonerates the treasury officials from all the charges that Davis has made his stock-in trade for nearly two years past.

The Louisiana constitutional convention has voted against the payment of the July interest on the State bonds, and appointed a committee to investigate charges of corruption.

"Witness the eloquent silence of Mr. Tilden!" exclaims a New York journal in a tone of sarcasm. So we do, here in the south. It is just this eloquent silence that we don't like. It means secret methods and underhand dealings in politics. It means the process of burrowing after a nomination. It is suggestive of a half-hidden puffing bureau; of Nephew Pelton; of cipher dispatches; of secret emissaries, and a barrel of money. We say now, once for all, that the people of the south have had quite enough of Tilden and his methods—enough of his "eloquent silence," with the significance it has to those who cherish American honor.—*New Orleans Times, dem.*

—The most treacherous memory in the world belongs to the young man with a new watch.

—A family in Woodstock, Md., have a jar filled with Easter eggs which have been deposited at various times and are kept as mementoes of the past. The oldest one was placed in the jar at Easter, in 1823, and is now fifty-six years old.

—A good colored minister, who is not above manual labor on week days, was at a house putting down carpets. The master of the establishment remarked, in a jocular tone, "Well, uncle, stretching carpets is better than stretching the truth." To which the laborer in the moral vineyard replied: "I dunno 'bout dat, boss; I likes to do a little of bof." The innocent old soul didn't appreciate the difference between "laying down" and "stretching."

HOSTETTER'S CELEBRATED

STOMACH
BITTERS

There seems to be no country under the sun where Dyspepsia is so prevalent as in the United States. Here the disease has become domesticated, and is to be found in almost every household; and consequently such a household remedy as the Bitters is of inestimable value to the American people. As an invigorating, regulating and restorative preparation, suited to all climates and contingencies, it stands alone among modern medicines. For sale by all druggists and respectable Dealers generally.

JOSEPH C. PERKINS, Proprietor.
Formerly of the Franklin and National Houses, Portsmouth, N. H.

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1876, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

AROUND HOME.

Strawberry and ice-cream festival in the Congregational chapel this evening. See advertisement.

On Saturday night the new tide-gates at the south bridge were closed for the first time, and worked satisfactorily.

The regular meetings of St. George Council, Legion of Honor, are held on the 2d and 4th Tuesdays of each month, instead of the 1st and 3d as previously announced.

The contents of the Nute shoe manufactory were sold at auction (sheriff's sale) on Monday. The manufactured stock brought $1450, the unmanufactured stock $525, and the fixtures, etc., $700. Edw. P. Kimball was the purchaser.

Harper's Magazine for July is a superior number—better ever than the average of this excellent and popular periodical; it is profusely illustrated, and is just the thing for whiling away a summer hour. For sale at Myers' and Moses Bros.' stores.

Seven children were christened at the Universalist church on Sunday. The rite of confirmation was administered to seventeen persons on Sunday evening at St. John's Episcopal church, Right Rev. Wm. W. Niles, Bishop of the Diocese of New Hampshire, officiating.

It was the board of directors of the Portsmouth & Dover railroad, and not as stated a meeting of the municipal authorities, that last week appointed a committee to confer with the Eastern railroad management relative to a reduction of the capital stock of the Portsmouth & Dover road and of its rental to the Eastern.

Mr. William Shannon brought into market on Monday from the city farm a bushel of new potatoes, the finest we have seen this year raised in this vicinity; they were started under cover, and transplanted on the first of April. Last year Mr. Shannon brought in new potatoes two weeks earlier than this season.

The heavest shower for years at Hampton beach occurred Saturday night. The house of J. M. Chase was struck by lightning, and saved from burning only by the rain. The lightning entered six rooms, taking the doors off the hinges and demolishing them, breaking windows and doing a large amount of damage. Mr. Chase and wife were in different rooms, and both were knocked insensible. The damage done was to the amount of about $200.

Hon. Moses Chandler Russell, one of the owners of the Somersworth Machine Works, a highly respected and influential citizen, died at Great Falls suddenly Saturday night, of bilious pneumonia. Last year he was the democratic candidate for State senator in the Great Falls district, and at the time of his death he was a member of the board of school committee of Great Falls. He had also held the offices of selectman and judge of probate. His age was sixty-two years.

Mr. Waite's gospel tent was crowded, Monday evening, and the walls were thrown open at the entrance to enable those who were compelled to remain outside to see and hear what was taking place within; not less than twenty-five hundred people assembled to witness the dedicatory exercises. By special request, Mr. Waite remains in this city another day, and will this evening give a lecture on "Christ, in object—chalk and charcoal;" admission free—but any voluntary contributions will be accepted.

We have received from John B. Clark, Esq., State printer, a very handsomely printed and useful little book of reference, entitled "Manual for the use of the General Court of New Hampshire," and containing the rules of the two branches, lists of the executive, legislative and judicial branches of the State government, State institutions and their officers, and county and town officers for 1879; also the constitution of the United States, and the constitution of the State of New Hampshire.

One of the violent squalls which have been perambulating about the country for several days, visited the Isles of Shoals on Saturday evening. The steamer Appledore, which had just arrived and was backing clear of the stage to go to Star island, being struck by the squall hastened to get extra lines ashore again, and remained until the blast was over. The wind carried away a part of her awning, and bent and twisted the stout iron railing and stanchions into all sorts of shapes. The awning of the boat-landing at Star island was blown away, and took with it the railing and stanchions to which it was made fast. No other damage was done.

POLICE COURT.

MONDAY, June 30; *Batchelder, J.*

Frank Watson, Michael Monday, Albert David, William Nelson, Patrick Buckley and George Tighe, were all adjudged guilty of having been drunk. Tighe promised to leave the city if allowed, and was let out to see if he would keep his word; Buckley was placed on probation; the other four were assessed $9.90 each, fine and costs.

INDEPENDENCE DAY.

The firemen's committee (of members of companies No. 3 and No. 4) on 4th of July celebration had a full and earnest meeting Monday evening, and decided to invite the competition of 2d-class engine from the navy yard.

A committee was appointed to wait upon the foreman of Sagamore engine company, to request that company to take part in the contests on the 4th.

It was voted to offer a prize for the hook and ladder company to strive for in a match against time.

A committee on collation was appointed, and other details attended to.

The rules and regulations for the matches were discussed, and arranged ready for submission to the full companies this evening.

REAL ESTATE CONVEYANCES.

The following transfers of real estate in this county have been left for record in the office of the register of deeds:

PORTSMOUTH.

Joseph Tuttle, of Wakefield, Mass., et als., to Horace B. Johnson, of Windham, land and buildings situated partly in Windham and partly in Derry, $1200.

James C. Cloyd, of Brooklyn, N. Y., to James P. and Frederick Hughes, land, $1330.

Jane E. Gale, of Northfield, Minn., to James C. Cloyd, of Brooklyn, N. Y., land, $1.

Mary H. Gray, of Alameda, Cal., et als., to James C. Cloyd, of Brooklyn, N. Y., land, $1.

Jane Cloyd, of Windham, to James C. Cloyd, of Brooklyn, N. Y., land, $1.

Warren T. Cloyd, et al., of New York city, to James C. Cloyd, of Brooklyn, N. Y., land, $1.

—Among queer wills in England, was one of a celebrated Queen's counsel, "I leave everything to my brother;" another was written in shorthand, another written on the bedpost, and another was by a husband, who threatens his wife, if she does not carry out his will, that his ghost will haunt her, discreetly adding, "if I can."

FESTIVAL!

There will be held at the NORTH PARISH CHAPEL on Middle street, on

Tuesday Evening, July 1st,

—A—

STRAWBERRY & ICE CREAM

Festival, to raise funds for the purchase of a musical instrument for use in the Chapel.

As Usual.

An old chevalier worth millions feels his end approaching; he summons his lawyer to give him his last will and testament. He tries to think to which of his friends he can leave his fortune. The lawyer observes:

"Monsieur has a nephew?"

"Don't speak of him; he hasn't a cent, and is dying of hunger; do you think I'm going to encourage such people?"

"But, sir, your nephew has no need of encouragement. I know you have lost sight of him for some time."

"True, for some time!"

"Very well, in that time he has made a fortune."

"Ah bah!"

"He is now a rich fellow, steady, and perfectly able to dispense with your money."

"Oh! in that case 'tis very different; make him my sole heir!"—*French paper.*

—The placidity of expression worn by him who is "next" in a full barber shop cannot be counterfeited, even by an old maid with her first love-letter.

—An auctioneer was endeavoring to sell a fowling-piece, and failing to get a bid a by-stander who had read the papers said, "Blow in the muzzle and it will go off,"

—"That is what I call a finished sermon," said a lady to her husband, as they wended their way from church. "Yes," was the reply with a yawn, "but, do you know, I thought it never would be."

DIED.

BRADLEE. In this city, June 29th, Mrs. Eliza Bradlee of Dorchester, Mass., aged 87 years, 4 months.

CROSBY. In York, Me., June 29th, Mrs. S. Crosby, widow of John Crosby, late of Portsmouth, aged 93 years and 3 months.

SANFORD'S JAMAICA GINGER

Enlarged May 1,1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

Persons under the operation of Fellows' Hypophosphites should examine their blood under the microscope from time to time, and mark the increase of red and active particles and diminution of the white or dead ones; these observations are interesting and instructive.

No preparation of Hypophosphites I have used can compare with Fellows' Compound Syrup of Hypophosphites for restoring strength to the nervous system.

I think it the best medicine I ever used.

W. J. HORNER, Buffalo, N. Y.

New Hampshire Items.

A meeting of the directors of the New Hampshire Fire Insurance company, held Saturday, voted a semi-annual dividend of four per cent. The company reports $509,360.35, cash assets, a handsome gain during the past six months.

A proposition is being urged to call a public meeting of the citizens of Manchester to denounce the Concord railroad management with reference to Manchester and its interests. One of Manchester's State senators has expressed himself as strongly in favor of such a course.

"Practical Science."

Under the above heading, the *St. Croix Courier*, of St Stephen, N. B., in referring to the analysis of Dr. Pierce's Golden Medical Discovery and, Sage's Catarrh Remedy, recently made by Prof. Chandler, of New York, and others, says: "Nothing was discovered which we think objectionable, and the published analysis should increase, rather than retard, their sale. To us, it seems a little unjust to call a man a quack, simply because he seeks to reap as much pecuniary reward as other classes of inventors." The English press is conservative, yet after an examination of all the evidence it not only endorses but recommends the Family Medicines manufactured by Dr. Pierce. No remedies ever offered the afflicted give such perfect satisfaction as Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy.

—Scene, Girard college entrance—Two ladies, and a robust young man in black clothes and white choker. Janiter—"I am sorry to tell you, sir, that it's against the rules of the college for clergymen to enter the building." Young man—"The devil you say!" Janitor—"Walk in."—*Com. Adv.*

THE NEW HAMPSHIRE
GAZETTE
Established 1756.

The Gazette s published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news,** containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —
NEW HAMPSHIRE GAZETTE
Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS,** at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Subscriptions Received

MARKET STREET.
☞ We advise all to call, examine and try them before purchasing their Christmas Presents.

GOLDEN MEDICAL DISCOVERY
By its great and thorough blood-purifying properties, Dr. Pierce's Golden Medical Discovery cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Saltrheum, Fever Sores, Scaly or Rough Skin,** in short, all illnesses arising from bad blood, are conquered by this powerful, purifying, and invigorating medicine.
Especially has it manifested its potency in curing **Tetter, Rose Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, White Swellings, Goitre or Thick Neck,** and **Enlarged Glands.**
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver, or "Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect and radical cures.
In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** Sold by druggists.
R. V. PIERCE, M. D., Proprietor, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS
THE "LITTLE GIANT" CATHARTIC.
No use of taking the large, repulsive, nauseous pills, composed of cheap, crude, and bulky ingredients. These Pellets are **scarcely larger than mustard seeds.**
Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulder, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the Mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Heated feeling about Stomach, Rush of Blood to Head,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of these Purgative Pellets over so great a variety of diseases, it may be said that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Nor does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with pills put up in cheap wooden or pasteboard boxes. For all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction. **Sold by druggists.**
R. V. PIERCE, M. D., Proprietor, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

CATARRH
SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of the nasal passages, ringing in ears, deafness, hawking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged glands, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

DR. SAGE'S CATARRH REMEDY
produces radical cures of the worst cases of Catarrh, no matter of how long standing. The liquid remedy may be snuffed, or better applied by the use of Dr. PIERCE'S Douche. This is the only form of instrument yet invented with which fluid medicine can be carried HIGH UP and PERFECTLY APPLIED to all parts of the affected nasal passages, to the members or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. Its use is pleasant and easily understood, from **directions** accompanying each instrument. Dr. SAGE'S Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. Catarrh Remedy and Douche **sold by druggists.** R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress. Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,897,560 acres of Bounty Land Warrants outstanding. These were issued under acts of 1855 and prior. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced Patent Solicitors employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

THE
Alpine Silver Mining Co.,
OF COLORADO.
CAPITAL $2,000,000. 200,000 SH RES.
PAR VALUE, $10 PER SHARE.
UNASSESSABLE.
Daniel J. Splane, Pres. J. L. Thompson, Sec.

The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.
Three of the leading mines are well opened up and have at the lowest computation over TEN THOUSAND TONS OF ORE IN SIGHT; by May 1st, the Railroad now under construction will be within a short distance of this property.
The Company proposes to sell a portion of its stock at $1.50 per share for the purpose of more completely developing its mines, and for the erection of works for the treatment of its ores.
Applications for the stock may be made to the office of the Company, 61 Broadway, New York.
N. B.—*The Mining Record,* of New York, the highest mining authority in this country, says Feb. 1st, 1879: The principal owners in this company are hard working men who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market; our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing in one of the largest banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary. mch22d&w3mos

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle

"Fifteen Cents Off."

A Detroiter who dresses well and has a reasonable share of good looks, had occasion last week to make a trip to the country, and one night he found himself at a farm at which a party was to come off. He was invited to participate in the festivities, and after he had consented the old farmer took him around the corner of the house and said:

"The young folks are mighty fond of any game with kissing in it. They'll get up something, and fix it so make you kiss the handsomest gal in the room."

"Well, I'll kiss her," was the prompt reply.

"Yes, but hold on a little," continued the old man. "There's my gal Emma. We think she's as purty as any of 'em, but certain folks around here kinder sniff at her 'cause her nose crooks a bit and her hair is a trifle high-colored. Now, I want you to kiss Em for the handsomest gal in the room. It'll do the old woman good, do Em good, and kinder set these 'ere sniffers back a little. I don't ask you to kiss her for nothing, but if you'll do it I'll throw fifteen cents off in your bill in the morning. What d'ye say?"

The young man said he'd do it, and the father continued:

"That's the checker. Don't have any make-believe about it, but kiss her right pop out, so that we kin all hear the smack!"

The game was played, the Detroiter was "fixed," and he kissed "Em" like the pop of a pistol. He felt all the happier for it that night, seeing how greatly the old woman was pleased, but next forenoon as he jogged along he had to run the gauntlet of a score of farmer's sons waiting in fence corners to lick him because he passed their "gals" for "Em." He was struck by thirteen stones, six clubs and about a bushel of potatoes before he got out of the neighborhood, and when he figured up he realized that fifteen cents was no inducement at all.—*Detroit Free Press.*

The Rich California Banker.

When it became known that one of the richest California bankers had left the Pacific Coast and transferred his base of operations to the New York Stock Exchange, all the shrewd financiers watched his course with keen interest to see how he would succeed. The result has emphatically proved the wealthy banker's sagacity. Besides having a much wider and more promising field to operate in, he is known to have been in several stock combinations that paid immense profits. By the combination method of operating in stocks Messrs. Lawrence & Co., Bankers, N. Y., unite orders of thousands of customers, in different sums, into one vast capital, and operate them as a mighty whole, dividing profits *pro rata* among shareholders every 30 days. Capital in any amount from $10 to $100,000 can be used with great success in these pools. $25 would pay $100 profit. $500 would make $5,000 or 10 per cent. on the stock during the month. Messrs. Lawrence & Co.'s new circular (mailed free) gives "two unerring rules for success," and full particulars, so that any one can operate in stocks, and make money. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Exchange Place, N. Y.

—The commencements will soon be ended, and the endings will then commence.

—A church committee at Peru, Ind., is trying to find out whether Rev. Thomas Cooper really did say of one of his elders, "He is a hell of a prayist."

—A Bloomington man who has been investing in New York "puts and calls," says that they "call" for your money and "put" it into their pockets. They have put about all of his away.

—When a humming bird, primed with the fragrance of myriad meadow blossoms, sinks from sight in the bell of some delicious breeze-waved flower, it must feel inexpressibly happy. In fact, it must feel as jubilant as a man does in a crowded horse car when the conductor passes him, thinking he has already collected his fare.—*Lowell Citizen.*

SANFORD'S JAMAICA GINGER

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel. is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

$15,000 Gone to Texas.

Mr. P. M. Spinelli, of Brownsville, Texas, had heard of the Louisiana State Lottery. Mr. Spinelli invested (by sending one dollar to M. A. Dauphin, P. O. Box 692, New Orleans, by mail) one dollar in half ticket No. 47,570 in the Single Number Drawing of May 13, and great was his surprise when he received from the company a check for Fifteen Thousand Dollars on the Louisiana National Bank. His great regret now is that he did not buy the whole ticket, by investing an extra dollar, draw thirty thousand dollars, denote it to the Charity Hospital, do the State some service, and let the Lottery Company rip. "Man never is, but always to be blessed."—*N. O. Picayune.*

It is a happily established fact that Follows' Compound Syrup of Hypophosphites will retard vital consumption, increase involuntary muscular power and thereby harden the organs, promote vitality and facilitate restoration. It consequently possesses the wonderfully property of prolonging human life.

Portsmouth Chronicle

WEDNESDAY, JULY 2, 1879.

Congress.

The confederate Congress has at last done a good thing; it adjourned at five o'clock Tuesday afternoon.

Maine Democratic Convention.

The democratic State convention of Maine met at Bangor on the 1st inst., and renominated Alonzo Garcelon for governor by acclamation.

The Latest Veto.

In his latest veto message, announcing to Congress his refusal to approve of the bill appropriating money for the payment of United States marshals and to secure the democrats in the exercise of free fraud and terrorism at the polls, President Hayes tersely sets forth the principle involved in the bill, as follows:

"The object manifestly is to place before the executive this alternative: either to allow necessary functions of the public service to be crippled or suspended for want of appropriations required to keep them in operation, or to approve legislation which in an official communication to Congress he has declared would be a violation of his constitutional duty. Thus in this bill the principle is clearly embodied that by virtue of the provision of the Constitution which requires that 'all bills for raising revenue shall originate in the House of Representative,' a bare majority of the House of Representatives has a right to withhold appropriations for the support of the government unless the executive consent to approve any legislation which may be attached to appriation bills. I respectfully refer to communications on this subject which I have sent to Congress during its present session for a statement of the grounds of my conclusions, and desire here merely to report that, in my judgment, to establish the principle of this bill is to make a radical, dangerous and unconstitutional change in the character of our institutions."

A Great Work Completed.

On Monday night, at Sutro, Nevada, was celebrated the final completion of the great Sutro tunnel for the drainage of water from the Comstock mines, after ten years' labor and the expenditure of $6,000,000. The engines of the combination shaft of the Hale & Norcross and Savage mines were started Monday morning, discharging their water into the Sutro tunnel, at the mouth of which the water made its appearance in one hour and twenty minutes, showing a temperature at first of 101 degrees; in eight hours, the water in long-drowned-out mines was lowered 100 feet; everything worked satisfactorily. The water from the Sierra Nevada, Union, Ophir, the Bonanza mines, Best & Belcher and Gould & Curry will not be turned in for a couple of weeks; and, after all finds its way into the tunnel, it is expected that one of the double lines of boxes will have an ample capacity to carry off all water.

Naval Affairs.

The U. S. S. Tuscarora arrived at San Francisco June 29th, from Acapulco.

The U. S. S. Marion, which arrived at Hampton Roads at midnight on the 26th ult., from Port Royal, sailed next day for this port.

Giant-Powder Explosion.

The giant powder magazine at Mowbray's nitro-glycerine works, at Hoosac Tunnel, Mass., exploded for the fourth time on Monday afternoon, killing Jack Pierce and William Long, who were at the time engaged in the building mixing blasting powder. The force of the explosion was plainly felt in North Adams, a distance of two miles. The neighboring buildings of the works were badly shattered, and the ground for upward of thirty rods strewn with timber and portion of the debris. Pierce was married, and leaves a wife and three children; Long was a single man. The two bodies were blown to atoms. The cause of the explosion is of course unknown. Both men had been employed in the works a considerable time, and at the time of the accident were packing the new kind of "79" giant powder in the powder house. The latter was blown to splinters. The mica house, the glycerine factory and the wire house were badly damaged by the concussion, and the loss to the buildings will be in the neighborhood of $1000. The previous explosions at these works were on January 29th, 1870, when E. J. Wilson was killed; January 26th, 1876, when Benjamin Cook and John Cullen were killed; and December 23d, 1876, when John V. Velson was killed.

News and Notes.

Chastine Cox, the colored murderer of Mrs. Jane L. DeForest Hull, has been indicted for murder in the first degree, and will be speedily put on trial.

The wife of postmaster John B. Pearce of Bristol, R. I., has been considered partially insane for some time. A few weeks ago she shot her husband in the head while he slept, and Monday last, when Mr. Pearce went to dinner, he found the door of his house fastened, but forcing an entrance and going to his wife's chamber he found Mrs. Pearce in bed, wrapped in flames. It appeared that she had saturated the bed with kerosene, laid down and set the bed on fire. The flames were extinguished, but Mrs. Pearce was so badly burned that she cannot survive. There has been trouble between the couple for a long while on account of Pearce's alleged too great intimacy with a young girl, who some weeks ago attempted to shoot Pearce on the street.

Thomas Brown of Stamford, Conn., found his wife with another man in a house of poor repute, Sunday night. In a scuffle that ensued he threw a kerosene lamp at her, which broke, and the woman was fatally burned. Brown is in jail.

The tax collector of the town of Holbrook, Mass., has mysteriously disappeared, and there are rumors of defalcation, also that he is insane. There are no fears of foul play.

James F. Edmands of Newton, Mass., was arraigned Monday on the charge of forgery. He waived examination, and bail was fixed at $100,000. He was committed to jail.

At Beaumont, Texas, Sunday evening, during service in a colored church, a white boy looking in through a window was fatally shot in the back by some unknown party outside. Two more shots were fired into the church from the same direction. Some men in the church returned the fire, about forty shots in all being fired. One negro was shot in the hand.

At Castroville, Texas, a man named Ware had a quarrel with his brother-in-law, Doc Howell; the latter shot Ware in the arm and side, and was then shot dead by Ware.

Franklin T. Stuart was arrested Monday in Rochester, N. Y., on the charge of swindling Boston rubber dealers out of $50,000, by obtaining their goods under false pretences.

During the thunder shower, Saturday, the house in Mendon, Mass., occupied by Mr. Frank Taft, was struck by lightning and considerably damaged. The clapboards were torn off the side of the house and hurled a distance of thirty feet with such violence as to cause them to stick in the ground. The casings of two windows were torn out without disturbing the adjacent plastering, but the ceiling was badly broken in five rooms. The pictures on the wall were turned completely around, and the back of a large mirror totally destroyed, the quicksilver being taken entirely off, without breaking the glass.

Late Saturday night at Portland, Me., Thomas Curran fired two shots from a revolver at John Harkins, inflicting probably fatal wounds. The cause of the assault is not known. Curran has been arrested.

Mrs. Tibbetts of Waterville, Me., aged sixty-six years, while hanging clothes on the roof of a building fell thirty-five feet, striking upon a ledge and thence falling into the river, whence she was rescued alive, though it is feared that her injuries will prove fatal.

Samuel C. Crowell of West Dennis, Mass., who was supposed to have been lost at sea a few weeks ago, has arrived safe at home.

Two hundred barrels of flour fell into the dock, a flooring having given way in Pearson's bakery on Pearson's wharf in Newburyport, Mass., Monday morning. Damage slight.

AUCTION SALE
— OF —
LEAVITT ESTATE

The very desirable Real Estate fronting on CONGRESS ST., and running through to Warren St., with DWELLING HOUSE and STABLE will be sold at AUCTION on

WEDNESDAY, JULY 2ND,

At 12 o'clock, M., unless previously disposed of at private sale.

Orders left with N. K. Walker & Son promptly filled.

New Hampshire Items.

A shower of hail fell at East Haverhill, Monday, lasting ten minutes, and was followed by a severe thunder-storm. Hailstones fell the size of filberts.

Rev. Fred M. Gray, M. A., of Staten Island, N. Y., has been elected rector of the Holderness school for boys. Mr. Charles M. Hugh is to be the assistant master.

Three cans of land-locked salmon from the State hatching house were on Monday taken to Cheshire county by Commissioner Powers. The cans contained about 1000 young fish.

Richard E. Brown, an old man residing in Holderness, was suddenly attacked by palsy while driving home late Saturday evening, when he fell out of the wagon into the road, where he was found lying a short time afterward.

—A chasm that often separates friends,—Sarcasm.

—Tom Hood, the poet, was angling one day in Love Harbor and caught a cuttle-fish. Unaware that it was what would now be called by the frivolous an "ink-slinger," he "laid hold of it to unhook it, and received its ful *jet d'eau* in his face." Being asked what he had on his hook, he replied, "that he did not know exactly, but thought he had caught a young garden engine."

—Vienna is accused of originating the Boccaccio stocking, or the peculiarity of wearing stockings of which one is white and the other black. This clownish, not to say vulgar idea is not, unfortunately, confined to Vienna or Boccaccio, for a young woman descended from a Tremont street car, the other day, with one foot and leg clad in blue and the other in cardinal red!—*Boston Courier.*

—The President has presented four brass cannon to a library in Fremont, O. Just what a library will do with these cannon may be a mystery to some people, but we understand the purpose to which they will be devoted. Libraries are frequented by a class of people who grab up all the late publications, and hold two or three under each arm and one in the hand, while a dozen other persons are impatiently awaiting to get a glance at the books. The librarian will take the cannon and shoot the heads off of such selfish and unmannerly people.—*Norristown Herald.*

Horse Cars and Coaches run by the house at all hours of the day and evening, from all depots.

JOSEPH C. PERKINS, Proprietor.

Formerly of the Franklin and National Houses, Portsmouth, N. H.

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1878, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

A. STEVENSON.

AROUND HOME.

See advertisement of auction sale of valuable real estate and household goods to-day.

Temperance meeting at the Mission hall this (Wednesday) evening at 7:45 o'clock.

Frank Annis, son of Thomas Annis of Berwick, Me., received fatal injuries in jumping from an express train at Rollinsford, Monday night. He was about twenty years old.

The members of Garibaldi Hook & Ladder Co. are requested to meet at their hall this evening at eight o'clock, to act upon the invitation from the committee on 4th of July celebration. PER ORDER.

At Biddeford Me., Sunday, a gang of five tramps attacked the brakemen of a freight train with stones, because they were not allowed to beat their way on the train. Two of the bummers were captured after a chase of two miles.

Nathaniel H. Otterson of Hooksett having been confirmed and qualified as keeper of the new light-house at York Nubble, Cape Neddick, entered upon his duties July 1st, at a salary of $500 per year, with $30 allowance for fuel. The light was exhibited for the first time on Tuesday night.

Mr. Van Purington, a clerk at the Elm house, South Newmarket, and a Mrs. Robbins, a visitor from Boston, were out riding Monday, when the horse took fright and threw them both out, and the lady was severely injured about the face and head, being taken up insensible. No bones were broken.

The examination of candidates for admission to the high school was held in the principal's room in the high school building on Monday. The candidates numbered fifty-one—twenty-one males and twenty-five females—of whom forty-two passed successful examinations and were admitted, nine being rejected.

The striking boot-bottomers in the employ of Burt, Strong & Moore of Dover, shoe manufacturers, have been notified to return to work and that no reduction of wages will take place. The men were determined to stay out all summer rather than to submit to a reduction which they considered unnecessary and unjust.

The *Times* of Tuesday evening says: "Twenty-eight shares of the Portsmouth, Great Falls & Conway railroad stock sold in Boston yesterday at $103." That is a mighty jump from the latest quotations which came under our notice, when stock in that road went for six or seven dollars a share. We know several holders in this vicinity who would be glad to dispose of their stock at a liberal reduction from the Boston prices as reported in the *Times*.

A friend suggests, in view of the friendly feeling always existing between the local military organizations and the firemen, that it would be a graceful compliment as well as add much to the interest of the celebration if some or all of the military companies would volunteer escort for the firemen's procession. We know that such a courtesy would be appreciated by the citizens and suitably acknowledged by the firemen; and as the route of the procession will necessarily be short, only a brief portion of the day would be taken up on the march.

The Zeilin prize of $300, for the best reading of the scriptures and book of common prayer by students of the Episcopal theological schools at Cambridge, Philadelphia, Sewanee and Alexandria, was contested for by eight students, among whom was Mr. George A. Holbrook, son of Mr. John R. Holbrook of this city. All the competitors read the same selections from the prayer book; the scripture selections were different for each, and were assigned by lot. The judges awarded the prize to Mr. H. Arrowsmith of the Cambridge school. The Philadelphia *Bulletin*, in its report of the readings, says Mr. Holbrook's "reading was full of rhythmic cadence, given with a clear, round and full voice, admirably sustained throughout the longest sentence. Mr. Holbrook is a natural elocutionist, and displayed a most intelligent apprehension of the sentiment of the passages given by him. During the recess and absence of the judges the audience freely canvassed the relative merits of the contestants, with a strong prevailing judgment in favor of either Mr. Merrill or Mr. Holbrook."

Sheriff Kent will sell at auction at Fremont village, in this county, on Monday next, (the 7th,) at twelve o'clock, noon, the stock in trade, consisting of carriage material, unfinished and finished carriages, second-hand carriages, etc., etc., of C. H. & G. E. Whittier, which is under attachments on writs issued by the Supreme Court, returnable next October.

Last week Deputy Sheriffs Stuart and Marr of Biddeford visited Frank Pierre's place at Hog point, South Berwick, and made a seizure of liquid lightning; they also seized a quantity of liquor from Howard Fall of North Berwick. On Saturday the same officers captured two barrels of bottled lager and two gallons of whiskey from Joe Place of Biddeford, and on Monday Place was fined $50 and costs for unlawfully keeping liquor for sale.

NOTES FROM THE SHOALS.

Mr. Cedric Laighton, and other persons who have lived for years at the Shoals, say that the squall which struck the islands on Saturday afternoon last was the heaviest one that ever visited them at this season of the year, at least within their recollection or knowledge.

On Monday one of the worthy hosts of Appledore, Mr. Oscar Laighton, was surprised at finding himself the recipient of a number of gifts, and on enquiry was still further surprised to discover that he that day had attained to the dignity of forty years of age. It is not greatly to be wondered at that he did not suspect himself to be forty years old that day, as nobody would suspect it from his looks; but his friends remembered it, and notified him with many handsome and valuable presents. His sister, Mrs. Celia Thaxter, gave him a large vase or jar, exquisitely decorated by herself with paintings of seaweed and mosses so as to fairly rival nature; and from others he received pencils, silk handkerchiefs, choice books, etc., in profusion. The female waiters presented him with a finely ornamented cake, on the top of which was "Mr. Oscar," the name by which he is universally known among them. We know of no one who is more popular among all with whom he is brought in contact, or who is better deserving of the good will of others, than our old friend Oscar.

There were one hundred and fifty guests at the Appledore house on Tuesday; and rooms were at that time engaged for two hundred more, to arrive on Wednesday and Thursday.

POLICE COURT.

THURSDAY, July 1st; *Batchelder, J.*

Thomas Monk, for drunkenness, was assessed $9.90, fine and costs; county farm in default of payment.

Thomas Ryan, for brawl and tumult, was fined $2, costs $8.04; goes to keep Monk company.

Gilman B. Eaton, of Seabrook, was complained of for an aggravated assault on Nelson P. Dow of that town. The evidence was to the effect that the assault complained of took place last Saturday night, when Eaton, then just drunk enough to be ugly and aggressive, went to Dow's place and demanded to be let in to get cider or some other liquid, of which he already had a great plenty aboard; Dow refused to admit him, and he then commenced to kick in the door, and had partially burst the fastenings when Dow opened it, and was immediately attacked by Eaton, who after a brief rough-and-tumble fight got him down and commenced to eat him, biting his neck and cheek so as to leave very palpable marks. Eaton was held in $100 for trial at the supreme court, and in default of sureties will probably occupy rooms at the Hotel de Kent this season.

INDEPENDENCE DAY.

At the cricket ground near Frenchman's lane, at the Creek, a game will be played between the Portsmouth club and the Boston club of Boston, Mass., commencing at ten o'clock in the forenoon. The Rye cornet band has been engaged to play during the day, entrance to the grounds will be free, seats will be provided for ladies, and police will be present to secure good order. Commencing at five o'clock P. M. will be a series of races, as follows: A five-mile go-as-you-please race, for a gold medal; a three mile square-heel-and-toe walk, for a pair of vases; a one-mile three-legged-race, for a handsome prize; a blind-wheelbarrow race of five hundred feet, and a greased-pig race. At eight o'clock there will be a dance on the greensward, which will close the festivities at the Creek.

The Catholics of the city will have a picnic excursion to Pinkham's grove at Dover point; Parsons' quadrille band will furnish music, and all the amusement usual on such occasions will be provided for.

The 4th of July Reunion Committee will hold their annual meeting in the common council room at eleven o'clock in the forenoon.

The firemen's procession will move at two o'clock P. M., and pass through the principal streets; the trial of engines will take place at three o'clock, and the foot-race under the auspices of the firemen's committee will take place at the close of the various engine contests. The Rochester band will furnish music for the afternoon.

In the evening the Rochester band will give an open-air concert on Market square, from eight o'clock to ten.

At a meeting of engine companies No. 3 and No. 4, Tuesday evening, it was unanimously voted to extend an invitation to the navy yard steamer Dupont to participate in the celebration; also that a cordial invitation be extended to the several military organizations to act as an escort to the fire department.

THE FIREMEN'S RULES.

Rules governing the trial of Engines and Hose Companies of the Portsmouth Fire Dep't., July 4th, 1879.

For Trial of Engines—Each engine will draft its own water, and play through 300 feet of leading hose, and such pipe and nozzle as they may select. The boiler of each engine shall be tested by a practical machinist and screwed down at 100 lbs. steam pressure. Five minutes will be allowed each engine after being set at the reservoir and getting the word; its best stream within that time shall be measured by the judges. Two minutes will be allowed each company to replace each length of bursted hose. Should the nozzle of the pipe of either company project over the 300 feet distant mark from the engine the amount of such projecting distance shall be deducted from the best stream of that engine to which the company is attached. The director of each engine shall act as judge for the company of which he is director. The director so appointed shall choose three persons (to be selected outside of the members of the Fire Dep't) who in addition to the directors of each engine company entered shall constitute the Board of Judges. The judges shall appoint a referee, to whom all appeals shall be made, and whose decision on all appeals shall be final.

For Running with Hose Carriage and Laying 300 feet of Leading Hose:

Each company shall carry 1000 feet of leading hose on each carriage, and run with a number of men not exceeding 21, nor less than 15. Each company start at the crossing at the junction of Congress and Middle streets, the tongue men of each company to stand upon the eastern curb of the walk, run down Congress street to the Parade, round its engine, run back up Congress street, laying 300 feet of leading hose, disconnect the hose at 300 feet from engine, connect the pipe to the hose, and the hose to the engine.

Each steamer shall be placed in turn at the reservoir at Market square, with a full head of steam on, horses and pole detached from the engine, gates closed, cap upon the outlets, suction hose strapped to its stanchions, or sockets.

Each company after arriving at the point of starting will at the sound of two whistles from its engine make ready to start. This will be followed by one whistle two minutes after, which shall be the signal to start. Time shall be taken from the sound of the signal to start to the reaching of the water through the nozzle.

Same judges will act in both races.

PORTSMOUTH, July 1st, 1879.

We do hereby agree to be governed by the foregoing rules.

Moses H. Goodrich S. F. E. Co., No. 4:
JOHN S. BANKS, Foreman,
WM. E. PINDER, Clerk.
Kearsarge S. F. E. Co., No. 3:
JOHN E. HARMON, Foreman.
J. H. HURD, Clerk.

Judges for the competitive trials of engines have been selected as follows: Willard Sears, J. Frank Shannon, Plumer D. Norton, L. Nelson Goodrich, William A. Hodgdon. The judges are requested to meet at the city clerk's room on Thursday evening at eight o'clock, for the purpose of choosing a referee, and transacting other business.

RYE LETTER.

RYE, June 29th.

Company is arriving at the beach about the same as the general average of years at the first of the season; the Farragut house has about forty guests, the Sea View quite a number, and the boarding houses have some company.

On Wednesday evening last the Christian society held a strawberry festival at the town hall, which was well attended, over 200 tickets being sold. The strawberries and ice-cream were delicious, and served up in fine style by the young ladies of the society; and a very pleasant time was had by all present.

On Thursday last Rockingham Lodge of Good Templars, of Portsmouth, had a picnic at Wallis' sands, on the occasion of the organization's third anniversary; the members of the order and their friends had a fine time.

On Saturday afternoon we had the hardest showers of the season here; the lightning was very vivid, and the rain fell in torrents, which will do a great deal of good to the crops. Another heavy shower visited us on Sunday afternoon.

On Sunday a baptising took place at Foss' beach, when and where Rev. Ira S. Jones administered the rite to six persons, one male and five females. The ceremony was witnessed by a very large assemblage.

Elder Enoch Morrill of Deerfield preached in the Advent chapel on Sunday.

G. Harrison Jenness, Esq., has just had completed in front of his popular boarding house a fine lawn that will compare favorably with any at the beach. The many friends of Mr. Jenness, who is assistant engrossing clerk of the national House of Representatives at Washington, will regret to learn that he has been quite ill from the malaria which prevails there; but they will be glad to know that he is now recovering.

Mr. D. Woodbury Dalton has added to his fine livery stable at the beach, an office which is fixed up in good style, and will be very convenient for his patrons to sit in while waiting.

Mr. Richard Jenness, a farmer on the South road, has shown us a Spanish dollar 114 years old, a very rare coin.

It will not be very gratifying to our tax-payers to know that the State board of equalization have "doomed" our town and raised the valuation $60,000, which will bring our taxes very high next year.

Mr. Albion Jenness, a native of Rye but for the past eight years a resident of California, has arrived at home on a visit; he has lived in San Francisco for the last five years.

A young man at Little River is reported to be suffering from mental derangement, induced by a religious excitement some time ago; it is a sad blow to his parents and friends, for he was a young man of much promise, and very highly esteemed. It is sad to see the increase of insanity which can be attributed to religious excitement; and the prevailing fanatical religion which is preached in so glowing colors at the present time by so-called evangelists, which dethrones the reason of many deluded hearers and leaves the victims helpless in insane asylums, deserves the censure of all good and Christian people. The results of such fanatical ideas are certainly deplorable. SCRIBE.

SWEETSER'S.

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

The Forgetfulness of People.

The Oxford Professor who, to avoid the wind when taking snuff, turned around, but forgot to turn back, and walked six miles into the country, was no more forgetful than those who still use the huge, drastic, cathartic pills, forgetting that Dr. Pierce's Pleasant Purgative Pellets, which are sugar-coated, and little larger than mustard seeds, are a positive and reliable cathartic, readily correcting all irregularities of the stomach, liver, and bowels. Sold by druggists.

—We have known men who were foolishly fond of Copenhagen during their bachelor days; but now that they are married, they would scorn to touch a clothes line, either to put it out or take it in.

—The steamship Great Eastern is to be used for the direct transportation of cattle between London and Texas. It is calculated that the vessel will take at one voyage 2200 head of cattle and 36,000 sheep.

—Every time the average citizen attends a circus, he remarks in a disgusted manner, "When you see one circus you see all." And to prove the truth of the statement he attends each succeeding arenic exhibition with scrupulous regularity.

—Mr. and Mrs. Bowlan parted in San Francisco, and the wife began a suit for divorce. The disunited pair met in a cemetery by appointment, one day, to attend to the removal of the remains of their only child. Mutual grief for their dead little one appears to have softened their animosity toward each other, for they agreed on the spot to become reconciled, Mrs. Bowlan promising to drop the lawsuit and live with her husband again. But her heart hardened as soon as she was out of the graveyard, and when, on the following morning, Bowlan visited her to complete the reconciliation, she told him that she had changed her mind. He thereupon murdered her.

STATED MEETINGS.

CHARLES W. GARDNER'S
GAZETTE
Established 1756.
The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.
It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.
— THE —
NEW HAMPSHIRE GAZETTE
Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.
— OF —
TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

GOLDEN MEDICAL DISCOVERY
By its great and thorough Blood-purifying properties, Dr. Pierce's Golden Medical Discovery cures all Humors, from the worst Scrofula to a common Blotch, Pimple, or Eruption. Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin, in short, all diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
Especially has it manifested its potency in curing Tetter, Rose Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, White Swellings, Goitre or Thick Neck, and Enlarged Glands.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from Torpid Liver, or "Biliousness." In many cases of "Liver Complaint" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect and radical cures.
In the cure of Bronchitis, Severe Coughs, and the early stages of Consumption, it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and purifies the blood. Sold by druggists.
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
THE "LITTLE GIANT" CATHARTIC.
No use of taking the large, repulsive, nauseous pills, composed of cheap, crude, and bulky ingredients. These Pellets are scarcely larger than mustard seeds. Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad Taste in the Mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, take Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of these Purgative Pellets over so great a variety of diseases, it may be said that their action upon the animal economy is universal, not a gland or tissue escaping their sanative influence. Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with pills put up in cheap wooden or pasteboard boxes. For all diseases where a Laxative, Alterative, or Purgative is indicated, these little Pellets will give the most perfect satisfaction. Sold by druggists.
R. V. PIERCE, M. D., Propr., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

CATARRH
SYMPTOMS.—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of the nasal passages, ringing in ears, deafness, hawking and coughing to clear the throat, ulceration, scabs from nose, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.
DR. SAGE'S CATARRH REMEDY
produces radical cures of the worst cases of Catarrh, no matter of how long standing. The liquid remedy may be snuffed, or better applied by the use of Dr. PIERCE'S Douche. This is the only form of instrument yet invented with which fluid medicine can be carried HIGH UP and PERFECTLY APPLIED to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. Its use is pleasant and easily understood, from directions accompanying each instrument. Dr. SAGE'S Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. Catarrh Remedy and Douche sold by druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors, Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,000,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

Patent Air Closet!

Superior to either Water or Earth Closets for General Use, and for the Sick Room, are indispensable.

They can be set up in any Room, Hallway or Closet, or at the Bedside of the Sick, and are warranted to be Perfectly Odorless.

Being thoroughly ventilated from the front, and connecting with the chimney, the disagreeable odors and poisonous gases are carried off into the chimney, instead of escaping into the room.

— FOR SALE BY —

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

Chronicle Correspondence.

WASHINGTON, D. C., June 30th.

The weather, and the exigencies of politics in the various States, if nothing else, will force an adjournment at a very early day. And, indeed, there is little to keep this session together for, or to make another extra session necessary. Every class of public officers except deputy marshals, and all necessary public expenditures for the coming year, have been provided for. Very few senators or representatives wish to enter upon the transaction of general business this summer. It is likely, therefore, that to-day to-morrow will witness the adjournment and that the President will not reconvene Congress.

Those who wish to exhibit their products at the exhibitions to be held at Sidney and Melbourne, Australia, in 1879 and 1880, respectively, should communicate early with Dr. C. C. Cox, this city, secretary of the commission. He will leave here about July 20th, and New York a few days later. The secretary says the exhibitors of machinery from this country will be very numerous. Prior affairs of the kind have been of so much value in making known to the world the extent and superiority of our manufactures, and have led so speedily to their adoption abroad, that it will be strange if we are not well represented at all future exhibitions.

Prof. Gamgee loses the contract to use his refrigerating ship in disinfecting vessels coming from parts where the yellow fever prevails. Others claim that his process infringed on their patents. It seems of slight importance what individual may be benefitted, compared with the urgent need of some protection.

In this city business will be practically suspended from Thursday until Monday. There will be no formal celebration of the 4th, but, in addition to this suspension of business, there will be a general observance of the day by the people.

I am able to state on the best authority, and in contradiction of current newspaper rumor, that Senator Bayard considers the voluntary support offered him by senators of his own party amply sufficient, and that he will not press the acceptance of his resignation as chairman of the Senate finance committee at this session. At the opening of the December session he will insist upon an expression of opinion from the democratic senators, if the silver question should then have the same prominence now given it by some of them. KNOX.

Quick Wit Wins.

Years ago, into a wholesale grocery in Boston walked a tall, muscular looking man, evidently a fresh comer from some backwoods town in Maine or New Hampshire. Accosting the first person he met, who happened to be the merchant himself, he asked:—

"You don't want to hire a man in your store, do you?"

"Well," said the merchant, "I don't know; what can you do?"

"Do?" said the man, "I rather guess I can turn my hand to almost anything; what do you want done?"

"Well, if I was to hire a man, it would be one that could lift well, a strong, wiry fellow; one, for instance, that could shoulder a sack of coffee like that yonder, and carry it across the store and never lay it down."

"There, now cap'tin," said the countryman, "that's just me. I can lift anything I hitch to; you can't suit me better. What will you give a man that can suit you?"

"I'll tell you," said the merchant; "if you will shoulder that sack of coffee and carry it across the store twice and never lay it down, I will hire you a year at $100 a month."

"Done," said the stranger, and by this time every clerk in the store had gathered around waiting to join in the laugh against the man, who walking up to the sack, threw it across his shoulder with perfect ease, as it was not extremely heavy, and walking with it twice across the store, went quietly to a large hook which was fastened to the wall, and hanging it up, turned to the merchant and said:

"There, now, it may hang there till doom's day, I shall never lay it down. What shall I go about, mister. Just give me plenty to do and $100 per month, and it's all right."

The clerks broke into a laugh, and the merchant, discomfitted yet satisfied, kept his agreement, and to-day the green countryman is the senior partner in the firm.

The Forgetfulness of People.

The Oxford Professor who, to avoid the wind when taking snuff, turned around, but forgot to turn back, and walked six miles into the country, was no more forgetful than those who still use the large, drastic, cathartic pills, forgetting that Dr. Pierce's Pleasant Purgative Pellets, which are sugar-coated, and little larger than mustard seeds, are a positive and reliable cathartic, readily correcting all irregularities of the stomach, liver, and bowels. Sold by druggists.

Portsmouth Chronicle

THURSDAY, JULY 3, 1879.

Congress.

On the last day of the session the bill removing the duty on quinine was passed and approved by the President. The House was very generous with the people's money, and voted thirty days' extra pay to its employees, and the Senate concurred, after an animated debate. A number of persons employed on his own responsibility by the democratic sergeant-at-arms of the House, and in reality fulfilling the functions of democratic figlemen, for mysterious and doubtful purposes, were voted various gratuities, in violation of law. Democratic jobs of this kind began to come up so thick and fast that the democratic leaders, fearful of the effect, forced an hour and a half's recess to protect the treasury from these onslaughts, and at last, the hour of five o'clock arriving, the memorable and miserable extra session came to a close.

One of the last official acts of the secretary of the Senate before the closing hours of Congress, on the 1st inst., was to remove the few remaining republicans in his office, and appoint democrats in their places. This was done so that the latter might be on the pay-rolls during the summer vacation, and draw full pay without doing any work. The old employees have been displaced by inexperienced persons.

The State Legislature.

In the Senate on the 1st inst. Senator Ordway offered a resolution to the effect that any Senator may be permitted to examine witnesses in railroad hearings by the railroad committee,—this from the fact that such permission had not been allowed them on previous occasions. This was debated all day, and at five o'clock a substitute by Senator Blodgett, making it apply to hearings before all committees of the Senate, was adopted, sixteen to five. The debate was decidedly sharp and personal at times, particularly between Senators Ordway and Moore.

In the House resolutions were reported by committees that it is inexpedient to legislate on the bill to enforce weekly payments by corporations, and upon the ten-hour law. Bills in amendment of the laws in relation to the sale of lightning rods, and of the laws relative to the support of county paupers, were passed, as were also bills providing for an appropriation to repair the State prison library and to provide for the preservation of old State records.

The House select committee on railroad tariffs gave a public hearing in Representative hall on the night of the 1st inst., to Manchester business men, who claimed to have a grievance against the Concord railroad, in that the Amoskeag manufacturing company, the Manchester mills, Locomotive works and other big corporations paid for coal freight from Portsmouth $1.20 per ton, while the business men are obliged to pay $1.50 per ton. Superintendent Chamberlin of the road was present, also Col. George and Superintendent Todd of the Northern railroad. The hearing was adjourned one week.

Naval Affairs.

The U. S. S. Wachusett arrived at Vicksburg June 27th, in four days and eight hours from New Orleans.

The U. S. S. Vandalia arrived at Huntington, L. I., June 30th, to remain there ten days.

Cadet Engineers John U. Crygier and Thomas F. Carter are ordered to join the Marion at this port.

Midshipman James H. Sears is ordered to the Kearsarge at New York.

A Lawless Nation.

The second section of the bill appropriating money for the judicial expenses of the United States is as follows:

That the sums appropriated in this act for the persons and public service embraced in its provisions are in full for such persons and public service for the fiscal year ending June 30, 1880, and no department or officer of the government shall, during the said fiscal year, make any contract or incur any liability for the further payment of money under any of the provisions of Title XXVI, mentioned in section one of this act, until an appropriation sufficient to meet such contract, or pay such liability shall have first been made by law.

As no appropriation has been made for the payment of marshals' fees for the current fiscal year, the above section forbids the payment of such fees and also forbids the involving of the government for any liability on account of marshals' fees for the current fiscal year. If the marshals were to perform any duty for which a fee or compensation is provided by law, then the government would be involved in the liability to pay such fee or compensation. Hence it seems the marshals are prohibited by the statute from performing any duty for which the United States would be liable to pay a fee. Unless the courts disregard the law on the ground of public necessity, criminals of all sorts, smugglers, illicit distillers, persons who commit crimes under the American flag on the high seas, etc., will have perfect freedom from arrest and prosecution; the property in the custody of marshals must be abandoned, and no remedy can be enforced for the collection of debts due the United States.

News and Notes.

Charles Herman and Thomas Welsh were arrested at Atlantic city, N. J., on the 1st inst., charged with the murder of William Marlin, the real estate broker mysteriously beaten to death in his office in Philadelphia some time ago. The charge was made by a woman claiming to be Herman's wife.

A man named Towne walked into a drug store at Madison, Ga., on the 30th ult., and left a note on the counter, which read: "I will be fleeing from this town in a few moments, a murderer." He then went to the room of his paramour and killed her, and left town unmolested.

On the 1st inst., while Spencer Wolf and Robert Kilpatrick, two young white men, were sitting under an arbor at a negro camp-meeting five miles in the country from Madisonville, Texas, an assassin concealed in the bushes fired upon them with a Winchester rifle, killing Wolf. A negro woman and man were also struck and dangerously wounded.

A school of blackfish were discovered in the harbor at Barnstable, Mass., on the 1st inst. A party of men took boats, and after chasing the school about two hours succeeded in driving them ashore on the beach back of the salt works. There were about a dozen in the school, and eight of them were secured. The largest one measured twenty feet in length. There was intense excitement and a large crowd of people were on the beach. This is the first school that has been caught there for two years.

Eldridge Ryan, aged nine years, was shot by his brother, who is fifteen years old, at East Newark, N. J., while playing with a pistol. Eldridge was killed instantly.

Mrs. Frances L. Stone, of Lynn, Mass., has been arrested and held in $2000 bail on a charge of being an abortionist.

R. K. Wells, formerly a prominent merchant of Bridgeport, Conn., lost all his property, and recently opened a liquor saloon, whereupon the North Congregational church, of which he was a member, voted to expel him.

A thirteen-years-old daughter of Erastus Owen of Granby, Mass., was killed by lightning on the 28 ult., while walking in the road near the house, and in the sight of her parents. It is not raining at the time, though a shower was approaching.

The Union mill property at Fall River, Mass., the sale of which was adjourned four weeks ago until the 1st inst., at a bid of $404,000, was sold on the latter date to William D. Forbes of Boston for $500,000. It is understood that Mr. Forbes purchased the property in the interests of the creditors.

The "Golden Gate" is the name of a boat eighteen feet long in which two venturesome and idiotic mariners will leave South Boston for Melbourne, Australia, on the eighth inst. The craft is five feet four inches wide and two and a half feet deep, and is the smallest that has ever attempted an ocean voyage.

The constitutional convention of Louisiana on the 1st inst. adopted, by a vote of ninety-one to thirty-one, a report recognizing the principal of the State debt constituted under the funding act, but reducing the rate of interest to three per cent for fifteen years, and to four per cent thereafter.

On the night of the 29th ult. a mob of illicit distillers went to the home of two brothers named Poole, who had informed against moonshiners to revenue officers in Pickens county, Ga., shot one dead and fatally wounded the other.

A British army—of redskins—has invaded Montana from across the boundary line, and is killing the buffaloes and fighting the friendly American tribes of Indians at the Gros Ventres agency. Gen. Miles has been instructed by the war department to drive the British Indians back—if he can.

As a locomotive was rapidly passing through Passaic, N. J., the other day, the engineer saw a seven-year-old girl suddenly rush upon the track directly in front of him. The engine was reversed and the brakes applied, but the train could not be stopped at once, and the girl's death seemed imminent; but just as escape seemed impossible, she lifted a baby from between the ties, where it had before been invisible to the men on the locomotive, threw it upon the soft ground outside the track, and bounded after it, the heavy machine grazing her dress as she leaped away. The young heroine refused to give her name or residence.

Lillie Crane, the female member of the last class at the University of Vermont in Burlington, led all her classmates in scholarship.

A cyclone at Bismarck, Dakota, on the 30th ult., wrecked the steamer Montana, the largest boat on the Missouri river, and badly damaged the steamer Dakota; the Montana was literary blown to pieces at her moorings, the damages amounting to over $30,000. Many buildings were injured, the city water-works thrown down, two lives lost and several people badly injured. Total loss over $50,000.

A newly-married Iowa man recently received a package containing a note and a cigar. The note explained that the cigar was wonderfully fine. The unusual character of the gift, coupled with the fact that the young husband did not recognize the name of the donor, aroused his suspicions, and he showed his present to his wife. She recognized the writing as that of a former suitor. She proceeded to investigate the cigar, and found several grains of strychnine concealed in the end that is usually bitten off before smoking.

We have made arrangements by which we are in future to receive the "weather probabilities" from Washington every morning at one o'clock, and their publication will no doubt be of interest to pleasure parties, fishermen, and citizens generally.

New Hampshire Items.

Edwin A. Perley has struck a "Big Bonanza" on his farm near Lebanon. Specimens have been submited to Dana Hayes, State assayer of Massachusetts, and pronounced to certain gold and silver in paying quantities. Preparations for working the mines will begin immediately.

The theory of the murder of B. F. Elliott by one Harding in Bartlett is entirely exploded, Elliott having been identified at Emery's, who lives on the Glen road, on Monday night, May 11th, of the same day he disappeared, leaving it only a question of time when and where the missing sewing machine man may turn up.

At a meeting of the governor and council on the 1st inst., the following were appointed bank commissioners; John G. Kimball of Nashua, Leander W. Coggswell of Henniker, Amos J. Blake of Fitzwilliam. Ferdinand Eaton, a convict in the State prison, was pardoned. Isaac W. Hammond was reappointed deputy secretary of State.

—That was a hard fellow who went to be examined for teaching a school, and when asked how he would govern his school, replied: "I should use moral suasion first, and if that wouldn't do I would try capital punishment."

Established Jan. 1, 1838.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

The wear and tear of business life makes such tremendous drafts upon body and mind that without recourse to some sustaining agent they must give way under the pressure. To those who are breaking down, or wasting away from general debility or affections of the liver, stomach and the Kidneys, a systematic course of the Bitters will so reinforce the vital functions as to baffle all the assaults of disease and restore the system to its wonted health.

For sale by all Druggists and respectable dealers generally.

Hotel New Hampshire

Nos. 1854 and 1856 Washington Street,

OPPOSITE EVERETT HOUSE, BOSTON, MASS.

HAVING leased and furnished the above hotel in first class style, I am prepared to receive guests. Rooms (with or without board) single or en suite, to let, with all the modern improvements, such as steam heat, electric bells, bath rooms, water closets, gas, etc. Transient rates $2 per day. Special rates for parties stopping several days.

Horse Cars and Coaches run by the house at all hours of the day and evening, from all depots.

JOSEPH C. PERKINS, Proprietor.

Formerly of the Franklin and National Houses, Portsmouth, N. H.

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1873, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

AROUND HOME.

There will be a meeting for prayer and praise at the Pearl street vestry on Friday morning, July 4th, at sunrise. All are invited.

At Dover, on the 1st inst., a son of George W. Pinkham fell from a two-story shed, and broke his thigh, factured his skull and sustained other severe injuries.

New Hampshire sixes of 1894 sold at auction in Boston on the 2d inst., at 116; Portsmouth, Gt. Falls & Conway railroad at $8 per share, and Eastern railroad stock at $16.

The Leavitt estate was sold at auction on the 2d inst., by Morse & Ilsley, under authority from Mr. Alfred Stavers, executor, and agent for the heirs, to Mr. Wm. A. Pierce, for $4050.

The New Hampshire Press Association excursion will take place July 17th to the 21st, inclusive, at Portsmouth, Newcastle, Rye Beach, Dover point, Kittery, the navy yard, the Isles of Shoals, etc.

A New York despatch of July 2d says: "Manager Frost, of the Newmarket, N. H., mills, while bathing at Coney island yesterday was taken with apoplexy and died in the surf. The body is now at the Brooklyn morgue."

The classes of '78 of the Portsmouth and Dover high schools had a reunion at Dover point on the 1st inst. The young people had an excellent dinner at the well kept hotel at the point, a dance, and a most agreeable social time generally.

The deputy sheriffs made quite a haul of spirits at Biddeford on the 1st inst., capturing thirty-five gallons at the Eastern railroad depot; an hour later they seized fifteen gallons more at the Eastern depot in Saco. The liquor was in kegs concealed in flour barrels.

A party of young people from this city went to the Shoals in steamer Appledore on Wednesday evening of this week, to have a good time generally and a dance, taking a quadrille band along with them to furnish music. This was the first Shoals party from this city this season, we believe.

The steamer James Sampson will make three trips down the river on the 4th, leaving Kittery landing at 9:30 A. M. and Portsmouth at 9:45, returning at 11 o'clock; leave Kittery at 2:00 P. M., and Portsmouth at 2:15, returning at 3:20; leave Kittery at 7:15 and Portsmouth at 7:30, returning at nine o'clock. Fare twenty-five cents for the round trip.

Charles Gilbert, a young fellow about twenty years of age, was brought before Hon. Albert R. Hatch as United States commissioner on the 2d inst., on a charge of robbing the United States mail. He pleaded guilty to the charge, and was ordered to furnish securities in the sum of $500 for his appearance at the October term of the circuit court, in default of which he was committed to jail.

Hope Division, No. 56, Sons of Temperance, of Newcastle, elected the following officers on the evening of the 30th ult: Benjamin Curtis, P. W. P.; Albert Hanscom, W. P.; Mrs. Abbie S. White, W. A.; Miss Myra Trefethen, R. S.; John Kinnear, A. R. S.; Miss Ellen White, F. S.; Nathaniel Campbell, Treasurer; John Amazeen, Chaplain; John Q. A. Martin, Con.; Mrs. Louise Yeaton, Ass't Con.; Mrs. Mariam White, I. S.; Henry Campbell, O. S.

The schooner J. P. Ames, of this port, has recently received a general overhauling and repairing on the marine railway at Kittery. The schooner John Stroup has received an overhaul and been fitted with new hawse-pipes, without going on the railway. The repairs to the schooner Elizabeth Mr. Smith, dismasted off Thatcher's island some weeks ago, and otherwise injured, have been completed, and the vessel fitted for sea. The work on all these vessels has been superintended by Mr. Warren Keen.

The last meeting in Elder Waite's tent in this city, for the present at least, was held on Tuesday evening, the 1st inst., the tent being filled to its utmost capacity. The canvass was struck as soon as the meeting was out, and everything was packed up by eleven o'clock. Two of Hon. Frank Jones' brewery teams transported the tent to Dover, free of charge, starting at an early hour Wednesday morning; Mr. Waite remained in this city throughout Wednesday to bid goodbye to his friends, starting for Dover on an evening train.

Mike Stanton, of Dover, was before the police in that city on the 1st inst., for inciting and encouraging two bull-dogs belonging to himself to fight, and was fined $10, costs being taxed at $9.04. The evidence showed Stanton to be a much lower and more savage brute than the dogs, and that the maximum punishment under the law, a year in jail and a fine of $250, would not have been an excessive punishment for his crime.

The greenback convention of York county, Me., was held at Alfred on the 1st inst., with one hundred and fifty-eight delegates present. Edward C. Moody of York was chosen chairman, and a ticket nominated as follows: For senators, John Q. Dennett of Biddeford, Ira T. Libby of Limerick, D. A. Hill of Kittery; for treasurer, C. O. Nute, Parsonsfield; for county commissioner, Brackett Hall of North Berwick; for clerk of courts, J. F. Dearborn of Parsonsfield. The county committee was reduced to nine members. William Emery, the chairman of the committee on resolutions, reported resolutions endorsing the State platform and the State and county nominations, which were adopted. Alexander Troup of Connecticut and J. F. Randall addressed the convention.

INDEPENDENCE DAY.

Capt. Young has consented to allow the navy yard steam fire engine Dupont to take part in the competitive trial on the 4th.

Owing to a previous engagement Mr. Plumer D. Norton declined acting as one of the judges on the 4th, and Mr. D. Webster Barnabee was appointed in his place, and accepted the position.

NAVY YARD ITEMS.

Work in the department of steam engineering at the navy yard was suspended on the 30th ult., until further orders.

Through the thoughtful consideration of Paymaster Wright the workmen at the yard will receive their half-month's pay to-day, which will give those who live at a distance a chance to make a visit to their homes.

The powder-boat at the navy yard is being new topped, and other repairs are being made on her.

Part of the shed in front of the office-building at the yard, in which was stored a large amount of steam machinery, has been removed, adding much to the appearance of the yard in that vicinity. A still further improvement would be the removal of the rest of it, which we hope will soon be done.

BOARD OF INSTRUCTION.

Regular meeting Wednesday evening, July 2d; present Mayor Sise, Mrs. Wilson, Mrs. Knight, and Messrs. Vaughan, Gardner, Locke, Hoyt, May, Wendell, Knight and Pender.

Several bills were approved.

Committee on text books reported it inexpedient to make any change at present.

Committee on salaries reported that they were unable to agree upon any plan of reducing salaries, and asked that they be discharged and the matter referred to a special committee; the request was granted, and Messrs. Hoyt, Gardner and Pender were appointed a special committee, to report at a special meeting to be held July 16th.

Voted to proceed to the election of teachers, subject to such salaries as may be voted at a subsequent meeting.

The following were elected as grammar-school teachers: R. H. Perkins, Charles E. Buzzell, Edward C. Stimson, Susan F. Drake, Harriet L. Hill, Sarah A. Whittem and Eliza M. Marshall.

Intermediate grade: Wm. G. Kidder, Josie F. Prescott, Mary E. Prescott, Lucy H. Rand, Lizzie S. Wood, Emma E. Young, Sophila J. Foye, Nellie C. Moers, and Irene O. Clark.

Primary grade: Florence A. Ham, Jeannette E. Hoyt, Nellie S. Rand, Annie S. Hanscom, Laura E. Giddings, Ida L. Marston, Dollie O. Rowe, Clara Barri, Ida E. Shackley, Nellie G. Ham, Annie E. Smart, Emma F. Johnson, and Charlotte A. Walker.

Suburban schools: Thomas K. Shannon, Mary F. Garrett, and Matilda F. Rockwell.

Adjourned for two weeks.

PORTSMOUTH & DOVER RAILROAD MATTERS.

Mayor Sise received a despatch from Boston, on the afternoon of the 2d inst., informing him that the Eastern railroad had up to that time failed to pay the rental due on the 1st inst., on the Portsmouth & Dover railroad.

The committee appointed to represent the interests of the Portsmouth & Dover railroad in the matter advanced by the Eastern road, will have a meeting of conference in Boston with officials of the latter road on the 8th inst., a meeting appointed for the 3d having been postponed at the request of the Eastern railroad management.

REV. WILLIAM SHURTLEFF.

There is on exhibition at the bookstore of Mr. Myers a fine portrait of this clergyman, who was installed in the pastoral office of the South Parish, Feb. 21st, 1732—33. Mr. Shurtleff was at this time about forty-three years old, and had been for some time minister of the church in Newcastle, where many principal families of this settlement then resided. The relations between the North and South Parishes, which had been disturbed after the North Church separated from the old South Parish, were entirely restored, and the two parishes in which then centered the whole religious interests of the town were in a very prosperous condition. The South Parish had just completed their new church edifice where the South Ward room now stands, and which was removed only a few years since.

In the year before Mr. Shurtleff was settled, some gentlemen attached to the Church of England had erected a church which was called Green's Chapel; and three years after Mr. Shurtleff's ministry began, Rev. Arthur Brown, of Drogheda, Ireland, became the rector. By persons ignorant of the history of ecclesiastical matters in this settlement, it has been supposed that this was a continuation or revival, or re-establishment of the element of Episcopacy which was once found in the South Parish, but it had no connection with it whatever; all that had disappeared, and left its only trace in the name of "Wardens" still retained for the officers in that parish. It was during the ministry of Mr. Shurtleff that the expedition to Louisburg under Pepperell took place.

Some of the stories which are told of the contemporary ministers and friends of Mr. Shurtleff give us the only glimpses of clerical life among our scanty records. Rev. Joseph Adams of Newington, who lived to perhaps the greatest age of any pastor ever settled in New Hampshire, was a man of fair talents but of great self-complacency. In praying for a person dangerously sick, who had desired the prayers of the congregation, the burden of the petition was that the man might be prepared to die, "for," he added, "we, O Lord, who are skillful, know there is no possibility of his recovery." At a meeting of the association of ministers at Portsmouth, Mr. Adams made the prayer, in which he took occasion to introduce the horses mentioned in the book of Revelation, but becoming embarrassed while speaking of the white horse, he abrubtly closed the exercise, whereupon one of his brethren observed to him that at his time of life he should be particularly cautious in mounting strange horses, if he would avoid a fall.

The most remarkable incident during the pastorate of Mr. Shurtleff was the revival in this town begun by Whitefield, who preached in the Old South Church on the 25th of December, 1745.

Mr. Shurtleff married the sister of Hon. Theodore Atkinson, whose only mission seems to have been to develope her husband's patience and meekness, characteristics which are marked in the fine features of the portrait.

After a very successful ministry of nearly fifteen years, Mr. Shurtleff died on the 9th of May, 1747, and was buried beneath the pulpit of the Old South Church. At the demolition of that building his remains were removed to the south cemetery, and a simple tablet erected by the parish. Fine sermons of his remain, which show him to have been a man of no common gifts, and he was eminent in his day for piety and pastoral fidelity. He was the fifth in the line of the ministers of that parish whose ten pastorates have reached through a period of more than two hundred and forty years.

This portrait, which is the fifth of its ministers the parish has already obtained, was painted by Mrs. Bradbury, a granddaughter of the venerable Mrs. William Haven, recently deceased, and is worthy of examination not only for its subject, of so much historical interest in this city, but equally for its artistic merits.

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

A Ship Railroad Instead of a Canal.

Shortly after the close of the war, when New York State thought of enlarging the Erie canal to the size of the Welland, it was proposed instead to build a ship railroad, large enough to take any but the largest ocean steamers, from some point on the Hudson river to lake Erie. The plans and drawings then made showed the scheme to be feasible, and its cost was not in excess of the cost of constructing a ship canal large enough to take vessels of the same size. James B. Eads comes forward now with the proposition to built a ship railroad instead of a ship canal across the isthmus of Panama. It is a perfectly feasible thing to lift a loaded ship out of water and set it on a truck, and such a truck provided with 200 wheels could be drawn at a speed of eight miles an hour, according to Mr. Eads' calculation, or at a less cost and greater speed than a canal could be built and the ship towed through that. Admiral Ammen, who represented this country at the inter-ocean ship congress, in Paris, is preparing his report on the congress, in which he will endeavor to show that the real interests of the project were smothered by the devices of the speculators.

—There are no two people who look upon each other with more distinguished contempt than the miser and spendthrift, and i guess they are both right about it.—*Josh Billings.*

—Grandma went on board a modern steamer and walking up to the pier-glass she saw an old lady approaching. "I wonder if you are as tired as I am?" she said compassionately, and the kindly old face looked towards her in silent sympathy.

STATED MEETINGS.

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
The Gazette is published every Thursday and sent to Subscribers at the low price of
$1.50 per year, paid in advance, or
$2 at the end of the year.
It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.
— THE —
NEW HAMPSHIRE GAZETTE
Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.
— OF —
TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

GOLDEN MEDICAL DISCOVERY
By its great and thorough blood-purifying properties, Dr. Pierce's Golden Medical Discovery cures all **Humors**, from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Dyspepsia, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
Especially has it manifested its potency in curing **Tetter, Rose Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, White Swellings, Goitre or Thick Neck, and Enlarged Glands.**
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellow-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite and tongue coated, you are suffering from **Torpid Liver,** or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect and radical cures.
In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** Sold by druggists.
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
THE "LITTLE GIANT" CATHARTIC.
No use of taking the large, repulsive, nauseous pills, composed of cheap, crude, and baby ingredients. These Pellets are **scarcely larger than mustard seeds.** Being **entirely vegetable,** no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Sick Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad Taste in the Mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Heated feeling about Stomach, Rush of Blood to Head,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of these Purgative Pellets over so great a variety of diseases, it may be said that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with pills put up in cheap wooden or pasteboard boxes. For all cases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction. **Sold by druggists.**
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

CATARRH
SYMPTOMS—Frequent headache, discharges falling into throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of the nasal passages, ringing in ears, deafness, hawking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.
DR. SAGE'S CATARRH REMEDY
produces radical cures of the worst cases of Catarrh, no matter of how long standing. The liquid remedy may be snuffed, or better applied by the use of Dr. PIERCE'S Douche. This is the only form of instrument yet invented with which fluid medicine can be carried UP UP UP and PERFECTLY APPLIED to all parts of the affected nasal passages, and the purifiers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which offensive nasal discharges generally proceed. It is not so pleasant and easily understood, from **directions** accompanying each instrument. Dr. SAGE'S Catarrh Remedy cures recent attacks of "**Cold in the Head**" by a few applications. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. Catarrh Remedy and Douche **Sold by druggists.**

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 287,760 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

The Original Brother Jonathan.

Jonathan Trumbull of Connecticut, the colonial governor, noted for common sense and integrity, was the original Brother Jonathan, the popular representative of the people of the United States. He was a native of Lebanon, a graduate of Harvard, a merchant, and for many years a member of the Connecticut Assembly. He was chosen lieutenant-governor, and having espoused the popular cause, and having refused (1768) to take the oath of office enjoined by Parliament, he was elected governor the year following, and re-elected fourteen consecutive years. He did everything in his power to secure the independence of the colonies, and was implicitly trusted and consulted by Washington in emergencies. When the general was sadly in want of ammunition, he called a council of officers, none of whom could offer any practical suggestion. "We must refer the matter to Brother Jonathan," said Washington, alluding to Trumbull, who proposed a way of remedying the difficulty. From that day Trumbull was known as Brother Jonathan, and in due time the name was applied to the whole nation. The governor looked a good deal like the symbolic caricature now familiar to the world. He was tall, gaunt, sharp-featured, and for full dress wore a swallow tail homespun coat, made in his own household, from wool of his own sheep, and colored with maple-bark procured from his own wood-pile. His tight trousers, six inches above his ankles, were of striped linsey-woolsey, spun and made by his own family. He died at seventy-five, univers ally regretted.—*New York Times.*

The Sand Blast.

Among the wonderful and useful inventions of the times is the common sand blast. Suppose you desire to letter a piece of marble for a gravestone; you cover the stone with a sheet of wax no thicker than a wafer, then cut in the wax the name, date, etc., leaving the marble exposed. Now pass it under the blast and the wax will not be injured at all, but the sand will cut the letters deep into the stone.

Or, if you desire raised letters, a flower or other emblem, cut the letters, flowers, etc., in the wax and stick them upon the stone; then pass the stone under the blast, and the sand will cut it away. Remove the wax and you have the raised letters.

Take a piece of French plate glass, say two feet by six, and cover it with fine lace; pass it under the blast, and not a thread of the lace will be injured, but the sand will cut deep into the glass wherever it is not covered by the lace. Now remove the lace and you have every delicate and beautiful figure raised upon the glass. In this way beautiful figures of all kinds are cut in glass, and at a small expense.

The workmen can hold their hands under the blast without harm, even when it is rapidly cutting away the hardest glass, iron or stone, but they must look out for their finger nails, for they will be whittled off right hastily. If they put on steel thimbles to protect the nails it will do little good, for the sand will soon whittle them away, but if they wrap a piece of soft cotton around them they are safe. You will see at once the philosophy of this. The sand whittles away and destroys any hard substance, even glass, but does not affect substances that are soft and yielding, like wax, cotton or fine lace, or even the human hand.

Lively Stock Operations.

The current of recent events has given great impetus to business in Wall street, and many successful turns are reported where immense profits are made in short periods. The most successful way that we have heard of yet for operating in stocks is by the Combination Method of Messrs. Lawrence & Co., Bankers, N. Y. By this system thousands of orders in various sums are pooled into one vast capital and operated under the most experienced and skillful management, thus securing to each shareholder superior advantages and profits, not possible in any other way. Profits are paid at the end of thirty days. A gentleman in Boston made $737.20 on an investment of $100. Many others are doing as well or better. Capital in any amount from $10 to $100,000 can be used with equal proportionate success by this Combination or Co-operative Method. $15 would make $75, or 5 per cent on the stock; $100 would return $900, or 9 per cent. during the month, and so on according to the market. The new circular contains "two unerring rules for success" and full information, so that any one can operate with profit. Stocks and bonds wanted. Deposits received. Government bonds supplied. Apply to Lawrence & Co., Bankers, 59 Exchange Place, N. Y. City.

The Forgetfulness of People.

The Oxford Professor who, to avoid the wind when taking snuff, turned around, but forgot to turn back, and walked six miles into the country, was no more forgetful than those who still use the huge, drastic, cathartic pills, forgetting that Dr. Pierce's Pleasant Purgative Pellets, which are sugar-coated, and little larger than mustard seeds, are a positive and reliable cathartic, readily correcting all irregularities of the stomach, liver, and bowels. Sold by druggists.

—Knowledge and timber should not be much used until they are seasoned.

—The custom of wearing necklace and jewelled collars is a very old one. Some of the beauties of ancient times could not content themselves with one at a time, but wore three or four, one over the other.

Portsmouth Chronicle

FRIDAY, JULY 4, 1879.

News and Notes.

The secret service division of the treasury department on the 2d inst. sent the following warning to the great business centres: "A new counterfeit $5 or $10 note, or perhaps both, will probably appear after business hours July 3d, counterfeiters selecting that time in consequence of the approaching holiday and closing of the banks that day until Monday. The public should scrutinize closely all notes presented during the next four days."

By an explosion in the High Blantyre coal mine, near Glasgow, Scotland, on the 3d inst., fifty men were killed.

Enosburg Falls, Vt., had a small-pox scare some weeks ago, and now the disease has again broken out at the house of John Bean, who was hired by the selectmen to care for previous cases, but did not take any precaution against its spreading. How many have been exposed is questioned, as Bean and his children have been about as usual, and disguising the fact that the younger child was sick with it. Two of his children attended school on the day when the public became aware of the true state of affairs. The authorities have erected a pest house in the pasture of a farmer out of the village, and are doing everything to suppress the disease. The excitement runs high.

The safe of the post-office at Norwalk, Conn., was blown open by burglars on the night of the 1st inst., and $6000 in money and postage stamps stolen.

"Lame Johnny," one of the road agents who robbed the stage near Buffalo Gap, Dakota Territory, a short time ago, was taken from the custody of a sheriff on the night of the 1st inst., by three men, and hanged.

A son of Samuel Eastman of Ashland, Me., sixteen years of age, while edging boards in a sawmill on the 28th ult. fell upon the saw, which cut one of his arms off first at the wrist, then just above the elbow, and again close to the body at the shoulder, besides otherwise cutting and mangling his body. Mr Eastman was finally rescued and taken home, but so great were his injuries that he died in about three hours from the time the accident occurred.

Charles Dow, a carpenter, employed in the Rochester railroad repair shop at Portland, Me., was killed on the 2d inst. while at work on a car near the station, in consequence of a passing train striking it. His age was twenty years.

The Philadelphia *Times* says a sensible word about the folly of making what is a crime in one State, an innocent and honorable thing in another. This is notably the case in regard to the laws governing marriage. For instance, Charles Wade, Chinaman, and his Massachusetts bride, as matters now stand, would be at the mercy of a censorious legislature in California; Edmund Kenney, colored, and Mary Hall, white, are husband and wife in the district of Columbia, and convicts, from that very act, in Virginia; Mr. Parton was lawfully or unlawfully married, according as he lived in New York or Massachusetts. There are hundreds of other cases which give evidence of the annoyances or hardships which spring from this diversity of laws. And not only so, but the absurdity of holding a person innocent in one State and guilty in another for the same act, tends to destroy, in the minds of the masses, all respect for the law, and all distinctions between right and wrong. The fact remains that if a marriage between a black man and a white woman, a Chinaman and a Yankee, or a stepfather and his step-daughter, is wrong, it is just as wrong in one State as in another; and if it is not wrong, why legislate against it?

"Horace Waters, 40 East 14th St., New York, is on his legs again," said a wag to a piano man the other day. "How is that?" asked the piano man. The wag answered, "Why, a few weeks ago Waters used to ride, but now he walks; is he not on his legs again?" The piano man stared at the wag for a moment, and said "I see the point," and left. The wag was right in more senses than one, for Waters is on his legs again with his "Great Offer." Success to him.

Naval Affairs.

The U. S. corvette Constellation arrived at Halifax, N. S., on the 1st inst., from Fortress Monroe.

New Hampshire Items.

The counsel for Buzzell, now pending under sentence of death as accessory to the Hanson murder in Brookfield, are said to have looked over the case of the condemned man and have concluded that it will not be of any use to attempt anything further in his behalf. The day for his execution is Thursday, July 10th. He will be hanged in the State prison at Concord, and the duty of the execution will devolve upon Levi T. Haley of Wolfeboro', the new sheriff of Carroll county.

A number of members of the legislature paid a visit to the State hatching house at Plymouth on the 2d inst., at the invitation of the fish commissioners. They arrived at noon, and after dinner at the Pemigewasset house were driven to the hatching house at Livermore falls. Some time was spent there in examining young fish and the method employed in raising them, and the large trout and salmon in ponds attached to the house. The party was received by the board of fish commissioners, all of whom were present. The returning visitors were served with a collation at the hotel, after which speeches were made by various gentlemen, and they then proceeded to the State normal school building, and the old court house where Daniel Webster made his first plea before a jury.

—Pome-aid—A rhyming dictionary.

—A Bottle with a cork at both ends is known as an "Arkansas traveller."

—You can never convince the average man that a roll of brown paper won't make a cork for a phial.

—The most stylish baby carriages are made of white osiers, with gay striped silk parasols to shade the darling's eyes.

—No matter how great a philosopher a man may be, he can never withstand the temptation to kick an empty tomato can.

—Why is it that a man can't turn up a lamp-wick without laying the side of his head down on the table and making a face?

—Do ladies use hair powder when they bang their hair? and what kind of powder does a man use when he "blasts his eyes?"

—A man arrested for butting his head against a letter-box in New York stated that he was a postal-card, and insisted upon being mailed.

—A mob tied a man to a post at Solon, O., and used him as a target to throw eggs at. Each hit in the face was rewarded with a drink of whisky.

—It is proposed that a match be arranged between Professors Peters and Swift to find 1000 comets in 1000 hours, Orion to furnish the champion belt.

—A wooden doll which William Penn brought over from England as a present to one of his girls, is still cherished by a Washington family. It is known as Letitia Penn, the name of the great Quaker's daughter, and is a faded beauty, twelve inches high, without a joint in its body.

—Cincinnati has a society for the promotion of marriage, and it is claimed that during its existence of eighteen months it has been instrumental in bringing about over two thousand marriages. It is to have a picnic in August, and upon this occasion a hundred marriages are to be celebrated.

—Mr. Gladstone will have all the total abstinence people about his ears on account of his latest deliverance: "I am opposed to coffee palaces, as I believe they are more deteriorating than beer shops. The stimulating properties of tea and coffee are greater and more injurious than those of malt liquors."

—Decorative art has got into the hair, and all manner of things in the alleged Egyptian and other lines are stuck in as ornament.

—A Texas minister who refused to marry a couple without his fee in advance, went on with the ceremony when a seven-shooter was brought in line with his head.

ROYAL

BAKING POWDER

Absolutely pure—made from Grape Cream of Tartar, imported exclusively for this Powder from the Wine district of France. Always uniform and wholesome. Sold only in cans by all grocers. A pound can mailed to any address, postage paid, on receipt of 60 cents. ROYAL BAKING POWDER CO., 171 Duane St., New York. Most cheap powders contain alum; dangerous to health; avoid them, especially when offered loose or in bulk.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

The wear and tear of business life makes such tremendous drafts upon body and mind that without recourse to some sustaining agent they must give way under the pressure. To those who are breaking down, or wasting away from general debility or affections of the liver, stomach and the Kidneys, a systematic course of the Bitters will so reinforce the vital functions as to baffle all the assaults of disease and restore the system to its wonted health.

For sale by all Druggists and respectable dealers generally.

Letters for the night mails [and no others] east or west may be deposited in the box at the Eastern depot, every day except Sundays.

E. G. PEIRCE, JR., P. M.

JULY 4th, 1879.

We propose to celebrate to-day; no CHRONICLE to-morrow.

The bells will be rung for an hour, morning, noon and evening, and a salute fired from the navy yard battery at noon.

A meeting for prayer and praise will be held at sunrise in the vestry of the Pearl street church, to which all are invited.

The post-office hours to-day will be from 8 to 11 A. M., and 6 to 6:30 P. M. Box office open all day.

The City Guards have a skirmish drill at the Plains this forenoon.

The Catholics will picnic at Pinkham's grove, Dover point.

The steamer James Sampson will make three trips down river during the day, leaving Kittery landing at 9:30 A. M. and Portsmouth at 9:45, returning at 11 o'clock; leave Kittery at 2:00 P. M., and Portsmouth at 2:15, returning at 3:20; leave Kittery at 7:15 and Portsmouth at 7:30, returning at nine o'clock. Fare, twenty-five cents for the round trip.

A game of cricket will be commenced at ten o'clock, on the grounds at the Creek; music by the Rye band; admission to grounds free. At five o'clock P. M. a series of races will be commenced—including wheelbarrow and greased pig races—and the festivities will close with a dance on the lawn commencing at eight o'clock.

The players representing the Portsmouth cricket club are Rev. Charles A. Holbrook, Rev. Mr. Forp, Samuel Wallace, Samuel Emery, John Parnham, Luke Quinlan, William Sladen, John Lester, John Haley, D. M. Lenigan and Charles Waterman.

The firemen's procession will move at two o'clock from Market square; the engine trials will commence at three, and at their close one or more foot-races will take place.

The Rochester band will give an open-air concert on Market square from eight o'clock in the evening to ten. Programmes can be procured at Dr. Preston's drug store in Congress block.

Any person having flowers and wishing to show a friendly regard for the firemen, would by handing them in to engine houses No. 3 or No. 4, confer a favor and add to the attraction of the collation to be served to the firemen after the exercises of the day. PER ORDER.

AROUND HOME.

Ninety-two, ninety-three and ninety-four in the shade, were the thermometer readings in different places about the city on Thursday.

A rowing match takes place on the Merrimac river, between Frank Hidden of the Isles of Shoals and Eben Perkins of Newburyport, for $50 a side, over a course of six miles, to-day.

The driver of Jones' brewery team that drew Waite's "gospel tent" from this city to Dover had the seat of his wagon ornamented on each side with blue ribbon, as he drove about the city on Thursday. He evidently has a keen appreciation of the eternal fitness of things.

A new post of watchmen has been established on the navy yard, to be stationed at the main gate, consisting of Messrs. Adolph Nelson, John S. Sides and Herman Chase. Mr. James A. Waterhouse takes the place in the ship watch made vacant by the transfer of Mr. Nelson.

Miss Elizabeth J. Gardner, a native of Exeter, has resided in Paris for the last fifteen years, supporting herself by the sale of copies of paintings, until five or six years ago, when she devoted herself to the cultivation of high art. The rare patience and perseverance with which she has conquered the obstacles that beset her undertaking have at last brought their reward; she has received "honorable mention" for her last picture, "At the fountain," exhibited at the Salon.

There were two fatal accidents to children in Dover this week. On Tuesday evening about six o'clock a little son of George H. Pinkham fell through the railing around a roof on which he was at play, struck on a stone step ten or twelve feet below, and was so badly injured that he died at nine o'clock that night. On Wednesday an adopted son of Samuel Giles, about nine years of age, while playing upon Trickey's wharf fell overboard and was drowned, the body being recovered by the police a half-hour after the boy fell into the water.

Any persons with a spare hour on their hands will find themselves well repaid for their trouble in making a visit to the aquarium at the first Newcastle bridge, where many strange fishes can be seen, free of cost other than the trifling toll over the bridge. A half-hour's rest in one of the comfortable rattan chairs on the shadowed platform will cool one off better than six glasses of iced whiskey, and cause neither weak legs nor an aching head.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

The bond of Wm. E. Hadley as collector and treasurer was accepted.

A communication from W. I. Trafton in relation to telephonic fire alarm, stating the price at which he would furnish it to the city, was referred to the committee on fire department.

Request of Mrs. Hall for relay of sidewalk in front of her house on Court street was referred to the committee on streets with power.

The committee to whom was referred the claim of Samuel P. Treadwell reported, recommending that he be paid a reasonable compensation.

A petition signed by C. C. Jackson and many others, asking that Vaughan street be widened, was referred to the committee on streets to report.

The board voted to visit the streets which Frank Jones asks to have included in the compact part of the city, at three o'clock on Monday afternoon.

Mayor Sise called the board's attention to the Eastern railroad's failure to pay the money due on account of the Portsmouth & Dover railroad, and the mayor was authorized to employ legal counsel in the matter.

BICYCLE TRAVELLING.

On Wednesday morning of this week N. P. Mulloy, his son Charles, and Wm. Shakespeare, left Waltham, Mass., on bicycles, en route for Portland and beyond. They made the first twenty-five miles, to Salem, in two and a half hours. Charles Mulloy is a lad of about eighteen years, and started on his return from Salem after breakfast, as he only made the run of fifty miles for exercise. Messrs. Mulloy and Shakespeare kept on, and were met by Mr. C. A. Hazlett of this city on Middle street at 9:30 o'clock Wednesday evening, they having accomplished the distance of seventy miles without unusual fatigue. They remained in this city over night, and left for Portland early Thursday morning.

Mr. Walter Woodman, of Cambridge, Mass., is to ride his bicycle to this city next week.

POSTMASTERS' SALARIES.

The Globe Printing House of East Hampstead has issued the "Postal Index of New Hampshire," compiled from the official records of the post-office department at Washington, containing an alphabetical list of the four hundred and fifty-four post-offices in the State, the compensation of postmasters, and other details; sent by mail for ten cents. The following figures taken from this little book show the compensation stated to have been received by postmasters in this vicinity, the left-hand column giving the salaries paid for the *year* ending Sept. 30th, 1877, and the right-hand column the salaries for the *quarter* ending Sept. 30th, 1878:

Portsmouth	$2100.00	$600.00
Rye	203.91	36.54
Rye Beach	292.45	238.97
Greenland	243.43	69.23
Greenland Depot	251.76	18.83
North Hampton	249.60	119.76
Hampton	485.36	231.46
South Hampton	103.83	2.37
Hampton Falls	173.38	46.69
Seabrook	118.38	27.71

Exeter	1900.00	475.00

[Communicated.]

PORTSMOUTH & DOVER RAILROAD MATTERS.

Mr. Editor: As a tax-payer of the city—and if I am not one of the heavy tax-payers I pay all that is demanded of me—I venture to express the hope that the city's representatives on the board of direction of the Portsmouth & Dover railroad will "stick." Possibly the road *may* have cost more than it should have done; *certain* it is that the city bonds issued to pay for the railroad stock were sold far too low, for the long time six per cent bonds of our wealthy, conservative old city should have commanded a large premium; but the city is not to blame in the matter, and should not submit to exemplary punishment. If the Eastern railroad will not observe the conditions of the lease, perhaps the Boston & Maine road will be glad to get it on the same terms, and give us a connection with the interior of the State we do not now enjoy. Once in control of the Portsmouth & Dover road, the Boston & Maine would be able to popularize to an extent not now practicable the beautiful lake region, and cut heavily into the Eastern road's Conway traffic; and my impression is that if the latter road finds the two cities—Dover and Portsmouth—insist on the letter of the contract being observed, it will *be* observed rather than allow the control of the Portsmouth & Dover line to pass to the Boston & Maine. CITIZEN.

A WONDERFUL RIG.

Our New York fashions correspondent, Lucy Carter, in her last letter referred to the colors likely to be seen this summer on ladies' costumes, especially seaside and yachting costumes, as something fearful and wonderful to behold. A large schooner-yacht ran into the lower harbor one day this week, and a number of the party, including three young ladies, came up to the city; and it is safe to say that those three young ladies, who were all good-looking and evidently of good social position, attracted as much attention on the street as any female trio that has appeared here for ten years. Colors! Fearful and wonderful indeed were the colors of the fair yachtsmen's gear. Had our education in the matter of ladies' dress not been neglected, we would give a technical description of the dresses referred to, but we do not know a bias from a pekay, nor a polonaise from a fluted gore; we do know what corsets are when we see them labelled in the store windows, but to distinguish a lady's hat and bonnet from each other is utterly beyond our powers. Hence will be seen the impossibility of our writing a proper "fashion" description of the wonderful yachting suits; but we will do the best we can to give the unhappy people who did not see them a general idea of the effect produced by one of them. The wearer, a tall, stately young damsel, had on a dress which we believe was black for a ground-work; it was certainly of some dark shade, and all of one color, though it may have been spotted. About a foot from the bottom of the skirt—that's a correct technical term, anyway—a half-dozen or more broad, brilliantly-colored ribbons were stuck on, one above the other, not being run around in straight lines, but weewawed up and down after the fashion of ladies in such things just now, and making a gorgeous, irregular belt eighteen inches wide; around the waist—we know that term is correct, too—was another series of ribbons, equally bright colored as the others, making a belt about a foot in width; and over one shoulder and under the opposite arm was a third belt, or sash, composed of ribbons enough to be eight or ten inches wide. On the hat or bonnet, whichever it may have been, there was more of the ribbon; and the other two young ladies were similarly arrayed, excepting that not being quite so tall as the one we have particularized they could not furnish quite so much room for parti-colored ribbons. The general effect of the three dresses was as if an extremely radical rainbow had been struck by a whirlwind and blown through a stump fence, and the pieces had hit the young ladies at random and stuck wherever they hit. One single color more added to their rig, and they would have gone off by spontaneous combustion. Verily, Solomon in all his glory was not arrayed like one of these. [We would invite especial attention to the fact that the editor of this paper, though he does not profess to be an expert fashion reporter, is all there when it comes to quoting scripture.].

[Communicated.]

RETURN OF THE PICNIC SEASON.

The warmer weather that has so pleasantly followed the chilly airs of June, has begun to send the lovers of out-of-town rambles to their favorite haunts of summer in the woods, the fields and by the seaside, which in the suburbs of Portsmouth so fully abound. A party of friends, with their kindly invited guests, made their first excursion of the season the present week, to their private grounds with the pretty cottage upon them, on the most picturesque portion of the Newcastle shore. On the way they visited the Hotel Wentworth, and while prepared to see a great change in it for the better in many respects, they did not look for the transformation, both in elegance and comfort, it has recently undergone. A lady who has but lately visited those famed localities, Long Branch, Manhattan Beach, and the other resorts in the same region, over which people grow wild in talking of them, had no hesitation in saying that in all relating to either elegance or comfort, she saw nothing wanting, when compared with them, in the Wentworth under its present improved conditions. A visit to the culinary department, when the rest of the house had been inspected, where every courtesy was shown them by its chief, convinced the party that nothing would be absent there that was required to gratify a good or tempt even the dullest appetite. The neatness and freshness of everything around, would have given the most critical no opportunity for fault-finding, however constitutionally inclined for such an indulgence. The greatest improvement is visible everywhere about the establishment, and every reason exists to anticipate that it will take its position among the most popular places of the kind throughout the Union; as it certainly deserves to do as a reward for the great enterprise of the proprietor. The removal of a portion of the trees in the vicinity has added to the views, so abundant before, from the long promenade of the piazza, that the slowest to appreciate such things cannot fail to admire. Had the Wentworth no other attraction, in its views, both upon land and sea, it is unsurpassed, and rarely equalled, by any other seaside hotel wherever found. As a general remark it may truly be said that no better tonic exists for an invalid than the air of Newcastle always offers; as those who went there years ago, before such an establishment as the popular hotel now in the locality had been dreamed of, as well as others in later time, can testify, when returning to town with renewed strength, and the appetite of a bruin in emerging from his winter quarters in a hollow tree.

The picnic party, after taking possession of the cottage and leaving there the refreshments provided for the time, went their accustomed ways on such occasions; while some amid the balmy air around them rested for chat upon the piazza, or the light labor of ladies in fancy work, others went to see the progress of the workmen in excavating a new well, of the purest spring-water, for the premises, and the extensive one,—a reservoir indeed, the labor of men, cattle and steam is constructing for the hotel, which a large toad, of a very grave aspect, was overlooking, with seemingly critical eye, from his snug retreat in the earth above the stone-work the men were employed upon; the more youthful class rambled off to their favorite resorts along the beach and the recesses of the rocks that line the shore. Keen appetites, which the sea-air had given them, brought all the wanderers back at two o'clock to the abundant repast spread for them at the cottage, to which ample justice was done; one of the number, not in his usual health, declaring that he had not been so hungry before in half a year. A portion of the party, who have been accustomed to meet with them from year to year, and always among the most welcome, were greatly missed; but while their absence was and will be much regretted, they will have the best wishes of those who remain that they may find in the mountain air of their retreat, and in other ways, some compensation for what they leave behind in dear old Portsmouth and its pleasant surroundings; including the hope that one of the number may find abundant game in the woods for his unerring gun, and plenty of the trout he knows so well how to ensnare in their watery retreat.

J. H. B.

—In favor of one fashion it can be said that the sleeveless jackets do not soon wear out at the elbows.

—"How dare you swear before me!" asked a man of his son recently. "How did I know you wanted to cuss first?" said the spoiled urchin.

—A lot of American corsets shipped to Mexico were supposed to be a new kind of saddle, and they were returned as not giving satisfaction.

—Live oxen are sent to Europe in comfortable padded, covered stalls on the upper deck. He who has steers to shed, prepare to shed them now.—*Puck.*

—The camels are coming, hurrah, hurrah! They are raising them in Arizona and it is confidently expected that they will in time replace the belligerent mule.

—General Ewing sent a note to his wife announcing his nomination for governor by the Ohio democratic convention, to which he received this reply: "Your news is stale. I have already had scores of callers to congratulate me. Now come home yourself, and let your wife congratulate you."

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

—A Boston wife slyly attached a pedometer to her husband when, after supper, he started to "go down to the office and balance the books." On his return fifteen miles of walking was recorded. He had been stepping around a billiard table all the evening.

—A Seneca Falls, N. Y., minister is in trouble with his people for conduct unbecoming a clergyman, and one of the formulated charges against him is that he recently hired a livery horse and wagon, was gone two days, swapped horses six different times, and came back to the stable with the same horse he took out and with $100 in his pocket which he had made out of the operation.

—The following curious advertisement appears in the columns of a German medical journal: "Through the death of the late proprietor, a good practice (surgery) in a wealthy part of the country is to be disposed of, either by sale or lease. The present owner, daughter of the deceased, is young and single, and would not object to marriage with the buyer or tenant, if suitable arrangements were made. Address," etc.

—When the waters of Niagara first flushed with delight in the smile of the Princess Louise, she said, "Don't speak; let me drink in the whole scene;" and subsequently remarked, "I never have seen, and never shall see such a grand sight again. What I would have missed had I not seen it." If Princess Louise, when standing in view of the falls, had simply said "Don't speak!" and kept silence herself, the effect would have been better.

—The New York *Star* publishes a "stamp flirtation" key, giving the meaning of the different positions of the stamp on the letter. From this we discover that we have informed a rich uncle who wrote that he had made his will in our favor, that we are displeased, have told our sweetheart that we love another, and assured a man who is always on the borrow that we hope to see him often.—*Boston Post.*

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.
It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news,** containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.
— THE —
NEW HAMPSHIRE GAZETTE
Contains more original matter
ALL KINDS
— OF —
TO ADVERTISERS
THE N. H. GAZETTE
Than any other paper of its size in the State, the editors working more with pens than with their scissors.
Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS,** at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

MARKET STREET.
☞ We advise all to call, examine and try them before purchasing their Christmas Presents.

GOLDEN MEDICAL DISCOVERY
By its great and thorough blood-purifying properties, Dr. Pierce's Golden Medical Discovery cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
Especially has it manifested its potency in curing **Tetter, Rose Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, White Swellings, Goitre or Thick Neck,** and **Enlarged Glands.**
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of "Liver Complaint" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect and radical cures.
In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians announce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** Sold by druggists.
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
THE "LITTLE GIANT" CATHARTIC.
No use of taking the large, repulsive, nauseous pills, composed of gross, crude, and bulky ingredients. These Pellets are **scarcely larger than mustard seeds. Being entirely vegetable,** no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad Taste in the Mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of these Purgative Pellets over so great a variety of diseases, it may be said that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with pills put up in cheap wooden or pasteboard boxes. For all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction. Sold by druggists.
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

CATARRH
SYMPTOMS.—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of the nasal passages, ringing in ears, deafness, hawking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.
DR. SAGE'S CATARRH REMEDY
produces radical cures of the worst cases of Catarrh, no matter of how long standing. The liquid remedy may be snuffed, or better applied by the use of Dr. PIERCE'S Douche. This is the only form of instrument yet invented with which fluid medicine can be carried HIGH UP and PERFECTLY APPLIED to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. Its use is pleasant and easily understood, from directions accompanying each instrument. Dr. SAGE'S Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. Catarrh Remedy and Douche **sold by druggists.**

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress. Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,207,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & Co. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission. Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

The End of the old Stage Coach.

Everybody in Portsmouth has of course read T. B. Aldrich's "Story of a Bad Boy," and not a few of our dignified elderly and middle-aged citizens of today have had their memories refreshed by it concerning some of the wild pranks of their boyhood. "Tom Bailey's" account of the destruction of the old mail-coach by a select gang of five urchins, on a certain "night before the Fourth," was vividly brought before some of those who were boys thirty-five years ago by an incident of last Friday. Tom's story is as follows:

We glided out from the crowd and silently wended our way through a neighboring alley, at the head of which stood a tumble-down old barn, owned by one Ezra Wingate. In former days this was the stable of the mail-coach that ran between Rivermouth and Boston. When the railroad superseded that primitive mode of travel, the lumbering vehicle was rolled into the barn, and there it stayed. The stage-driver, after prophesying the immediate downfall of the nation, died of grief and apoplexy, and the old coach followed in his wake as fast as it could by quietly dropping to pieces. The barn had the reputation of being haunted, and I think we all kept very close together when we found ourselves standing in the black shadow cast by the tall gable. Here, in a low voice, Jack Harris laid bare his plan, which was to burn the ancient stage-coach.

"The old trundle-cart is n't worth twenty-five cents," said Jack Harris, "and Ezra Wingate ought to thank us for getting the rubbish out of the way. But if any fellow here does n't want to have a hand in it, let him cut and run, and keep a quiet tongue in his head ever after."

With this he pulled out the staples that held the rusty padlock, and the big barn door swung slowly open. The interior of the stable was pitch-dark of course. As we made a movement to enter, a sudden scrambling, and the sound of heavy bodies leaping in all directions, caused us to start back in terror.

"Rats!" cried Phil Adams.

"Bats!" exclaimed Harry Blake.

"Cats!" suggested Harris. "Who's afraid?"

Well, the truth is, we were all afraid; and if the pole of the stage had not been lying close to the threshold, I don't believe anything on earth would have induced us to cross it. We seized hold of the pole-straps and succeeded with great trouble in dragging the coach out. The two fore wheels had rusted to the axle-tree, and refused to revolve. It was the merest skeleton of a coach. The cushions had long before been removed, and the leather hangings, where they had not crumbled away, dangled in shreds from the worm-eaten frame. A load of ghosts and a span of phantom horses to drag them would have made the ghastly thing complete.

Luckily for our undertaking, the stable stood at the top of a very steep hill. With three boys to push behind, and two in front to steer, we started the old coach on its last trip with little or no difficulty. Our speed increased every moment, and, the fore wheels becoming unlocked as we arrived at the foot of the declivity, we charged upon the crowd like a regiment of cavalry, scattering the people right and left. Before reaching the bonfire, to which some one had added several bushels of shavings, Jack Harris and Phil Adams, who were steering, dropped on the ground, and allowed the vehicle to pass over them, which it did without injuring them; but the boys who were clinging for dear life to the trunk-rack behind fell over the prostrate steersmen, and there we all lay in a heap, two or three of us quite picturesque with nose-bleed.

The coach, with an intuitive perception of what was expected of it, plunged into the centre of the kindling shavings, and stopped. The flames sprung up and clung to the rotten woodwork, which burned like tinder. At this moment a figure was seen leaping wildly from the inside of the blazing coach. The figure made three bounds towards us, and tripped over Harry Blake. It was Pepper Whitcomb, with his hair somewhat singed, and his eyebrows completely scorched off!

Pepper had slyly ensconced himself on the back before we started, intending to have a neat little ride down hill, and a laugh at us afterwards. But the laugh, as it happened, was on our side, or would have been, if half a dozen watchmen had not suddenly pounced down upon us, as we lay scrambling on the ground, weak with mirth over Pepper's misfortune. We were collared and marched off before we well knew what had happened.

The abrupt transition from the noise and light of the Square to the silent, gloomy brick room in the rear of the Meat Market seemed like the work of enchantment. We stared at each other aghast.

"Well," remarked Jack Harris, with a sickly smile, "this is a go!"

"No go, I should say," whimpered Harry Blake, glancing at the bare brick walls and the heavy ironplated door.

"Never say die," muttered Phil Adams, dolefully.

The Bridewell was a small low-studded chamber built up against the rear end of the Meat Market, and approached from the Square by a narrow passage-way. A portion of the room was partitioned off into eight cells, numbered, each capable of holding two persons. The cells were full at the time, as we presently discovered by seeing several hideous faces leering out at us through the gratings of the doors.

A smoky oil-lamp in a lantern suspended from the ceiling threw a flickering light over the apartment, which contained no

furniture exceeing a couple of stout wooden benches. It was a dismal place by night, and only little less by day, for the tall houses surrounding "the lock up" prevented the faintest ray of sunshine from penetrating the ventilater over the door,—a long narrow window opening inward and propped up by a piece of lath.

As we seated ourselves in a row on one of the benches, I imagine that our aspect was anything but cheerful. Adams and Harris looked very anxious, and Harry Blake, whose nose had just stopped bleeding, was mournfully carving his name, by sheer force of habit, on the prison bench. I don't think I ever saw a more "wrecked" expression on any human countenance than Pepper Whitcomb's presented. His look of natural astonishment at finding himself incarcerated in a jail was considerably heightened by his lack of eyebrows.

None of us were inclined to conversation. A deep silence, broken now and then by a startling snore from the cells, reigned throughout the chamber. By and by Pepper Whitcomb glanced nervously towards Phil Adams and said, "Phil, do you think they will—*hang us?*"

"Hang your grandmother!" returned Adams, impatiently; "what I'm afraid of is that they'll keep us locked up until the Fourth is over."

"You ain't smart of they do!" cried a voice from one of the cells. It was a deep bass voice that sent a chill through me.

"Who are you?" said Jack Harris, addressing the cells in general; for the echoing qualities of the room made it difficult to locate the voice.

"That don't matter," replied the speaker, putting his face close up to the gratings of No. 3, "but if I was a youngster like you, free an' easy outside there, this spot wouldn't hold me long."

* * * * * * *

A portly watchman usually sat on a stool outside the door day and night; but on this particular occasion, his services being required elsewhere, the bridewell had been left to guard itself.

"All clear," whispered Jack Harris, as he vanished through the aperture and dropped softly on the ground outside. We all followed him expeditiously.—Pepper Whitcomb and myself getting stuck in the window for a moment in our frantic efforts not to be last.

"Now, boys, everybody for himself!"

The end of the affair was that each of the five culprits had to hand over three dollars to the owner of the old conch, to settle the case, and thought themselves lucky to get off at that.

Portsmouth Chronicle

MONDAY, JULY 7, 1879.

Chronicle Correspondence.

WASHINGTON, D. C., July 2d.

I need not tell your readers that Congress adjourned yesterday, but it may be news and it may be interesting to state that the members were in exceptionally good humor at parting. Considering the small number present in the House—only a few more than a quorum, there was an unprecedented amount of good fellowship. In the Senate the condition of affairs was the same, only the overpowering sense of dignity that governs the senators did not allow the same public manifestations. If you scratch a senator you find under the skin a marble statue of decorum. But in both Houses old scores were wiped out and a thoroughly pleasant closing was had. Speaker Randall always says the right thing on such occasions, and did not fail to do so yesterday. Senator Thurman was brief and sensible; the session has told on him more than on any other congressman.

I give a list of the bills passed at this session, which are of general interest, aside from the appropriation bills: To prevent the introduction of contagious diseases; to contract for the construction of a refrigerating ship for the disinfection of vessels and cargoes; extending the pension of Gen. James Shields to his widow and children, and granting a special pension to the widow of Colonel Fletcher Webster; exempting from registry, enrollment or license, vessels not propelled by sail or internal motive power of their own; joint resolution relating to the national board of health; to provide for a Mississippi river commission; to put quinine on the free list; for the completion of the foundation of the Washington monument; directing a monument to be erected to mark the birth-place of Washington; bill to allow the exchange of small silver coin for legal tenders to the amount of $20.

July 3d.

There is speculation to-day as to the chances of another extra session. Curiously enough, the republican paper here, which has conspicuously prophesied another call, this morning says none will be issued; while the *Post*, democratic, which has not expected an immediate summons of Congress, has an elaborate statement of reasons why the President will issue the call at once. "You pay your money and you take your choice."

There was much gratification, among southern members especially, over the passage of the Mississippi river commission bill. No act of any recent Congress, not connected with the civil war, is held to be so important. The people of the immense and exceptionally rich valleys of the Mississippi and its tributaries are immediately interested in the work of the commission.

While the friends of Ex-Gov. Hartranft of Pennsylvania profess to have confidence in his appointment as secretary of war, in place of McCrary, who will again be appointed to a judicial position as soon as a vacancy occurs through the retirement of Judge Dillon, the better opinion seems to be that a man from the northwest will secure the place.

The prospective retirement of Adjutant General Townsend raises an interesting question. The officer who would in the usual order of things receive the promotion is very deserving and excellently qualified for the position, but not a West Pointer. Whether Gen. Drum's qualifications, and the fact that he is entitled to the place, will secure it for him or not, is a question agitating military circles.

KNOX.

Naval Affairs.

The U. S. S. Kearsarge, Commander Picking, passed through Hell Gate on the 2d inst., bound from New York for the banks of Newfoundland, and anchored off the telegraph station.

Passed Ass't Engineer Sidney L. Smith has received orders to report on board the U. S. S. Powhatan, now lying at New York.

The tug Speedwell was put into commission at Washington on the 1st inst.

Commander George H. Perkins has reported his return home, having been detached from command of the Ashuelot on the Asiatic station, and placed on waiting orders.

The Senate rejected the nominations of Captain Edward Barrett to be a commodore, and Commander Oscar F. Stanton to be a captain in the navy.

News and Notes.

Miss Louisa Bolling, twenty years old and one of the leading belles of Richmond, Va., was burned to death on the night of the 2d inst., through her dress taking fire from a piece of paper which she threw on the floor after lighting the gas with it.

A terrific tornado and rain-storm visited Dakota, Iowa, Minnesota and Wisconsin on the 3d inst. Vast amounts of property were destroyed, and many lives lost. At Vasa, Wis., nine persons were killed and thirty injured, by lightning or falling buildings. Five inches of rain fell in fifteen hours.

The pleasure steamer Col. Isaac Davis was partially wrecked on lake Quinsigamond, Mass., on the 4th, by a crowd of excursionists crowding upon her, which caused her to careen, when the hurricane deck gave away and threw men, women and children into the water. Two men, two children and a young woman were drowned, and many others injured.

Mr. Joshua B. Smith, the well-known Boston caterer, died July 5th.

At Freeport, Mich., on the 3d inst., a Mrs. Bergy shot two of her children dead, mortally wounded another, and then killed herself. She was insane.

At Williamsburg, N. Y., on Friday, a Mrs. Anderson and her infant were burned to death by a kerosene explosion, and her six-years-old boy jumped from a window in fright and was killed.

A wharf at Trenton, N. J., broke down under a crowd of excursionists on the 4th, and a woman and two children were drowned, others being badly hurt.

On Thursday night four young men set fire to the house of Joseph Sears, at Sackville, N. B., who detected them in the act and shot two of them.

The town of Temple, Me., and the vicinity is excited over the mysterious disappearance of Mr. Lewis M. Libby, an old and respected citizen of Temple, who was working in a cornfield, and was seen to throw down his hoe and start for the woods. His pocket-book, containing $100, was found in the woods, but no trace of the old man.

The last slave sold in the confederacy was in 1865, near Richmond, a negro man who was bought for nine hundred heads of cabbage. Cabbage was worth a dollar a head, consequently the negro man footed up at $900.

The most remarkable love story of the summer is told by the Port Jervis *Union*. Four years ago, a gentleman of twenty-three won the heart of a girl of nineteen. She was the daughter of pious parents, and although not connected with any church, looked with a feeling akin to horror on anything approaching scepticism. But the time came when she learned that her lover was a deist; that he had no veneration for the Bible, and took no interest in churches. She was deeply pained by the revelation. She sent for her lover and endeavored to convince him of his error, but he was not satisfied with her arguments. She finally wrote to him a tear-stained letter bidding him goodbye forever. The lady mourned, but tried to satisfy herself that she had acted correctly. Two years made her more liberal than she had been. The more she read, the more she distrusted her former decision, and finally became quite as liberal as the lover she had discarded. The lover, too, had undergone a change. Last winter a revival of religion took place in the city in which he was engaged in business. Suffice it to say that he united with the church in a short time, and was a zealous member. He thought over the action of his former sweetheart in discarding him for his infidelity, and wrote her a brief note, asking the privilege of once more calling on her. When she timidly apologized for her previous dismissal of him, he, to her surprise, defended her conduct, said she had been in the right, and in her place he would do the same. Her heart sank at these words. She confessed the great change in her sentiments; from being a firm believer in the Bible, she had discarded it, and with it her belief in any revealed religion. He pleaded with her, urged everything he could think of to induce her to change her mind. She could not, and told him so. He felt that he must not be yoked with an unbeliever, and gave her up.

The Way Vanderbilt Succeeded.

When Commodore Vanderbilt was running steamboats, he beat all rivals by crowding on steam to the utmost, and even running down his enemy if necessary, to accomplish a triumph. When he went into railroading, he adopted a much shrewder and more successful way, by uniting vast lines and their tributaries under his own management, thus capturing all rivals, by sharing with them the immense pool of profits that were made by his skillful manipulation. Messrs. Lawrence & Co., Bankers, N. Y., accomplish a much greater success in stock operations by their new Combination Method of dealing. By this system the orders of thousands of customers are pooled into one vast sum and co-operated under the most experienced management, thus giving to each shareholder all the benefits of large capital and best skill. Profits divided monthly. Any amount from $5 to $25,000 can be used with great success. $18 will make $75 profit. $80 would return $720 or nine per cent on the stock during the month, according to the market. The new circular (mailed free) has "two unerring rules for success" and full explanations, so that any one can operate profitably. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. city.

The Forgetfulness of People.

The Oxford Professor who, to avoid the wind when taking snuff, turned around, but forgot to turn back, and walked six miles into the country, was no more forgetful than those who still use the huge, drastic, cathartic pills, forgetting that Dr. Pierce's Pleasant Purgative Pellets, which are sugar-coated, and little larger than mustard seeds, are a positive and reliable cathartic, readily correcting all irregularities of the stomach, liver, and bowels. Sold by druggists.

For Sale.

Two houses on Preble's Island, Kittery, one a new story-and-half house and the other in good repair, with fifteen acres of good land. For further particulars apply to Rider & Cotton, Market street.

Wanted.

TWO ROOMS, for housekeeping, in a good location. Apply at this office. tjy9

CELEBRATING THE FOURTH.

The glorious 4th was a hot, windy, dusty day, but the various "events" occurring in and around the city were well attended, and the small boy enjoyed himself in his accustomed style, although there was less pistol and cracker firing, and more tin horn tooting, on the night of the 3d, than we ever knew before. The boys had a bon-fire on the Parade at midnight, and another in the street near the gate of Langdon park, the crowd around the latter being a noisy set of gunpowder-burning young rascals. No accidents worth mention have been reported to us.

The bells rang as usual, morning, noon and night, and a salute was fired from the navy yard.

The Catholics had a picnic at Dover point, and there was quite a large gathering there in the afternoon.

All the rowing and sailing boats on the river were engaged in the forenoon, and many of them were out, but the strong wind and sharp flaws drove all but a few of them back at an early hour, and kept a considerable number from going out.

At one o'clock P. M. a delegation from Kearsarge and Moses H. Goodrich engine companies, accompanied by the Rochester cornet band and escorted by the City Guards, Capt. James E. Ford, marched to Noble's island bridge to receive the navy yard steamer Dupont, and escorted her to her place in the line of procession. Shortly after two o'clock the procession started on a short march, at the close of which the several organizations were dismissed to allow the members to prepare for the several contests, which was soon done. The steam gauges were tested by Mr James M. Goodrich.

The first trial was at running and laying hose, each company by the rules to run with not less than fifteen men nor more than twenty-one, the engine to be placed at the Market square reservoir with a full head of steam on, and the contestants to start from the junction of Middle and Congress streets with a hose carriage having on it 1000 feet of hose, run down Congress street and around the engine, lay 300 feet of hose up Congress street, disconnect hose and attach nozzle, and show water at the nozzle. The Moses H. Goodrich's men made the first trial, their time being three minutes, forty-two and a half seconds; the Dupont's men came next, but were ruled out as they ran with twenty-two men—this, however, did not affect the result, as owing to a mistake in not connecting the pipe the Duponts would not have won a prize; the Kearsarge's crew were last to run, their time being three minutes, thirteen and a quarter seconds. The Kearsarge took the first prize, and the Moses H. Goodrich the second.

The engines were then tried to see which could throw the longest stream, the Kearsarge making the first play, and sending water 195 feet and eleven inches, (incorrectly declared as 185 feet and nine inches,) the Dupont playing next and making 199 feet. The Moses H. Goodrich then tried her luck, but owing to the very high wind at the time she was playing did not make so good a record as she is capable of, only reaching 154 1-2 feet; the wind blew strongly against all the engines, but the Moses H. Goodrich had the worst of it to contend against, the Dupont happening to secure a slight and momentary lull while she was playing.

After the prize-playing was over, the Sagamore, which had been employed in forcing water from the School street reservoir to Market square for the other engines, was placed at the Market square reservoir just to show what she *could* do; a stream was thrown 144 feet and four inches, without reckoning any "drawback," and then the cross-head broke and the connecting-bars were bent up, which finished her trial. The firemen wound up their day with a collation in Mechanic's hall.

The cricket match on the grounds at the Creek, between the Portsmouth and Boston cricket clubs, was won by the local organization; and the races afterward caused much amusement. The Rye cornet band furnished acceptable music during the day, and many spectators enjoyed the sports and the music.

In the evening the American band of Rochester occupied the band-stand on Market square, and for something over two hours made music for a large audience. During the evening an ancient stage-coach was burned on the square, the band playing "Departed days" and "Auld lang syne" as the cremation progressed. This coach was deposited in front of Col. Wm. H. Sise's house at two o'clock on the morning of the 4th, having been sent from Boston on a freight train by Mr. Wm. H. Thompson, of the Keausarge mills, as a present to our respected mayor, who thirty-two years ago, with Mr. Thompson and other boys who have since filled responsible positions in the world, confiscated and burned an old mail-coach one fourth of July morning, and got into a scrape thereby—this incident furnishing Mr. T. B. Aldrich with the material for one of the most amusing incidents in his "Story of a Bad Boy."

POLICE COURT.

SATURDAY, July 5; *Batchelder, J.*

Charles H. Winkler, a marine, was arraigned for breaking and entering the house of William Sladen on the 4th inst., and stealing about $50 in money, two hundred cigars, five pairs of hose, one plug of tobacco, one shawl pin and one breast pin. Mrs. Sladen and a lady friend on returning to the house from seeing the cricket match, on the afternoon of the 4th, found Winkler in the building, with the cigars, hose and tobacco packed in a bag, which the man left behind in his flight. The ladies gave the alarm, and special officer D. J. Ayers went in pursuit of the thief, headed him off and arrested him. The money and jewelry were not recovered, having probably been thrown away by the thief during the chase. Wipkler was held in $500 for appearance at the October term of the supreme court, and went to jail in default.

THE SCHOOL BOARD.

A correspondent at Concord writes us that last week's business in the House of Representatives was "principally of the tax and mortgage order, with now and then a bill of ordinary interest, among the latter being the bill introduced by Edward D. Coffin of Portsmouth, referring to a change in the manner of electing the board of instruction of the city. That board is now nominated and elected by the board of aldermen, consisting of eight men, but the bill provides for the election of the school board by the people as formerly—and was passed with the amendment that there shall be inserted in the election warrants an article to take the sense of the people as to whether or no they desire the change. Should the vote show that it is the wish of the people to elect their school board by direct vote as formerly, an election will be called thirty days after the city election, to choose a board of instruction according to the requirements of the bill."

AROUND HOME.

Three schooners discharged cargoes of steel rails at the north end wharves last week.

The schools at Eliot neck have been closed for several weeks on account of diphtheria among the children, but the disease is subsiding.

The first number of the *Ocean Breeze*, the new paper published at Hampton Beach, was issued July 5th. But ten numbers will be issued this season, as it will close when the beach hotels do.

A young man named Charles Tucker, living on Blossom street, was prostrated on the afternoon of the 4th by the heat. He was taken into the police station and kindly cared for, and afterward conveyed to his home.

The U. S. S. Marion, Commander F. M. Bunce, arrived at this port from Hampton Roads on the evening of the 3d inst., and on the morning of the 4th was lying at one of the mooring buoys off the navy yard. Some slight repairs will be made to her machinery before she again leaves.

On Thursday evening of last week George Laskey was taken into custody on a charge of being an accessory with Charles J. Gilbert in robbing the United States mail of a letter containing money. He was brought before Commissioner Hatch on Friday, and held to answer in the sum of $500.

A horse attached to a wagon was noticed wandering along the street on Church hill, Friday evening, without any driver, and a passer-by hitched the animal to a post, where it stood all night, and was taken care of by the police at seven o'clock Saturday morning. Who the team belonged to we did not learn.

A refrigerator car containing about ten thousand pounds of meat arrived here on Saturday, for Cyrus L. Brown & Co. This firm has secured the contract to furnish supplies for the navy yard and marine corps, which last year was given to parties in Washington, D. C. This car will be used weekly in bringing articles for the trade.

The democracy of York county, Me., have surrended to the greenback party, or else swallowed it, we don't exactly know which. The democratic county convention met at Alfred on the 3d inst., and nominated a ticket identical with that nominated a few days previous by the greenbackers, except that George A. Hammond of Eliot, sometimes called Red Oak Hammond, we believe, was put up for treasurer by the democrats, and Josiah A. Stover of Kittery for county commissioner. Whether this action was intended as an indorsement of the greenback ticket, or a theft of it, we cannot decide; but it is sufficient to show every republican greenbacker that greenbackism and democracy are interchangable terms in Maine.

The Eastern railroad corporation have a crew of four men, capable of stretching thirty rods of wire fence per day, at work on the Portland, Saco & Portsmouth line this season. They have built several miles of this fence between Kennebunkport and Wells, and in the opposite direction from the former town.

At the democratic caucus in Kittery a few evenings ago there was a stormy time. Two of the most prominent democrats of the town called each other pet names and then started in to punch each other's head, and an appalling conflict was only averted by putting out the lights, the caucus breaking up in admirable disorder and confusion.

N. H. S. P. C. C. LAW.

A number of gentlemen in this city having associated themselves to form a corporation to be known as the "New Hampshire Society for the Prevention of Cruelty to Children," as authorized by Chap. 151 of the General Laws of the State, we print the following law passed by the legislature at its present session as of decided local interest, particularly to persons who are accustomed to abuse children under their care, if any such there be about here:

SEC. 1. Whenever it shall be made to appear to the judge of probate for any county in the State, that any minor residenc therein under the age of fourteen years is entirely abandoned or treated with gross and habitual cruelty, or neglected in such a manner as to amount to cruelty, by the parents or other persons having custody of such minor, or that such minor is illegally deprived of liberty, said judge may appoint as guardian of such minor the "New Hampshire Society for the Prevention of Cruelty to Children," for such period as he may think proper, and said society shall thereupon become entitled to the custody of such minor to the exclusion of any other person whomsoever. Said judge of probate may at any time, for good cause shown, revoke said decree.

SEC. 2. Upon complaint of said society that any child under the age of fourteen years has been abandoned or treated in a gross and habitually cruel manner, or neglected in such a manner as to amout to cruelty, the judge of any police court may, within his jurisdiction, give the custody of such child to said society for a period not exceeding sixty days, and the society may thereupon apply to the probate court for guardianship of such child upon such notice as the judge of probate may order. And the judgment of any police court in giving custody of any child to said society shall be *prima-facie* evidence in the probate court of the abandonment or cruel treatment of such child.

SEC. 3. Nothing in this act shall be construed to oblige said society to receive the custody of any child.

SEC. 4. This act shall take effect upon its passage.

—In these days, when the temperance question absorbs so much of public attention, it may not be out of place to quote the saying of an eccentric English gentleman, a candidate for Parliament, at a recent meeting of his constituents. A man in the crowd called out: "What about the liquor bill?" "Well," said the candidate, "mine was uncommonly high last year. How was yours?"

—A London correspondent says the Prince of Wales is "a living proof that no amount of tobacco can enfeeble either mind or body." Ah, yes; but the Prince buys his tobacco. It is only begged tobacco that shatters the mind, weakens the constitution, and sends young men to an early grave.—*Norristown Herald.*

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. ASK for SANFORD'S. 4w

It is a happily established fact that Fellows' Compound Syrup of Hypophosphites will retard vital consumption, increase involuntary muscular power and thereby harden the organs, promote vitality and facilitate restoration. It consequently possesses the wonderfully property of prolonging human life.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D., New York City.* eod&wmov79

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

A Note of Warning.

The people of Otis, Mass., are plumbing themselves on the oddities of one of their citizens, who rejoices in the unique name of John Smith. He says he once lived on the South Sea Islands, where he formed various unpleasant habits which still cling to him. Among them, he ate human flesh, and admits frankly that he practiced cannibalism for several years. He says that he gratified his appetite in this respect in New Jersey some years ago, but gives no further details. A day or two ago he said that he yet hoped to secure the consent of the fat and handsome people of Otis to allow him to make a meal from them, but he does not want anyone who uses tobacco or wears a beard. A year ago he offered to work six months for the father of a little girl and to take his pay in a repast from the child's shoulder. Smith is a man with an actual iron jaw. He eats meats raw and grinds beef-bones as a mastiff would, and is particularly fond of fish, which he eats as he takes them from the hook. There is nothing that Smith likes better than to get hold of a snake. If he finds one he seizes it and bites it through the back to stop its squirming.

Instead of telling this as a good story of a local hero, it would be well for the Otis people to put under restraint this evident maniac, who, if they persist in making him a curiosity and allowing him his freedom, will presently give them a dose of sensation in the horrible murder of some defenceless woman or child. The time to lock the stable is before the steed is stolen, and there have been plenty of horrors already from the culpable practice of allowing unrestrained liberty to persons of evidently unsound mind and morbid appetites.—*Portland Advertiser.*

—Alphonse Karr wittily said, touching the abolition of capital punishment for murder: "By all means, only let messieurs the murderers give the example, and cease to execute us."

STATED MEETINGS.

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
The Gazette is published every Thursday and sent to Subscribers at the low price of
$1.50 per year, paid in advance, or
$2 at the end of the year.
It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news,** containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.
— THE —
NEW HAMPSHIRE GAZETTE
Contains more orignal matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.
TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS,** at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.
Subscriptions Received
AT THE OFFICE, 7 PLEASANT ST.,
Exchange Buildings, nearly opp. Post Office;
Or by remittance to
CHRONICLE AND GAZETTE PUB. CO.

For Sale by A. Tredick & Co.,
MARKET STREET.
☞ We advise all to call, examine and try these before purchasing their Christmas Presents.

GOLDEN MEDICAL DISCOVERY
By its great and thorough blood-purifying properties, Dr. Pierce's Golden Medical Discovery cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-Rheum, Fever Sores, Scaly or Rough Skin,** in short, all diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
Especially has it manifested its potency in curing **Tetter, Ring Worm, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, White Swellings, Goitre or Thick Neck,** and **Enlarged Glands.**
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellow blotches upon one face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect and radical cures.
In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has an admitted place in the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Cough, it strengthens the system and **purifies the blood.** Sold by druggists.
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
THE "LITTLE GIANT" CATHARTIC.
No use of taking the large, repulsive, nauseous pills, composed of cheap, crude, and bulky ingredients. These Pellets are **scarcely larger than mustard seeds.**
Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Sick Headache, Dizziness, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad Taste in the Mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Jaundice, Heating about Stomach, Rush of Blood to the Head,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of these Purgative Pellets over so great a variety of diseases, it may be said that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with pills put up in cheap wooden or pasteboard boxes. For all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction. **Sold by druggists.**
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

CATARRH
SYMPTOMS.—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stoppage up, or obstruction, of the nasal passages, ringing in ears, deafness, hawking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.
DR. SAGE'S CATARRH REMEDY
produces radical cures of the worst cases of Catarrh, no matter of how long standing. The liquid remedy may be snuffed, or better applied by the use of Dr. PARKE'S Douche. This is the only form of instrument yet invented with which fluid medicine can be carried **HIGH UP** and **PERFECTLY APPLIED** to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which pus and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. Its use is pleasant and easily understood, from **directions** accompanying each instrument. Dr. SAGE'S Catarrh Remedy cures recent attacks of "**Cold in the Head**" by a few applications. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. Catarrh Remedy and Douche **sold by druggists.**

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior dates. GILMORE & Co. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be sent you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

Patent Air Closet!

Superior to either Water or Earth Closets for General Use, and for the Sick Room, are indispensable

They can be set up in any Room, Hall-way or Closet, or at the Bedside of the Sick, and are warranted to be Perfectly Odorless.

Being thoroughly ventilated from the front, and connecting with the chimney, the disagreeable odors and poisonous gases are carried off into the chimney, instead of escaping into the room.

—FOR SALE BY—

JOHN P. SWEETSER,

6 Market Street,

PORTSMOUTH

Daily Chronicle.

Confederate Money Called For.

During the past week, according to a local coin and stamp dealer in Nassau street, New York city, large demands have come from abroad for confederate notes. Nearly $1,000,000 in confederate scrip in denominations of from ten to 1000 dollars were shipped to England and France last week. The notes most in demand are those issued by the Montgomery (Alabama) county bank in 1861, and the Richmond Bank Note company the same year. Quite a premium is paid for the notes. About a month ago a bale of confederate money was sold in New York. Orders for it have come from England, Germany and France. If this statement is true it shows that the European speculators anticipate the assumption of the rebel debt by the United States government in case the democrats ever get supreme control.

—"Bred on the waters"—Mosquitoes.

—An electrical girl has been discovered in Canada; she ought to marry a good conductor.

—School Superintendent Mann of San Francisco makes this weighty expression in an official report: "Providence has wisely ordained that in the family the parents, the natural guardians and instructors of children, shall be of different sexes."

—A Ludlow, Vt., man has a good claim to be the champion absent-minded individual. The other evening he took a deacon's wife to divine service, and hitched his team in a neighboring shed. When services were over the deacon's wife found herself alone with the janitor. The horse-shed was examined and the horse and wagon found, but not the owner. The janitor took the team and carried the lady home, and then drove to the house of the proprietor, who was in bed asleep. He failed to remember the fact of his going to church and using his team, or that the lady rode with him.

—The stage coach fare from the present nearest railway terminus to Leadville, Colorado, a distance of sixty-five miles, is $17, or over twenty-six cents per mile for a terrible rough, dusty and fatiguing journey of about twenty-four hours, day and night. In a few months the railway will carry the traveller smoothly and luxuriously on the same journey in three or four hours, and yet if the company charges one quarter the present stage fare, it will be denounced as extortionate, and threatened with legislation. Railway building is popularly regarded as an atrocity nowadays, and the greater the benefits conferred the greater the atrocity.—*Railway Age.*

The Forgetfulness of People.

The Oxford Professor who, to avoid the wind when taking snuff, turned around, but forgot to turn back, and walked six miles into the country, was no more forgetful than those who still use the huge, drastic, cathartic pills, forgetting that Dr. Pierce's Pleasant Purgative Pellets, which are sugar-coated, and little larger than mustard seeds, are a positive and reliable cathartic, readily correcting all irregularities of the stomach, liver, and bowels. Sold by druggists.

The Way Vanderbilt Succeeded.

When Commodore Vanderbilt was running steamboats, he beat all rivals by crowding on steam to the highest, and even running down his enemy if necessary, to accomplish a triumph. When he went into railroading, he adopted a much shrewder and more successful way, by uniting vast lines and their tributaries under his own management, thus capturing all rivals, by sharing with them the immense pool of profits that were made by his skillful manipulation. Messrs. Lawrence & Co., Bankers, N. Y., accomplish a much greater success in stock operations by their new Combination Method of dealing. By this system the orders of thousands of customers are pooled into one vast sum and co-operated under the most experienced management, thus giving to each shareholder all the benefits of large capital and best skill. Profits divided monthly. Any amount from $5 to $25,000 can be used with great success. $15 will make $75 profit. $80 would return $720 or nine per cent on the stock during the month, according to the market. The new circular (mailed free) has "two unerring rules for success" and full explanations, so that any one can operate profitably. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. city.

Portsmouth Chronicle

TUESDAY, JULY 8, 1879.

How One Democratic Law Works.

The *posse comitatus* clause of the army bill, passed by the democrats last year in the interest of law-breakers, seems to be working very well in that direction. The interior department at Washington is in receipt of official information that white men during the past few weeks have stolen about 700 horses from the Indians at Red Cloud agency, and run them across the Nebraska line. The State authorities are doing nothing to prevent similar raids upon the Indians' property; and the military authorities, on account of the prohibitions of the *posse comitatus* law of last year, are obliged to stand by without intercepting or pursuing the marauders, although the stolen horses are driven right past Camp Sheridan and Camp Robinson on the way to a market or to horse thieves' corrals. The Indian agent, having no armed force at command, is powerless to stop the depredations, and for the present they seem likely to continue. The Indians, notwithstanding their keen sense of the injury arising from this want of adequate protection, manifest no symptoms of insubordination, but remain entirely peaceable and are beginning to devote themselves to farming. The Spotted Tail Indians within the past two years have lost several thousand horses in the same way.

The Mississippi Revolution.

The revolution in Mississippi in 1875, when a republican majority of 35,000 was transformed into a reform democratic majority of 30,000, was one of the most remarkable political turn-overs on record. Yazoo county was one of those which came out strongest for the party of reform, good government, a free ballot and honest elections, the vote of that county changing from 2499 republican and 638 democratic in 1872, to 4044 democratic and *two* republican in 1875. As an illustration of how "the plan" which proved so effective was worked, the disclosures of a fellow named Dixon, now running as an independent democratic candidate for sheriff of Yazoo county, are quite interesting. Dixon and one McComick having quarrelled, the latter has publicly charged Dixon with applying to his own use a large sum of money taken from the body of a Mr. Patterson, a republican member of the Missouri legislature who was murdered by a mob led by Dixon and McComick during the 1875 campaign; but Dixon retorts by showing that the money ($3000) stolen from the murdered man by the mob of democratic reformers was applied to the expenses of stuffing the ballot-boxes with reform tickets, except a few hundred dollars used to purchase certificates of election for two defeated democratic candidates. Dixon's exposure does not throw any new light on "the plan," but it is good democratic evidence and for that reason will no doubt be widely circulated by the northern democratic press.

Naval Affairs.

The U. S. S. Powhatan is to leave New York on the 12 inst. for Portland.

The U. S. S. Constellation sailed from Halifax for Portland on the 5th inst.

The U. S. S. Trenton has proceeded to Antwerp.

News and Notes.

A building in process of demolition at Jersey City fell in on Monday, and crushed several poor people who were gathering wood. Two women and a boy and girl were killed.

Rev. Herman Bisbee, pastor of the Hawes place Unitarian church in South Boston, preached on Sunday forenoon, was taken with apoplexy on leaving the pulpit, and died at about two o'clock in the afternoon.

At Medford, Mass., Saturday afternoon, as Mr. George Richardson was acting as marker at the Bellevue rifle range, he was accidentally shot dead by his nephew, Mr. H. K. Richardson, who fired just as his uncle stepped out of the marker's pit.

Ex-President Grant and party arrived at Yokohama, Japan, from China, on the 5th inst.

A grand jury at Spartansburg, S. C., recently reported that the hanging of a murderer by lynchers was "an outburst of popular indignation which merely anticipated the sentence of the law of the land," and refused to indict anybody concerned in the outrage.

The person who supplied the pistol to Alexander Solovieff, with which he attempted to assassinate the Emperor of Russia on the 14th of April, is a medical doctor from Weimar, Germany, who is also proved to have procured the poison with which Solovieff attempted suicide after his failure to kill the Czar, and to have owned the horse by means of which the assassin of Gen. Mesentseff attempted to escape. He has been sentenced to be hanged.

An Indian has been arrested at Fort Saskatchewan, near Edmonton, Canada, for murdering and eating his wife and four children. The mounted police found the bones and skulls, which had been boiled, and the flesh taken off.

A young lady named Edwards was outraged by a negro near Lindale, Texas, on Wednesday of last week. The villain was captured Friday, and after being positively identified by Miss Edwards was literally hacked to pieces by a mob.

Prof. Colgrove and Miss Emma Allison had a very perilous experience in attempting a balloon ascension in San Francisco on the 4th. They were dragged through the waters of the bay at the rate of a mile a minute, and then thrown into a marsh.

Providence, R. I., has an ordinance prohibiting the sale of fire-crackers and other dangerous fire-works. This ordinance was strictly enforced this year, and as a consequence there was not a single alarm of fire in that city on the 4th.

In Cleveland, Ohio, Friday, sentence was passed in the case of the doctors and janitor convicted of concealing the body of the late Edwin French. Drs. Schnieder and Smith of the college faculty were fined $500 each and costs, and the janitor $250 and costs.

Dr. Bigelow, the State liquor agent at Portland, Me., has been sued by Edmund P. Chase, former agent, for $10,000 because Bigelow refused to take liquors off his hands according to the law. Bigelow claims that the liquors were not pure, which absolves him.

Hon. Monroe Young, ex-mayor of Ellsworth, Me., committed suicide Friday afternoon by drowning himself at his farm in Trenton. He is said not to have been in his right mind for some time. He was in attendance at the last democratic State convention in Bangor.

A powder mill employe at Gambo Falls, Me., named Stevens, an experienced gunner, while trying to fire two rounds a minute Friday evening, was killed by the bursting of the cannon, which blew off both his arms and tore his stomach out.

A nephew of Sitting Bull was one of the defeated contestants in a recent walking match at Winnipeg.

Mr. Alonzo Work of Hartford, Conn., an old-time abolitionist, who was imprisoned nearly forty years ago in the Missouri penitentiary for over three years, on a sentence of twelve years for trying to help slaves to freedom, died on July 6th, aged eighty years.

M. Byron, a young Russian artist, blew the top of his head off at Lionville, Chester county, Pa., on the 4th, because Mary Stine would not marry him. His body will be sent to St. Petersbug.

William Glazier, author of a book called "Heroes of three wars," has been arrested in St. Louis, Mo., and taken to Chicago on a charge of abducting a girl named Mary E. Hentz, of Boston, for immoral purposes.

During a recent hurricane on the river Doubs a steamer carrying fifty-three passengers was sunk, and only five persons of all on board escaped. The river Doubs rises in the Jura mountains, on the Swiss frontier in France.

On the 4th, J. D. Lilly and E. Burdeau were fatally injured by the premature explosion of a cannon at Durhamville, N. Y. Margaret Heil was killed by a stray bullet at Cincinnati.

A boy threw a lighted fire-cracker under the skirts of Miss Jessie Dunbar, aged twenty-one years, at Mattewan, N. Y., Saturday. Her clothing caught fire, burning her in a horrible manner, from the effects of which she died in the evening.

John Scottish, Isaac Dayton, Thomas Conroy, Edward Henley, Jr., Joseph McFarland and John Mooney of Port Colborne, Ont., left in a small sailboat Thursday night to attend the celebration of the 4th, at Buffalo, N. Y. Nothing has since been heard from them, and it is feared that all are lost.

The Orangemen of New York and Brooklyn will observe the 12th of July with less than usual pomp, and the annual parade will give place to a picnic.

The dead body of John F. Seymour, a retired merchant and brother of Bishop Seymour, was found Friday morning on the grounds of the Episcopal theological seminary at New York, with a pistol-shot wound over the heart. It is believed by Bishop Seymour that he was killed by some tramp whom he ordered out of his premises.

A picnic party of the St. Jean Baptiste society from Holyoke, Mass., Friday, to Gallup's grove, about twelve miles from the river, was attacked by a lot of roughs from Thompsonville, Conn., and Leo Lucas from Springfield and William Hebert from Holyoke were badly beaten about the head. The picnickers had most of them got on to the boat to go home when they were assailed. The boat had to put out into the stream, leaving some men on shore to keep the roughs at bay, for fear the ladies of the party would be injured. Here a general fight ensued, in which some of the roughs were very badly used up, after which a small boat took the party who covered the retreat to the steamer.

Dr. John Sherar, with Chas. Fonda and Chas. Wilson, boatmen, were capsized early Saturday evening in a skiff on Lake Champlain, near Knights' island, by a sudden squall. Sherar clung to the boat and was rescued in an exhausted condition. Fonda and Wilson have not been found, and were doubtless drowned.

Dr. DeWolf, who shot his wife at Wolfville, N. S., a few days ago, committed suicide by hanging Friday night in the jail.

H. P. Peer, who was to have jumped from the suspension bridge at Niagara on the 4th, was not allowed to do so, being drunk. Some 5000 people assembled to witness the feat, and Peer had to be smuggled away to prevent being mobbed.

The Springfield *Republican* says that Edwin Shumway, of Peru, Mass., after a severe fight, Wednesday, of last week, killed a black snake which measured nineteen feet in length and two feet around the middle. The reptile has inhabited for thirty years an old mill-dam belonging to the estate of C. B. Watkins, and resisted all attempts to kill it. Mr. Watkins when alive offered a standing reward of $10 to any one who would kill it, and men often watched for it, but when the snake came out of its hole under the dam it would chase them away.

Common sense rules the masses of the people. Get up a really good article, let its merits be clearly demonstrated and they will not fail to use it. Such is the case with Dr. Sanford's Liver Invigorator, prepared by a regular physician of thirty years' large practice, and tested by thousands all over the country, so that it has become a standard remedy for those diseases proceeding from a disordered liver, stomach and bowels. It is compounded entirely from vegetable guns. There is no medicine that has ever been offered that has given such universal satisfaction as Dr. Sanford's Liver Invigorator. It has also stood the test of time, and no better proof of its popularity need be adduced than to note its various imitations—for all imitations prove the value of the thing imitated—just as "hypocrisy is the compliment that vice pays to virtue."—*New York Atlas.*

Political.

On the 3d inst. the Belfast *Journal*, long recognized as one of the ablest and most influential democratic papers in Maine, placed the name of Davis, the republican candidate for governor, at the head of its columns, and editorially dissolved connection with the democratic party. The editor, William H. Simpson, has been for many years a prominent democratic leader.

Georgia, instead of reforming her convict system under the denunciations of the past two years concerning the horrors of the contract system, has gone from bad to worse, until now the treatment of prisoners recalls nothing less than the rigor and barbarism of mediæval times. The convicts are leased to companies, of which there are three, at five cents a day, and are worked in chain gangs in the fields, on roads and in brickyards. They are kept under control by shot guns and bloodhounds, wretchedly fed and clothed, and almost without shelter. The rate of mortality is very great, and the supplies of labor are kept up by sentencing laborers for breach of contract to penal servitude for one year. The whole system recalls the worst days of slavery, and, so far as imprisonment for breach of contract is concerned, is a direct attack upon the liberties of the colored population, the law of course not being enforced against the white working class.

The south should know that the country will never trust a party which is to overthrow resumption, which will refuse legitimate appropriations, which would glorify the lost cause, and which orders men like Bayard to step aside.—*Louisville Post, dem.*

Given a democratic president and such a Congress as has just adjourned, and three months would not elapse before the army and supreme court—in fact, the military and judicial systems of the country—would be reorganized at the dictation of the Confederate caucus. This caucus has manifested the intensity of its malignity toward the army and the courts every hour since it was in possession of Congress. The claim is that the army and the courts are "sectional." The foundation of this is that the solid south is the true and only base of our nationality, and that the south is not properly represented in the military or judicial service.—*Cincin. Com.*

—A touching incident—A physician feeling a patient's pulse.

—A woman at St. Cloud, N. J., whose husband eloped with a girl, kept the matter quiet until she could run him in debt $250 for dry goods.

—About a week ago an Iowa man died. He was very wealthy and left three sons, his only heirs, and would you believe it, the ungrateful boys got together and ran away with all the property before the lawyers could get at it and divide with each other. There is so much sordid, mean, grasping selfishness in this world that sometimes it is enough to discourage a good lawyer.

$10 Reward!

I WILL PAY the above amount to any person who will furnish evidence sufficient to convict the contemptible sneak who mutilated my awning on the night of the 3d, or the morning of the 4th. F. E. DEARBORN.

A CARD.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1875, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

AROUND HOME.

Over five hundred persons visited the aquarium at Newcastle bridge on Sunday last.

The farm-house of Orville J. Tilton, at Stratham, was burned Saturday forenoon; insured $800.

Several alterations have been made in the time-table of the steamer James Sampson, the changes, which are wholly in the time of the forenoon trips, being specified in the boat's regular advertisement in another column.

Prof. Baird, of the United States fish commission, has signified his intention, in a letter to Hon. Emmons B. Philbrick, of visiting this locality the present season to inspect the waters with regard to the purposes for which the commission was instituted.

The funeral of George W. Frost of Newmarket, who died in the surf at Coney island last week, probably from heart disease, took place at Newmarket on Saturday, under direction of Swamp-scott Lodge, No. 8, I. O. O. F., of that town. Mr. Frost was lieutenant colonel of a New Hampshire regiment during the war, and for twenty-seven years past agent of the Newmarket cotton mills. His age was fifty-four years.

In the year 1800 there were built in the Kennebunk district, Me., twelve vessels of all descriptions, as follows: Three ships—the Guatimazin, Athanalpa, and Joseph; five brigs—the Rose, Mary, Franklin, William & Henry, and Vengeance; two schooners—the Rainbow and the Olive; and two sloops—the Dolphin and the Charles. The total tonnage of the twelve vessels was but 1682.33; but since that date single ships have been built at Kennebunk almost big enough to stow away the whole dozen craft built in 1800.

Edwin Foster of Saco, a young man about twenty-one years of age, went to Hill's beach on Friday with his wife in the excursion steamer Augusta to spend the day. The young man went out alone in a boat to have a sail, the wind blowing very hard at the time, and was capsized at the mouth of the river and drowned, close to the shore. His body was soon recovered, and was buried Sunday afternoon, the funeral being attended by the Good Templars' lodge of which deceased was a member.

A boy named Larrabee, about twelve years old, was playing on a stationary flat car at the Eastern depot, Monday afternoon, and as a freight train was slowly moving by attempted to jump upon it, but fell upon the track and was run over, one leg being cut off above the knee, and the other foot so badly crushed as to necessitate the amputation of half of it. The unfortunate boy had been driven away while playing about a moving train that same afternoon, by one of the railroad employes. His injuries were feared to be fatal.

In relation to the defeat of the local engines by the navy yard steamer Dupont in the trial on the 4th, a friend writes: "The 'gallant admiral' across the river has met our fire engines and they are his, he holding a check for twenty-five dollars. As his water-pressure gauge could only register 250 lbs. before the indicator brought up on the pin the admiral pulled out the offending pin, and commenced on his second 250. He proposes to make a new gauge that will allow him to know what the Dupont's water pressure is after a common gauge fails to record."

At the Granite State park, Dover, on the 4th, there was a fifteen-mile foot-race, for prizes of $50, $25, $15 and $10. There were sixteen entries, first money being taken by a man named Murphy, of New York, who was entered under the name of Thomas L. Young, and made fifteen miles in an hour and forty-two minutes; a Portland man took the second prize, and Dover men the third, and fourth prizes. There were also at the same place two horse races, the first being won by the horse T. L. Young in three straight heats, best time 2:28 1-4; the second race was won by Alice in three straight heats, best time 2:33.

At Great Falls, on the 4th, there was a firemen's muster and trial of hand-tubs, three engines belonging to Great Falls, and one each from Salmon Falls, Rochester, Berwick and South Berwick, contesting for four prizes, which were won as follows: 1st, by the Rochester engine, stream 182 feet, 10 1-2 inches; 2d, by the Berwick engine, 180 feet, 10 1-2 inches; 3d, by No. 3 of Great Falls, 176 feet and one inch; 4th, by No. 1 of Great Falls, 175 feet, 8 1-2 inches. The South Berwick engine and No. 4 of Great Falls each threw water 169 feet and ten inches, and the Salmon Falls engine managed to reach 154 feet and two inches.

POLICE COURT.

MONDAY, July 7; *Batchelder, J.*

Edwin Wild, for drunkenness, was fined $3, costs $6.90.

John Lydston, for the same offence, was fined $3, costs $7.76.

Alonzo Ginan of Seabrook, for an assault on Valentine Bagley, Jr., was fined $5, costs $19.93, which he paid.

NAVY YARD ITEMS.

The U. S. S. Marion hauled in to the wharf at the navy yard on Monday.

Estimates are being made as to the cost of needed repairs on the tug Leyden.

George A. Bartlett, et al., to Eliphalet B. Wood, land, $200.

CANDIA.

J. Lane Fitts, Ex'r, to Harvey E. Buxton, et al., of Lowell, Mass., land, $1305.

Wanted to Laugh.

"Yankee" Hill, a famous actor in the first half of the present century, used to tell a story (which Mr. J. B. Matthews re-tells in his articles on "The American on the Stage" in *Scribner's* for July), of the early days of the theatre in this country. Hill once "showed"—to use a professional phrase—in a town in the western part of New York where no theatrical performance had ever been given. He found the audience assembled with the women seated on one side of the hall, the men on the other, exactly as they were used to sit in church; and throughout the play the most solemn silence was observed. They were attentive, but they gave no evidence of approval or displeasure; there was no applause, no laughter; there was not even a smile; all was solemn stillness. He did his utmost to break the ice; he did everything a clever comedian could do, but in vain. He flung himself against their rigidity; it was no use. The audience was evidently on its best behavior, and the curtain came down at last amid a silence oppressive and almost melancholy. After the play, Hill, worn out by his extra exertion and mortified at his want of success, was passing through a public room of his hotel, when he was stopped by a tall countryman with the remark:

"Say, mister, I was into the play tonight."

"Were you?" said Hill. "You must have been greatly entertained!"

"Well, I was. I tell you what it is now, my mouth is all sore a-straining to keep my face straight. And if it hadn't been for the women, I'd 'a' laughed right out in meetin'."—*Ex.*

One of our citizens claims that "Yankee Hill" was, like himself, a native of the north end of Portsmouth, where he bore, when a school-boy, the nickname of "Gisby," and that he came and spent a day or two with him in later years at his home in the suburbs. In 1833, and thereabouts, he found employment as a star comedian in the large theatres of the Union, where he performed with great popularity in the line of characters that won for him his title of "*Yankee*" Hill. He was afterwards the manager, for a while, of Peale's Museum, in Broadway, New York, where he performed curiously interesting experiments in mesmerism upon a boy, whom he had under perfect control. Mesmerism being a new thing then, at least in more modern times, it attracted great attention, but in a few years it became so common as to lose all its interest, although no one was able to understand the mystery connected with it any more than is done at the present day. James H. Hackett, whose son, of the same name, is now one of the judges of the New York courts, was also performing in the same line of characters as Yankee Hill, which he afterwards resigned for those of "Rip Van Winkle" and "Falstaff," having in the latter no equal upon either the American or English stage.

—A man at Chapmanville, Va., had a chance to find out how long he could stand on his toes. Robbers took his money, hanged him to a tree and left him. By pressing his toes on the ground he could relieve the choking of the noose around his neck, and in that way he stood for thirteen hours, but was on the point of giving up when help came.

MARRIED.

HOSTETTER'S CELEBRATED STOMACH BITTERS

The wear and tear of business life makes such tremendous drafts upon body and mind that without recourse to some sustaining agent they must give way under the pressure. To those who are breaking down, or wasting away from general debility or affections of the liver, stomach and the kidneys, a systematic course of the Bitters will so reinforce the vital functions as to baffle all the assaults of disease and restore the system to its wonted health.

For sale by all Druggists and respectable dealers generally.

A NEW LOT OF THE CELEBRATED

Willis G. Myers Pencil!

Just received. Try them.

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

It is a happily established fact that Fellows' Compound Syrup of Hypophosphites will retard vital consumption, increase involuntary muscular power and thereby harden the organs, promote vitality and facilitate restoration. It consequently possesses the wonderfully property of prolonging human life.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D., New York City.* eod&winov79

ROYAL BAKING POWDER

Absolutely pure—made from Grape Cream of Tartar, imported exclusively for this Powder from the Wine district of France. Always uniform and wholesome. Sold only in cans by all Grocers. A pound can mailed to any address, postage paid, on receipt of 60 cents. ROYAL BAKING POWDER CO., 171 Duane St., New York. Most cheap powders contain alum; dangerous to health; avoid them, especially when offered loose or in bulk.

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

New Hampshire Items.

Benjamin Weeks of the firm of J. H. & B. Weeks, butchers, of Gilford, was arrested and brought into the police court at Laconia, Saturday, charged with selling diseased meat.

At a picnic in North Dorchester, Friday, James J. Jesssoman, H. J. Jesseman and Edward Jesseman got into a disturbance with Charles Hardy, Edward Smith and George Dolloff. The Jessemans were pretty roughly handled. Henry Jesseman's face was badly pounded, and his collar bone was broken.

The seventn annual meeting of the New Hampshire Antiquarian Society will be held in Contoocook on the 15th inst., at ten o'clock in the forenoon. In the afternoon Hon. Clark Jillson of Worcester will deliver an address on "Secession in New Hampshire in 1778."

The corner-stone of the St. Joseph Catholic church at Laconia, Father Lambert pastor, was laid Sunday by Bishop J. A. Healey of Portland, Me. The bishop also blessed the chapel as an oratory, and confirmed about 125 children, including delegations from Franklin and Ashland. Many prominent Catholic and Protestant citizens were present.

—Parlor magazines--Kerosene lamps.

—The rustic whose ginger-bread is annually stolen by the elephant was at the circus last week, and this time when the appetizing comfit was suddenly snatched from him he shook his fist at the huge thief and yelled while the tears coursed down his cheeks, "Darn yer, ye double-tailed fool, give that back here or I'll knock yer two front teeth down yer old throat!"

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
The Gazette s published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.
It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.
—THE—
NEW HAMPSHIRE GAZETTE
Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.
TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.
Subscriptions Received

INCORPORATED JANUARY, 1873. WORLD'S DISPENSARY MEDICAL ASSOCIATION. BUFFALO AND LONDON. CAPITAL STOCK, $1,000,000.
(*Successors to R. V. PIERCE, M. D.*)
DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the INVALIDS' HOTEL. The organization has been completed and incorporated under the name and style of World's Dispensary Medical Association, with the following officers:
Hon. R. V. PIERCE, Pres. F. D. PIERCE, V. Pres.
JNO. E. PIERCE, Sec. LESTER B. PIERCE, Treas.
NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty, and CURE OF DISEASES of all forms comprehended in the province of our several specialties.
LUNG DISEASES—Firm direction of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases treated with the most successful results.
DISEASES OF WOMEN—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.
NERVOUS DISEASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We also treat successfully, by a new method and without surgical operation, Cancers, Club-feet, Spinal Curvature, and other deformities. (See pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.)
Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN
By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.
To designate this natural specific, I have named it
Dr. Pierce's Favorite Prescription
The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as the climax or crowning gem of my medical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. (For conditions, see pamphlet wrapping bottle.)
The following are among those diseases in which my Favorite Prescription has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not extol this medicine as a "cure-all," but it admirably fulfils a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.
Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.
Favorite Prescription sold by Druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

PORTSMOUTH

Daily Chronicle.

Smoke in Any Room.

A lady writes thus to a western paper: "Make home a home, and make it one in every sense of the word. My husband is a great smoker; he loves to play cards, dominoes and chess; he is at perfect liberty to smoke in any room in the house, and I am always ready and willing to join him in the different games. I endeavor in every way to be not only a helpmate, but a companion, to him, and the result has been that I have and enjoy his society; he prefers spending his evenings at home with me to seeking other society. I cannot understand why women will run the risk of losing their husband society and love merely for the sake of gratifying an over-fastidious taste. If they do not like tobacco, did they object to his using it during the days of courtship? And if they objected then and failed, why did they marry? If men will not give up such habits at the solicitations of their sweethearts, it isn't likely they will be persuaded out of them by their wives; therefore I think it unwise for a woman to risk her happiness quarreling with her husband over a trivial fault, the existence of which she knew and perfectly understood before she took upon herself the duties of a wife."

What Ails the Potatoes?

The editor of the New England *Farmer* writes as follows in that paper of June 28th:

Quite serious complaints are being received from the subscribers to the *Farmer*, of the present condition and prospects of the potato crop. The potatoes have been a long time coming up, and now there is very little growth, the vines looking small and sickly, and giving promise of anything but a profitable yield.

During a recent visit among some of the best farmers of Franklin, Mass., we saw large fields of potatoes that appeared in this same sickly condition. Fields that had been planted a month or more showed very vigorous plants, while the greater part were exceedingly small and spindling. In some cases farmers are proposing to plow and replant to some other crop, while others will put in beans between the hills. So far as we can judge, the season has had much to do in dwarfing the potato vines. Planting was done so late that the seed had sprouted in the cellars and drawn largely upon the vitality of the tubers, leaving them so weak that, with the cold, backward weather which has prevailed during the early part of June, they have hardly been able to push their shoots through the ground, especially where covered by plows, a practice that is getting customary in many sections. Potatoes, to do well, should be planted early in spring, when the sprouts first begin to grow; then all the vitality of the tuber is sent into the new growth. If planting is delayed, the sprout growth still goes on in the cellar, using up the material stored for the use of the new plant, without accomplishing anything for the farmer.

The Early Rose variety seems to have suffered most by the late planting. This is an early sort, and has become so popular, on account of its many good qualities, that it is planted more extensively than any other, and in some sections than all other kinds put together. If it proves a failure this year, many will claim that the variety has "run out," and that newer sorts will have to take its place. Potatoes undoubtedly do run out, but we think not without cause, and in the present case the cause that is tending to destroy the Early Rose seems quite apparent. Potatoes to be planted should be treated with the greatest care during the winter and early spring. If to be planted for an early crop, they should be brought up into a warm atmosphere, and where there is plenty of light. If placed singly on shelves, the sprouts will start out short and stocky, while, if kept in barrels or piles, only those on the surface will be in the best condition; those at the bottom and interior will have long, slender shoots, which, on being handled, will be broken off or bruised enough to destroy them. Potatoes in perfect condition for planting are full of life and activity, but not far enough advanced in growth to show a sprout more than a sixteenth of an inch long, or not long enough to be injured by careful handling. Nor do we believe in covering potatoes deeply with a plow, unless quite sure of warm, growing weather immediately after they are planted. If the ground is properly plowed and pulverized, potatoes may be sufficiently well covered by hand-hoes nearly as fast as a man can walk. One hoeful of soil drawn lightly over the set and without the usual "patting down," is all-sufficient where there is no heating manure in the hill to dry up and kill the potato. After the sprouts break the ground they may be covered a little deeper, without injury, at the first hoeing.

In the vicinity of the large fields alluded to above are small gardens owned by Irishmen, who planted early in the spring, while the seed was in good condition, and these are looking as well as any potatoes we have seen in any year. There are also small plantations from seed brought from Maine and Nova Scotia, which are looking well. Probably the tubers were in better condition when planted. Our own potatoes are quite as promising as in any previous year, the vines being large and stocky, but the seed was nearly all planted in season to save the first sprouts that pushed from the eyes.

Potato beetles, in this section, have been plenty, but the weather has been so cold that their eggs have been very slow in hatching, so that the young slugs are not as yet doing much damage. Reports from the west indicate that the potato crop will be a good one, a very large area being planted, and not much damage from beetles.

Portsmouth Chronicle

WEDNESDAY, JULY 9, 1879.

Portland's Railroad Interest Sold.

The city of Portland's interest in the Portland & Rochester railroad was sold Tuesday morning to George P. Wescott, the present receiver, for $236,500. The bids started at $201,000. Frederick Fox went as high as $208,000; Lawyer Snow, supposed to represent Mr. Furber of the Boston & Maine railroad, went $230,000; Wm. G. Davis, director in the Maine Central, went $236,000. Woodbury & Moulton, brokers, also bid.

The Regular Army.

As there is no organization in New England of ex-officers and privates who have been honorably discharged from the regular United States army, and as that portion of the army performed an active part in the late civil strife, it is proposed to hold a fraternal session of all who have been honorably discharged. It is therefore desired to celebrate the anniversary of the second battle of Bull Run upon August 30th, by a social gathering. Comrades will please notify Thomas E. Ballard, of Station A, Boston, Mass., of their post-office address and intention of being present.

Naval Affairs.

The U. S. S. Kearsarge, bound from New York for St. Johns, Newfoundland, passed Little Gull light, off New London, Conn., on the 3d inst.

A despatch from Greenville, Miss., July 5th, says the United States man-of-war Wachusett remained hard aground opposite Lake Providence. A steam tug was expected on the 7th to assist in pulling her off. A despatch of the 8th says: "The Wachusett got clear of Lake Providence sand bar yesterday. She returns to Vicksburg to coal and to provide herself with an efficient pilot, after which she will proceed on her way up the river."

News and Notes.

The skeleton of a medium sized man was found in the woods Monday, one mile from the town of Milford, Mass. He had evidently been dead a year or more. No one in that vicinity has been missed.

In a lively row at the Ocean house in Newburyport, Monday night, caused by a refusal to pay for drinks, one rough named Heath, from Haverhill, received several gashes from a bottle, and the bar keeper was cut over the eye and badly bruised.

The Cornville, Me., town officers recently had a hard time removing Abel Brown and other charges from the poor farm, some of them being badly bitten and beaten by the mutinous paupers, and their purpose was not accomplished till Brown was probably fatally shot, and his mother severely cut. Paupers able to make such a vigorous fight as that should be made to earn their own living or starve.

The New York *Sun* says that Mrs. Fuller, said to be the wife of the manager of A. T. Stewart & Co.'s Chicago house, and daughter of Mr. Beckman, a well-known real estate agent in New York, was chlorformed and robbed in one of the principal streets of Montclair, N. J., Sunday evening. The lady is a summer boarder at Montclair in a fashionable private boarding house. At the time of the robbery, persons were at supper in a house within a few yards of the spot where it took place. New York residents at Montclair are much excited over the robbery, as their wives and daughters are in the habit of promenading in the street in the evening.

Joseph Akins, a fruit gardener near Greensburg, Pa., shot his wife dead Sunday afternoon, and, after telling his nearest neighbor that he had "killed the old woman," placed the muzzle of a gun under his chin and fired, killing himself. The trouble is believed to have arisen from a quarrel about the little piece of property where they lived. Akins was seventy-one and his wife seventy-three years old.

The friends of Porter, the actor who was the victim of a cowardly and unprovoked murder by one Currie, a high-toned ruffian in Texas, some months ago, have raised a fund of $4100 to prosecute the murderer, but Currie's friends in Texas have subscribed $25,000 for his defence. The notion that a southern jury can be brought to convict a southern gentleman for merely assassinating a northern man is ludicrous enough.

Annie Brown of Lowell, Mass., thought she had taken prussic acid, and laid down to die in front of the station-house, but the suspecting druggist had cheated her, and Annie still lives, aged forty-two years.

The dead body of Lewis M. Libby, who has been missing some days from Temple, Me., was found on Monday in the woods, sunk three or four feet deep in a mudhole, about fifty rods from the cornfield in which he was last seen at work, and a third of a mile from his house. Three young men of the party engaged in searching the woods for Mr. Libby, raching down in the mud with a hoe, brought the body to the surface. There is no doubt that Mr. Libby was murdered, and suspicion is very strong against a man who was at work with him on the day he disappeared.

George W. Patterson, a prominent democratic politician of Newark, N. J., convicted of libelling Chancery Clerk Little, has been sentenced to $500 fine.

A colored man named Charles Williams was caught by a fish and drowned at Lawrence, Kan., on the 2d inst. He was fishing in the Kansas river, and while attempting to land a large catfish near the falls was drawn into the flood and lost. It is the custom of the fishermen there to wade into the stream, and when they have found a large fish, a spear, connected with a rope which is attached to the wrist, is plunged into its back. Sometimes the fish, if he be a large one, makes a desperate struggle before he is landed. This was one of those cases. Williams failed to slip the loop which was about his wrist and let the fish go. Catfish have been taken from the Kansas river weighing from 150 to 200 pounds.

The captain of the steamer Saxon, which arrived at Philadelphia on Monday from Boston, reports that on Sunday afternoon he saw a balloon of peculiar shape moving over the sea, and finally settle into the water about fourteen miles from the steamer, and three miles ahead of a barque which was evidently steering for it.

It is reported that there has been more fighting in South America, and that a severe battle at Calama resulted in its capture from the Chilians by the Peruvians and Bolivians, the Chilians losing 1500 killed. Four Chilian war vessels are reported to be blockading Iquique, Peru.

Prof. James K. Allen, who made a balloon ascension at Troy, O., on the Fourth, was up ninety minutes, travelled over one hundred miles, and landed safely near Harrisburg, Pickaway county.

On Saturday a boy named Vandette, of Ottawa, Ont., quarrelled with his little sister, aged six years, and drew his revolver and shot her, the ball lodging in her temple. She died Monday in great agony.

Mexico has another little rebellion, this time at Vera Cruz. On the 26th ult. the crew of the war steamer Libertad seized the vessel while the commander was on shore, and put to sea, other war vessels pursuing her. At the same time the garrison in the city attempted to raise a revolt, but it was put down, and nine of the mutineers were killed. A reign of terror is said to exist in Vera Cruz since these occurrences.

The British press are quite unanimous in the opinion that long-distance walking is a foolish waste of good muscular tissue and should be discouraged. Weston's performance disgusted them.

New Hampshire Items.

The arrangements for the Unitarian grove meeting at Weirs Landing, July 21st to the 28th, inclusive, are now substantially completed. All letters of business, such as for board, etc., during the meeting, should be addressed to Rev. Enoch Powell, Laconia.

A serious accident occurred at East Jaffrey on the 4th. Freeman Hill, a young man twenty-four years of age, lost a leg and sustained other severe injuries by the bursting of a cannon while engaged in firing a salute.

The Manchester base ball club disbanded at Utica, N. Y., on Saturday last, and several of its late members have already received one or more offers each to join other clubs. A Manchester despatch says: "The Manchesters were undoubtedly a strong team, but labored under serious drawbacks, among which was the lack of change catchers. Few men can hold Leary, and Rowen started on the recent trip badly used up. Under more favorable circumstances Manchester should have stood high upon the list for the championship."

The commission appointed to consider matters relating to the Winnipesaukee cotton and woollen manufacturing company have made a printed report. The result of their investigation is that the lake company have proved a benefit rather than injury to the manufacturing interests of all that section. The evidence almost without exception points in this direction, and the charge that Massachusetts has received benefit from the use of these waters at the expense of people in New Hampshire appears to be entirely disproved.

The Peterboro' light battery has been disbanded and the guns have been removed to Hancock, and now are in possession of the Hancock light battery.

On Saturday night a cottage house at Goffstown, west village was burned, and the owner, Mrs. Batchelder, eighty years of age, perished in the flames before assistance could reach her.

Last Saturday a singular phenomenon was observed by several citizens of Wolfeboro'. The water of the lake within the space of ten minutes rose about a foot, and then falling back a second time rose nearly as high. What makes the phenomenon still more remarkable is the fact that the wind was at the time blowing off shore very strongly.

The teachers' festival opened at the Fabyan house on Monday, about 400 arriving that day, and many more on Tuesday. The business meeting of the directors was held Monday evening.

Sheriff Kent sold at auction, Monday, to satisfy creditors, the carriage manufactory of C. H. & G. E. Whittier at Fremont. The sum of $1790 was realized, being about fifty per cent of the appraised value.

Benjamin Weeks of Gilford, who was arrested at Laconia, Saturday, charged with selling diseased meat, was tried in the police court Monday, and held in $500 bonds to appear for trial at the supreme court in September next.

Political.

Captain W. S. Howe, of Pittsfield, Me., late commander of Company D, 1st District of Columbia cavalry, testifies to the soldierly qualities shown by Corporal Daniel F. Davis of that company in the battles about Petersburg. Captain Howe says that the corporal was "one of the truest patriots who unsheathed a sword or carried a carbine in defence of his country's honor." Corporal Davis will soon be promoted to the governorship of Maine.

The report which Glover, the champion democratic investigator of the last Congress, failed to induce the present democratic House to publish, has been printed in the New York *Star* and the Washington *Sun*, two widely-circulated and influential democratic sheets which nobody ever heard of before. Glover is now of about as much importance as an exploded fire-cracker on the day after the 4th of July.

Col. Burch, the secretary of the United States Senate, has ordered the discontinuance of the New York *Tribune*, Chicago *Inter Ocean*, Virginia *Enterprise*, San Francisco *Bulletin* and other republican journals, which have been subscribed for regularly for many years at the request of the senators, and kept on file in the secretary's office for their perusal. In their stead Col. Burch has ordered the Charleston *News and Courier*, Nashville *American*, Mobile *Register*, and kindred democratic prints; and even the *Okolona States* is to be taken in compliance with the clamorous demands of the Bourbon democracy, of whose extreme views the *States* is an exponent. No more contemptible exhibition of narrow-minded partisanship has been made of late years than this by the secesh secretary of the Senate.

—Noah's arc—The rainbow.

—Kankakee has a justice who beats them all in the way of doing up a job of matrimonial splicing with neatness and despatch. This is his formula: "Have 'er?" "Yes." "Have 'im?" "Yes." "Married; $2."

SANFORD'S JAMAICA GINGER

Enlarged May 1,1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. ASK for SANFORD'S. 4w

A Brilliant Scene in New Orleans.

On the 17th of June last, in the city of New Orleans, there was gathered many of the principal citizens of the Crescent City, in company with a large number of strangers from different parts of the country, there, who as visitors felt interested in the witnessing of the grand extraordinary drawing of the Louisiana State Lottery by generals Jubal A. Early and G. T. Beauregard. The warriors went it at a square by as ever they led a panoplied host into battle, and by the turn of the wheel scattered fortunes right and left. Space would be too great to enumerate, but the next drawing takes place on August 12th, (the invariable second Tuesday) and all other information will be promptly given on application to M. A. Dauphin, P. O. Box 692, New Orleans, La., or the same at No. 319 Broadway, New York city.

Fellows' Syrup of Hypophosphites supplies matter for bone and blood, rendering it highly beneficial for feeble children.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D., New York City.* cod&wtnov79

E. G. PEIRCE, JR., P. M.

AROUND HOME.

Samuel Rowe, Jr., has been appointed fireman on S. F. E. Moses H. Goodrich, vice Thomas Wardwell, resigned.

The St. Mary's Benevolent Association of this city will hold their annual picnic at Pinkham's grove, Dover point, on Wednesday, Aug. 6th.

The steam yacht Emily, with a party of thirty-eight persons on board, including a number of Boston journalists, touched at Newburyport on Tuesday on her way to the Isles of Shoals, on a fishing excursion.

Tickets to Dover and back, good for any regular train to Dover on Thursday, can be purchased at Montgomery's store or at the Eastern railroad station, at forty cents each; a special train will leave Dover for this city in the evening, after the close of Elder White's tent meeting.

The ticket office, baggage room and freight house of the Boston & Maine railroad at Wells, Me., were entered by thieves Monday night. The safe was tampered with but not opened. The ticket case was badly ransacked. A trunk was opened and the contents stolen. No money is missing.

RYE BEACH, July 5th.

The Fourth was to have been celebrated at the Farragut house, as usual, by a grand display of fireworks; but owing to careless expressmen the goods did not arrive in time, much to the disappointment of the crowd of people who had thronged to the hotel from the neighboring cottages and boarding houses. This evening, however, they have been successfully set off, to the music of the Rye band—which, by the way, deserves great credit for improvement during the past year. The Farragut opens the present season most brilliantly; on Tuesday next the superb English coach, owned by Mr. Philbrick, is to make its first trip over the road, with all the accompanying noise of post-horns, etc., and will undoubtedly make a sensation, "coaching" being a novelty in this region. †

POLICE COURT.

TUESDAY, July 8; *Batchelder, J.*

John Dwyer, Peter Sullivan and Timothy Reagan were before the court for maintaining pig-stye nuisances. They were notified by the court that if the nuisances complained of were removed before ten o'clock in the forenoon on Thursday, the 10th inst., further proceedings would be discontinued on payment of costs; otherwise they would be bound over for appearance at a higher tribunal.

LIGHT COMING.

The following, addressed to the board of mayor and aldermen, was circulated among the business and professional men of the city on Tuesday and numerously signed, and Mr. Hanson's request will doubtless be granted by the city authorities:

Gentlemen: I respectfully ask your consent to permit me to speak on Market square on some future evening, upon the subject of the Portsmouth & Dover railroad, for the enlightment of our citizens upon a matter in which the most of them exhibit a profound and utter ignorance.

JOHN K. A. HANSON.

We, the undersigned, cordially unite with Mr. Hanson in making the above request.

[Communicated.]

OUR PUBLIC SCHOOLS.

Mr. Editor: It seems that an effort has been made in the legislature, with some promise of success, to change the present method of choosing the directors of our public schools. Any such step ought to be taken with great deliberation, and only after it is quite sure that something far better is to take the place of what is done away with, for while any change is being made the schools must be the chief sufferers. Nothing is more disastrous to the interests of education than to run to the legislature for a change every few years in the act relating to our schools; it is like the frequent introduction of new text-books, when the fault is not so much with the books as with the teachers; or like the constant interference, by ignorant legislators, with the great interests of trade, which undisturbed find their truest courses. The public is not so much concerned about the *manner* of choosing school directors, as about the *persons* who are selected, and a plan which might not be in all respects the best that could be devised, will work more efficiently than for the schools to be subject to changes which do not touch radical defects. The feature of the present system of appointment which is the most commendable is that but a third of the number is changed every year, giving to the board a certain degree of permanence which is most desirable in order to carry to a successful end any improvement. There is however no reason why there should be any exception made in the method of choosing our school board; the whole system of education belongs to the public, and this is the one thing even beyond all others in which the public should have a direct interest and vote—in the long run this principle, which belongs to our whole idea of government, must prove the most satisfactory, and better still if it were a separate election when that one matter is presented to the people to the exclusion of all other political or municipal questions.

It has been a great advantage in our public schools from the beginning, that some of their directors have been citizens chosen not because of any careful education or literary training, but men of good, practical judgment in all the affairs of life. The advice of such persons in many questions which constantly arise in the management of schools and the results of teaching, is of incalculable value; but one great drawback in this is that the same persons are tempted to use their influence in regard to matters which concern the purely professional side of education. Education is now one of the sciences. In no cultivated community can one be accepted as a teacher who is using this position merely as a stepping-stone to another. While some by long experience, or a real success have easily proved that teaching is not only their avocation but their vocation, no one to-day ought to be selected for even the primary department without the training of a normal school. Nor has the matter been much helped by putting upon the board as a kind of fashionable ornament one or two clergymen, or one or two college graduates, as if, because they were themselves educated, they could wisely direct the education of others. It does not follow that a college training gives any special fitness for the organization of public schools; in many cases it does not. But the idea which lies behind the appointment of two or three persons reputed to be educated, on every school-board, is substantially correct. It is that there is something in education which requires the attention of those who are educated, and the reason why we have so many failures and disappointments about the training which our schools ought to give, is that this something is generally decided or managed by those who know nothing about it,—and changes are made in text-books and courses of study, and methods of teaching, merely out of personal caprice, or partisan enmity, or individual interest, and all the time the schools suffer.

It is a serious question whether the time has not come, when the only correction for the poor condition of our schools (and to doubt that it is very poor only shows that such a person knows nothing about what good schools should be) lies in the appointment of a superintendent who should have the entire authority in the course of study, the ordering of the examinations and the appointment of teachers in all our public schools. Such an office need not be permanent, but it should be continued long enough to fairly test its usefulness. The danger of such a plan is that it adds another office which is likely to become the football of politicians, or to be filled by some second-rate or *passe* teacher—but there are persons abundantly qualified for such positions, and even at a large salary it would be economy for the city to find one, and for a few years commit the serious interests of education to his care. If would not, in the end, add to the cost of our schools; it would even lessen it, as a wise and skillful general makes war less costly than a score of ill-trained ones—but costly or not, we are fast approaching if we have not already reached a point where our citizens are not so much concerned about the cost as they are about the efficiency of our schools, and a determination that so large an appropriation shall not go on without some corresponding results, and that it may be even larger so only the children find a better preparation for the work of life.

We must bear in mind that a mere change in the method of choosing a school board will not necessarily improve the schools—but the work of education must be directed by those who know what education is. INQUIRER.

Where it Never Rains.

In Peru, South America, rain is unknown. The coast of Peru is within the region of perpetual southeast trade winds, and, though the Peruvian shores are on the verge of the great southeast boiler, yet it never rains there. The reason is plain. The southeast trade winds in the Atlantic ocean first strike the waters on the coast of Africa. Travelling to the northwest, they blow obliquely across the ocean until they reach the coast of Brazil. By then, they are laden with vapor, which they continue to bear along across the continent, depositing it as they go and supplying with it the sources of the Rio de la Plata and the southern tributaries of the Amazon. Finally, they reach the snow-capped Andes, where is wrung from them the last particle of moisture that a very low temperature can attract. Reaching the summit of that range, they now tumble down as cool and dry winds on the Pacific slope beyond. Meeting with no evaporating surface, and no temperature colder than that to which they were subjected on the mountain-tops, they reach the ocean. Thus we see how the tops of the Andes become the reservoir from which are supplied the rivers of Chili and Peru.

—A blanket on the floor can be used as a bed's stead.

—One of the newest fancies in jewelry is the "old oaken bucket" set in solid gold; the ear-rings are tiny golden buckets, and the pin is a perfect little windlass, with rope coiled around it, from the end of which the bucket is suspended.

—A schoolship for the training of pirates could be filled immediatly with cadets from the class of boys who are reading dime novels. Many a youth standing by while his mother splits wood for cooking dinner, is within his soul burning to be a hero of the high seas.—*N. O. Picayune.*

—Edison has been in the shadow for some time, but he announces an improvement in the telephone. The peculiarity is that it is not necessary to put the receiver to the ear in order to hear its message; indeed, it is fastened immovably to the wall. When the little crank is turned the voice of the distant speaker is distinctly heard all over a large room or a hall. This is not electro-magnetic but electro-chemical, chalk moistened with chemicals being substituted for the magnet.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

The wear and tear of business life makes such tremendous drafts upon body and mind that without recourse to some sustaining agent they must give way under the pressure. To those who are breaking down, or wasting away from general debility or affections of the liver, stomach and the kidneys, a systematic course of the Bitters will so reinforce the vital functions as to baffle all the assaults of disease and restore the system to its wonted health.

For sale by all Druggists and respectable dealers generally.

A NEW LOT OF THE CELEBRATED

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

"The Flurry in Stocks"

Always means an opportunity for some shrewd and lively operator to make a handsome profit. Messrs. Lawrence & Co., Bankers, N. Y., have established the new combination system for operating in stocks, so that capital in any amount from $5 to $50,000 can be used profitably at any time that may suit the customer. By pooling the orders of thousands of patrons into one immense sum, and operating them as a mighty whole, under the most experienced skill, vast profits are made which could be gained in no other way. These are divided *pro rata* among shareholders—monthly. An investment of $10 returns $50, or 5 per cent on the stock. $100 pays $950, and so on, according to the market. A St. Louis patron made over $300 per cent on an investment in October by the combination method. Messrs. Lawrence & Co.'s new circular (mailed free) has "two unerring rules for success," and full information so that any one can operate with profit. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City.

That the Phonograph can "bottle up" the voice and pass it down to future ages is indeed a wonder, but is not the restoration of a *lost* voice more wonderful? And yet Dr. Pierce's Golden Medical Discovery speedily restores a lost voice, cures hoarseness, sore throat, bronchitis, and consumption. Many ministers who had abandoned the pulpit, by reason of sore throat and general debility, have by the use of the Discovery, been restored to perfect health and strength. Sold by druggists.

—Street scene in New York: First ruffian—"Kill 'im! We'll we do with 'im afterward?" Second ruffian (contemptuously)—"You're a green 'un. Why, bury 'im under the rubbish in the street, of course. He'll never be found."

—The boy who woke his father roused his ire.

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
The Gazette s published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.
It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it it the best means of keeping informed of what transpires in this city.
—THE—
NEW HAMPSHIRE GAZETTE
Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

(*Successors to R. V. PIERCE, M. D.*)
DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the INVALIDS' HOTEL. The organization has been completed and incorporated under the name and style of World's Dispensary Medical Association, with the following officers:
Hon. R. V. PIERCE, *Pres.* F. D. PIERCE, *V. Pres.*
JNO. E. PIERCE, *Sec.* LESTER B. SMITH, *Treas.*
NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty.
CHRONIC DISEASES of all forms come within the province of our several specialties.
LUNG DISEASES.—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases meet with the most skillful treatment.
DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.
NERVOUS DISEASES.—Paralysis, Neuralgia, Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.
NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book," (100 pages, 10 cents post-paid).
SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We also treat successfully, by a new method without surgical operation, Cancers, Club-feet, Spinal Curvature, and other deformities. (See pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.)
Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN
By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.
To designate this natural specific, I have named it
Dr. Pierce's Favorite Prescription
The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as the climax or crowning gem of my medical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, I offer and sell it under A POSITIVE GUARANTEE. (For conditions, see pamphlet wrapping bottle.)
The following are among those diseases in which my Favorite Prescription has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not extol this medicine as a "cure-all," but it admirably fulfills a single class of purposes, being a most perfect specific in all chronic diseases of the peculiar province of woman, for which it was designed, nor will it do harm, in any state or condition.
Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 300 pages, sent post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to females, and gives much valuable advice in regard to the management of those affections.
Favorite Prescription sold by Druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., Successors to CHIPMAN, HORNER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. *No fees* for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows a large amount of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. Gilmore & Co. may cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

Chronicle Correspondence.

BOSTON, July 7th.

Such a delightful trip as I have made during the past week, would not be complete if I did not write you about it. I left the city on the afternoon of the 27th of June, in company with the Boston party of nearly one hundred, who were en route for Europe, via New York, with the Tourjee Excursion, which I have so often mentioned in my letters. Of course we went by the Old Colony & Fall River Line,—that goes almost without saying, though they do say that the famous Newport line is quite as comfortable and delightful, minus only the orchestra which is such a charm on the Fall River boats, and the fare for the whole distance only $1.00. It seems incredible, doesn't it? However, we travelled in style, by the Fall River Line, and a thoroughly delightful trip it was, too. But everybody who ever travelled between these two great cities knows these splendid great palace steamers that run on the Sound, too well to need any description of their elegant saloons, pretty state-rooms, easy motion, excellent table, etc, etc. And the beautiful scenery, and the glorious sunset, and the freshness with which one arrives in New York next morning, are all familiar.

But it is dreadful to get out of the babel which surrounds the wharves of New York, especially on a Saturday morning, when the streets are blocked with market-carts and with stacks of vegetables, Oh! those terrible vegetables! I hoped never to see another cabbage in my life! My appetite was certainly in danger, which was a strange prospect for me indeed, but it returned in full force immediately I sat down to the epicurean table which is one of the greatest inducements to visit the St. Nicholas Hotel, though the fact that it is so conveniently located in the very heart of the city is no less an object, especially to business people, to whom "time is money" more than ever, in that immense city. This hotel had been most happily chosen as the rendezous where at the scattered forces of the great Excursion party should concentrate, and thither they had come, singly, in couples or in parties, from all parts of the country, and the many gems of public parlors, the broad corridors, the great dining-room and the beautiful private apartments with which the house is filled, were brightened by the merry party who were meeting and making acquaintance for the first time, preparatory to their long summer's picnic together.

Well, I went on board the magnificent great steamer "Anchoria" which had been chartered for the voyage, and accompanied some friends who are now nearing "the other side," in their eager explorations of the huge ship, and the jolliest time we did have of it! Certainly Messrs. H. M. Gage & Son of London, who conduct the party, began well, with the St. Nicholas Hotel and the "Anchoria," and if the 196 ladies and gentlemen (who are equally proportioned in numbers, oddly enough) who form the party do not have a glorious time it must be their own fault. Great breezy decks; a beautiful music hall with piano and organ, in the centre of which is a great open well, giving air and light to the spacious, convenient dining-saloon below. Blossoming and trailing plants fringe this open space most delightfully, and with the abundance of floral parting gifts to the excursionists which covered the tables, made one of the prettiest sights I have ever seen. Then the arrangement of the state-rooms seemed so far better than I would have supposed possible for so large a party, and the larger proportion of them, which were assigned to those who registered earliest, were positively luxurious in their location and appointments.

But they sailed off and left me with a host of other friends, lamenting ourselves in the sweltering heat of a New York summer noon, and waving our handkerchief from the pier. But it certainly was a satisfaction to go back to the St. Nicholas to lunch and cool off in the beautiful airy suite of rooms of which sister and myself were the fortunate possessors, and New York itself wasn't so bad to stay in two or three days under these circumstances. Of our trip up the Hudson and back (125 miles) in the steamer "Long Branch," which is is so well managed by Captain Lynch and which cost so little (only 50 cents for the entire trip), and of our twenty-four hours' stay at Coney Island, that Aladdin's Palace of a watering place, and which costs so much ($5.00 per day) I wish I might write you more fully, and would, but that time presses, and I must tell you something of our own New England resort of Oak Bluffs on Martha's Vineyard, which was one of my

earliest loves, and has never lost its old charm for me, only that I now admire it more in its quiet beauty of July than in the gayer, exciting August, when it is almost impossible to find a lodging at any price, when the camp-meetings are in full blast, and the hotels doing an immense business, and when hops and illuminations and brass bands rule the every hour of day and evening.

In July, however, prices are not so high, and the place is so perfectly lovely that no one should miss on any account, paying it a visit. The "Cottage City" has opened all its picturesque little doors in its own free-and-easy style, the great grove of oaks is so shady and delightful, and the great ocean which surrounds the island ripples and sparkles in the sun like a sea of jewels, except when it is lashed into white-capped waves by a storm, when it is even more beautiful. Certainly Oak Bluffs is one of the most charming places in the whole world.

Of course we stopped at the Sea View, *the* hotel of the place *par excellence*, and which, by the-way, has been bought, at last, by the Browell of New Bedford who has been the proprietor for so many years. This is good news to Mr. B.'s multitudinous friends.

But a party of friends met us on the day after our arrival and whirled us away from the hotel to one of the loveliest, cosiest cottages in the whole place, where we remained the rest of our visit. Cottage life is bewitching indeed; a perfect *dolce far niente* of existence. Our only regretis that it ended for us so soon.

ROBIN.

Portsmouth Chronicle

WEDNESDAY, JULY 9, 1879.

The State Legislature.

No business was done on the 4th, on which day only ten members of both houses were present, and an adjournment was taken to the 7th, when the houses met and adjourned without doing any business.

On the 8th, in the Senate, Mr. Ordway introduced a resolution regulating the freight and passenger tariffs of railroads, and a large part of the day was taken up in its discussion, after which it was tabled.

In the House the following bills were passed: In amendment to the fish laws; providing for the assessment and collection of the State tax for two years; in relation to the cultivation of the sugar beet; to extend the time for the completion of the Boston, Concord & Montreal railroad; in relation to taxing church property exceeding $10,000 in value, and in relation to the taxation of mortgaged property.

A hearing was held on the forenoon of the 9th inst., before the special committee of the House on the abolition of capital punishment. Various gentlemen appeared and made speeches. It was stated that the committee would report a bill for the commutation of Buzzell's sentence in the afternoon.

"Fiat Money" in Europe.

The men who are so anxious to have the United States government issue a vast amount of irredeemable paper money "based on the credit of the people," are loud in asserting that it could and would be kept at par—though what the "par" of a piece of paper that simply told a lie and promised nothing would be, we have never yet seen explained. Ex-Governor Dingley of Maine, who has been travelling about Europe for some time, in a recent letter from Vienna gives some interesting facts concerning the manner in which even the despotic governments of Europe fail to keep their "fiat" money at par with gold, despite the most stringent laws.

The paper currency of Turkey is worth only from twenty to twenty-five cents on a dollar, and is daily growing worse and causing great distress among the people. Yet the laws of Turkey demand under severe penalties that all shall take this fiat paper at its face value,—and the festive bowstring is not unknown in Turkey by offenders against the law.

The paper currency of Russia is worth only sixty cents on the dollar, in spite of the facts that it is received for all government dues, and that there is some hope of ultimate redemption.

In Italy, the paper currency is worth ten per cent less than gold, and is prevented from falling further only by the pledge of government to provide for redemption at the earliest date. The refusal to name a definite day, however, makes the people afraid of it and keeps it below par.

In Austria, the paper money is about twelve per cent below par, notwithstanding it is received for all government dues; and there is strong prospect of a further decline unless measures are taken to provide for resumption.

Commenting on these facts Gov. Dingley says:

In all these depreciated-paper countries, business is in a much worse condition than in the rest of Europe, which has a currency in gold and silver, and paper redeemable in these. In conversing with the business men of Vienna, we have found all of them complaining of a greater depression of business than exists in Germany, and they ascribe it entirely to the fact that they have a depreciated and fluctuating paper currency to do business with.

Gov. Dingley, however, has found that though the "fiat" currency of Austria, "based on the credit of the people," a "full legal tender" for all debts, and "receivable by the government for all dues," persists in staying below par, yet American paper currency redeemable in gold is worth its face value in European coin. He says:

It has been with some satisfaction that we have found ourselves able to exchange a $5 American note, since resumption, for that value of any gold and silver currency in Europe; and for from ten to seventy-five per cent more of the depreciated paper money of those countries of Europe that are experiencing the evils of an irredeemable currency.

The Arctic Exploring Expedition.

The Arctic exploring yacht Jeannette sailed from San Francisco for the north pole on the afternoon of the 8th inst. Long before the hour fixed for her departure the pier heads and ships along the city front and the hill tops were crowded with spectators, while the bay was lively with yachts and steamers. Some delay occurred, and it was not until four o'clock that the order was given to weigh anchor. The Jeannette was convoyed by four steam tugs, and was attended by the entire yacht squadron, all bearing full loads of spectators. The Jeannette steamed slowly down the harbor, amid the dipping of flags, the screaming of steam whistles and a salute of ten guns. The Jeannette was deeply loaded with coal and stores, and her progress was so slow that it was not until half-past six that she got outside the heads. Here she stopped a few moments, while the wife of Lieut. Delong was transferred to the yacht Frolic, and the steamers and yachts in attendance then passed under the stern of the Jeannette, the crowds cheering for Lieut. Delong and the expedition. The Jeannette's engines again started and, in company with the schooner Fannie A. Hyde, which goes to Behring sea as coal and provision tender, she steamed seaward.

Naval Affairs.

The U. S. S. Enterprise arrived at Copenhagen July 5th.

Gen. Grant and party were convayed from Shanghai to Tein-Tsin by the gunboat Ashuelot. The Richmond, Monocacy and Palos were at Shanghai May 25th. The Ranger was at Amoy.

Passed Asst. Eng. C. J. Habighurst is detached from the Powhatan, and ordered as assistant to the coal inspector at Philadelphia. Passed Asst. Eng. L. L. Smith takes his place on the Powhatan.

The training ship Constellation arrived at Mount Desert, Me., on the 8th inst., on her way to Portland from Halifax, N. S.

News and Notes.

The Mexican war vessel Libertad, the crew of which mutinied in the harbor of Vera Cruz and put to sea with the ship, returned to Vera Cruz on the 30th ult., and surrendered to the authorities. There were several dead bodies on board, some of the crew having made a counter revolt at sea.

Mrs. Sarah A. Dorsey of Mississippi, who died in New Orleans last week, left a will bequeathing her valuable estate to Jefferson Davis.

Mark Lee, a negro, was arrested at Parkersburg, Ohio, on the 8th inst., on a charge of having outraged a white lady in Fayette county, West Virginia, a week before. Officers from Fayette county started home with the prisoner, but at Coalburg he was taken from their custody by a mob of two thousand people, and hanged.

The balloon seen at sea by the captain of the steamer Saxon was an "escape" from Coney island.

The houses of fourteen out of fifteen wards, forming the most important part of Irkutsk, Siberia, were burned on the 4th inst., and many inhabitants are homeless.

North Perry, Me., has an infant giantess in perfect health, which, though but a year old, is three feet high and weighs as much as a healthy twelve-years-old boy. At its birth it only weighed nine pounds. Its great-great-grand-father was a man of extraordinary size.

Mr. Eaton of Danville, Vt., had eighteen sheep killed by one stroke of lightning the other day.

Charles and John McCarthy, Andrew Corcoran and Robert Lindsey, all under fifteen years of age, have been arrested at Lawrence, Mass., for robbery. The youths broke into the store of George C. Jackman & Co., on Amesbury street, and rifled the money drawer.

Capt. Alexander Griffin of Newburyport, sixty years old and for many years a sea captain, is very low from paralysis, produced in part from blows and kicks received July 4th, while acting as a special police officer arresting a rough. The perpetrator of the deed is unknown to the police. Mr. Griffin has been out of health for two years past.

Kate Webster, the Irish servant girl charged with murdering her mistress, Mrs. Thomas, at Richmond, near London, has been found guilty and condemned to death. The body of Mrs. Thomas was boiled to pieces and thrown into the Thames river, and her head burned.

The governor and council had a long session on Tuesday of this week, the occasion being a hearing upon the petition for a commutation of the sentence of Joseph B. Buzzell, the Ossipee murderer. The public session lasted all day; and in the evening the council held a meeting and were in session until ten o'clock, when it was unanimously decided not to commute Buzzell's sentence, and the murderer will be hanged to-day.

A significant illustration of the way the democratic political bull is jumping in Maine, is given in the way the "straight" democratic sheets of the State are treating two bolting papers formerly of their faith. The Belfast *Journal*, always a hard-money democratic paper, having placed the name of Davis, the republican candidate for governor, at the head of its columns, is vigorously disciplined and "read out of the party" in all directions; but the Rockland *Opinion*, a soft-money democratic sheet which strongly supports Smith, the greenback candidate for governor, is not molested at all.

SANFORD'S JAMAICA GINGER

Enlarged May 1, 1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseased and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

Fellows' Syrup of Hypophosphites supplies matter for bone and blood, rendering it highly beneficial for feeble children.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D., New York City.* eod&winov19

HOSTETTER'S

CELEBRATED

STOMACH

BITTERS

The wear and tear of business life makes such tremendous drafts upon body and mind that without recourse to some sustaining agent they must give way under the pressure. To those who are breaking down, or wasting away from general debility or affections of the liver, stomach and the kidneys, a systematic course of the Bitters will so reinforce the vital functions as to baffle all the assaults of disease and restore the system to its wonted health.

For sale by all Druggists and respectable dealers generally.

Portsmouth, Great Falls & Conway Railroad.

The annual meeting of the stockholders of the Portsmouth, Great Falls & Conway Railroad will be held at the Ward Room on Elm Street, near the Eastern Railroad Station in Portsmouth, on Tuesday, the fifteenth day of July next, at half-past ten o'clock in the forenoon, for the choice of Directors for the ensuing year, and to transact any other business that may come before them.

AROUND HOME.

The Marshall house at York harbor had sixty guests on the 7th inst., and every coach since has arrived full.

The legislature has passed the bill making a correction in the charter of the Dover and Eliot bridge company.

Mrs. Henry Whipple of this city is a step-daughter of Mrs. Nancy Batchelder, the aged lady who perished in the burning of her house in Goffstown west village a few days ago.

The State Senate, on the 8th inst., adopted the report of a committee, "inexpedient to legislate," in regard to a change in the method of electing the school board of this city.

Mr. William Wallace of this city has received the appointment of night telegraph operator and watchman at the Eastern railroad station in Saco, vice McIntire, who goes to Salem to accept a position.

If the gentleman who borrowed our umbrella a week or so ago will kindly lend it to us for a couple of days he will confer a favor; we want to go to a picnic, and will return the umbrella as soon as we get back.

The U. S. S. Marion is likely to stay at the navy yard for several weeks, as she requires a new cylinder head. Her machinery was taken apart on the 9th inst., at which time the need of a new cylinder head was developed.

Eighty female stitchers in Wallace's shoe manufactory at Rochester struck for higher pay on the morning of the 9th inst. It is said that public feeling is with the strikers, and that unless a compromise is made at once a general strike is imminent.

A Washington despatch of the 8th inst. says the training ship Portsmouth had orders to leave Newport the next day and proceed as far north as Halifax, stopping on the way ten days each in Boston, Portsmouth and Portland for the purpose of enlisting boys for the navy.

At a meeting of the New Hampshire Agricultural society, held at the American house in Dover on the 9th inst., it was voted to hold the next State fair at Granite State park in Dover, Sept. 16th, 17th, 18th and 19th, and to admit York county, Me. Rev. W. H. H. Murray was chosen to deliver the address.

The "Lightfoot" and "Tumbler" base ball clubs, of York corner, had a game on the 4th which resulted in favor of the Lightfoots (or Lightfeet—we don't care which way the plural is formed) of which (or whom) A. C. Moulton is captain. One of the Tumblers was severely injured about the face, lips and teeth by a foul ball.

The store of Moulton Bros., at York corner, Me., was burglarized by one or more persons on the night of the 30th ult., entrance being effected by forcing a shutter. The thieves helped themselves to a luncheon of raw ham, crackers and cheese, and stole about five dollars in change, a few pounds of tobacco and some other small articles.

The "tally-ho" coach belonging to the Farragut house at Rye beach was driven about town on the 9th inst., loaded down with merry passengers, and attracted everybody's attention. Some of the gentlemen were particularly zealous in their endeavors to get music out of the post-horn, but truth compels us to say that their zeal was far ahead of their skill.

Mr. Charles Berry, who occupies the Wm. Tarlton place at Freeman's point, has an apple tree on which the fruit is as large as English walnuts, while this year's growth of wood is thickly covered with blossoms. Mr. William Plaisted, who lives on Park street, reports that in his garden two pear trees are well loaded with fruit, while the new growth of wood is in full bloom.

There was a conference in Boston on the 9th inst., between the representatives of the Portsmouth & Dover and Eastern railroads, but no satisfactory conclusion was reached the in question at issue. The Eastern railroad it is said will submit a statement tending to show that the rental of the Portsmouth & Dover road should in equity be reduced to four per cent on the capital stock, instead of remaining at six per cent as at present.

PORTSMOUTH REFORM CLUB.

On Wednesday evening of this week the Reform Club elected officers for the ensuing quarter, as follows:

President, Geo. W. Randall.

Vice President, Edward F. Hall, James R. Eaton, Richard Roberts, Robt. W. Phinney, Frank P. Norton.

Secretary, Wm. T. Wallis.

Treasurer, James Janvrin.

Chaplain, George Frost.

Finance Committee, Frank W. Miller, Sylvester Wright, Sewell W. Webber.

Ticket Seller, A. L. Stringer.

Ticket Takers, Benj. Powell, Samuel Taylor.

Trustees (to fill vacancies,) James Sanborn, Dan'l L. Randall.

After the election, and reports of the committees, a number of the officers-elect addressed the meeting. The club starts out in the new quarter with a determination to do all that is possible to help the cause. The club are to have a picnic in Pinkham's grove, a week from to-day.

WILLIAM FERNALD LAIGHTON.

William Fernald Laighton, whose remains were brought to this city from Revere, Mass., on the 27th ult., for interment, merits a more extended notice than has yet been given, as the following, prepared for us by a friend, will show:

Mr. Laighton was a native of this city, and a son of the late Samuel Laighton, being a member of the Laighton family which has for so many years been prominent in Portsmouth. In his early manhood he was an energetic democrat, and before the organization of the city government was a member of the town police force, where he displayed the same fearlessness which he always maintained in his after life. When many hundreds of excited voters would be assembled in and about old Jefferson hall, and in consequence of the great political hostility then existing between the whigs and democrats constant rows were occurring, if called upon by the moderator of the town meeting Mr. Laighton would roll up the sleeves of his coat, and being a very active and athletic young man would soon succeed in restoring order. On one occasion, when called upon to arrest a man, the latter drew a knife and made savage threats as to what he would do if interfered with, but to his great astonishment he was instantly grappled with by the fearless officer, who wrested the knife from him and conducted him to the lock-up. When quite a young man, like so many others from Portsmouth and the neighboring towns on the Piscataqua, Mr. Laighton was appointed a carpenter in the United States navy, after which he dissolved all connection with political affairs, other than the casting of his vote as a citizen.

The first ship to which he was ordered was the Vincennes, and he was attached to her at the time of the vigilance committee movement in San Francisco, the vessel being then lying in San Francisco bay. The citizens, suspecting that the United States government would interfere in behalf of the infamous "law and order" rule, viewed the naval men with great jealousy, and it was necessary for the officers of the ship when on shore to show the utmost coolness and discretion to avoid unpleasant complications, and this was done by Mr. Laighton as well as by the commissioned officers. At one time during the civil war he was carpenter of the steamer San Jacinto, a station he occupied at the time the rebel commissioners, Mason and Slidell, were taken from the British steamship Trent.

In June, 1863, he was at Portland, Me., looking after the interests of the government in connection with the construction of some gunboats there. On the night of the 26th of June the revenue cutter Caleb Cushing was captured in Portland harbor by twenty men from the rebel cruiser Archer, and towed to sea. The excitement in the city when the cutter was missed next morning was intense, as the vessel was heavily armed and provisioned for a two months' cruise, and it was believed she had been stolen by her crew and gone to join the Tacony, Florida and other confederate cruisers then depredating on commerce along the New England coast. The passenger steamers Chesapeake and Forest City were hastily armed and manned by members of the 7th Maine regiment, and started in pursuit, overtaking the cutter at about noon, Mr. Laighton being in command of the Chesapeake. The following account of the affair is copied from the GAZETTE of July 2d, 1863:

The Portland *Argus*, whose reporter went down in the steamer Chesapeake in pursuit of the Caleb Cushing, states that Mr. William F. Laighton, of this city, had command of that steamer,—not of her battery as stated by the dispatch. From his graphic account of the encounter we glean the following incidents:—When the cutter fired her first shot Mr. Laighton said to the pilot, "steer for her, and we'll run her down or go to the bottom." The Forest City, however, soon steamed up and got into position to hail the Chesapeake, and asked what course she intended to take. Mr. Laighton proposed that the two boats should attack the cutter, one on each side, but this was deemed objectionable, as the cutter had superior armament, and it was then proposed to run her down. "Will you take the lead?" asked Mr. Laighton. "No; you had better go ahead: we are not prepared," was the reply. "All right," said Mr. Laighton, "we shall steer straight for her and run her down any way we can, and you can take what's left." With cheers, and shouts—"stand by your flag," exchanged between the steamers, the order is received to put on all steam, and run her down by striking her amidships, or else run alongside and board. The cutter was about two miles distant. She displayed no colors. The long brass field-piece on her bow gleamed in the sunlight. Her deck seemed covered with armed men. But the pirates, always so brave in attacking unarmed fishermen and defenceless merchantmen, feared the coming blow. They fired the cutter, took to the boats, and fled. The small boat containing the cutter's crew, (who were still supposed to have run away with the vessel,) rowed towards the Chesapeake. Presently smoke was seen curling up from the cutter amidships, and there was a shout—"they have set her on fire,—sink the devils!" But no, for Mr. Laighton saw a white handkerchief raised in the boat, and said,—"Hold! the first man that fires shall be shot; I am not a pirate to fire on a flag of truce!" The boat came alongside; Lieut. Davenport was among them, and was violently agitated as the men helped pull him on board. He turned and said—"It's hard, after a man has been taken a prisoner, ironed, and his life threatened by pirates, to be shot by his own friends!" The men, one by one, (nineteen in all) came up the side, some of them with the irons on their wrists. Their story carried its own proof with it, and Col. Mason ordered them below.

The schooner Archer, in which the rebels entered Portland harbor, was captured later in the day by the Forest City, the rebel commander, one Wm. Reed, a graduate of the naval academy, and the other men associated with him in the capture of the Caleb Cushing, having been previously overhauled in their boats after escaping from the burning cutter.

When the naval station was established at New London, Conn., some seven or eight years ago, Mr. Laighton was appointed carpenter there; and we believe that was his last active service, he having been placed on the retired list of the navy several years since, having then reached the age of sixty-two years.

A long time before the Masonic fraternity had recovered from the great anti-masonic excitement Mr. Laighton was an active member of St. John's Lodge, No. 1, of this city; and although he never accepted any prominent official position in the lodge, he was always ready to assist in effecting its organization.

Mr. Laighton was three times married, the first time to Miss Ann Walton of this city, the fruits of this union being a son and daughter; the son was killed in the attack on Fort Fisher, he being then a master in the navy; the daughter is now the wife of Dr. Charles H. Evans, of Rockland, Me. His second wife was a lady of Charlestown, Mass., and after her decease he married a Boston lady, who survives him.

A Bourbon Reminder.

John Brown, Jr., a son of the historic John Brown, having gone to Kansas to render what aid he may to the colored men now fleeing to that State to escape the oppression of their former owners, the *American*, a Bourbon democratic sheet published at Nashville, Tenn., reminds him that his father "injured his footing in the world by promoting a negro exodus." True; but the name of Old John Brown is to-day known and honored by lovers of freedom and friends of humanity all over the world, while the memories of the slaveholders who put him to death are buried in merciful oblivion. Perhaps the *American* intends to give a hint that the southern democrats now feel themselves strong enough to again treat all who endeavor to ameliorate the condition of the negro in the way they were wont to treat them before the war; but the world has moved somewhat since then, though the Bourbons have not yet found it out.

—An Indian translation of Romeo and Juliet has appeared at Bombay. The chief personages of the drama bear the names of Ajaysintha and Vilasvati.

—The man who owns a fine gold collar-button with a diamond set in the centre always considers it cooler and more comfortable to go without a necktie.

—Blondin, of tight-rope fame, is said to have lost much money of late by the failure of a European bank, and to have been reduced to comparative poverty.

—Painted tin bugs of an unknown insect family, with legs that are fastened on very thin wires, constitute the latest ornament for a cheap scarf pin. A slight movement sets the leg in motion and the bogus bug looks like a genuine insect coolly walking over a man's scarf.

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

That the Phonograph can "bottle up" the voice and pass it down to future ages is indeed a wonder, but is not the restoration of a *lost* voice more wonderful? And yet Dr. Pierce's Golden Medical Discovery speedily restores a lost voice, cures hoarseness, sore throat, bronchitis, and consumption. Many ministers who had abandoned the pulpit, by reason of sore throat and general debility, have by the use of the Discovery, been restored to perfect health and strength. Sold by druggists.

—Dresses buttoned behind are not nearly as fashionable as they have been, even for girls.

—Young housewife—"What miserable little eggs again! You really must tell them, Jane, to let the hen set on them a little longer."

—Japanese fans will be decorated this year with highly improbable flocks of red hens refusing to be "shooed" by a ridiculous blue woman.

—A publisher offered $1000 for a story that would make his hair stand on end. Many tried for the money, but nobody got it, because the publisher was totally bald.

— The hippopotamus escaped from Coup's menagerie, while they were packing up at Rochester, N. Y., the other night, and was found standing in the water some miles off fast asleep.

—A bankrupt wanting to gain time, ordered 400 copies of a circular printed, which he intended sending his creditors, informing them that he could not settle with them immediately, but would at the earliest moment take great pleasure in accommodating them. The printer brought them around, together with his bill. The insolvent gentleman looked at it, said it was correct, took out a circular, signed it, and handed it with the utmost grace and politeness to the printer, who was dumb with surprise at finding himself thus put on the list of creditors.—*French paper.*

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.
It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

NEW HAMPSHIRE GAZETTE
Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

INCORPORATED JANUARY, 1873. WORLD'S DISPENSARY MEDICAL ASSOCIATION. BUFFALO AND LONDON. CAPITAL STOCK, $1,000,000.

(*Successors to R. V. PIERCE, M. D.*)
DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resolved to a professional business for exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the **INVALIDS' HOTEL.** The organization has been completed and incorporated under the name and style of **World's Dispensary Medical Association,** with the following officers:
HON. R. V. PIERCE, *Pres.* E. D. PIERCE, *V. Pres.*
JNO. E. PIERCE, *Sec.* LESTER B. SMITH, *Treas.*
NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty.
CHRONIC DISEASES of all forms conquered within the province of our several specialities.
LUNG DISEASES.—The division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Tubercular, and Lung Diseases treated with the most successful results.
DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.
NERVOUS DISEASES.—Paralysis, Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.
NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1 00 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book" (100 pages, 10 cents post-paid).
SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We also treat successfully, by a new method without surgical operation, Cancers, Club-feet, Spinal Curvature, and other deformities. (See pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.)
Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN
By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.
To designate this natural specific, I have named it
Dr. Pierce's Favorite Prescription
The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as the **climax or crowning gem of my medical career.** On its merits, as a positive, safe, and efficient remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** (For conditions, see pamphlet wrapping bottle.)
The following are among those diseases in which my **Favorite Prescription** has wrought cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Womb, Impotency, Barrenness, or Sterility, and Female Weakness. I do not extol this medicine as a "cure-all," but it admirably fulfills a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.
Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats intimately of those diseases peculiar to females, and gives much valuable advice in regard to the management of those affections.
Favorite Prescription sold by Druggists.

Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

SANFORD'S

JAMAICA GINGER

THE QUINTESSENCE OF JAMAICA GINGER, CHOICE AROMATICS, AND FRENCH BRANDY.

A PREPARATION so elegantly flavored and medicinally effective as to utterly surpass all previous preparations, Essences or Extracts of Ginger, Compound, Herb Teas, Pain Relievers, and the hundred and one disgusting and nauseating potents with which we have been wont to dose ourselves. Its instantaneous effects are

Cholera, Cholera Morbus, Cramps and Pains, Chronic Diarrhœa, Dysentery and Cholera Infantum, Diarrhœa in Teething and all Summer Complaints, Dyspepsia, Flatulency, Sluggish Digestion, Want of Tone and Activity in the Stomach and Bowels, Oppression after Eating, Rising of Food and similar Ailments, Chills and Fevers, Colds and Chills, Feverish Symptoms, Malarial Fevers, Pains in the Bones and Joints, Symptoms of Rheumatism, Neuralgia and Gout, Cold Extremities, Suspended Circulation and Depressed condition of the Vital Forces, render it the Standard Household Medicine throughout the length and breadth of the land. On sea, on land, for the traveller, for the young, the aged, under all circumstances and conditions, both as a medicine and as a gentle stimulant or beverage, it is the most grateful and effective preparation ever compounded in the history of medicine.

Beware of diluted and worthless imitations recommended by dealers for purposes of gain. ASK for and SEE upon having SANFORD'S JAMAICA GINGER.

Sold by all Wholesale and Retail Druggists, Grocers, and Dealers in Medicine throughout the United States and Canadas. Price, 50 cents per bottle. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

JOHN P. SWEETSER,

46 Market Street,

PORTSMOUTH

Daily Chronicle.

The Attitude of the Democracy.

The New York *Evening Post* cannot be charged with being a partisan journal or with undue warmth in its support of the republican party. Indeed, it is always prompt to criticise the policy, the measures and motives of republican leaders. It, however, is able to see the political position as it is, and at the present time charges the present sectional issues to the attitude of the "solid south" and the issues raised and maintained by the democratic leaders. In a recent article it asserts that "the democratic party is laboriously rebuilding its platform with worm-eaten planks and patiently reforming its old lines," and in that fact finds it quite natural for the republicans who have once won by combatting the same heresies to which the democracy are now wedded, to still oppose them upon the old battle-ground. It does not consider that the attitude of the republicans is an "untimely intrusion" unless we are prepared to regard the action of the defeated democrats as an "impertinence." It then sums up the democratic position as follows:

Yet what do we see to-day? We see a solid south. It is not waving the bloody shirt to recognize the fact that the south is as solid as it has been at any time for twenty-five years. Of course we do not mean that it is solid to make war on the Union, but it is solid in a party sense. Is it solid for soft money or hard money? No less eminent a representative than Senator Hampton says it cares for none of these things. Is it solid for reform in the administration of the government, for economy in expenditures, against the appropriation of money for subsidies and other improper or doubtful purposes? We know that this is not the object of its unity. What is it solid for if not for the old narrow notions, the mischievous historic doctrines? After all the tremendous events of recent years we hear a senator of the United States talking in the old fashion about "his people," as if the south was a country foreign to the Union. We hear another senator of the United States mentioning the late wretched sectional struggle in Congress as a companion piece to the Declaration of Independence. These are small signs, but they are truthful ones. The great sign is the solid south, and if that is not a gross political anachronism it is hard to imagine what would be. We see in the democratic party of the north a single purpose to encourage the solidity of the south and to profit by it. The tongues of the party orators were not more paralyzed in 1860 in respect to matters which might offend the south than they are to-day.

A Bad Man from Boston.

The veracious Virginia (Nevada) *Chronicle* tells this shocking story:

A Virginia gentleman, just up from San Francisco, confided some of his expenses to a *Chronicle* reporter yesterday. While at the bay he stopped at the Palace hotel and made a practice of dropping into the bar-room of that establishment of an evening, it being a retired and rather high-toned place. On Wednesday evening last the Comstocker lounged into the bar-room and was pleased to behold there as the only occupants Senator Sharon, Seth Cook, Tom Sunderland and a few other big capitalists, sitting at a large round table, in the centre of which stood sundry bottles bearing the mystical word "Roederer." Presently a middle-aged man, soberly dressed in black broadcloth and wearing a plug hat, staggered in from the hallway, and lurching up to the bar yelled for everybody to come up and have something to drink. The Sharon-Cook party paid no attention to the boisterous new arrival, but quietly went on with their gossip and Roederer. Giving a furious whoop and smashing his tile down on his head, the stranger performed a war dance to the middle of the room and declared himself. He was a bad man, he said, and always made it a practice to strew upon the floor the bowels of any person who declined to drink upon his invitation. To point his remarks the stranger wound up by drawing an eighteen-inch Arkansas toothpick from the back of his collar, and advanced upon the table. There was a stampede. When the Virginian peeped up from behind the bar, to which position he had quietly and calmly walked at the beginning of the trouble, he perceived that Sharon and his friends had gone out, and that a policeman was lugging the warlike stranger out of the place.

"Who is he?" asked the Virginia man of the bar-keeper.

"Oh, he's a good enough man when he isn't in liquor," replied the man of drinks, nervously polishing the rosewood bar with a towel. "He was one of the quietest men I ever saw, when he first came here, about two days ago; but he's bad when he's full."

"From Bodie, I suppose?" suggested the Virginian.

"Bodie! h—, no. He's from Boston. He belongs to that Sunday-school excursion party."

An Income Without Care.

By the combination method of operating in stocks a handsome income can be secured without care. Capital in any amount, from $10 to $50,000, may be used with equal proportionate success. By this system Messrs. Lawrence & Co., Bankers, N. Y., pool the orders of thousands of customers, of various sums, into one vast amount, and *co-operate* them under the most skillful management, dividing profits monthly. Each share-holder thus

obtains all the advantages of the largest capital and experienced skill, and the percentage of profits is very great; $20 will pay $100 in 30 days; $250 will return $1,825, or 7 1-2 per cent. on the stock, and so on, as the market varies. A prominent publisher of the Rock Island (Ill.) daily *Argus*, made $104.15 on an invest of $20.00, in October. Hundreds of others are doing even better. Messrs. Lawrence & Co.'s new circular has "two unerring rules for success in stock operations" and full information, so that any one can deal in stocks. All kinds of bonds and stocks wanted. New Government bonds supplied. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City.

Portsmouth Chronicle

FRIDAY, JULY 11, 1879.

Buzzell Executed.

On Thursday, the 10th inst., at a few minutes past eleven o'clock in the forenoon, Joseph B. Buzzell was hanged for being accessory before the fact to the murder of Susan A. Hanson at Brookfield in November, 1874. The number of spectators was limited, only those having tickets signed by Sheriff Haley being admitted to the prison. Buzzell died without a struggle, and so far as is yet known without making any confession. A short time before his execution, in answer to the written question by the chaplain, "Did you kill Susan A. Hanson?" Buzzell replied "No, I did not;" to the question "Did you hire or persuade Charles W. Cook to kill her?" he replied "I don't care to have any talk about it." He would give no explanation of what became of the big gun, which is supposed to have been the instrument of Miss Hanson's death, and concerning the disappearance of which he told so many lies at different times; neither would he acknowledge or deny that he knew how the murdered woman came to her death. He displayed considerable firmness—or stolidity—on the scaffold, declaring only that it was "against Christ's teachings" to hang any person.

Yellow Fever at Memphis.

Frank Mulbrandon, an Irishman, aged forty-seven years, a shoemaker by trade, was taken sick on the afternoon of the 5th inst., and died on the 9th. A post-mortem examination was held by six of the leading physicians of the city, including Dr. R. W. Mitchell, late medical director of the Howard association, and at present a member of the national board of health, and Dr. G. B. Thornton, president of the city board of health, which revealed the fact that the patient had died of yellow fever. All the physicians declared it a sporadic case. Considerable excitement prevails in and around Memphis.

A Memphis despatch of the 10th inst. says the trains which left the city the previous night were crowded with passengers flying to other places for fear of another epidemic.

The State Legislature.

The Senate on the 9th passed bills as follows: Prohibiting the employment of children under ten years of age in manufacturing establishments; to protect the rights of citizens in this State holding claims against citizens of other States; joint resolution in favor of the Prisoners' Aid society, and one in regard to the preservation of the old records of the State.

In the House, on the 9th, Mr. Jones of Weare moved a suspension of the rules that he might introduce a bill for the commutation of the death sentence of Joseph B. Buzzell, but the motion was lost, less than two-thirds of the members voting to suspend. Mr. Danforth of Concord moved a reconsideration of the vote; J. Q. Rolles of Ossipee, Bingham of Littleton, Lund of Concord, and others, spoke against the motion, and it did not prevail.

Naval Affairs.

Ensign T. M. Potts is ordered to the Powhatan.

The school-ship Saratoga arrived at New York on the 8th inst., from Bermuda.

Two thousand people visited the training-ship Minnesota at Poughkeepsie, N. Y., on the 9th inst., she being anchored there enlisting boys for the service. She was to leave on the 11th for Newburg.

No Money to Pay for Catching Thieves.

An incident reported from Washington illustrates how nicely the refusal of the democratic reform Congress to appropriate money to pay the officers of the government for executing the laws is working—for the law breakers. A special agent of the post-office department recently arrested in New Mexico a mail robber belonging to a gang of Texas highwaymen. The judge granted an order of removal to Texas, but the United States marshal had no money to pay the necessary expenses. He telegraphed the marshal of Texas, but the latter was in the same condition. The post-office agent thereupon started for Texas with the prisoner, the stage companies carrying him on trust, and the agent providing provisions for the eight hundred miles' journey, and guarding the desperado night and day himself.

News and Notes.

The two hundreth anniversary of the settlement of the town of Rochester, Mass., is to be commemorated at Marion, a part of the old town, on the 22d inst. An historical address is to be given by Rev. Noble W. Everett, of Wareham.

The amount to be raised by taxation in New York city, this year, is twenty-seven and a half million dollars. The valuation of real estate in the city has increased about seventeen million dollars, while the personality has fallen off in such measure that the total decline of taxable property amounts to six and a half million dollars.

The American manufacturers of quinine having given up the business on account of the duty on foreign quinine being removed at the last session of Congress, the price of the drug has advanced in Charleston, S. C., to $3.30 per ounce for French quinine and $3.20 for German. The object in removing the duty was to make the drug cheaper, and in the end it may have that effect.

Charles Cready of Vergennes, Vt., who had been working at Albany, N. Y., for a month past, was killed in that city on the 3d inst. He and his brother George, while walking along the street, were attacked by a gang of roughs, and Charles was struck a bad blow on the head by the fist of a fellow named Chas. Keaney, who immediately fled. Cready was cared for by a physician, but died soon after. Keaney was found and arrested. Cready was only twenty-two years of age and was to have been married this month to a young lady of Vergennes.

Two young men, Jerry Toomey and Dennis Sullivan, have been arrested at Newburyport for a brutal assault upon Special Officer Griffing, July 4th.

Elijah W. Smith, convicted of attempting to poison William S. Crofut and family, has been sentenced at New Haven, Conn., to ten years in prison, the smallest sentence allowable.

In Clinton, a village near New Haven, on the evening of the 8th inst., Jefferson Ellis, aged thirty-four, and Lewis Fairchild, aged sixty, both colored, had a dispute in a blacksmith shop, and Ellis crushed in the other's skull with a sledge hammer, inflicting, probably, fatal injuries. Ellis was arrested.

A large number of dirty, thievish vagabond tramps have been holding a regular encampment near Newburg, N. Y., the last fortnight. They camped on a hillside and robbed the farmers in the neighborhood with impunity, defying the local police. They have most of them departin different directions, and will hold their next encampment in western New York.

On the beach from Cape Henry to Kitty Hawk there are now visible the wrecks of seven steamers, three ships, seventeen barks, six brigs, twenty schooners, and fourteen others the rig of which is unknown, making a grand total of sixty-eight wrecked vessels.

Information is received of a desperate fight near Fort Custer between Crow and Sioux Indians. Six Sioux stole some horses from the Crows, who pursued and killed all of them. One Crow was killed and four wounded.

Eighteen carloads of French people passed through Montreal on the 9th inst., on their way home to the districts of St. Albans and St. Johns. They have been on a three days' pilgrimage to the shrine of St. David at St. Anne.

The little boat Uncle Sam, with Goldsmith and wife, arrived at Sydney, C. B., Thursday. She left Halifax a fortnight ago.

At Edenton, Ill., on the 9th inst., Lee Robins shot and killed his sister, aged twenty years, and then shot himself fatally. Miss Robins was engaged to a man named Richards, and was to have been married that day. Her brother had been trying to prevent the marriage, but she refused to break her promise.

Five years ago Mrs. Faust and Miss Volker were murdered in bed with an axe at New Braunfels, Texas. The husband of Mrs. Faust was arrested for the murder, and afterwards taken from jail by a mob, and shot. M. P. Delayosa, who has just died in Bandero country, confessed on his death bed that he murdered the women for the purpose of robbery, and that Faust was entirely innocent.

The coinage of the United States mint for the fiscal year ending June 30th, was $23,652,032.50, including $11,329,352 gold and $12,124,882.50.

Gen. Stoneman's figuring is not favorable to the realization of Gen. Fremont's plan to turn the great Colorado desert into a navigable sea. He says: "It would take a river 1000 feet wide and ten feet deep, running at the rate of five miles per hour, 200 years to fill the basin, and after it was filled it would require a stream 250 wide and running at the rate of five miles an hour, to compensate for evaporation."

In New York city, Postmaster James' report for the quarter ended June 30th shows an increase in the domestic money-order business of $570,000 over the corresponding quarter of last year. The total transactions, domestic and international, amount to $10,430,029.72.

China and Japan have had a "falling out" over the Loo Choo islands question, and the two countries will break off diplomatic relations with each other.

The dead body of the late Prince Napoleon has arrived in England.

At about midnight on the 4th inst., Mrs. Julia Green, living near the quarries of the granite company at Hallowell, Me., was awakened by noises about her premises. Hastily dressing, she proceeded to see what the trouble was, and discovered that two men had succeeded in getting into her barn and were making off with a cow. Mrs. Green had no idea of losing her cow in that way, and immediately gave chase. The men ran down the road until they came to a piece of woods, where, leaving the cow, they took to the bush. Mrs. Green secured the animal and returned to the house.

Lewis W. Kinderman and daughter, Germans, were struck by a train at Woodside crossing, Long Island, on the 9th inst., and instantly killed. On the evening of the same day, at College point, L. I., John Klein was instantly killed through the running away of his horse; an unknown man riding with him was fatally hurt, and a lady seriously injured.

George Sennott, a widely-known lawyer of Boston, died recently at Hot Springs, Ark., aged fifty-three years. He was a native of Ireland, an able lawyer and a truculent writer. He was a Bourbon democrat and bitter opponent of the war for the preservation of the Union, and won great fame among secession sympathizers during Gov. Andrews' administration by a virulent newspaper war upon him for his efforts to aid in the defeat of the disunionists.

The son of H. K. Chadwick, Esq., of Farmingdale, Me., met with a severe accident in a peculiar manner on the 4th inst., during an excursion down the river in the steamer Della Collins. The steamer is a stern-wheel boat, and as she lay at the wharf the young fellow thought of no better place to fish, and seated himself upon the wheel for that purpose, and while there the boat started and knocked him into the wheel, and he was carried round once or twice, being very badly bruised and hurt. It is hoped that his injuries will not prove fatal.

Postmaster James' financial report for the quarter ending July 1st shows a balance of $518,255 in the New York post-office. Over a million packages were handled in that office on the 7th inst.

Six hundred Mormons, mostly women, from Scotland, England and Sweden, arrived in New York on the 9th inst., en route for Utah.

Manton Marble, formerly editor of the New York *World*, and later engaged in "forging lethal weapons for the hand of every hater of fraud," sending cipher despatches from South Carolina and Florida to Tilden's managers in New York relative to the purchase of an electoral vote for the great reformer, and writing wonderful letters about the "ark and shekineh," was married in New York on the 9th inst. to Mrs. A. W. Lombard.

The St. Albans, Vt., *Messenger* remarks: "Alvin R. Stokes, charged with producing abortions, was tried in the Caledonia county court last week and found not guilty. The verdict was a surprise to all who heard the evidence or who knew the character of the man. The judge, lawyers and officers of the court said, before the jury took the case, that they could not fail to convict at once. The evidence was positive, direct and particular. Stokes took his victim and the father of the child to an out-of-the-way and lonely logging camp in one of the back towns, where the deed was committed. This was three years ago. The woman has never recovered, and was only able to enter court by the aid of others. Stokes was acquitted of a similar charge at last December term of court, to the surprise and disgust of all decent people. The only reason suggested for this strange verdict is the general impression, whether true or not, that the medical profession generally, even in good standing otherwise, commit this same crime!"

More Lean Meat Wanted.

There are not a few people on this side of the water who have become grumblers on this subject, and insist on receiving meat for their money instead of having thrust upon them a mass of indigestible and disgusting tallow. It is safe to predict that the time is not far distant when the fashionable cattle will be those which will give the greatest growth of lean, marbled, tender meat in the least time. There are cattle well fitted to supply the demand for just this kind of meat, and they are rapidly gaining favor with breeders in the west. When the flesh of these cattle shall have been sold generally in the shops, so that people may learn what is possible in the way of good beef, the consumptive demand will quickly increase the popularity of the breed among stockmen, and lean meat of good quality will no longer be a rarity in the markets of the greatest meat producing country on earth.—*American Stockman.*

—A few days ago one J. W. Benton, a poor fisherman, while digging worms for bait near the old hospital at St. Mark's, Fla., dug up an old brass kettle, which upon examination, he found contained $1400 in gold coin, which raises him above the fishing business.

THE SUBSCRIBER takes this method of informing the public that he has purchased the Steamer JAMES SAMPSON, and will continue to run her as formerly between Portsmouth and Kittery. This boat was built in 1878, and is constructed of the best material; has double engines and is first class in all her appointments. It will be my aim to merit the public confidence, and I assure them that the boat will be in charge of reliable and competent men. Thanking the public for their generous support in making this a permanent institution, I shall as heretofore run the JAMES SAMPSON on stated times, and will inform the public of any change.

AROUND HOME.

The city government will, by invitation of Superintendent Shannon, visit the alms-house this afternoon.

The Middle street Baptist society, Sunday school and congregation had a picnic at the bay-side in Stratham on Thursday.

Postal money-order offices have been established at Hampton and Derry, in this county, and Andover, in Merrimac county.

The directors of the Portsmouth & Dover railroad will hold a meeting to-day, for the purpose of acting upon any communication that the Eastern railroad may present.

The half-fare rates to Dover and back, on Thursday, were taken advantage of by quite a large number of persons from this city—many more, probably, than attended Elder Waite's tent-meeting in the evening, for the benefit of which the rates were reduced.

E. A. Greeley, late of Quincy, Mass., has been appointed principal of the high school in Dover, in the place of H. H. Hart, who resigned to study law; salary, $1500. Forty-two school teachers, drawing $22,000 per annum, conduct the various schools in Dover.

The National Trotting association has suspended the following Maine horses and drivers: By order of the Granite State park of Dover, J. B. Sanborn of Cornish, and the black stallion "Guaranty." By order of the Concord driving club of Concord, N. H., Joseph Nason of Berwick, and the brown mare "Lucy;" C. Nash of Berwick, and the brown mare "Nancy."

The schooner Henry M. Clark, formerly one of the fishing fleet of Valentine Doane, Jr., of this city, but now owned in Boston, has been fitted with machinery for refrigerating fresh meats, and on the 4th inst. arrived at Galveston, Texas, to load with fresh beef for a northern port. She is the first vessel to engage in this particular line of business, and the promoters of the enterprise are sanguine of success.

The hay crop in the vicinity of Beech ridge, York, will be considerably below the average. Potatoes are generally looking well; the potato-bugs are not regularly distributed, some fields swarming with them while others are almost free from their presence, their numbers on the whole showing a decided decrease from last year. A gentleman from the beach district of York informs us that a similar condition of things exists in his neighborhood, so far as the potato-bug is concerned.

Leonard Welch, of Saco, was arrested on the night of the 8th inst., and lodged in jail, to await the result of injuries inflicted by him upon his son, a boy six or eight years age. The child was found lying on a mattress on the floor, and in an insensible condition, with his left arm broken in three places, the left shoulder dislocated, the right eye nearly if not quite closed, and a bruise or cut over the left eye. The child was insensible at noon the next day, and physicians considered recovery doubtful. Welch had been on a drunk from the 4th inst., up to the time of the probable murder, he and his wife being a pair of notoriously drunken, worthless wretches, who have often figured in the police courts, and repeatedly served terms in the workhouse and jail, for drunkenness and brawling. The child was for some years on the city poor farm, but about a year ago was placed in charge of the parents.

POLICE COURT.

THURSDAY, July 10; *Batchelder, J.*

Henry Moulton, charged with drunkenness, was released from custody, he promising to rid the city of his presence if allowed.

John Dwyer, Daniel Sullivan and Timothy Reagan were before the court on complaints of maintaining pig-stye nuisances, (continued cases,) but satisfied the court that the nuisances had been abated, and the cases were discontinued on payment of costs.

THE PRESS EXCURSION.

The New Hampshire Press Association and ladies will meet in this city on Thursday, the 17th inst., for their excursion. At half-past twelve o'clock the cars will be taken for Dover point, for dinner at the hotel there; after which those who desire will go to Dover. The return train from Dover point will be taken at six o'clock, and supper will be served at the Rockingham house, where the party will remain for the night.

On Friday the steamer "James Sampson" will convey the party to the navy yard and Kittery point, and on a trip down the harbor. Dinner will be had at the Wentworth at Newcastle, at one o'clock; and the afternoon will be spent in examining the old and new forts, the lighthouse and other objects of interest in that town. The party will remain at the Wentworth until Monday morning.

On Saturday morning wagons will be taken at eight o'clock for a ride to Rye beach and Little Boar's Head, including a call at the Telegraph Cable and Life Saving stations, the party returning to the Wentworth at one o'clock to dine.

On Sunday conveyance will be furnished to all who desire to attend church in this city, in preference to worshipping at Newcastle.

On Monday morning coaches will leave the Wentworth for this city at nine o'clock, landing the party at the Rockingham, where the excursion will close with a dinner at one o'clock, the party separating in the afternoon and going their several ways.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

Voted, That the city clerk be authorized to bid off all and any property that may be sold at auction, to pay taxes.

C. A. Jackson asked leave to encumber corner of Court and Water street, for the purpose of making repairs.

Monthly bills to the amount of $4,520.74 were ordered to be paid.

The city marshal's quarterly reports of arrests, fines and costs collected, were presented; accepted and referred to committee on police.

Bids were received from the Rockingham and New Hampshire national banks for rates of interest on deposits and loans. The former's bid was accepted, being two and a half per cent on deposits, and four and a half per cent on loans.

The committee to whom was referred the subject of widening Vaughan street, reported, recommending that the same be widened five feet, if it can be done without too much cost. Report accepted; and it was voted that the board visit the premises at such time as the mayor may appoint.

A communication was received from committee on invitations, in behalf of the city government of Manchester, extending an invitation to the city government of this city, to join with them in the dedication services of the soldiers' monument at Manchester, on September 11th. The invitation was accepted; it was voted that the city clerk inform the committee of the vote, and that the board will endeavor to be present.

A communication from James Janvrin, in relation to a fence on Hanover street, near school house, was referred to committee on city lands and buildings, with power.

The mayor informed the board of the result of his interview with the trustees of the Eastern railroad.

A communication was received from the directors of the Aqueduct company, informing the board that they would lay a three-inch pipe into the Market square reservoir, at expense of city, or fill the new one if built. Communication was laid on table for one week.

The petition of Randall & Caswell for reduction of rent on Spring market was received; voted that the rent remain the same.

The matter of electing school committee was postponed for one week.

—One touch of humor makes the whole world grin.

—Dainty little individual salt-cellars are in the shape of a water-lily resting on a leaf.

MARRIED.

MARCY—SHACKFORD. In Boston Highlands, July 8th, at the residence of the bride's uncle (Isaac F. Nelson, Esq.,) by Rev. Thomas R. Lambert, D. D., Hon. Peter Marcy of New Orleans, La., and Miss Frances Nelson Shackford of this city.

—Joaquin Miller says that men who love the beautiful are never bad. This will be consolation to the man who runs away with his neighbor's wife.

—A Cincinnati paper in reporting a high school exhibition says, "The essay was a masterpiece. Miss Clark was dressed in a ruby silk, with white trimmings and gasnishings, white slippers and gloves. Her dark, abundant hair was very tastefully dressed."

—If there is a time in a young man's life when he feels green, it is when his best girl's mother steps into the parlor, just to "see if the gas isn't turned on too high," and finds it turned on altogether too low; a five-cent-counter couldn't look any cheaper than he does as he picks up his hat and glides out.

The Detroit *Post & Tribune* is now principally engaged in glorifying the origin of the republican party. We are willing to admit that the party plant was better than the party fruit, and it is good policy for the organs to turn the attention of the public to the past rather than to the present. In fact, they acknowledge their corruption by continually turning to dead issues instead of busying themselves with live ones.—*Boston Post.*

SANFORD'S JAMAICA GINGER

Enlarged May 1,1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. Ask for SANFORD'S. 4w

Fellows' Syrup of Hypophosphites supplies matter for bone and blood, rendering it highly beneficial for feeble children.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D., New York City.* eod&wtnov79

Cut Low in the Neck, at

William P. Walker's,

193 No. 3 Market Square.

Notice.

THE SUBSCRIBER gives notice that he has been duly appointed Administrator, with the will annexed, of the Estate of ANN E. P. CARTER, late of Portsmouth in the County of Rockingham, deceased. All persons indebted to said Estate are requested to make payment, and all having claims to present them for adjustment.

FRANK W. HACKETT,
17 Market Square.

Dated Portsmouth, July 8th, 1879.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

The wear and tear of business life makes such tremendous drafts upon body and mind that without recourse to some sustaining agent they must give way under the pressure. To those who are breaking down, or wasting away from general debility or affections of the liver, stomach and the kidneys, a systematic course of the Bitters will so reinforce the vital functions as to baffle all the assaults of disease and restore the system to its wonted health.

For sale by all Druggists and respectable dealers generally.

Portsmouth, Great Falls & Conway Railroad.

The annual meeting of the stockholders of the Portsmouth, Great Falls & Conway Railroad will be held at the Ward Room on Elm Street, near the Eastern Railroad Station in Portsmouth, on Tuesday, the fifteenth day of July next, at half-past ten o'clock in the forenoon, for the choice of Directors for the ensuing year, and to transact any other business that may come before them.

WALLACE HACKETT, *Clerk.*
PORTSMOUTH, N. H., June 30, 1879.

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

New Hampshire Items.

The New Hampshire fire insurance company had a risk of $1500 on Frank Cook's carriage manufactory in Cincinnati, which was partially burned on the night of the 7th inst.

By a vote of the trustees of Dartmouth college, important changes have been made in the arrangement of the terms, which will be of especial advantage to those students who are obliged to assist themselves by teaching winter schools. The new Latin scientific course, which has just been established, exchanges Greek for more mathematics, science and modern languages. The degree of bachelor of letters will be given those completing this course.

The Lake Company at Laconia are preparing to build a three-story mill, one hundred and four by forty-nine feet on the ground.

There have been more cases of scarlet fever in Barnstead this season than for years before, some twenty-six proving fatal. The entire family of J. H. Jenkins, save himself, were sick at one time.

That the Phonograph can "bottle up" the voice and pass it down to future ages is indeed a wonder, but is not the restoration of a *lost* voice more wonderful? And yet Dr. Pierce's Golden Medical Discovery speedily restores a lost voice, cures hoarseness, sore throat, bronchitis, and consumption. Many ministers who had abandoned the pulpit, by reason of sore throat and general debility, have by the use of the Discovery, been restored to perfect health and strength. Sold by druggists.

—An orchestra composed of German ladies will make a tour of the country next fall.

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
The Gazette s published every Thursday and sent to Subscribers at the low price of
$1.50 per year, paid in advance, or
$2 at the end of the year.
It contains **full accounts** of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news,** containing reports of vessels owned at this port, or offered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —
NEW HAMPSHIRE GAZETTE
Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS,** at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

INCORPORATED JANUARY, 1878. WORLD'S DISPENSARY MEDICAL ASSOCIATION. BUFFALO AND LONDON. CAPITAL STOCK, $1,000,000.

(Successors to R. V. PIERCE, M. D.)
DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which business been merged with the **INVALIDS' HOTEL.** The organization has been completed and incorporated under the name and style of **World's Dispensary Medical Association,** with the following officers:
Hon. R. V. PIERCE, *Pres.* F. D. PIERCE, *V. Pres.*
JNO. E. PIERCE, *Sec.* LESTER D. SMITH, *Treas.*
NINE PHYSICIANS AND SURGEONS of conference and skill have been chosen as the Faculty.
CHRONIC DISEASES of all forms coming within the province of our several specialties.
LUNG DISEASES.—This division of practice is very ably managed by a gentleman of national judgment and skill. Bronchial, Throat, and Lung Diseases treated with the most successful results.
DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.
NERVOUS DISEASES.—Diseases of the Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.
NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book," (100 pages, sent post-paid).
SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele, Disease of the Scrotum, Varicocele, Ovarian and Uterine Tumors, Cancer, Stone in the Bladder, Strictures, etc., etc. We also treat successfully, by a new method without surgical operation, Cancers, Clubfeet, Spinal Curvature, and other deformities. (See pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.)
Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN
By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to women, I have been enabled to perfect a most potent and positive remedy for these diseases.
To designate its natural specific, I have named it
Dr. Pierce's Favorite Prescription
The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while presenting its positive results in the special diseases incident to the organism of woman, singled it out as the **chiefest or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE** (For conditions, see pamphlet wrapping bottle.)
The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppression when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not extol this medicine as a "cure-all," but it admirably fills a single sphere of purpose, being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor prove a delusion, in any state or condition.
Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.
Favorite Prescription sold by Druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full report after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

SANFORD'S

JAMAICA GINGER

THE QUINTESSENCE OF JAMAICA GINGER, CHOICE AROMATICS, AND FRENCH BRANDY.

A PREPARATION so elegantly flavored and medicinally effective as to utterly surpass all previous preparations, Essences or Extracts of Ginger, Compounds, Herb Teas, Pain Relievers, and the hundred and one disgusting and nauseating possets with which we have been wont to dose ourselves. Its instantaneous effect in

Cholera, Cholera Morbus, Cramps and Pains, Chronic Diarrhœa, Dysentery and Choleraic Infantum, Diarrhœa in Teething and all Summer Complaints, Dyspepsia, Flatulency, Sluggish Digestion, Want of Tone and Activity in the Stomach and Bowels, Oppression after Eating, Rising of Food and similar Ailments, Chills and Fevers, Colds and Chills, Feverish Symptoms, Malarial Fevers, Pains in the Bones and Joints, Symptoms of Rheumatism, Neuralgia and Gout, Cold Extremities, Suspended Circulation and Depressed condition of the Vital Forces, render it the Standard Household Medicine throughout the length and breadth of the land. On sea, on land, for the traveller, for the young, the aged, under all circumstances and conditions, both as a medicine and as a gentle stimulant or beverage, it is the most grateful and effective preparation ever compounded in the history of medicine.

Beware of diluted and worthless imitations recommended by dealers for purposes of gain. Ask for and insist upon having SANFORD'S JAMAICA GINGER.

Sold by all Wholesale and Retail Druggists, Grocers, and Dealers in Medicine throughout the United States and Canadas. Price, 50 cents per bottle. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

ELECTRICITY

FOR THE MILLION. AN ELECTRIC BATTERY FOR 25 CENTS.

COLLINS' VOLTAIC PLASTER

Cures Pains and Aches.

It equalizes the Circulation.
It subdues Inflammatory Action.
It cures Ruptures and Strains.
It removes Pain and Soreness.
It cures Kidney Complaint.
It strengthens the Muscles.
It cures Rheumatism and Neuralgia.
It relaxes Stiffened Joints.
It cures Nervous Shocks.
It is invaluable in Paralysis.
It cures Inflammation of the Liver.
It removes Nervous Pains.
It cures Spinal Weakness.
It is Grateful and Soothing.
It cures Epilepsy or Fits.
It is Safe, Reliable, and Economical.
It is prescribed by Physicians.
It is endorsed by Electricians.

COLLINS' VOLTAIC PLASTER

warranted, on the reputation of Dr. Collins, its inventor, an old physician, to be the best plaster in the world of medicine. The union of the two great medical agents, viz., Electricity and Medical Gums and Essences, fully justifies the claim, and entitles this remedy to rank foremost among all curative compounds for all External Aches and Pains and Chronic Ailments.

Price, 25 Cents.

Be careful to call for COLLINS' VOLTAIC PLASTER and you get some worthless imitation. Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Chronicle Correspondence.

WASHINGTON, D. C., July 9th.

Now that Congress has got away, and political wrangling has an intermission—let us hope until next winter, at least—we may turn our attention to other and more substantial if not more interesting topics. While the country has been somewhat befogged and doubtful about commercial ventures, because of sharp political contention, as is too often the case, yet it has gone on towards prosperity in an astonishing way. The foreign trade is a good index of this, and the reports at the departments are worth studying. It is true, as shown by these, that the balance of trade in 1879 in favor of the United States is not as great as in 1878, but yet it is very large. Thus the exports of produce and manufactures from Jan. 1st to June 1st this year amounted to $297,081,205, while the imports of all kinds were $188,225,154, leaving in our favor the balance of $108,000,000 in five months, which is very encouraging, when we consider that only a short time ago the balance was steadily against us year after year. From data at hand it is estimated that the excess of exports in June amounted to $10,700,000, which will make the figures for the fiscal year ending June 30th about as follows: Exports $711,000,000; imports, $441,800,000; excess of exports, $269,200,000. This is a pretty good showing as an argument against the croakers, and the national greenbackers and other communists are very much taxed to find an answer to it. But this is not all that is encouraging; the prospect is equally good; there never was a time at this period in the year when the crops promised so well in this country as now, and there is at the same time almost a certainty of short crops in Europe and Asia. Wise men therefore foretell a balance of trade in our favor between the first of July and the last of December this year far in excess of anything known in history. These facts confirm not only the confidence felt in the stability of our commercial system, but the wisdom of our party leaders, both republicans and democrats, in refusing to disturb our financial system at the late session of Congress. The general feeling is one of confidence that with something like permanence in our financial affairs, our day of industrial revival and complete prosperity is not far distant.

The semi-official announcement of Attorney-General Devens and other members of the government that the refusal to appropriate money to pay United States marshals or any other officers cannot nullify the laws requiring the appointment of those officers, and the inference that they will be maintained by some means, causes a flutter of excitement. This is the ground maintained by the republicans all along, but the democratic House asserted that the administration would not dare to hold it. They say now that the announcement is to be taken with many grains of allowance, and that if called upon for an official decision upon a given case, Devens himself would not presume to violate the terms of the appropriation act. Republicans as confidently assert that deputy marshals will be appointed in California, where four members of Congress are to be chosen, and in one vacant district each in Iowa and New York, and that they will be paid temporarily by private means, with the hope that Congress next winter will foot the bill. The controversies on this point are likely to be hot, and I am disposed to believe that the democrats will not submit to have their pet legislation thus trifled with, but will refuse to appropriate for this proposed deficiency at the next session.

The blackmailers will ascertain by-and-by that they cannot make anything by the assaults on Capt. J. B. Eads. Failing to have themselves bribed by him touching the jetties improvement at the mouth of the Mississippi river, they have constantly slandered him whenever Congress has considered plans of modifying that great work; but in spite of them the army engineers, Congress and the executive departments have repeatedly approved the plans of Capt. Eads. The latest grievance of the blackmailers is that the President has appointed him a member of the Mississippi river commission. The President showed his wisdom in this act, by appointing the man who knows more about the subject under consideration than anybody else in the country. In the mind of the average Washington Bohemian, any man who obtains a contract from the government and don't bribe the hungry crowd of lobbyists is legitimate subject for slander, and this is the whole case against Capt. Eads.

The dispute between Watterson, of Louisville, and Painter, a newspaper man here, touching Senator Conkling, is not important, although it has created

some excitement. Both men are looked upon as sensationalists. Watterson hasn't even the endorsement of his party associates, being known as an eccentric, untrustworthy "kicker." He is probably ambitious to have a personal controversy with Senator Conkling, since it has become known that the senator doesn't believe in "the code;" and Painter rushes to the rescue because it pays him to be notorious.

After the sober second thought many people have reversed their opinion of the Burnside resolution asserting the "Monroe doctrine," and sounding the alarm against its violation in the proposal of European governments to construct a ship canal across our American isthmus. There is a reasonable suspicion that the alarm was sounded because one "job" failed to succeed in obtaining a hearing. Probably no one nation will contract a work of the magnitude contemplated, and if the matter is conducted as it should be, in the interest of commerce solely, our government will not interfere with but rather help it along. M. de Lesseps, the French constructor of the Suez canal, will probably have charge of the work, and there is some talk of making Gen. Grant president of the company to undertake the responsibility. This would at once put it on an amicable footing, and allay all fears as to a violation of our national rights in this great enterprise.

KNOX.

Portsmouth Chronicle

SATURDAY, JULY 12, 1879.

The State Legislature.

In the House, on the 10th, a bill reported from committee in relation to directors of railroads, and one in relation to taxation of savings banks, were indefinitely postponed. A joint resolution providing for the survey and marking of the boundary line between this State and Vermont, was referred to the next legislature. The following bills were passed: To incorporate the Dover Guarantee savings bank; regarding diseased animals; in relation to actions for personal injuries; to amend the charter of the Farmington & Rochester railroad. After a long discussion the bill giving women the right to vote in certain cases was indefinitely postponed. The judges of the supreme court, who were requested to give an opinion whether the law giving towns the right to exempt manufacturers from taxation for a term of years is not in violation of the bill of rights, submitted an opinion, which was read by the clerk; it is to the effect that such a law is constitutional.

Gunpowder Disaster.

At Bodie, Cal., on the 10th inst., there was an explosion of a powder magazine near the old Standard incline works, which were shattered to atoms and everything near them levelled to the ground. The Summit works, a short distance off, were blown to pieces and many men were killed. The top of the shaft in the old decline was set on fire, there being at the time many men in the underground works. Twenty wounded men were picked up immediately after the explosion, and the town fire department promptly attacked the flames in the shaft. How many were killed is not yet known, and perhaps never will be, but it is certain that ten or more lost their lives. The men under ground all escaped unhurt.

Live Issues.

The Detroit *Post & Tribune* is now principally engaged in glorifying the origin of the republican party. We are willing to admit that the party plant was better than the party fruit, and it is good policy for the organs to turn the attention of the public to the past rather than to the present. In fact, they acknowledge their corruption by continually turning to dead issues instead of busying themselves with live ones.—*Boston Post.*

In the name of common sense, *Post*, what issue can be more "live" than the one forced upon the country by your party friends in the solid south and their servants at the north—the question whether the results of the civil war shall stand, or be nullified and the States declared individually superior to and independent of the Nation? This is the main issue the republicans are "busying themselves with" just now, and the party that is aiming to legislate the "lost cause" into a victory it failed to win in the war will find out at the next national election that the people regard it as a very live and important issue indeed.

Yellow Fever at Memphis.

Five new cases of yellow fever were reported at Memphis on the 10th inst., with one death, and there is a great panic in the city. A perfect stampede of the citizens is in progress, the trains being unable to carry away the thousands hastening to leave.

The State board of health of Louisiana on the 10th inst. authorized the establishment of a rigid quarantine against Memphis, both by rail or river, and to place inspectors on all trains entering the State.

The mayor of Vicksburg on the 10th issued a proclamation ordering a strict quarantine against Memphis by land and water. No boats leaving that city on or after the 10th, or touching at any point within fifty miles of it, will be allowed to land at Vicksburg.

News and Notes.

Capt. James C. Luce, who will be remembered as having been in command of the Collins steamer Arctic when she foundered in 1854 after a collision with the barque Vesta, on the 9th inst. died at New Rochelle, N. Y.

Miss Martha Marvin, leading contralto, in the choir of the Central Congregational church of Providence, R. I., was drowned by being washed off a rock at Gloucester, Mass., by a sea, on the 9th inst. A young man in company with her took off his coat and she caught hold of it, but the sea broke her hold.

A French iron-clad frigate and corvette arrived at Newport, R. I., on Thursday. Salutes were exchanged between the frigate and Fort Adams, and complimentary visits were exchanged between the French admiral and the State and army officers.

Capt. William Van Cott, in the boat City of Boston, five feet long, from New York, arrived at Clark's point, below Boston, on Thursday morning, stopped half an hour and paddled for Boston.

Dr. E. M. Baldwin of Springfield, Mass., was arrested Thursday for procuring a fatal abortion upon Mrs. Emma M. Weller, wife of a cigar maker. The crime was charged upon him by the woman's husband.

Mrs. Alexander Coutermarsh of White River village, Vt., gave birth on the 7th inst. to her fifteenth child. She was forty-six years old a few days before.

Five soldiers engaged in excavating a bank at Fort Hamilton, New York harbor, on Thursday, were buried by a heavy fall of earth. One private was instantly killed and one fatally injured, and a corporal severely hurt.

The Chapman boy, from Gardiner, Me., who was injured by the wheel of the steamboat Della Collins at Popham, on the 4th inst., is dead.

Malcolm Stevenson of Greene, Me., a peddler, is engaged to a lady in Greene who is keeping house for him. Her parents oppose the match, and on the night of the 9th inst. five persons broke into Stephenson's house and compelled the lady to dress and go to her father's house. She is of age. No improper conduct is charged.

"Shang" Draper, the alleged Northampton, Mass., bank robber, has at last been handed over to Massachusetts by the New York courts.

William Hayes, a prominent liquor dealer of Salem, Mass., has been arrested on four charges of setting fire to buildings, and the evidence is very strong against him. Hayes' motive is setting the fires was to be revenged on men who had interfered with and broken up his illegal traffic in liquors at Peabody, Mass. He gave bail in the sum of $8000.

The adjutant-general of Texas publishes a list of nearly 5000 fugitive criminals who have fled from that State, 851 of whom are accused of murder!

Letters from Capt. Shillaber of the bark C. O. Whitmore, at Calcutta, confirm the report of the murder of Mr. Moffatt, the mate, a few days out of New York, in February last; particulars not given. The murderer, an English sailor, was taken to Calcutta, and after a long and vexatious examination he was allowed to go, in spite of the protest of the American consul. The second mate died of heart disease on reaching Calcutta. Mr. Moffatt is supposed to have belonged to Boston or Chelsea, as he, in conversation with Capt. Shillaber, showed great familiarity with those places and their people. At the time of the first report he was said to have belonged to Maine.

James Dow, for many years a schoolteacher at St. Stephen, N. B., and editor of the St. Stephen *Journal*, which was formerly published there, while going home Thursday night fell from his carriage and broke his neck. He was found a few miles from home, his dog watching over his body.

The British ship Ava was sunk off Calcutta on the 14th of May by collision with another vessel, and the British India Co.'s agent pays the following tribute to the intrepid captain: "The commander evidently thought his duty was by the ship while a soul remained in her. His last word from the bridge, almost at the moment of the vessel sinking, was to the last of the boats, warning her to a safe distance lest the eddies should suck her under, and an order that when all was over she should return to pick up stragglers. Some were so picked up, but not brave Dickinson."

Naval Affairs.

The U. S. S. Powhatan arrived at Portland from New York on Friday morning.

Cadet midshipmen Maurice L. Read, William A. Graham, Charles C. Marsh, Harvey Wike and Walter J. Sears are ordered to the Marion.

The U. S. S. Portsmouth sailed from Newport, R. I., on the 9th, for Boston and eastward.

MARRIED.

CATE—DEAN. In Kittery, July 8th, at the residence of the bride's stepfather, Mr. Ira Dunbar, by Rev. W. W. Baldwin, Mr. Frank T. Cate and Miss Mary Lizzie Dean, all of Kittery.

MORRILL—DOW. In Hampton, July 7th, by Rev. A. B. Carter, Mr. Frank Morrill of Salisbury, Mass., and Miss Hattie L. Dow, of Seabrook.

DIED.

FROST. At Coney Island, New York, July 1st, Col. George W. Frost of Newmarket, agent of the Newmarket manufacturing company, aged 54 years, 9 months, 17 days.

CHANNELL. In Newmarket, June 30th, Martha Channell, eldest daughter of William J. and Mary A. Channell, aged 12 years, 2 months and 15 days.

CAVERLY. In Stratham, July 9th, Lucinda T. Caverly, aged 71 years, 11 months.

MARINE CHRONICLE.

Notice.

THE SUBSCRIBER gives notice that he has been duly appointed Administrator, with the will annexed, of the Estate of ANN E. P. CARTER, late of Portsmouth in the County of Rockingham, deceased. All persons indebted to said Estate are requested to make payment, and all having claims to present them for adjustment.

FRANK W. HACKETT,
17 Market Square.

Dated Portsmouth, July 8th, 1879.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

The wear and tear of business life makes such tremendous drafts upon body and mind that without recourse to some sustaining agent they must give way under the pressure. To those who are breaking down, or wasting away from general debility or affections of the liver, stomach and the kidneys, a systematic course of the Bitters will so reinforce the vital functions as to baffle all the assaults of disease and restore the system to its wonted health.

For sale by all Druggists and respectable dealers generally.

Portsmouth, Great Falls & Conway Railroad.

The annual meeting of the stockholders of the Portsmouth, Great Falls & Conway Railroad will be held at the Ward Room on Elm Street, near the Eastern Railroad Station in Portsmouth, on Tuesday, the fifteenth day of July next, at half-past ten o'clock in the forenoon, for the choice of Directors for the ensuing year, and to transact any other business that may come before them.

AROUND HOME.

Temperance meeting this (Saturday) evening at the mission hall, at 7:45 o'clock.

Three schooners laden with railroad ties were discharging at the north end wharves this week.

Rev. A. A. Waite will give a cartoon lecture at the Reform club picnic, at Pinkham's grove, Dover point, on Thursday, the 17th inst. The neighboring reform clubs have been invited to attend.

The next regular business meeting of Portsmouth Grange will be held by invitation at the farm of W. M. Charles H. Hayes, at the Plains, on Wednesday evening, July 23d, at 7:30 o'clock. Patrons generally are invited.

The sale of real estate on Partridge street to-day offers a chance for a mechanic or laboring man to get a good home of his own, cheap. The house is nearly new, and has a good garden, with fruit trees, etc., and a good well of water. See advertisement.

The *Journal* of this week says: "On Sunday morning, June 29th, Rev. Dr. Alden baptised three candidates—a lady and two gentlemen—at Noble's island; and on Sunday last extended the hand of fellowship to them and one other gentleman, as members of the Middle street Baptist church."

The Eastern railroad gang that has been at work filling in at the north millpond suspended work Friday, to enable the city to lay a sewer extension as far as the filling in is to go for the present. The water was allowed to flow out of the tidegates of the pond Friday night, to facilitate work on the sewer.

The schooner Strange Bird, Capt. Arthur W. Brown, from Parrsborough, Nova Scotia, bound for Boston with a cargo of coal, sprung a leak about ten miles off Hampton beach on the evening of the 10th inst., and sank in deep water. The vessel and cargo are a total loss. The crew landed at Boar's Head in the schooner's boats.

The alewive season in Exeter river has closed, the entire catch having been only about fifty barrels, where it formerly averaged from 400 to 700 barrels; one shad only has been taken, instead of from fifty to seventy-five, as was common in former years. A correspondent of the *News-Letter* attributes the ruin of the river fishing to the emptying of refuse matter, especially coal-tar, into the river.

On the afternoon of the 9th inst., at Dover, an employe of the Cocheco mills, named Bridget Cunningham, fell from a stool on which she was standing and broke one of her arms. The next forenoon a carpenter named Stephen Bickford, employed on the house of the superintendent of the Cocheco mills, fell backward from a staging-horse on which he was standing while at work, and broke an arm just above the wrist.

Eight passenger cars filled with Sunday school excursionists, the party numbering about five hundred, and being accompanied by the Dover cornet band, went to Portland from Dover on the 9th inst., starting at eight o'clock in the morning. At Portland a steamboat was taken down the harbor to Peak's island, where the excursionists picnicked and amused themselves in the usual ways for a couple of hours, when the steamboat took them on a trip about the harbor, after which they started for home, reaching Dover about half-past seven o'clock in the evening.

Mr. John Stone Pickering, of Newington, at about midnight on the 10th inst. discovered a burglar in one of the chambers of his house, and captured him, finding in his possession some money and jewelry the thief had taken from a bureau drawer in the chamber of Miss Abby Pickering, who was absent at the time in another town. The thief, who worked for Mr. Pickering a short time last winter, was brought to this city by his captor, and turned over to Sheriff Kent. He gave the name of Charles Wilson, is about twenty-two years old and five feet high, and weighs a hundred and thirteen pounds—a very light-weight burglar. He has seen the inside of public buildings before, having served various sentences for larceny, one of them being for a term of eighteen months in the house of correction at South Boston, Mass., for stealing $200 from a man at Jamaica Plain.

Mr. Stevenson, proprietor of the steamer James Sampson, having kindly tendered a free trip down the river to the inmates of Faith Home, they will leave the navy yard landing at nine o'clock this forenoon.

By request of G. W. F. Putnam, Esq., of York, and friends at Agamenticus, Dr. E. B. Goodall and Mr. W. A. Loyne will hold services at the mountain, Sunday morning and afternoon; in the evening, by special request, Dr. Goodall will conduct a union praise service at York village, arrangements having been made for a rehearsal this (Saturday) evening.

It is announced that at last fire-crackers are found good for something besides frightening horses, destroying barns, setting ladies' dresses on fire and putting out boys' eyes. A farmer in East Haven, Conn., who has been much annoyed by crows, states that he has discovered a new way of preventing their depredations. Explode several packs of Chinese crackers in the cornfield, and the birds will not molest the shoots. The reason is their dislike of the smell of powder, and as an exploded cracker retains the scent for a long time, they are efficacious for a considerable period.

Noah Emery, a native of Kittery, was the earliest resident lawyer in Maine, and although not educated for the bar, seems to have possessed much legal acumen and accuracy. He was a cooper by trade, and came to the bar about 1725. He was descended from Anthony Emery, who was a carpenter and came to this country from Ramsey, Eng., with his brother John, and settled in Kittery, where, and through this State and New Hampshire, his descendants are numerous and many of them distinguished. Hon. Nicholas Emery, long a distinguished lawyer and several years judge of the supreme court of this State, was a lineal descendant of Noah Emery. He was born at Exeter, N. H., Sept. 4th, 1776, and died at Portland Aug. 24th, 1861.—*Biddeford Times.*

THE RAILROAD MATTER.

The directors of the Portsmouth & Dover railroad had a meeting in this city on Friday, to receive and consider any communication made by the Eastern railroad management relative to the rental of the former road to the latter. The Eastern road's proposition is that the capital stock of the Portsmouth & Dover railroad be materially reduced, and the rental cut down from six per cent on the original capital to four per cent on the reduced capital. The directors voted unanimously not to accede to this proposition or either part of it, and that if the demand is not complied with, legal measures be taken to enforce the claim.

JOHN WALKER.

Mr. John Walker, for many years well known as a merchant in this city, died on the 9th inst.

The branch of the Walker family from which he descended has been resident in Portsmouth for several generations, their ancestors, according to reports of the old inhabitants, having migrated to New Hampshire from Massachusetts at a period when the foreign commerce of this town was active, and business men found ready employment. His father, Mr. Joseph Walker, and his grandfather, were born on Market square, the house in which they lived having been burned some years ago, and the present Walker block erected on its site.

When about thirteen years of age he went into the employment of Mr. David Kimball, but soon after, at the request of the late Edward F. Sise, Esq., he entered the crockery-ware store then kept by the latter, where he remained for a long term of years. Upon arriving at his majority he was admitted into partnership in the business, under the firm name of Edward F. Sise & Co. In the course of time Mr. Sise became interested in shipping, and the management of the business of the store devolved largely upon Mr. Walker. The crockery-ware business, after being successfully conducted for many years, by degrees was merged into the coal and salt business, which is still carried on under the same firm name, the present partners being Mayor Sise and Joseph Sise, Esq. The original copartnership being dissolved, Mr. Walker purchased a wharf on Water street, where he carried on an extensive coal trade, retiring several years since and yielding his business to his nephews, Messrs. C. E. Walker & Co. He was also at one time considerably interested in the coasting trade to and from Portsmouth.

Although holding decided political opinions, which he owed somewhat to inheritance, all active interference in politics was decidedly distasteful to him, and he was very slow to thrust his ideas upon others. With the exception of an occasional trip abroad his life was passed in this city, and he was a good example of a successful Portsmouth merchant. He was shrewd, strict and rigidly honest in his business affairs, simple in his tastes and unostentatious in manner, and while making no parade of charity was both liberal and judicious in aiding the poor; and he merited the respect of his fellow-citizens, which he enjoyed throughout his whole life. He was never married.

ANOTHER TRADITION DISCREDITED.

Modern research is playing the dickens with ancient tradition, and ruthlessly destroying our most cherished bits of history. Concerning William Tell, the story of whose exploits has fired so many a boyish heart with a desire to be a hero and tell some tyrant "This other shooting-iron was for you, sirrah, if I had popped off my son," or words to that effect, we are now told he was as mythical as Sairey Gamp's friend Mrs. Harris; Pocahontas is no longer the maiden savior of Capt. John Smith, but a young Indian girl wandering about a Virginia garrison, and no better than she should be; geology discredits the literal correctness of the story about that ancient mariner, Noah; and it is even denied that there was any "Battle above the clouds" in the late war. Another incident of local history, which every native of the Piscataqua river region has always religiously believed, is now shown to be a myth, according to the following, which we clip from the Boston *Traveller* of Thursday evening:

At a late meeting of the Massachusetts Historical Society, held in Boston, Hon. Charles W. Tuttle read a paper on the "Massacre at Fox Point in New Hampshire," showing very clearly that no such tragedy as Mather relates ever occurred there. Mr. Tuttle finds that Mather accepted a rumor of such a massacre for a fact, put it into his "Magnolia," and so misled his readers and later historians. The short story of this massacre may be found in the seventh book of the famous "Magnolia Christi Americana," written by Cotton Mather, and first printed in 1702. He there says that a party of Indians under "that memorable tygre Hopeflood," fell upon a small hamlet at Fox point, then in Dover, but now in Newington, burned the houses, and killed and made captive the inhabitants, in the spring of 1690. This is set down by later historians among the great massacres by the Indians in that region, on the authority of Mather. Historical research now shows this story to be one of the myths of that age.

REAL ESTATE CONVEYANCES.

The following transfers of real estate in this county have been left for record in the office of the register of deeds:

RYE.

Robert L. T. Gunnison, of Portsmouth, administrator of the estate of Andrew J. Caswell, to John R. Poor, land, $200.

DERRY.

John H. Dunlap, of Salem, to Daniel J. Day of Derry, woodland, $80.

HAMPSTEAD.

William T. Bragdon, of Hampstead, to Mary F. Fisk, of Hampstead, land, $152.

NOTTINGHAM.

Ann Langmaid, of Nottingham, to George A. Langmaid, et al., land, $1000.

PLAISTOW.

John S. Lamprey, of Haverhill, Mass., to Basil Lagassay, of Plaistow, land, $100.

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30 A. M., and 2:45 P. M.; prayer meeting at 7.30. All are welcome.

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M.

At the Freewill Baptist church, on Pearl street; Rev. E. Owen, pastor, preaching at 2:45 P. M., prayer meeting at 7:00. Sabbath school at 10:30 A. M.

At the South Parish, Rev. James DeNormandie, pastor, morning service at 10:30; vespers at 7:30. Sunday school in chapel at 2:45 o'clock P. M.

At St. Mary's (Catholic) church, Rev. E. M. O'Callaghan, pastor, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday school at three o'clock, P. M.

At St. John's (Episcopal) church, Rev. Chas. A. Holbrook, rector, services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public catechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

At the Middle street (Baptist) church, Rev. W. H. Alden, D. D., pastor, services at 10:30 A. M. and 7:30 P. M.; Sunday school at the church at 2:45 P. M.

Mission services; William A. Loyne, Volunteer Missionary. Residence at Faith Home, 16 Deer street. At home daily from 8 to 10 A. M. and 12 to 2 P. M. Services every Sabbath at the Alms House at 10:30; at the County Jail at 12:30. Consecration Meeting every Monday evening at the Home. Services on the afternoon and evening of the 4th Sunday in each month, at Newcastle; one week day in each month, at Brentwood.

At the Congregational church, preaching at 10:30 A. M. and 7:30 P. M. Sunday school at 3:00 P. M. Prayer meeting on Friday evening at 7:30.

At the Methodist church, Rev. C. B. Pitblado, pastor, preaching at 10:15 A. M. and 2:45 P. M. Sunday school after morning service, in the church.

At the Universalist church, Rev. E. M. Grant, pastor, services every Sunday at 10:30 A. M. and 7:30 P. M.; Sunday school at 2:45 P. M. A cordial welcome to all.

Young Men's Union Prayer Meeting, Sunday evening from 6 to 7 o'clock at the Pearl street church.

Rev. Thomas Reese will preach in the Methodist church on Sunday, morning and afternoon; the evening service will be held in the chapel on Daniel street.

Rev. George W. Sederquest will preach at the Advent church.

Rev. W. R. Eastman of Suffield, Conn., will preach at the Congregational church.

Bow mission service at 4:15 P. M.

Reform club meeting in mission hall at 7:45 P. M.

On Sunday evening, by request, Rev. Dr. Alden will repeat the last lecture of the series on "Sins of the tongue," the subject of which was "Profane swearing."

Sunday evening services at St. John's church will be omitted during the months of July and August.

—A fashion item says: "Charming caps for breakfast are of muslin, have mob crowns bordered with scant ruffles." It doesn't tell how they are cooked.

—The exasperated New Haven *Register* says: "An odorous perfume wafts across Connecticut every time there is a clam bake in Rhode Island and an east wind blowing. If that little finger of a State can't keep its savory smells at home, a delegation will be sent down to roof it in or else eat up the clams."

ROYAL

BAKING POWDER

Absolutely pure—made from Grape Cream of Tartar, imported exclusively for this Powder from the Wine district of France. Always uniform and wholesome. Sold only in cans by all Grocers. A pound can mailed to any address, postage paid, on receipt of 60 cents. ROYAL BAKING POWDER CO., 171 Duane St., New York. Most cheap powders contain alum; dangerous to health; avoid them, especially when offered loose or in bulk.

D. J. VAUGHAN, City Clerk.

New Hampshire Items.

Work on the new Amory mill at Manchester was recommenced on the 10th inst., and will be vigorously pushed. It is hoped to have it completed before winter, and it will be the largest mill in the State.

The names on the Amoskeag pay-roll at Manchester last month numbered 4732.

The legislature paid an official visit to the State reform school on the 10th inst.

The Profile House & Franconia Notch railroad has opened, and four trains per day are now running regularly.

Mrs. Anna S. Pillsbury, who died in Henniker, on the 8th inst., was born in Essex, Mass., and was ninety-four years of age. She married Oliver Pillsbury of Hamilton, Mass., Dec. 8th, 1808, and resided there till 1814, when they moved to Henniker, where she has spent the remainder of her life. She was the mother of Parker Pillsbury, an associate of Garrison, Phillips and others in the anti-slavery struggle; of Hon. J. W. Pillsbury of Milford, one of the prominent educators of the State; of Hon. Gilbert Pillsbury of Ludlow, Mass., for several years mayor of Charlestown, S. C., and member of the Massachusetts State Senate; and of Hon. Oliver Pillsbury, now and for many years past the insurance commissioner of New Hampshire. Possessing a strong constitution, she was enabled to perform a large amount of labor through her long life, and retained her faculties remarkably to within a few days of her death.

A correspondent says that politically there has been a small revolution in Bethlehem, this State. For over twenty years Bethlehem has been known as a very strong democratic town, being the home of Ex-Gov. Sinclair. Out of over three hundred voters, the whigs and republicans polled inside of twenty-five. But last March the republicans learned that a number of French Canadians had been voting for years who had never been naturalized, and in one sweep at town meeting sixty-nine names were ordered off the list. By this means the democratic party was divided, and the republicans, joining issue with their democratic townsmen who were disturbed by the revelations, secured the election. This change has become one of the chief topics of talk all through the mountains.—*Journal.*

—"The poor ye have with you always," but the rich go away in summer time.

—A Mr. Marsh of Bangor, Me., recently had the misfortune to swallow his false teeth, but is confident that he will come out of his strange experience all right. The teeth are now in the stomach. He at first tried to hold them in the throat, but did not meet with much success. Soon after swallowing the teeth he spit up a little blood. For some time he was in great pain. Opiates were given him, but it required the combined strength of several powerful men to keep him quiet. He is now much better and suffers but little pain. Of course he has a rather unnatural feeling about the stomach. He eats heartily and digests his food well. His diet consists principally of coarse food. What the result will be cannot now be told. Instances are on record where teeth have passed out. It may be necessary to cut through the lining of the stomach and remove them in that way. Again they may pass down into the intestines and have to be cut out from there. He is able to be up most of the time.

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this under any circumstances.

Look out for the name and address J. I. FELLOWS', St. John, N. B., on the yellow wrapper in watermark, which is seen by holding the paper before the light.

Price, $1.50 per Bottle, six for $7.—

Sold by all Druggists.

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

— OF —

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

WORLD'S DISPENSARY MEDICAL ASSOCIATION. BUFFALO AND LONDON. INCORPORATED JANUARY, 1878. CAPITAL STOCK, $100,000.

(*Successors to R. V. PIERCE, M. D.*)

DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the **INVALIDS' HOTEL.** The organization has been completed and incorporated under the name and style of **World's Dispensary Medical Association,** with the following officers:

Hon. R. V. PIERCE, *Pres.* F. D. PIERCE, *V. Pres.*
JNO. E. PIERCE, *Sec.* LESTER B. SMITH, *Treas.*

NINE PHYSICIANS AND SURGEONS of embrace and skill have been chosen as the Faculty.

CHRONIC DISEASES of all forms come within the province of our several specialties.

LUNG DISEASES.—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases treated with the most successful results.

DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.

NERVOUS DISEASES.—Paralysis, Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.

NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent post-paid for $1.50 or "Invalids' and Tourists' Guide Book," 100 pages, 10 cents postpaid.

SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We also treat successfully, by a new method without surgical operation, Cancers, Club-feet, Spinal Curvature, and other deformities. (See pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.)

Address, World's Dispensary Medical Association, BUFFALO, N. Y.

WOMAN

By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.

To designate this natural specific, I have named it

Dr. Pierce's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** (For conditions, see pamphlet wrapping bottle.)

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weaknesses. I do not extol this medicine as a "cure-all," but it admirably fulfills a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

Favorite Prescription sold by Druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, GOSMER & CO., Solicitors. Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress. Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,827,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

THE MALLORY

Patent Air Closet!

Superior to either Water or Earth Closets for General Use, and for the Sick Room, are indispensable.

They can be set up in any Room, Hall-way or Closet, or at the Bedside of the Sick, and are warranted to be Perfectly Odorless.

Being thoroughly ventilated from the front, and connecting with the chimney, the disagreeable odors and poisonous gases are carried off into the chimney, instead of escaping into the room.

Daily Chronicle.

THE MAVERICK NATIONAL BANK.

What It Has Accomplished in Six Years—A Long Step Forward in American Banking—The Story of the Four Per Cents—The Maverick's Enlarged Headquarters.

Everywhere among mercantile and trading peoples the necessity of a stable and efficient banking system has long been recognized. The currents of commerce, the ebb and flow of trade, the development of speculative enterprises, the subjugation of the world's wildernesses by colonization, the connection of the remote corners of the earth by steam-power on land and sea, and even the dread decisions of peace and war, involving the fates of nations and vitally changing the courses of history, are one and all centred, controlled and directed from the bank parlors of Christendom.

The first bank ever established, that at Venice, which opened its doors in the year 1171, sprang into existence out of the necessities of the European governments engaged in the crusades, and from that day to this the tie between governments and bankers has grown steadily closer. No European war is commenced without a consultation with the Old Lady of Threadneedle street, and the terrible Eastern question has more than once hung upon the "Yes" or "No" of the Rothschilds. Hardly less potent a factor in American history is the modern bank. To Boston belongs the honor of having established

THE FIRST REGULAR BANK,

in the year 1784, seven years before Alexander Hamilton's United States Bank was chartered. From that time on it is not too much to say that from this city have come nearly all the important advances in the science of banking which have made our banks to-day not only of such immense service to the business community, but also to the national government in the management of its vast financial operations growing out of the war. Nor has the end of Boston's influence upon American banks and banking methods yet come. The recent achievements of the Maverick National Bank, a comparatively young corporation, dating no farther back than 1854, seem to foreshadow another long step forward. Much comment has been excited in bank circles by the rapid growth of this institution, and a brief sketch of what it is, and what it has done within a few years past, has a public interest.

THEN AND NOW.

The beginning of its present unexampled prosperity, strikingly shown by the fact that its stock stands A1 on the list of Boston bank stock quotations, dates back six years. In 1863 it had 150 individual bank accounts, representing aggregate deposits to the amount of $600,000, and it had no country bank accounts. To-day it has over 700 individual depositors, whose accounts foot up $2,500,000, and its country bank accounts aggregate $1,500,000. Its business in 1863 was all easily done by ten clerks, in a small second-story room on Devonshire street. A change in the stock of the corporation at that time brought the present able and energetic President to the front, supported by a directorate, prominent among whom was Hon. Jonas H. French, that shared with him the belief that the time had arrived when a new departure in banking could be safely and profitably undertaken. The present commanding site on the corner of Congress and Water streets was secured for new headquarters at a rent far in advance of that paid for the old Devonshire street office; and so large that timid conservatism did not hesitate to regard the move as imprudent. Events have amply justified it. In place of the ten clerks that formed its working corps then, it now keeps thirty-four constantly busy, and so great has been the increase of its business of all kinds—deposits, discounts, loans, and bonds—that it has now been compelled to materially enlarge its quarters to provide for its expeditious transaction.

THE SECRET OF SUCCESS.

The new policy, adopted six years ago, and which has led to these results, has nothing incomprehensible about it. It was based on a recognition of certain obvious business facts and the application of certain common sensible banking principles. A bank is a public convenience, the ready handmaiden of commerce, the willing servant of trade. If it is not all these things, then, as the French would say, it has no *raison d'etre*. It occurred to the management of the Maverick that it was possible to enlarge their business by enlarging the scope of its services to the merchants and traders of Boston. They asked themselves whether all had been done that could be legitimately done by a bank to serve and accommodate its patrons, and answered "No." The footing on which the depositor and his banker met, it seemed to them, was susceptible of broadening. The old conservative banker, it was just possible, had borne himself toward the depositor more stiffly than need be, and had not readily granted those accommodations which every business man is likely on occasions to need. There was a sort of circumlocution office established in the bank, and the customer was told to "call again," and promised that "it shall be laid before the directors," when he might as well have been either accommodated or denied accommodation on the spot. In a sentence, the Maverick's new departure may be summed thus: to treat money and security exactly as the wool merchant treats wool, and grant to its customers ready accommodation on that strictly business basis, without the slightest pretence of granting favors, and without, also, any needless circumlocution. The wonderful growth of its business since it adopted this policy sufficiently attests its wisdom.

THE STORY OF THE FOUR PER CENTS.

A survey of the Maverick's progress to

its present leading position would, however, be very incomplete, if it omitted to note the remarkable and creditable part which it played in placing the government four per cent. bonds on the market. The bank had something to sell which the people wanted, and with as energy and persistence which it would do well for business men generally to imitate, they went to work and told everybody far and near what they had to sell. There never was a better illustration of the power of skillful advertising. With the single exception of one New York bank, it has done more to sustain the Secretary of the Treasury in his gigantic task of refunding than any institution in the country. In its characteristic spirit of enterprise the Maverick responded readily to the call of the government for bids, and with a confidence in the popularity of these securities which the event more than vindicated, at once subscribed for a large amount. This was regarded as another innovation in banking, and again conservatism looked askance. There was the doubt whether the bonds would be readily taken by the people, and as to how the carrying of a large quantity of them would affect the general business of a bank. The Maverick measured the risks and accepted them. In the result it has sold more than a million dollars worth of four per cents in one day, and has handled within the thirteen past months over $100,000,000 of United States securities. At the present time its government deposit is six millions; it has been as high as twenty-five millions. For the future, the directorate have determined to maintain a bond department as a distinct branch of its business. As above stated, the bank has now been compelled to further enlarge its quarters, and a glance at its internal arrangements, as thus improved, is interesting.

THE RECENT ENLARGEMENT.

The side entrance has been changed from Congress to Water street, and an additional room of 22 1-2 by 28 1-2 feet has been taken in.

The Directors' and President's rooms are arranged so that there is direct passage from one to the other. The President's room is furnished with electric bells and telephone wires, communicating with every desk in the bank. The total area, as enlarged, of the main floor, is 65 by 46 feet, and an additional vault has also been secured below. The new bond department will be reached from the corner of Congress and Water streets, and the Water street entrance will serve for the regular banking business.

The desks are now placed at right angles to the counters, for the convenience of customers. In the Congress street corner is the Cashier's room, which is richly designed and provided with electric signals, speaking tubes, telephone, &c. The Director' room, adjoining, is laid in marble tiling, and is furnish in a high dado walnut with French burl panels. Above is a wide band of stone, red with antique stencilling, and beyond this a broad field of yellowish green. In this room are elegant bronze gas fixtures of antique design, and a brass fireplace, with rich ebony mantel, is soon to be put in place. The walls of the main room above the dado are of pale green, beyond which is a field of orange color. The space between the field and the cornice is covered by a band of pale blue, studded with field daisies, producing a rich effect. A very noticeable feature of the improvement as one enters is the ceiling, which is of a beautiful shade of blue, bordered with bands of tan-colors and finished in deep mouldings and cornices studded with gold. The colors and designs of the carpets are such as to blend artistically with the walls and ceilings and produce a total effect which is admirable. In a word the Maverick is now as commodiously and pleasantly located as any similar institution in the city. To the gentlemen who have produced this handsome and thoroughly-equipped interior some credit is due. The bronze work and gas fixtures were designed by the architect, Mr. W. Whitney Lewis, and made by Messrs. Shreeve & Low.

The wire netting partitions were put in by Messrs. Morse & Whyte. The carpenter work was performed by Mr. Wm. Wood, and the delicate and artistic decorative work, already mentioned, was executed by Mr. Cyrus T. Clark. The new furniture was from the warerooms of Edward Hixon & Co., 364 Washington street, and the carpetings were in part from the store of Joel Goldwate & Co. and in part from that of Messrs. Torrey, Bright & Capen. The Maverick is to be congratulated on the fair auspices under which, after a six-years' growth of almost unparalleled rapidity, it enters upon a still wider field of activity.—*Boston Traveller.*

Portsmouth Chronicle

MONDAY, JULY 14, 1879.

The State Legislature.

In the House on the 11th inst., numerous reports of committees were made, among them one for the abolition of capital punishment. This bill provides that imprisonment for life, with hard labor, be substituted for capital punishment. A minority report, "inexpedient to legislate," was read. Mr. Rolles of Ossipee moved to indefinitely postpone the bill reported by the majority. Mr. Jones of Weare made a speech in favor of the bill, but the House adjourned without action.

Governor Head's Staff.

Governor Head, Friday, appointed under the new military law the following gentlemen as members of his staff: Major-General Augustus D. Ayling, Nashua, Adjutant-General of State and Chief of Staff; Brigadier-General John W. Sturtevant, Keene, Inspector-General; Brigadier-General Charles H. Burns, Wilton, Judge-Advocate-General; Brigadier-General Jacob H. Gallinger, Concord, Surgeon-General; Brigadier-General George T. Cruft, Bethlehem, Quartermaster-General; Brigadier-General Benjamin F. Rackley, Dover, Commissary-General; David L. Jewell, Suncook; Charles E. Balch, Manchester; Winthrop N. Dow, Exeter; Frank C. Churchill, Lebanon, Aids-de-Camp with rank of Colonel.

Law and Lawlessness in the Solid South.

At Lake Providence, La., on the 11th inst., Postmaster Austin was instantly killed in the street, and Parish Judge S. L. Austin, Jr., mortally wounded, by Squire Lusk of West Carroll. W. H. Smith, a colored man who was crossing the street at a little distance while Carroll was committing the murders, was accidentally hit by a bullet, and died instantly, just the same as though he had been purposely shot. Three less radical votes in Louisiana at the next election.

A committee of Catholics of Brule Landing, La., notified Rev. T. A. Vaudray that he must stop all lectures and publications against the Catholic religion, or they would rid the community of him. He replied that this was a free country, he was a British subject, and should appeal to England for protection. He attempted a lecture, but was interrupted by a mob armed with revolvers and shotguns, the lecture being stopped, though no one was hurt.

The attorney-general of Texas, in a recently-published list of over 5000 former residents of that State now fugitives from justice, says that 851 of the number are accused of murder. Why a murderer need run away from Texas to "escape justice" is incomprehensible, for he is almost certain to escape if he remains, and may get into some State where he cannot escape if he runs away. Under the laws of Texas as administered by the reform democracy since they overthrew the corrupt carpet-bag governments which enforced the laws against murder, about the only persons in the State whose lives were absolutely safe from one day to another have been the murderers. Currie, the high-toned ruffian who bravely picked a quarrel with the unarmed actor Barrymore, in presence of ladies, and heroically assassinated him, is yet unpunished; but then it must not be forgotten that Barrymore was a northerner.

Some months ago, at Macon, Ga., one A. F. Gibson, a "young man of excellent family, of good education and extremely popular," and clerk in a banking institution, went on a drunk. In the evening he met on the street a man he had never seen before, a circus employe named D. W. Coleman, and insultingly addressed him. Coleman, seeing the condition Gibson was in, spoke pleasantly to him and endeavored to get out of his way; Gibson drew a revolver, and in answer to Coleman's remonstrance "You wouldn't shoot an unarmed man, would you?" replied, "I hate to, but I've got to do it," and shot him dead in his tracks, putting three bullets in his body. The chivalric assassin was allowed to go at large until the following evening, when he was captured as he was attempting to leave the city. Last week he was tried, and the jury brought in a verdict of not guilty. Coleman, the murdered man, belonged to a northern State.

At Smithville, N. C., on Friday, John Davis, colored, was hanged for the murder of another colored man, Henry McDuffie. On the scaffold he admitted the killing, but claimed that it was unintentional.

John Williams, for killing Howard Holtzclaw, and Winter Payne, for killing James Adams, were hanged on Friday in Farquhar, West Virginia, jail yard.

News and Notes.

The New York *World* gives a list of persons killed or wounded by the illegal use of pistols and fire crackers in the chief cities of the Union on the last Fourth of July. The frightful catalogue includes the names of eighteen persons killed outright, and one hundred and seven wounded.

The British barque Pauline has been wrecked on Columbia river bar, and only two persons of her crew of twenty-two were saved. The survivors have arrived at Portland, Oregon.

Wah Sing, a Chinese laundryman, on Friday afternoon chased and caught a woman who had robbed him, in New York. A mob rescued the woman, and one of them fatally shot the Chinaman. The police had hard work to keep the mob from killing the wounded man on the spot.

James Goldsmith, the democratic treasurer of Peru, Ind., has disappeared being in default from $15,000 to $25,000.

Rev. Charles A. Curtis, pastor of the Unitarian church in Augusta, Me., was drowned at Moosehead lake on the 9th inst., while fishing in a birch canoe. His body was recovered and taken to Augusta.

Two men were killed and many others injured by a boiler explosion in Baltimore on Friday. On the same day a powder mill blew up near Wilkesbarre, Pa., by which three men were killed and two badly wounded.

A seaman on board the barque Sappho, from Havana, died of yellow fever on Thursday at quarantine in New York harbor, and there are other cases now in hospital. The president of the health board of that city, however, claims that notwithstanding the filthy streets, New York is in no danger of infection; but on Friday a large corps of men in the employ of the board began a thorough disinfection of squalid quarters and tenement rows. The panic in the southern cities over the cases of yellow fever at Memphis is subsiding, though quarantines are being rigidly enforced in some cities.

It is reported that Charles M. Parker, storekeeper in the construction department at the navy yard in Charlestown, Mass., is a defaulter to the amount of $3000 or more. An investigation has been begun.

Mifflin and Juniata counties, in central Pennsylvania, were on Friday visited by a hurricane that destroyed much property. So far as reported, only one life was lost.

A boy twelve years old, son of James Lamont of Canaan, fell out of a swing on Friday and broke his neck.

"The Code" in Maryland.

In Baltimore, Md., on the 10th inst., a duel took place between two colored men named James Sampson and Wilson Myers. The difficulty originated in a love affair, both being enamoured of the same young women. The duel took place in the woods, and at the word "Fire," Myers' pistol was discharged, Sampson receiving a slight injury in the face. Sampson's pistol missed fire. Before the second shot both parties were arrested and taken before a justice who committed them to jail.

Unprotected American Citizens.

The *Methodist Advocate*, published at Atlanta, Georgia, gives the names and the details of the lynchings of *thirty-four* Methodist preachers and teachers in the south, white and colored, during the past two years! It asserts that the only offences of these men were that they belonged to the Methodist church, voted the republican ticket, and interested themselves in the education of negroes. The *Advocate* gives the following reasons for publishing these accounts of disorders in former years at the present time:

Because, for the past six or eight months the country has seemed to be rapidly drifting toward the confusion, strife and bloodshed which disgraced the south in 1868-70. The coming campaign preceding the Presidential election of 1880 has threatened to be more exciting, bitter and bloody, and so more injurious to the best interests of the country than any preceding. It is, therefore, the manifest duty of all journalists, ministers, christians and patriots to give warning of the danger and thus prevent, if it be possible, the repetition of those evils.

Because no one has been punished for these crimes, nor has there been suitable acknowledgement or confession of them, nor reformation touching these and similar outrages.

Because we have a right to keep these facts before the people till their enormity and evil influences are apprehended by the masses, and the rights of all, including the ministers and members of the Methodist Episcopal church in the south, are fully recognized.

Because obligations to God and society demand no less than this on the part of every citizen, according to opportunity.

The *Advocate* suggests that inasmuch as the Federal government is powerless to protect these preachers and teachers from the mobocracy of the south, but can protect the citizen of a foreign country, it is proposed to obtain preachers and teachers from Canada and England, who can invoke the protection of a foreign flag and secure safety thus indirectly by the interposition of the Federal government.

—When you have feed the waiter at the summer resort, then he will feed you.

—"Port from the wood," says the hotel wine list. That's honest, anyhow; it's from logwood.

—Fashionable ladies wear velvet wristlets during the day, and only display handsome bracelets in the evening.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

The wear and tear of business life makes such tremendous drafts upon body and mind that without recourse to some sustaining agent they must give way under the pressure. To those who are breaking down, or wasting away from general debility or affections of the liver, stomach and the kidneys, a systematic course of the Bitters will so reinforce the vital functions as to baffle all the assaults of disease and restore the system to its wonted health.

AROUND HOME.

Samuel Dixon of Stratham was thrown from a load of hay in that town on Friday, and received a compound fracture of his collar-bone.

William Wilds, a man eighty years of age, was found dead in his bed at Mr. H. C. Durrell's house, Kennebunk, on Wednesday morning of last week.

The Eastern railroad is now running very heavy trains, both freight and passenger, right along. It is said the road carried more passengers last month than ever before in June.

The Baptist church in Seabrook has been closed, to be opened again on the first Sunday in August, when the pulpit will be supplied by Elder George W. Burnham, of Newburyport.

S. Atwood Noble, employed in the leather-board mill at Kennebunk, had three fingers cut off on Thursday last. The accident was caused by some careless person starting a machine he was engaged in cleaning.

Through the kindness of Mr. Stevenson, the owner of steamer James Sampson, the inmates of Faith Home were treated to a trip down the river on Saturday. The day was a beautiful one, and the old ladies greatly enjoyed the excursion.

Three ladies and a young man, boarders at Hampton beach, while on their way to Rye beach on the evening of the 4th were thrown out of a carriage by the shying of their horse, and one of the ladies had an arm dislocated at the elbow, the others of the party escaping without injury.

The summer cottage of Mr. Leander Farrar, at Wells beach, was entered on Tuesday, the 1st inst., during the temporary absence of the family at York beach by parties who got in through a rear window and made themselves very much at home, helping themselves to the best of everything they could there find. The matter was kept quiet as long as possible in hope of the guilty parties being discovered.

William C. Slattery, a man twenty-three years of age, was found dead on Saturday morning, being fearfully mangled, on the Boston & Maine railroad, near his home in Berwick, Me. He is supposed to have jumped from a freight train Friday night, missed his footing and fell under the wheels. He had once been a freight train employe on the road, but has recently been engineer on some of the western and southern roads.

There is considerable excitement up in Rochester over the strike of the female operatives in Wallace's shoe factory. The girls claim they could not earn enough to pay their board, their average wages being but thirty-three cents per day. The lasters were discharged on Wednesday night of last week, and the proprietor was waiting for the bottomers to finish up their work, when they were to be discharged. Thursday morning, however, the girls went in a body to the factory and compelled the bottomers to quit work at once, some of the stalwart girls taking the men by the ears and leading them out. Others stripped the frocks from some of the men. It was very lively for a brief period.

On Friday afternoon, by invitation of Superintendent Shannon, Mayor Sise, the board of aldermen and the overseers of the poor paid a visit to the city almshouse. The visitors went over the grounds and inspected the buildings, finding everything in the most creditable condition. The inmates of the institution, of whom there are thirty-five, are evidently well cared for, and their cleanliness, and comfortable and contented appearance, give evidence that Mr. Shannon and his wife devote their energies to the welfare of those under their charge, and allow them all the privileges consistent with proper discipline and a due regard for the interests of the city. After the inspection the visitors were invited to partake of refreshments, and sat down to a most excellent repast, to which ample justice was done. The party arrived home early in the evening, fully satisfied in every way with their visit.

POLICE COURT.

SATURDAY, July 12; *Batchelder, J.*

Charles E. Wilson was complained of for breaking and entering the house of John Stone Pickering, in Newington, pleaded guilty, and was held in $800 for trial at a higher court. He was committed to jail in default of bail.

Thomas Collins, who is one of the regular customers of the court, was up on the usual charge, drunkenness, and was sent to Brentwood for sixty days; costs $6.90.

Naval Affairs.

The U. S. S. Enterprise arrived at Christiana, Norway, June 28th.

The Vandalia left Huntington, L. I., on the 7th inst., for a cruise to the eastward, and arrived at New London, Conn., on the 9th.

The U. S. S. Portsmouth arrived at Boston from Newport, R. I., on Saturday.

Naval Constructor Edward Hartt has been appointed senior member, and Commander H. L. Howison and Constructors Philip Hichborn and W. L. Mintoyne members of a board to survey the U. S. S. Despatch.

Commodore R. W. Shufeldt reports to the department, under date of May 6th, that the Ticonderoga was then off Bonny river, on the west coast of Africa, bound to Fernando Po; health of officers and crew good.

Ensign Templin M. Potts, and Cadet Engineers Frank M. Bannett and Andrew M. Hunt, are ordered to the Powhatan.

Lieut. James R. Miller is detached from the naval academy, and placed on waiting orders.

Leave of absence is granted to Commo. J. W. A. Nicholson, commanding the New York navy yard, for one month from July 22d; and to Pay Inspector Edwin Stewart, attached to the New York navy yard, for one month from July 15th.

President Grevy, of France, on the 3d last., conferred the rank of Commander of the Legion of Honor on Rear Admiral Ammen, U. S. N., and of Chevalier of the Legion of Honor upon Commander Selfridge and Engineer Menocal, for their distinguished services during the prosecution of the surveys for the Panama isthmus canal, and in recognition of the skill and thoroughness with which they presented their respective projects.

New Publications

Harper's Magazine for August will pleasantly surprise even those readers who from long experience have come to expect in each successive number a new revelation of the possibilities of wood-engraving. Never has even *Harper's* contained in a single article so many and at the same time so varied and excellent a series of landscape engravings as those which illustrate Mr. Benjamin's paper on Lake George. These engravings are twenty-three in number, covering every picturesque feature of the lake from Caldwell to its northern extremity. Of an entirely different character, but of equal excellence, are the engravings illustrating Mr. Gibson's paper, "Snug Hamlet and Hometown." Mr. Rogers' illustrations of character for Mr. Riding's paper, "The Nautical School 'St. Marys,'" are very striking from their novelty and spirit. This paper is one of unusual interest. The "St. Marys" is a sloop-of-war loaned by the government to New York, "for the instruction of youths in navigation, seamanship, marine enginery," etc. William Black's yachting romance "White Wings," opens in the most promising manner, and with spirited illustrations. An exceedingly important contribution is the paper by Dr. Edward G. Loring, the celebrated oculist, entitled "Consequences of Defective Vision." This paper was read before the New York State Medical society this year, and its suggestions will command universal attention. A paper contributed by William Brown on "The Foreign Indebtedness of the United States," is of national interest, and is remarkable for its masterly handling of a complex subject. The editorial departments are full of interesting and timely matter. *Harper's* can be procured at the bookstores of W. G. Myers and Moses Bros.

The *Sanitarian*, published by A. N. Bell, M. D., at No. 47 Lafayette place, New York city, is a practical and valuable monthly devoted to matters of health, and furnished subscribers at $3 per year. The July number contains, among others, articles on "Epidemic diseases and consumption," "How typhoid fever is propagated," "Dwelling-houses for working people," and "Epidemics from a chemical stand-point," all of which are of special interest.

Political.

The Washington *Post*, which always speaks for the ultra wing of the democracy, says that the democratic party, when Congress reassembles, will immediately begin that wiping out of the legislation of the war which Blackburn proclaimed as the purpose of the party.

Even the New York *Nation* feels called upon to remark that "a very large proportion of the more sober-minded democrats themselves have been thanking their stars during the past three months that there is a republican President.

The Safety of Boating.

When one thinks of the number of boats along our shore and the number of people sailing them who know no more about a boat than a boat knows about them, and the number of rotten boats with rotten rigging; remembering how many men insepparably associate whisky with sailing, and think they have no kind of a sail without a jolly drunk, the wonder is not at the many, but at the wonderfully few accidents, and speaks volumes in favor of the safety of boating, when enjoyed with care and reason. The more one sees and knows of the mighty deep, the more he will appreciate its terrific power, and the less likely he will be to underrate its dangers; but to one who is fond of the sea, there is an expressible charm in riding its bounding billows, with a good, staunch boat beneath him and a life-giving sea-breeze abeam.

—A photographer in the interior of Michigan advertises among his accessories "a new front gate—just the thing for a lovers' picture." He ought to secure a lively run of custom.

THE WEATHER.

Probabilities for the New England States, To-Day:

WASHINGTON, D. C., July 14, 1 A.M

For New England—South-east to south-west winds, stationary or higher pressure and temperature clear or partly cloudy weather.

MARRIED.

MORRILL—DOW. In Hampton, July 5th, Mr. Frank Morrill, of Salisbury, Mass., and Miss Hattie L. Dow of Seabrook.

DAVIS—BENNETT. In Newmarket, July 8th, Thomas J. Davis, Esq., of Pontiac, Michigan, and Miss Juliet Bennet of Newmarket.

DIED.

SANBORN. In this city, July 12th, of consumption, Mrs. Lydia M. Sanborn, wife of Freeman F. Sanborn, of this city. Her remarkable vitality rendered her sickness long and distressing, but she bore it cheerfully, and with a wonderful degree of courage and hope. A devoted wife and mother, with a genial, sunny temperament, her memory will ever be pleasant to a large circle of friends.

Notice.

THE SUBSCRIBER gives notice that he has been duly appointed Administrator, with the will annexed, of the Estate of ANN E. F. CARTER, late of Portsmouth in the County of Rockingham, deceased. All persons indebted to said Estate are requested to make payment, and all having claims to present them for adjustment.

FRANK W. HACKETT,
17 Market Square.

Dated Portsmouth, July 5th, 1879.

Death of Hon. William Allen.

Ex-Gov. William Allen, of Ohio, died suddenly at his home in Chillicothe, in that State, Friday morning. He was taken ill Thursday morning, but paid no attention to his indisposition until four o'clock in the afternoon, when he had symptoms of chills. At half-past one Friday morning he arose from his bed, staggered to a chair, sat down, and died without a word.

ROYAL

BAKING POWDER

Absolutely pure—made from Grape Cream of Tartar, imported exclusively for this Powder from the Wine district of France. Always uniform and wholesome. Sold only in cans by all Grocers. A pound can mailed to any address, postage paid, on receipt of 60 cents. ROYAL BAKING POWDER CO., 171 Duane St., New York. Most cheap powders contain alum; dangerous to health; avoid them, especially when offered loose or in bulk.

$10 Reward!

I WILL PAY the above amount to any person who will furnish evidence sufficient to convict the contemptible sneak who mutilated my awning on the night of the 5d, or the morning of the 4th. F. E. DEARBORN.

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

Success in the Stock Market.

Few people understand how large fortunes are amassed so rapidly in stock operations. Messrs. Lawrence & Co., Bankers, N. Y., have just published "two unerring rules for success," and full details, so that any one can operate. Mailed free. Their new combination system of dealing in stocks is wonderfully profitable. By this method thousands of orders, in various sums, are pooled into one immense capital, and co-operated as a mighty whole, thus securing to each shareholder all the advantages of vast capital and best skill. Profits divided every 30 days. $15 would make $75 profit, $100 would return $1,000, or 10 per cent, on the stock in the month, and so on, according to the market. A New York Fashion Editress and prominent newspaper correspondent, made over 375 per ct. profit on an investment, Oct. 5th, 1878. Many others are doing as well or better. Large or small amounts can be used with equal proportionate success by this system. All kinds of stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City.

That the Phonograph can "bottle up" the voice and pass it down to future ages is indeed a wonder, but is not the restoration of a *lost* voice more wonderful? And yet Dr. Pierce's Golden Medical Discovery speedily restores a lost voice, cures hoarseness, sore throat, bronchitis, and consumption. Many ministers who had abandoned the pulpit, by reason of sore throat and general debility, have by the use of the Discovery, been restored to perfect health and strength. Sold by druggists.

THE NEW HAMPSHIRE
GAZETTE
Established 1756.
Book and Job
The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.
It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it it the best means of keeping informed of what transpires in this city.
— THE —
NEW HAMPSHIRE GAZETTE
Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.
TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

GOLDEN MEDICAL DISCOVERY
By its great and thorough blood-purifying properties, Dr. Pierce's Golden Medical Discovery cures all Humors, from the worst Scrofula to a common Blotch, Pimple, or Eruption. Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a second constitution established. Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin, in short, all diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
Especially has it manifested its potency in curing Tetter, Boils, Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, White Swellings, Goitre or Thick Neck, and Enlarged Glands.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from Torpid Liver, or "Biliousness." In many cases of "Liver Complaint" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect and radical cures.
In the cure of Bronchitis, Severe Coughs, and the early stages of Consumption, it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and purifies the blood. Sold by druggists.
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS
THE "LITTLE GIANT" CATHARTIC.
No use of taking the large, repulsive, nauseous pills, compounded of cheap, crude, and bulky ingredients. These Pellets are scarcely larger than mustard seeds. Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad Taste in the Mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, take Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of these Purgative Pellets over so great a variety of diseases, it may be said that their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress. Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with pills put up in cheap wooden or pasteboard boxes. For all diseases where a Laxative, Alterative, or Purgative, is indicated, these little Pellets will give the most perfect satisfaction. Sold by druggists.
R. V. PIERCE, M. D., Prop'r, World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

CATARRH
SYMPTOMS—Frequent headache, discharge falling into the throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of the nasal passages, ringing in ears, deafness, hawking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.
DR. SAGE'S CATARRH REMEDY
produces radical cures of the worst cases of Catarrh, no matter of how long standing. The liquid remedy may be snuffed, or, better applied by the use of Dr. PIERCE'S Douche. This is the only form of instrument yet invented with which fluid medicine can be carried HIGH UP and PERFECTLY APPLIED to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. Its use is pleasant and easily understood, from directions accompanying each instrument. Dr. SAGE'S Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. Catarrh Remedy and Douche sold by druggists.

American and Foreign PATENTS.
[ESTABLISHED 1865.]
GILMORE & CO., Successors to CHIPMAN, HOMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Examinations before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.
Old Bounty Land Warrants.
The last Report of the Commissioner of the General Land Office shows 3,887,000 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.
Arrears of Pay and Bounty.
Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.
Pensions.
All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.
Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.
Each department of our business is conducted in a separate bureau, under the charge of the same experienced patent lawyer employed by the firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

A Ride on a Safety Valve.

Jimmy Carr came to America in 1835, and took up his abode in this city soon afterward. Liking the country he settled here to work at his business of machinist and engineer, and was a good citizen and a faithful employee. He was rather old to begin the profession of arms when the war began, but he did the next best thing, he went into the navy, enlisting as assistant engineer on the steamer Queen of the West, a freight boat which had been bought by the government and altered into a "ram" here in Cincinnati. The vessel, which was under command of Captain Elliott, was ordered south, and it was at the battle of Memphis that Jimmy Carr met with this particular adventure, which made him a hero in as peculiar a manner as ever hero gained the title. We give the tale as he tells it:—

"It was on the 6th of June," said Jimmy, "that Memphis was taken. I remember it well, for it was a hot day, and I was in a hot place, too, I can tell you. The fleet was laying five miles above Memphis, and the Queen was a volunteer that morning. Early in the day we got orders to move down toward the rebel batteries, but no sooner got within range than the 'Johnnies' opened fire on us. Our captain called on Curtis, the first engineer, to let loose, and he did, and we were soon steaming down the river. We weren't long under way until we had one hundred and fifty pounds of steam on, and still rising. Curtis detailed me to look after the boilers—we had four which were on deck—and I went off to my post. The first thing I noticed was that the safety-valve wasn't weighted heavy enough for the extra pressure, and the steam escaped. I couldn't see anything lying around to weight it down with but a large lump of coal. I lifted that on to the lever, but it was no use, as it was tumbled off in a minute or two. By this time we must have had fully two hundred pounds of steam on, and on looking out I saw the rebel gunboat, the General Lovell, steaming up and firing at us. We had no guns aboard and only eleven sharpshooters, and the shot was flying around us pretty lively. I knew it was the captain's intention to try to sink the Lovell, and I saw that it would never do to allow the steam to escape as it was doing. I had to think quick—there was nothing near that I could weight down the valve with, but I was bound not to be beat, and I just got astride of the lever myself and sat down on it. It was pretty hot, but I stuck it out. I looked out and the Lovell was only a couple of hundred yards off. She stopped to round to, but the Queen was too quick for her, and with a rush, we went into her, just astern of the wheel, and almost went clean through her. I was so excited that I never took my eyes off her when we were coming up, and just bore my weight down on the lever, never thinking to hold on to anything. When we struck, the shock was so terrible it just knocked me head and heels over the boilers. Curtis was watching me, and thought I was killed, and halloed out: 'There goes poor Jimmy;' but I wasn't gone. I was stunned for a minute, but jumped up and climbed over the boilers and straddled the lever again, this time taking a good hold. The Lovell sank in about five minutes, but we had hardly time to get clear of her before another rebel craft, the Beauregard, steamed up toward us. We treated her the same way we treated the Lovell, but this time I kept my seat and clung on for dear life, and the shock didn't knock me off. Soon after the Queen, having nothing more to do, drew out from the fight and I got down from my perch. I felt a little sore, and had a few burns—for it was a hot place I was in—but that was all the worse I was for the adventure."—*Cincin. Eng.*

The Newest Credulity.

The modern mind considers that the old woman who said "she would believe that Jonah swallowed the whale if it were in the Bible," was a fool; but if the old lady had seen in one of Mr. Huxley's lectures a statement that a flying-fish had swallowed an albatross, and had believed it, she would not have been accounted credulous. A "ghost" is impossible, but the generation of force without the consumption of anything—that can be accredited at once. If Mr. Edison were to say that he had seen a table rise in the air, he would be laughed at; but if he were to say publicly that he had discovered a method of lighting New York for a penny a week by self-existent electricity, the price of gas shares would fall. The notion of a "conversion," a rare mental operation, which nevertheless, does occasionally occur, outside as well as inside the circle of religious emotion, is contemptuously ridiculed, but the notion of a new motor "produced" from a small wineglassful of water is received with most respectful attention. The preacher who describes a possible time in which all men shall be Christians, and laws scarcely needed, is condemned as a foolish dreamer; but when Sir William Thomson looks forward to the day when North America shall be lighted by the electric force generated by utilizing Niagara, he is only going a little too far ahead of his generation. We are really not going one inch beyond the truth when we say there are men who would reject the central fact of Christianity—the resurrection of Christ—not for defect of evidence, but because it is *in se* impossible, yet would believe that certain combinations of electricity and heat could generate life; and thousands who would reject the story of Paul's vision as ridiculous, while receiving as true an account of a new instrument which would enable a Londoner to see New York.—*The Spectator.*

—Archery suits are made of pale blue bunting, and trimmed with rows of curled wool braid, either white or dark blue.

Portsmouth Chronicle

TUESDAY, JULY 15, 1879.

"Peace" in South Carolina.

Mr. Swails, of Williamsburg county, South Carolina, is a colored citizen who has acquired some property and considerable influence. His used his influence in favor of the republican party, and was therefore driven out by the democrats last fall. Recently he talked of returning to his home, and this is what the local newspaper, the Kingstree *Star*, says about it:

It is currently reported that Swails contemplates returning to Williamsburg county. If this be a fact, it is incumbent upon the executive committee of the democratic party to find out what is his purpose in returning. If it is to take up his residence among us, it is their duty as good citizens to warn Swails that he will do so at his personal peril. The white people, if true to what has been pledged in their behalf, will not permit Swails to return here to live. If he proposes to come here to arrange his private affairs so as to leave permanently, the executive committee should have him so state in writing, giving the exact time within which he will leave for good and beyond which he will not be allowed to stay. If he declined to state his purpose the public should be made aware of the fact, and be made aware of the fact that his residence here will be at his personal risk, and his permanently remaining here will not be permitted by the whites of the county. If, after this, he makes his appearance, he can take the consequences of the past. From what we hear he will be likely to have a lively time and be glad enough to retire to more quiet and profitable scenes.

Wade Hampton, the "good and godlike," in his recent speech in the United States Senate on the army bill asserted that within the borders of South Carolina there was peace and protection for all. The article from the Kingstree *Star* shows what Hampton's statement really means. The paper is the only one in the county, and there is no doubt that it speaks by authority. The negroes are in a large majority in that county, and under an active and intelligent leader they would elect the republican ticket. So Mr. Swails, being a republican, cannot return to his home, and the real meaning of Senator Hampton's assertion of peace to all within the borders of South Carolina is that there is peace to all who vote the democratic ticket, or are too insignificant to disturb its forced and unnatural majority.

News and Notes.

There were sixteen deaths from sunstroke in Charlestown, S. C., on Saturday.

Mrs. Isaac Pearson, a widow aged eighty-three years, died in Newburyport on Monday from the heat, while on a call at a neighbor's.

Four young Frenchmen, who assaulted Louis Sellier at Holyoke, Mass., the other night, and used him so roughly that his life was despaired of for a while, were brought before the police court and let off with a fine of $10 and costs, amounting in all to $17 each. A communication from Sellier was sent in offering to acknowledge satisfaction if his assailants would give him $150 and pay his doctor's bills. This was agreed to, the fines being paid and the boys set at liberty.

Michael Sullivan has been arrested at Elizabeth, N. J., for burying alive an illegitimate child of his daughter's.

Jacob Mears, his wife, Susan Mears, and Michell Flanagan, have been committed for trial at Montreal for the murder of Mrs. Conly.

Neal Winbush, a colored man who attempted rape on a young lady in Clayton county, Tenn., was taken from his guard Thursday night of last week, and hanged by a mob.

In a row at a negro ball in the western suburbs of the city of St. Louis, Saturday morning, Scott Hunter shot and instantly killed Eugene Black, and wounded Ben George. Hunter was arrested.

Hugh Bonham, of Knoxville, Tenn., was shot five times Saturday night in a fight with John Shipe and son and Jack Queener. Bonham stabbed Queener and Shipe, and fatally shot the latter's son. The trouble was about a woman.

The funeral of Napoleon IV. occurred at Chiselburst, Eng., on Saturday, and was attended by many thousands of people, including many of the most prominent royal personages of England and the continent.

A prominent merchant of Galveston, Texas, while asleep in his store, was brutally murdered on the 12th inst. by a Mexican servant, Santos Castilo, who with a hatchet hacked his employer's head to pieces. He then coolly went to the river and washed the blood from his person. The murderer is in jail.

A great storm of wind and rain swept through Ohio, Michigan and parts of Indiana and Illinois last Friday night, and was the most disastrous that has been know in that part of the country. Thousands of buildings were demolished or unroofed, and the aggregate damage to crops and other property can hardly be estimated.

A gang of thieves has been broken up on Long Island that has been doing a line of business in the way of robberies and burglaries that appears almost fabulous. They hired a house in an out-of-the-way quarter, and it was found full of all sorts of things, the product of their robberies.

John Campbell, aged twelve years, while playing base ball in Providence, R. I., on Saturday, was killed by an accidental blow from a bat in the hands of a boy named McClane. The latter was arrested but discharged.

At the residence of Deacon John Dyer, in Little Compton, R. I., Wednesday night of last week, William Hanford, a man employed on the deacon's premises, was enticed out doors by ruffians, and assaulted. He ran into the house and locked himself into a room, but his assailants followed, broke down the door, dragged him half a mile away, stripped him, shaved his hair and beard, and administered a coat of tar and feathers. The town has been considerably excited recently by an attempt of some of the deacon's relatives to put him under guardianship, and the assault on Handford is supposed to have some connection with the legal proceedings.

Thomas Burns was arrested in Cranston, R. I., Saturday afternoon, while feloniously assaulting a young woman under circumstances of extreme brutality. On examination he pleaded guilty.

An ex-rebel officer named Lieut. Haverly, who was on Joe Johnston's staff, is to be appointed to a clerkship in the war department, in connection with the publication of the confederate records.

The convicts in the Massachusetts State prison at Concord were frustrated last week in a daring attempt to escape *en masse*, by the vigilance of the prison officials. Their plan was to use whatever force was necessary to overcome the guards, seize a train of cars in the prison yard and use it as a battering ram to break the yard gates, run the train off to the woods, and then every convict for himself. The Worcester *Gazette* says, commenting on this, that "each of the constant attempts to escape from the Concord prison is an argument in favor of capital punishment." And these arguments are rapidly accumulating."

It is understood that the naval board of inquiry will report that no blame attaches to the officers of the frigate Constitution for her recent mishaps.

SANFORD'S JAMAICA GINGER

Enlarged May 1,1879. Price unchanged.

The only combination of the true Jamaica Ginger with choice aromatics and French brandy which prevents malarial fevers, regulates the stomach and bowels, perfects digestion, and insures protection from diseases and ailments incident to travel, is SANFORD'S JAMAICA GINGER. Put a bottle in your travelling bag. ASK for SANFORD'S. 4W

Fellows' Syrup of Hypophosphites supplies matter for bone and blood, rendering it highly beneficial for feeble children.

New Hampshire Items.

On Saturday last Josie Edgerly, a thirteen-year-old daughter of J. D. Edgerly, at Wadleigh Falls, Lee, while picking pond lilies, fell into a mill-pond and was drowned. The body was recovered after being in the water a few minutes, and every effort was made for resuscitation, but without avail.

Charles Elliott, of Littleton, has received a letter from his brother, B. F. Elliott, the sewing machine agent, who suddenly disappeared last May, and who was thought to have been murdered. The letter was written about three weeks ago from Maine, and indicates that he wishes to conceal his whereabouts, and the fact that he is alive, as he is in arrears to the sewing machine companies.

—A young lady pupil of a high school put on a mass of false hair, pencilled her eyebrows, rouged her cheeks, etc., and then went to the commencement and read her essay entitled "Deception a Prevailing Folly."—*Norristown Herald.*

Letters for the night mails [and no others] east or west may be deposited in the box at the Eastern depot, every day except Sundays.

E. G. PEIRCE, JR., P. M.

THE WEATHER.

Probabilities for the New England States, To-Day:

WASHINGTON, D. C., July 15, 2 A. M.

Southeast to southwest winds; stationary pressure and temperature; clear or partly cloudy weather, and in the northern portion occasional local rains.

AROUND HOME.

The thermometer reached ninety-four in the shade in this city on Monday.

There were many fine private turnouts from the beaches in town on Monday.

The Christian society and Sunday school have a picnic at Bay View grove, Stratham, on Thursday, July 17th.

The hackmen and coach drivers of this city have been invited to a supper at Hotel Wentworth, Newcastle, this evening, by Capt. Hilton.

Capt. John G. Moses of this city has sold twelve sixty-fourths of the ship Calcutta to Vernon H. Brown and Emma S. Brown, for $2625.

The annual meeting of the stockholders of the Portsmouth & Dover railroad will be held at the city rooms in this city on the 4th of August, at three o'clock in the afternoon.

Preaching services have been suspended in the Court street Christian church until the first Sunday in September, to allow the pastor, Rev. J. A. Goss, a vacation to recruit his health.

A dividend of two dollars a share on the stock of the Kearsarge mills will be paid July 17th to stockholders of record July 12th. Portsmouth stockholders will receive their dividend at the agent's office at the mills.

Mr. Edwin O. Cole of this city, formerly operator in the Western Union telegraph office here, has been appointed station agent and general manager at the North Hampton depot, relieving Frank R. Starkey, who is to be transferred to another station. Mr. Cole's duties will also include those of telegraph operator.

It is not creditable to the patriotism of this city that there has not yet been erected anything in the shape of a monument to the memory of the men who died in the country's defence during the late war. A number of ex-soldiers and sailors are now taking hold of the matter in earnest, and it is to be hoped that a liberal response will be given by the citizens.

Dr. E. B. Goodall and acting city missionary Loyne held religious exercises Sunday forenoon and afternoon in the school-house at Mount Agamenticus, York; about sixty persons were present at each service. In the evening a largely-attended praise and social meeting was held in the Methodist church at York corner, in which several societies united.

Hon. R. M. Chapman, treasurer of the Biddeford savings bank, was found dead in his room at the Biddeford house, Monday morning, having shot himself through the heart with a large revolver taken from the bank. An inquest was not deemed necessary. Mr. Chapman was sixty-four years old, and probably temporarily insane when he committed the act, the affairs of the bank being considered all right.

Whatever may have to be done in the future, the south pond nuisance has been at least temporarily abated by the action of the city government in securing the flooding of the pond at all times. And the improved appearance of the pond during the day, when as now its banks are filled with water, instead of the slimy mud-flats being left bare as formerly, is in itself worth considerable. The city authorities are entitled to credit for what has been done at the south pond.

The Rockingham base ball nine having reorganized for the season, the lovers of the game will have a chance to witness some very interesting play between that club and the Farragut nine of Rye beach, on the Plains. These two nines played a series of games last summer, which was won by the "blue," the color of the Rockinghams; the Farraguts propose that the "white" shall win the series this summer, as they have a very strong nine this season. The first game of the series will probably be played the first of next week.

Frank Toplin, of South Newmarket, on Thursday last fell from a ladder and broke both arms, one in three places and the other in two.

The Newmarket yacht club has organized for the remainder of the year with W. W. Durrell as commodore and W. H. Small as treasurer.

Several citizens of South Newmarket have offered a reward for the apprehension of parties engaged in recent burglaries committed in that town. The post-office and several stores have been broken into a number of times within the last two months. No clue to the thieves has as yet been obtained.

We are desired to state that the next regular meeting of the Portsmouth Grange will be held at their hall on the evening of July 23d, and that the gathering at the Hayes farm proposed for the 23d, is invited instead for Wednesday afternoon, July 30th, at which time a field meeting and basket picnic will be held, Patrons generally and their families being invited. If the 30th is stormy, the field meeting will be held the next fair day.

The Sunday school connected with St. John's Episcopal church will hold its annual picnic and festival at Fort Constitution, Newcastle, on Wednesday next, the grounds and buildings having been granted for that purpose. The United States steamer Leyden will leave for the fort from the foot of Daniel street at hours to be announced at the navy yard landing on that day. First trip about nine o'clock A. M. Parishioners of St. John's Parish and invited guests *only* can procure tickets on the morning of the picnic, at the wharf.

The camp-meeting season at Old Orchard beach opens on Wednesday of this week. "Philip Phillips' camp-meeting of sacred song and Bible reading" commences at two o'clock on the afternoon of that day, and closes on Tuesday of next week at two o'clock P. M. There will be gospel meetings and singing every evening at eight o'clock, and prayers at eight o'clock in the morning. During the day there will be "song sermons" conducted in a manner peculiar to Mr. Phillips, these "sermons" consisting of congregational singing, comments on the Scriptures, and sacred solos. The assembly will be freely supplied with sheets or books containing the hymns and Scripture lessons. A collection is to be taken to cover expenses. On the Friday following the close of this camp-meeting the Faith convention, conducted by Dr. Cullis, Bishop Fellows and others, commences.

THE DOVER RAILROAD'S RENTAL.

To correct the erroneous impression which has gone abroad and which is also entertained by very many both in this city and in Dover, regarding the propositions of the Eastern railroad to the Portsmouth & Dover road, we are requested to publish the following letter from President Phillips of the Eastern:

BOSTON, July 9th, 1879.

Hon. Frank Jones, chairman of committee of directors of Portsmouth and Dover R. R.,—Dear Sir: The committee of directors of the Eastern railroad company instruct me to propose that, in settlement of all controversies and claims now pending respecting the cost of the Portsmouth & Dover railroad, the rental to be paid for the road, and the indebtedness of the said road to the Eastern railroad company, the said Eastern railroad company shall hereafter pay as the annual rent of the road an amount equal to four per cent upon the par value of the stock already issued. Yours Respectfully,

E. B. PHILLIPS, *Chairman.*

POLICE COURT.

MONDAY, July 15; *Batchelder, J.*

Patrick Sheehan, for drunkenness, was fined $3, costs $6.90, which he paid.

A DAY OF ENJOYMENT.

One of the largest picnic parties, of purely a private character, numbering four-score, that has ever occurred among our residents, gathered by invitation on Saturday last upon the grounds of Messrs. Haven and Ball, on the Newcastle shore, near the Hotel Wentworth. Two full loads were conveyed thither by the Fanny Fern, with a double team; others reached there in the boats of their owners; a formidable looking craft, propelled by rowers from among Uncle Samuel's aquatic boys in blue, brought a party of ladies and gentlemen from the navy-yard; and the remainder came by vehicles from town until all were assembled. Most pleasant it was to the first who arrived to watch for the appearance of the various boats in the distance, mark their progress towards the shore, and welcome the parties on their arrival, and then to look for the coming upon the grounds of the vehicles bringing the remainder, except a few who made their appearance from the Hotel Wentworth. A happy scene was presented by the several groups as they chatted beneath the shade of the willows; others rested upon the rocky seats along the shore; while others strolled upon the beach or upon the green turf, of many acres in extent, inhaling the sea air, or the ever-agreeable oder of new-mown hay around them. The little ones of the party amused themselves in the most harmonious way, by the hour together, with their toy shovels in constructing minature fortifications of sand, with moats around them—an art in which they were instructed by a gentleman whose earlier manhood had been spent in commanding ships upon the sea—and in forming, with the aid of diminutive buckets, what resembled in shape loaves of brown bread. A little lady, who had seen something of foreign travels, was no less happy with her doll-baby, and a picture-book in the Tentonic tongue from father-land. The whole reminding one of sketches in foreign illustrated magazines of similar scenes at watering places on the English coast. A little group of retired shipmasters, as they looked upon the blue expanse, chatted of things pertaining to the sea; one told a story of an ancient mariner, who, under some adverse circumstances, blundered into Little Harbor with his heavily loaded craft, and after dropping anchor, hailed the land to learn his unknown whereabouts. Others had things to relate equally interesting to listeners who had not been favored with a sea-going education. The sun never shone upon a lovelier day; the sea and sky were alike serene as a summer-morn; all found enjoyment in their various ways; the young in the buoyancy of their youth; the elder in years remembered not the by-past time that had touched them so lightly; and invalids forgot for the moment their aches and pains.

When the hour of two arrived, all were called to a repast, spread out upon snow-white cloths in a shady spot, that in extent, variety and luxury, would have done honor to the world-famed caterer, Delmonico, at his best. If any lacked an appetite when coming upon the grounds, the sea-air had given them one not wanting in keenness; yet there was abundance and to spare, and the birds as they gathered up the scattered fragments upon the grass, might well be aware, before chanting their evening song, that a kind Providence ever provides for their wants.

The afternoon went by as happily as the earlier hours had done; other visitors, who could not do so before, came to greet their friends before the joyous day came to a close. At the sunset hour all who shared in it had returned to their homes, save a few of the younger class who remained for the dance at the Wentworth in the evening, to the enlivening strains of Harlow's band.

NAVY YARD ITEMS.

A large number of the crew of the Marion were served with money on Monday, and were given twenty hours' liberty. The rest will follow as soon as those now on liberty return on board.

Fleet Engineer David B. McComb, attached to the flagship Powhatan, at present lying in Portland, paid an official visit to the Marion on Monday to examine the boilers and machinery.

The officers of the U. S. S. Marion, now lying at this navy yard, are as follows: Comdr. Francis M. Bunce, commanding: Lieut. Comdr. George A. Converse, executive officer; Lieuts. William I. Moore, John P. Merrell, Edward A. Field, C. W. Ruschenberger, Herbert Winslow; Ensigns Frederick H. Tyler, Henry C. Gearing, Washington I. Chambers; Midshipmen Charles C. Marsh, William A. Graham; Chief Engineer L. J. Allen; Passed Asst. Eng. J. G. Brosnahan; Asst. Eng. Henry C. Baughman; Surgeon Horatio N. Beaumont; Passed Asst. Surgeon John H. Hall; Boatswain Charles E. Rich: Gunner Robert H. Cross; Carpenter Thomas P. Smith; Sailmaker Frank Watson.

The flagship Powhatan is expected at this station about the 24th inst.

THE SACO CENTENARIAN.

Aaron McKenney, the Saco centenarian, was one hundred and one years old last December. For years he has been the centre of a peculiar sect, who have all occupied one house until a short time since, when a fire destroyed the house. The farm on which Mr. McKenney lives is a large one, embracing some two hundred acres. Farming is carried on quite extensively. His household consists of Mary Drake, Mr. Alvord, Abigail Alvord and I. M. Milliken. The three first named have lived on the place some twenty years and one of them about thirty. Accounts seem to agree that these people have taken the best of care of the old gentleman, one of them watching over him while he sleeps, as carefully as a mother would over her babe. After the burning of the house he commenced to rebuild, and then his relatives, who are very numerous, feared he was squandering his money, and thought he ought to have a guardian appointed. They accordingly petitioned the judge of probate to appoint David McKenney guardian. An equally numerously signed petition in opposition to a guardian was presented, and a hearing was appointed in the municipal court room at Saco on Wednesday of last week; the defence opened, and seventeen witnesses were called up to Thursday noon, when the counsel for the petitioners was suddenly taken ill, and the hearing was postponed until Friday of this week. The weight of the testimony went to show that the old gentlemen is fully competent to manage his own affairs, and that he exhibits as much interests in current events as men many years his junior. Tristram Ricker said he considered Mr. McKenney in as good health as he was thirty years ago, and that the people living with him were economical in their habits and requirements. Charles W. McKenney, who sold him the lumber for the new house, found him very careful, and desirious of a barter trade as far as possible; he considered he needed a house now if ever he did. Amos Libby cited an instance of trading with the old gentleman for cattle, that showed his memory was good even to the details of the transaction, and that he counted the money as any other man might have done. Dr. A. K. P. Meserve had examined the old gentleman, and considered that his mental and physical condition was that of a person of seventy-five years of age. The carpenters employed on the house, and people with whom Mr. McKenney has had dealings, spoke strongly against the necessity of a guardian. Mr. McKenney himself says that since he was twenty-one years old he has been his own guardian, and don't want any other. It is mentioned as a noteworthy fact that on the roof of Mr. McKenney's new house there have been laid shingles shaved by the old gentleman six or seven years ago.

City Notice.

PERSONS leaving ashes, &c., to be removed by the city teams, must have the same placed in barrels, on the curb stone in front of their premises, before 10 o'clock A. M. on Wednesday and Saturdays of each week. This rule must be complied with in order to secure prompt removal.

By order of the Mayor.

D. J. VAUGHAN, City Clerk.

—Robert G. Pillow, son of the late General Gideon J. Pillow, while working on his plantation in Arkansas, was bitten by a cottonmouth snake. He at once drank a quart of raw whiskey and escaped death. Many other natives are looking for similar snakes.

—"And how does Charlie like going to school?" kindly inquired a good man of the little six-year-old boy, who was waiting with tin can in hand the advent of another dog. "I like goin' well 'nough," replied the embryo statesman, ingeniously, "but I don't like stayin' after I git there."

—John Crain was shot through the temple with a minnie ball during the war, and turned over his farewell messages and pocket-book to Capt. E. W. Bell, and was left to die. Some months later, and many hundred miles away, Crain startled the captain with the query: "Ed Bell, where the devil is my pocketbook?"

—No sudden and suspicious death will go unexplained so long as the country can fall back on the inalienable right of trial by jury. Coroner John R. Ackerman, of Westchester county, New York, has sent to the bureau of vital statistics the verdict of his jury in a recent case, "that Ellen Kirby came to her death at Yonkers, from post-mortem hemmorrhage."

—The driver of a hook and ladder truck in Rochester, N. Y., recently tried an experiment to test the memory of the horse. Three years ago last December the city sold a team of mares that had been used for drawing the truck. They have since been employed by their owner in other work, but the driver had a chance and led the horses into the truck house. They went directly to their old stalls, and when a going was sounded ran out and took their accustomed positions at the tongue of the machine.

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it it the best means of keeping informed of what transpires in this city.

—THE—
NEW HAMPSHIRE GAZETTE
Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS
THE N. H. GAZETTE
Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.
